Is Your Home Bat Proofed?

Like everything, bats play an essential role in our ecosystem. They eat insects, pollinate plants, and spread seeds. However, according to the Centers for Disease Control (CDC), they are also the most common source of human rabies in the United States. If bitten by an infected bat, people and animals can get rabies. You cannot tell if a bat has rabies just by looking at it. Bats also have very small teeth, so you may not even notice you've been bitten. This is why it is so important to keep bats out of your home. If possible, contact an animal control or wildlife conservation agency for help in "bat-proofing." Otherwise, you can caulk any holes larger than a quarter inch and make sure your doors are closed tightly. You should also use chimney covers, window screens, and draft guards, particularly around attics. Bats can even enter homes through loose shingles, siding, or open vents.

If a bat gets in your home and there is a chance that it had contact with a person, pet, unattended young child, a sleeping individual, a person under the influence of alcohol or drugs, or a person with other sensory or mental impairment, please follow these simple guidelines:

- Do not touch the bat with your bare hands. Put on leather work gloves.
- Get a small box or coffee can, a piece of cardboard and tape.
- Wait for the bat to land.
- Approach the bat slowly, and while wearing the gloves, place the box or coffee can over it.
- Slide the cardboard under the box or can to trap the bat.
- Tape the cardboard to the can or box opening so the bat cannot escape.
- Punch small holes in the cardboard allowing the bat to breathe.
- Leave the bat in the container. Then take the container outside and call the Livingston County Department of Health at (585) 243-7280, or the Livingston County Sheriff's Department at (585) 243-7100 after hours.
- Do not release the bat. The bat should be tested for rabies to determine the need for rabies treatment.

If you have pets, make sure they are up to date on their rabies vaccinations. This is the most effective way to protect them. If you or your pet have had physical contact with a bat, please call the Livingston County Department of Health at (585) 243-7280.

~ THANK YOU ~

I would like to thank everyone who came to my 100th Birthday Party. I was blessed to see so many people that I haven't seen for a very long time. I want to thank everyone for the cards and gifts I received.

I also want to say how exciting it was for me when the Leicester, Cuylerville and Mount Morris Fire Departments paraded their trucks in front of my house last week.

Thanks again to everyone!

SPEAK OUT

Dear "Speakout",
What Happened to True Journalism?

If we truly admit it, we are all wondering what has happened to true journalism. Today's journalism is nothing more than politics promoting radical views of the news anchors and their CEOs. Unbiased news has been destroyed.

The American public desperately desire to hear the news of the world in an unbiased way so we can know the truth and not the slanted agendas of those who would cause division in America.

Ultra-left-wing media like ABC, CBS, NBC, CNN, PBS and other news outlets spew out hateful vitriol against the ultra-right Republican sector. FOX, CBN, NEWS MAX and other ultra-right news outlets are just as much at fault as they flood the airways with hate against the ultra-left-wing Democrat sector.

I have repeatedly written letters to all these news channels expressing my views that they should again report unbiased news rather than their slanted agendas. You will probably say that I am just wasting my time and effort, but I believe that we as patriotic Americans must express ourselves or our freedoms will be removed one at a time.

Our founding fathers believed that Freedom of the Press must be balanced with responsibility and honesty. Today news medias are exercising their right of freedom of the press but are twisting the facts to suit their own beliefs and agendas. Our founding fathers would not recognize America and would wonder why they suffered so very much for our freedoms which are being attacked.

The area in which these news outlets are susceptible is in their ratings. Ratings mean money and that is their main reason for existing. If we contact them and tell them that we are no longer going to view their misinformation, they will listen and change their content. We should also contact the companies which have commercials on these news outlets and tell them that we will begin boycotting them if these news outlets do not begin to broadcast true and factual news.

Money and its possible loss are two things which get the attention of most Americans. There is an old saying "garbage in – garbage out". If we absorb all this garbage we see every night, we will believe it and the left and the right will become even farther apart as we argue with one another.

Recently I have written regarding the mass shootings in America as most news anchors repeatedly ask why this is happening. I have told them that we have removed God from our schools and our public sector, and His protection has been removed.

I would encourage you to contact these news outlets as I have and express your concerns: ABC NEWS, 47 W 66th Street, New York, New York 10023-6201; CBS Broadcasting Center, 530 West 57th Street, New York, New York 10019-2902; NBC NEWS, 30 Rockefeller Plaza, New York, New York 10112-0002; CNN, 1 CNN Center, Atlanta, Georgia 30303; Christian Broadcasting Network, 977 Centerville Turnpike, Virginia Beach, Virginia 23463-1001; FOX NEWS, 1211 Avenue of the Americas, Floor 44, New York, New York 10036-8799; NEWS MAX, P. O. Box 20989, West Palm Beach, Florida 33416-0989.

