Salome's Stars

ARIES (March 21 to April 19) Be prepared to face some challenges stirred up by an envious colleague. Your best defense is the Arian's innate honesty. Stick with the truth, and you'll come out ahead.

TAURUS (April 20 to May 20) Your sensitivity to the needs of others is admirable. But be careful to avoid those who would take unfair advantage of your good nature, especially where money is involved.

GEMINI (May 21 to June 20) Having an optimistic attitude is fine, as far as it goes. But don't be lulled into a false sense of confidence. There still are problems to deal with before you can totally relax.

CANCER (June 21 to July 22) You might feel somewhat "crabby," as you fuss over plans that don't seem to work out. Maybe you're trying too hard. Ease up and let things happen without forcing them.

LEO (July 23 to August 22) Heed that keen Leonine instinct. It's trying to tell you to delay making a decision until you're sure there are no hidden problems that could cause trouble later on.

VIRGO (August 23 to September 22) This is a good time to reach out to those who might be nursing hurt feelings over recent events. Best advice: Ignore any pettiness that could delay the healing process.

LIBRA (September 23 to October 22) Your understanding helps a colleague get through a difficult period. Although you didn't do it for a reward, be assured that your actions will be repaid down the line.

SCORPIO (October 23 to November 21) You score some high marks in the workplace, which will count in your favor when you face the possibility of changing direction on your current career path.

SAGITTARIUS (November 22 to December 21) Your goal lies straight ahead. Stay focused on it and avoid distractions that could throw off your aim and cause potentially detrimental delays.

CAPRICORN (December 22 to January 19) Keep that burst of exuberance in check and resist pushing through your new project before it's ready. In your personal life, a family member again needs help.

AQUARIUS (January 20 to February 18) Paying attention to your work is important this week. But so are your relationships with those special people in your life. Make time for them as well.

PISCES (February 19 to March 20) Good news. Someone is about to repay a long-standing debt. But be warned. That same someone could try to charm you into lending it back unless you say no and mean it.

BORN THIS WEEK: You are sensitive to matters that involve your home and family. You would make a fine family-court judge or social worker.

Piedmont Pets
June 23, 2022 By Paulette Dean

My dog, Wally, has been on my mind constantly lately. He died in October 2020 from cancer and I have not adopted another dog since then. My health has forced me to realize that a cat is a better "fit" for me for now. It would not be fair to the dog. From personal and professional experience, I know that not every person or home is suited for every type of animal.

We began our contract in 1984 with the City of Danville to operate the public animal shelter. I served on the board of directors then and each month reviewed the animal count report with great interest. We were so happy when the adoptions started increasing.

By April of 1992, I had been hired to be the full-time director; I was to begin on June 1st. During April, I agreed to take an afternoon off from my job at that time and go to the shelter to help take pictures of some adoptable animals.

I have never forgotten what I witnessed. A couple with two young children were adopting a German shepherd, about a year old. The man carried the dog at arm's length, as the wife walked beside him saying, "Oh, don't let that dirty dog touch me." The children seemed very disinterested.

Until I saw that, I suppose I had assumed that every adoptive home was a good one. After all, we humans make the decisions and the animals pay the consequences. I still wonder about the German shepherd that was placed in that home in 1992. Unless he was put in another home, I cannot imagine his life was a good one and I am so sorry about that.

On June 1st when I started working at the shelter, I found the adopter's telephone number and called him. He did not know the dog's name; he told me the dog was kept on a chain in their backyard.

A few months later, I called him

996 South Boston Rd., Danville, VA 24540
Phone: (434) 799-0843

again. He still did not know what the dog's name was, the dog was still on a chain, and he guessed that the children played with him some.

I called once a year for a couple of years, until the telephone number was disconnected. I have always felt bad for that dog and I believe the shelter failed that dog. Now, stories throughout the nation are told of failed adoptions. Just as there are some bad shelters, there are bad rescue groups. It really is true that hoarders and other ill-intentioned people adopt animals.

We base our adoption decisions on three questions. The first one is, "Is this home one that I would place one of my own pets in?" The second one is, "What kind of life will my decision provide for the animal?" The third question is, "Will this animal cause any threat to humans and other animals?"

