### What Is Massage Therapy?

For years there have been two primary categories that many massage has been put into. One category is massage is a luxury and something used to pamper yourself. This is true. It can be a very pampering and luxurious experience. Often given as a gift to a loved one at the holidays or for a birthday. It's wonderful to experience a massage that will make you melt into the table and come out relaxed and refreshed. The other category that massage has unfortunately been put into is due to an illegal industry which operates under the guise of massage. This has been the most damaging stigma that has prevented people from considering massage. In this article you will learn that there is so much more to massage than these two categories. Massage therapy is an amazing tool to be used in your wellness and self-care. So much that many physical therapists, chiropractors, and doctors encourage their patients of all ages to work with a mas-

sage therapist to provide continued care. When you find a massage studio that employs therapists who have been trained in medical massage therapy you will find a whole other category to put massage into. You will understand that massage therapy can truly help you. Medical massage therapists are trained in human anatomy and physiology as well as in massage theory. They understand how muscles function and how they can cause pain and discomfort. They have the skills to pinpoint what is causing issues and how to provide relief. When you find a massage studio with these types of therapists you may find a place where you will get relief from that lower back pain that has been hurting you every day for years. You may find the headaches which you have been suffering through have started to dissipate. You may find that the pain that runs down your leg from your sciatica starts to become less debilitating. You may find the circu-

lation in your legs starts to improve. You may find that you will be able to turn your neck more to one side or the other because the stiffness and pain has started to go away. You may find that you are sleeping better, that your anxiety is reducing and that your stress levels starting to even out. You may even find that you just feel better and wouldn't that just be an amazing change in your life. All these things are possible and so much more when you find massage therapists who are dedicated to help you feel better. So where can you find this type of massage therapy? Look for a studio that offers therapeutic massage services. Call the studio and explain what pain or discomfort you are having. You will know from that conversation if is the right studio for you. It could take just one session for you to understand that massage therapy could be the answer you've been looking for to help you feel better.

Level: Beginner

**Here's How It Works:**  
Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