I would encourage any comments on this subject and would enjoy reading them. Lord willing, I will send another article on this same topic next week.

DID YOU KNOW?

On newer direct injection vehicles, a fuel injection and intake cleaning **MUST** be completed every 10,000 miles due to excessive carbon buildup. This process improves gas mileage and driveability on all vehicles.

Francis Bellamy
His word became a nation's pledge!

BE WELL IN MOUNT MORRIS

Be Well in Mt. Morris is a group focused on activities for eating well, moving more, and stressing less. We want to bring new, exciting opportunities and respond to needs the community has -- such as a new grocery store and investing in ways for families to access safe recreation. Help us connect to others in Mt. Morris when you can. Meetings are the 4th Thursday of the month. Learn more at the Be Well in Mt. Morris Facebook site: <https://www.facebook.com/BeWellMM> or contact Kim R. (585-243-7279) or Lisa B. at the Department of Health (585-243-7531). This is an initiative of the Genesee Valley Health Partnership (gvhp.org).

LOCAL CONSTRUCTION

The second part of Phase II has begun. This part of the project is to facilitate a culvert replacement along Route 63 near Route 408 and requires. Route 63 to close in all directions in the vicinity of the culvert. Please be sure to take care when driving during our local construction phase as traffic can get congested. Please slow down, take your time and drive careful.

SAVE THE DATE

The Town of Mount Morris will be hosting a "Music in the Park" event at Tuscarora Park on Friday, August 19, 2022 from 6:00-9:00pm. Stay tuned for more information!

SEEKING INTERESTED PROPERTY OWNERS FOR PARTICIPATION IN A LIVINGSTON COUNTY MANUFACTURED HOME REPLACEMENT PROGRAM

The Livingston County Planning Department in partnership with Cattaraugus Community Action, Inc. (CCA) is writing a grant application for a HUD CDBG Manufactured Home Replacement Program. If funded, the program would facilitate the removal and replacement of dilapidated or hazardous mobile homes in Livingston County with new Energy Star rated homes, at no expense to the homeowner.

Only dilapidated mobile homes meeting CDBG property condition standards are eligible to be replaced. Mobile homes must also be owner-occupied, with the owner being of low- to moderate-income and owning the home and the land where the home is sited.

As part of the development of an application for funding, the County and CCA are working to establish a wait list of potentially eligible and interested program recipients. If the application is funded, the County and CCA will replace up to 4 qualifying homes. Inclusion on the property wait list does not guarantee final program selection.

If interested in having your property added to the wait list or to learn more about the program, please contact Joe Gunther, Community Development Specialist, at (585) 243-7550 or JGunther@co.livingston.ny.us.

For adequate time to complete the funding application, all interested are asked to respond to this ad by August 5, 2022

Livingston County Dialysis Center

One of six dialysis machines at the Wyoming County Hospital Dialysis Center located inside the Livingston County Center for Nursing & Rehabilitation

The Wyoming County Hospital Dialysis Center (WCHDC), located on the first floor of the Livingston County Center for Nursing and Rehabilitation (LCCNR) in Mount Morris, continues to make a major impact in the lives of County residents after its grand opening in February.

Since then, the Wyoming County Community Health System-run facility has completed nearly 1,000 appointments for life-saving dialysis treatment.

Before its opening, patients wouldn't have been able to find this kind of care without first driving to dialysis clinics in Rochester or Batavia. Bringing medical care like this to Livingston County has directly resulted in a better quality of life for WCHDC patients, said LCCNR Director of Long-Term Care Justin Bayliss.

"The Dialysis Center has been a lifeline for those individuals in need of this treatment, who would otherwise have to travel great distances to receive dialysis services," explained Bayliss. "Someone requiring dialysis typically receives the service three times per week. Each session takes approximately four hours. Cutting down on drive time greatly increases those residents' ability to spend more quality time at home or doing other things they enjoy."

A joint Livingston and Wyoming County venture, the WCHDC receives patients from both counties, as well as several residents of the LCCNR. It currently has the ability to treat up to six dialysis patients at one time. However, talks are underway among County officials to increase staffing in order to double the facility's capacity in the near future.

The LCCNR offers 24-hour skilled nursing services ranging from short-term, post-acute rehabilitative care to traditional long-term care. Residents receive care in a manner that addresses the needs of the individual. Recognizing the potential in every individual, the LCCNR focuses on turning potential into ability, discomfort into comfort.