It is neither comfortable nor easy to make adoption decisions, but we do it for the animals. After all, we humans make the decisions and the animals pay the consequences. I still wonder about the German shepherd that was placed in that home in 1992. Unless he was put in another home, I cannot imagine his life was a good one and I am so sorry about that.

Coin-Operated Scale

Most of us diet and check our weight, but the days of tall scales sitting on a street corner waiting for someone to put a penny in the slot and step on the scale are almost gone.

It was during the 1920s and '30s that coin-operated scales were important. The first pedestrian coin scales were made in Germany in 1885, and by 1889, the National Scale Company was manufacturing them in the United States. In 1929, Peerless Scale Company, the largest in the U.S., was worth over \$50 million (much more if you think in terms of 2022 dollars).

The pennies were enough. A scale in a good location earned about \$1,000 a year. By the 1930s there were new incentives to spend a penny. The scale supplied a ticket with your weight printed on it. The tickets added fortunes, and people collected sets. But the fad didn't last and by the 1940s there were barely a third of the scales still left. The personal bathroom scale had replaced almost all of them.

Collectors ignored the old scales at first, but by the 1970s, there were collectors who bought the Peerless scales and others, and especially figurative scales like an iron Mr. Peanut. Mr. Peanut scales were created in 1951. There were only 65 ever made — one for each of Planters Stores.

The scale pictured measures weights from 25 pounds to 275 pounds. It sold at a Cowan auction for \$344.

Q. I have a full bottle of Corby's Park Lane Canadian Whisky. The seal is intact and has "1942" printed on it. I also have the original box and hard container for it. I know it is old, as it was in my aunt's liquor cabinet for many years. Is there any collector value to this? If I

do sell it, can I legally ship it to the buyer?

A. The value is in the collectible container and its packaging, not its contents. It is likely a special decanter bottle, probably a Christmas special, which makes it more collectible than a regular decanter. Park Lane Canadian Whisky has been discontinued. Laws vary from state to state on selling whiskey. But you could sell an empty bottle and box.

This 1920s mirrored scale was made of iron and porcelain by Peerless Weighing Machine Company.

Diane Keaton in "Book Club"

HOLLYWOOD — Great news! "Book Club 2: The Next Chapter" is currently shooting in Italy. Diane Keaton (76), Jane Fonda (84), Candice Bergen (76) and Mary Steenburgen (69) have returned, as have Andy Garcia, Don Johnson and Craig T. Nelson. But the men now have competition from Giancarlo Giannini, Hugh Quarshie and Vincent Riotta when the ladies take a long-desired trip to Italy, where things go off the rails and secrets are revealed. The first film cost \$14 million to produce and grossed \$104 million.

Keaton has "Mack & Rita," with Simon Rex, premiering Aug. 5, and "Maybe I Do," with Emma Roberts, Richard Gere and William Macy. Fonda, whose last seven new episodes of "Grace & Frankie" are now streaming, voices the Dragon in Apple's animated "Luck," with Whoopi Goldberg and Simon Pegg, also Aug. 5, and the sports comedy "Eighty for Brady," with Sally Field, Rita Moreno and Lily Tomlin. Bergen stars in the Mayim Bialik-directed film "As They Made Us," with Dustin Hoffman and Simon Helberg, which is now streaming; and Steenburgen followed up the NBC series "Zoey's Extraordinary Playlist" with two episodes of "Grace & Frankie."

It's kind of ironic, but for as long as pictures have been talking, actresses have been complaining that when they reach a certain age there are no good roles for them anymore. But times have changed and there are many actresses who've blown up that theory. In addition to the aforementioned actresses, the British royalty of acting, four Dames Judi Dench (87), upcoming in "Allelujah," with Jennifer Saunders; Maggie Smith (87), currently in "Downton Abbey: A New Era"; Helen Mirren (76), "White Bird: A Wonder Story," out Oct. 14, and "Shazam: Fury of the Gods," Dec. 21; and Julie Andrews (86), who supplies her golden voice to "Minions: The Rise of Gru," premiering July 1.

Jerry Bruckheimer's been very coy about plans for a sequel to "Top Gun: Maverick." In view of the ginormous Memorial Day weekend grosses, the Paramount Pictures lot is buzzing that Bruckheimer has already assigned scribes to cook up plots for a sequel. "Home Alone" star Macaulay Culkin is returning to filmmaking, co-starring with Rosamund Pike and Daniel Bruhl in Spanish director Galder Gaztelu-Urrutia's pandemic-themed thriller "Rich Flu," about a deadly disease that starts killing off the richest people in the world. It first strikes billionaires, then multi-millionaires, etc. How does the flu know who is rich? (And thank heavens I'm not!)

Sovah Health - Danville Publishes 2021 Community Benefit Report

Report outlines hospital's continued impact on health and well-being of our region

(Danville, VA – June 21, 2022) – Sovah Health – Danville published its community benefit report for the 2021 calendar year today. This yearly report outlines specific ways the hospital is positively contributing to the Dan River region and spotlights the various ways it is working to support the health and well-being of the community it calls home – an investment which has become increasingly essential in recent years.

“Our mission of Making Communities Healthier has always been a fundamental part of succeeding as a community leader in our region,” says Alan Larson, Market President, Sovah Health & CEO, Sovah Health – Danville. “Being part of LifePoint Health, a growing diversified healthcare delivery network, allows us to continue to uphold our legacy of care and community leadership, and cultivate an environment where people choose to come for care. We accomplished this thanks in no small part to the hard work and dedication of our remarkable team of providers, employees and volunteers, and the support of those we serve.”

Sovah Health – Danville’s 2021 community benefit report highlights its continued efforts to meet the growing healthcare needs of its community through welcoming new providers, adding and expanding service lines and continually investing in its facilities and healthcare technology. For example, in 2021, Sovah Health – Danville added 17 providers in hospital and emergency medicine, anesthesiology, orthopedics, and pediatrics; and made nearly \$5 million in capital improvements, including OR and facilities equipment upgrades, a cath lab IS replacement, and a new portable x-ray machine.

Additionally, Sovah Health – Danville

made a donation of nearly \$25 million in health services to those in need, demonstrating its continuous commitment to ensuring everyone has access to care, regardless of their ability to pay.

Sovah Health – Danville is also devoted to creating environments where providers want to practice and employees want to work. In 2021, the hospital distributed more than \$80 million in salaries, wages and benefits for its more than 1,050 employees, and contributed more than \$200,000 in professional development and tuition assistance so all its employees can have the opportunity to learn, grow and improve the care they provide their patients.

This year’s annual report also showcases several examples of how Sovah Health – Danville is continually seeking ways to make a positive impact in the communities it serves, extending far beyond the physical walls of its facilities. Last year, the organization paid \$15 million in local, state, and federal taxes, displaying its commitment to fiscal responsibility in an effort to boost the Dan River Region’s economic well-being. The hospital is also honored to continue its support of local activities and organizations that contributes to making the community healthier, including Boys and Girls Club of the Danville Area, Big Brothers Big Sisters, Danville Parks and Rec, DPC Cancer Association, and the Institute for Advanced Learning and Research.

“We are proud to call this community our home and feel truly privileged to contribute to its well-being,” said Larson. “We are also incredibly grateful for and inspired by the support our communities have shown us in recent years. As we consider the future of

Sovah Health – Danville, we are so excited to continue improving the way we serve our neighbors and communities.”

Sovah Health – Danville’s complete 2021 community benefit report is available here.

About Sovah Health
Sovah Health is a regional healthcare delivery system, serving the south-central Virginia and north central North Carolina region. Even Exchange by Donna Pettman

Each numbered row contains two clues and two 6-letter answers. The two answers differ from each other by only one letter, which has already been inserted. For example, if you exchange the A from MASTER for an I, you get MISTER. Do not change the order of the letters.

1. Which artist was the first to release "Turn on Your Love Light"?
2. Who wrote and released "Come Softly to Me"?
3. Why did John Mellencamp briefly change his last name to Cougar?
4. Which group started as Chubby and the Turnpikes?
5. Name the song that contains this lyric: "I'll never let you see the way my broken heart is hurting me, I've got my pride and I know how to hide, all the sorrow and pain."

Answers

1. Bobby "Blue" Bland, in 1961. His version was followed by covers from Van Morrison and the Grateful Dead.
2. The Fleetwoods, in 1959. Legend says the song was recorded at home, with no musical accompaniment except the jingling of car keys. Instruments were added later in the studio. (Listen: You can hear the car keys.)
3. "Cougar" was pushed on him by a promoter who said the German sounding "Mellencamp" would be a hard sell.
4. Tavares.
5. "Crying in the Rain," by the Everly Brothers, in 1962. Astonishingly enough, the song only made it to No. 6 on the U.S. charts. Numerous others released covers over the years, including Peter and Gordon, Art Garfunkel and Slade. The only place it ever topped the chart was Norway.

Here's How I Saved on Prescription Drugs

The price of prescription drugs has, like everything else, inched up. In some cases, the cost has made a massive, sudden jump, and it comes as a shock when you check out at the pharmacy. But there are ways around this horrible surprise. I recently discovered a way to save a lot of money (\$80 on a 90-day prescription) by doing two things: I changed pharmacies, and I started using GoodRx. Here's how: Go to the GoodRx website (goodrx.com) and put in your ZIP code so that all the local pharmacies show up. Enter the name of the drug you take, as well as the dose and number of pills. See what each pharmacy charges using GoodRx. They will vary widely. Boy, did I get a shock. It took me all of two minutes to call a new pharmacy and ask them to have the prescription transferred. Then I printed out the GoodRx coupon showing the pharmacy name, the drug and dose, the price and so on. I took that to the pharmacy and voila! Eighty dollars saved.

Here are a few other ideas if GoodRx isn't going to work for you:

- Ask your doctor if a generic would be just as good, or if another drug would work just as well.
 - Find out if you qualify for the Extra Help program to pay for your drugs by calling Social Security at 1-800-772-1213, or read the information at www.ssa.gov/pubs/EN-05-10508.pdf.
 - See if you qualify for the Pharmaceutical Assistance Program. (www.medicare.gov/plan-compare/#/pharmaceutical-assistance-program)
 - Get a different Medicare drug plan more in line with the drugs you take (www.medicare.gov/plan-compare).
- One note: You can't use GoodRx along with a deductible from Medicare or Medicaid, but you can use it instead of those. Beware whether you'll reach your annual deductible if you don't use a Medicare drug plan or if you're in the doughnut hole (cover gap) already.

* Keep your crisper drawer clean by lining with fresh newspaper. It will absorb smells and liquid, and can be easily replaced.

* If it's garage sale time, try this trick: Wrap a picture frame tightly with tulle. Then you can hang earrings from the tulle. Maybe someone will think it's so cute that you'll sell the frame, too!

* When your cut-up fruit is about to expire and you don't think you'll be able to eat it in time, just freeze it for smoothies. Lay it out in a single layer and pop it in the freezer. When it's frozen, you can put it in a zipper-top baggie for easy storage.

* "Do you have a lot of coffee mugs? Maybe it's time to show them off! My granny has so many coffee mugs from trips and that she got as gifts. My daddy put up five long shelves on one wall of her kitchen. They are the perfect place to line up and display all the mugs, and each one has a story, which is fun to hear." -- F.E. in North Carolina

* "I have three girls and one bathroom, so there's no way anyone gets 'ready' in front of the bathroom mirror. Instead, all the girls have a hanging shoe rack on the back of their door for makeup and hair supplies, and a mirror on the wall." -- P.W. in Oregon

* Stubborn stains in the toilet? Try dropping in a few denture tablets before going to bed, then scrub and flush in the morning

Safe Summer Fun

FAMILY FEATURES

Longer days and lighter schedules make summer perfect for relaxing, having fun outdoors and spending time with loved ones. However, more physical activity and time spent in the sun can also translate to increased health and safety risks.

As you and your family enjoy the warmth and sunshine while swimming, biking, grilling, playing on the playground and more this summer, remember these precautions from the experts at the American Heart Association.

Watch for Signs of Heat Stress

On hot summer days, be alert for signs of heat illnesses, such as heat cramps, heat exhaustion or heat stroke. Even when it doesn't seem extreme, heat and humidity can take a toll. Some signs of heat-related illness include muscle pain, cramps or spasms; heavy sweating; paleness; dizziness; headache; nausea or vomiting; confusion; fainting or unconsciousness; high body temperature (greater than 100 F) with dry skin; and rapid pulse. If you experience any of these symptoms, take a break, drink some water and find shade or air conditioning to cool off. If symptoms worsen or vomiting occurs, seek medical attention.

Stay Hydrated

Staying hydrated is important for optimal body functioning, especially during the hot and humid months. If you plan to spend a lot of time outdoors, frequently consuming water and foods with high water content – melons, lettuce and cucumbers, for example – can help replace the fluids lost via sweat. In addition, be aware of the signs and symptoms of mild dehydration, including a dry or sticky mouth; dry, cool skin; headache; or muscle cramps. More severe cases may include dry, shriveled skin; irritability or confusion; dizziness; rapid heartbeat; rapid breathing; fatigue; and unconsciousness.

Learn CPR

As summertime activities expose people of all ages to risks, it's important to be trained in CPR – or cardiopulmonary resuscitation – an emergency lifesaving procedure that is performed when the heart stops beating. If performed immediately, it can double or triple a cardiac arrest victim's chance of survival, according to the American Heart Association. However, only about 40% of people who experience out-of-hospital cardiac arrest receive help before professionals arrive.

Because about 74% adult and 87.5% of child out-of-hospital cardiac arrests happen in homes, you will likely be trying to save the life of someone you love – a child, spouse, parent or friend – if called upon to perform CPR. Hands-Only CPR is recommended for members of the general public who see someone suddenly collapse. Call 9-1-1, or send someone to do so, then push hard and fast in the center of the person's chest until medical assistance arrives. Use an AED, if available, following the prompts. Conventional CPR is the next step and involves chest compressions and mouth-to-mouth breathing but should only be used by health care professionals and those trained to perform it correctly.

Protect Skin from the Sun

While it's easy to get caught up enjoying activities outdoors, remember to take steps to protect your skin from the sun's damaging rays. Limit your time in the sun, especially during the midday hours when the rays are strongest, and wear sunscreen to help reduce your risk of sunburn, skin cancer and the early onset of wrinkles. Experts recommend sunscreen with an SPF of 30 or higher. Wearing sunglasses, a hat and cool, long-sleeved clothing can further limit exposure when outdoors for long periods of time.

Play Safe

Each year, emergency departments treat more than 200,000 children under the age of 14 for playground-related injuries, according to the Centers for Disease Control and Prevention (CDC). Choose age-appropriate parks and playgrounds for your children and keep precautions like these in mind: teach children to take turns as pushing or roughhousing can result in accidents or injuries, check metal slides before use to prevent burns, remind kids to be careful walking near moving swings and encourage them to go one at a time on slides that are clear of other children. Also be sure to use proper protective gear for other outdoor activities like biking or watersports and have a first-aid kit on-hand, complete with bandages, gauze pads, medical tape, antibiotic ointment, antiseptic wipes or spray and aspirin.

Swim Safely

Whether enjoying the pool, beach, lake or river, bodies of water can be dangerous if appropriate precautions aren't taken. In fact, drowning is among the top five causes of unintentional injury death in the United States, according to the CDC. Avoid swimming alone, especially in natural bodies of water that aren't clear and may

present strong currents or underwater obstacles, and don't overestimate your swimming ability. Designating an undistracted "water watcher," wearing life jackets, ensuring someone in your group knows CPR and avoiding alcohol consumption are also safe practices to keep in mind while swimming.

Be Smart with Fire

Firing up the grill and lighting fireworks are often synonymous with summertime, but open flames pose safety hazards. Never leave a grill unattended, always grill outdoors and keep children and pets away from the grilling area. When it comes to fireworks, keep a safe distance once lit, don't point fireworks toward anyone's face or body, never allow young children to play with them, avoid relighting fireworks that do not function properly and keep a bucket of water or fire extinguisher nearby when lighting.

Staying Safe in the Water

Spending time in or around water is one of the joys of summer, but it comes with some risks. Stay safe on and near water with these tips from the American Heart Association:

Learn to Swim – For children ages 1-14, drowning is the second-leading cause of unintentional injury death after motor vehicle crashes, according to the CDC. Basic swimming skills like floating and safely entering and exiting the water can help reduce the risk.

Learn CPR – Accidents can happen in or around water. In the event of a drowning, the American Heart Association recommends rescue breaths along with chest compressions.

Remember Life Jackets – Water wings, floaties and kickboards aren't substitutes for a U.S. Coast Guard-approved life jacket.

Secure the Pool – Install fencing with self-closing gates at least 4 feet tall to separate the pool from the house and yard.

Clear Out Pool Toys – Make sure children aren't tempted to play unsupervised by removing toys from the water and storing them in a secure location.

Strange BUT TRUE

By Lucie Winborne

* Bugs Bunny's relaxed manner of eating carrots was inspired by a scene from the movie "It Happened One Night," in which Clark Gable crunches on the vegetable while chatting with Claudette Colbert.

* Caligynophobia, also known as Venustraphobia, is the fear of beautiful women.

* Pale skin was such a big fad in the 1700s that some French women even drew over their veins in blue pencil to accentuate their ethereal look.

* The first guidebook for Stonehenge, published in 1823, claimed the formation was one of the few ancient structures that survived the Old Testament flood.

* On average, less than 18 minutes of a baseball game is actual action.

* While many people are attracted by the promise of greener pastures, more than 100,000 are ready for those of a redder hue -- they've applied for a one-way trip to Mars as part of The Mars One project.

* Vampire squid, which live in Monterey Bay, get their name not from drinking blood (they live on plankton), but their intelligence: They've been known to create complex geometrical patterns on the ocean floor.

* The New York City Ballet has an annual shoe budget of \$780,000! Dancers go through 500-800 pairs of pointe shoes just while performing "The Nutcracker" over a period of six weeks, and use even more pairs in two weeks performing "Swan Lake."

* Singer Billie Holiday babysat actor/comedian Billy Crystal, even taking him to his first movie.

* Researchers at California State University discovered that the self-control needed to suppress the urge to urinate can produce a more convincing liar, something known as the inhibitory spillover effect. ***

Thought for the Day: "The compact between writing and walking is almost as old as literature -- a walk is only a step away from a story, and every path tells." -- Robert Macfarlane

Grilled Corn Salad

Ingredients

- 3 ears of grilled corn on the cob
- 1 red pepper, diced
- 1 green pepper, diced
- 1/2 small cucumber, diced
- 2 ripe peaches, pitted and diced
- 1 small avocado, pitted and diced
- 8 basil leaves, thinly sliced
- juice of 1 lime, plus lime wedges for serving
- 3 tablespoons Chile Lime Dressing, plus more to taste
- sea salt

Chile Lime Dressing (this makes extra)

- 1/4 cup Sir Kensington's Avocado Oil Mayo or vegan Fabanise
- 1 tablespoon olive oil
- 1/4 cup chopped cilantro, including stems, plus more for garnish
- 1 tablespoon fresh lime juice, plus extra slices for serving
- 1/3 serrano chile, plus more to taste
- pinch of garlic powder
- pinch of onion powder
- sea salt

Instructions

Make the dressing: In a small food processor, combine the avocado mayonnaise, olive oil, cilantro, lime, serrano, garlic powder, onion powder and a few generous pinches of salt. Pulse until combined. Chill until ready to use. Slice the kernels off of the grilled corn and place in a large bowl. Add the red pepper, green pepper, cucumber, peaches, avocado, basil, lime juice, a few pinches of salt, and toss. Add a few tablespoons of dressing, toss again, then taste and add more dressing and/or salt to taste. Serve with extra dressing and lime slices on the side.
