ARIES (March 21 to April 19) Aspects favor socializing with family and friends, but an irksome workplace situation could intrude. No use grumbling, Lamb. Just do it, and then get back to the fun times.

TAURUS (April 20 to May 20) There's still time for you Ferdinands and Ferdandas to relax and sniff the roses. But a major work project looms and will soon demand much of your attention through the next week.

GEMINI (May 21 to June 20) Your enthusiasm persuades even the toughest doubters to listen to what you're proposing. But don't push too hard, or you'll push them away. Moderate for best results.

CANCER (June 21 to July 22) Your energy levels are rising, and you feel like you can handle anything that the job requires. While that's great, don't isolate yourself. Keep your door open to your workplace colleagues for sound advice.

LEO (July 23 to August 22) A workplace change could lead to that promotion you've been hoping for. But you'll have to face some tough competition before the Lion can claim his or her share of the goodies.

VIRGO (August 23 to September 22) Your rigidity regarding a difficult workplace situation could be the reason your colleagues aren't rushing to your assistance. Try being more flexible in your demands.

LIBRA (September 23 to October 22) That uneasy mood could be your Libran inner voice reminding you that while it's great to be with your new friends, you need to take care not to ignore your old ones.

SCORPIO (October 23 to November 21) A sudden spate of criticism could shake the Scorpion's usually high sense of self-confidence. Best advice: You made a decision you believed in -- now defend it.

SAGITTARIUS (November 22 to December 21) Your reluctance to help restart a stalled relationship could be traced to unresolved doubts about your partner's honesty. Rely on a trusted friend's advice.

CAPRICORN (December 22 to January 19) The capricious Sea Goat is torn between duty and diversion. Best advice: Do both. Tend to your everyday chores, and then go out and enjoy your well-earned fun time.

AQUARIUS (January 20 to February 18) Cutting back on some of your activities for a few days helps to restore your energy levels. You should be feeling ready to tackle your many projects early next week.

PISCES (February 19 to March 20) A co-worker might secretly be harping on about your work to your mutual colleagues. But some associates will come to your defense, and the situation will ultimately work to your advantage.

BORN THIS WEEK: Your ambition makes you a success at whatever you choose to do -- especially if it's in the world of the performing arts.

Rabies has been in the news quite a bit lately because a rabid fox was found in the Walmart parking lot in Danville; many stray cats were fed in that area. The information for this column primarily comes from the Virginia Department of Health website (vdh.virginia.gov).

Rabies is caused by a virus that affects the salivary glands and central nervous system. It affects mammals; birds, fish, reptiles, and amphibians do not get it. Raccoons, skunks, and foxes are the wild animals most frequently diagnosed with rabies and cats are the most common domestic animals diagnosed with rabies. Other small animals (rabbits, squirrels, rats, mice, gerbils, and hamsters) are rarely diagnosed with it; the thought is that they are killed during the encounter with the rabid wild animal.

Survival is rare in people or animals once clinical symptoms begin and because of that, is considered to be almost always fatal.

The Virginia Department of Health reports that: "On average, 2 human cases of rabies are reported in the United States each year, most due to a bite from a dog while traveling to another country, or exposure to a bat while in this country. Virginia has reported 2 human cases of rabies since 2009."

The virus is in the saliva and brain of rabid animals. Transmission occurs through being exposed to the saliva or brain tissue in the eyes, nose, mouth, or in an open wound. Symptoms in humans normally appear in two to eight weeks, but longer periods between exposure and the onset of symptoms have been reported. The acute period of disease typically ends after 2 to 10 days. Once clinical signs of rabies appear, the disease is nearly always fatal, and treatment is typically supportive. (Virginia Department of Health)

If you are bitten by an animal, wash the wound thoroughly with warm, soapy water and do so for several minutes. If you can safely capture the animal under a large can or box, do so.

996 South Boston Rd.,
Danville, VA 24540
Phone: (434) 799-0843

At the very least, identify the animal before it runs away. Do not damage the head because the brain tissue is needed for testing. Immediately call law enforcement or animal control and also notify your doctor.

The Virginia Department of Health recommends the following:

- Have your veterinarian vaccinate your dogs, cats, ferrets, and selected livestock. Keep the vaccinations up-to-date. While rabies vaccines are labeled for use in a number of animals, in Virginia, rabies vaccinations are required for dogs and cats.
- If your pet is attacked or bitten by a wild animal, report it to the local health or animal control authorities and be prepared to assist with rabies exposure response activities such as booster vaccination and confinement.
- Limit the possibility of exposure by keeping your animals on your property. Don't let pets roam free.
- Do not leave garbage or pet food outside. It may attract wild or stray animals.
- Do not keep wild animals as pets. Enjoy all wild animals from a distance, even if they seem friendly. A rabid animal sometimes acts tame. If you see an animal acting strangely, report it to your local animal control department and do not approach it.
- Contact your local health department if you think you or your pet may have been exposed.

Virginia's Heritage Music Trail: The Crooked Road Announces 2022 Artist-In-Residence

Abingdon, Virginia – Virginia's Heritage Music Trail: The Crooked Road is excited to announce that Johnny Williams has been selected as the 2022-2023 Artist-In-Residence.

Williams has been active in the traditional music community for over 30 years, playing with multiple bands and music organizations in the region. Hailing from Fries, VA, Williams has been performing, producing, touring and song writing since the late 1980s starting with the group Clearwater which eventually became the Jeanette Williams Band. Since that time, Williams has been playing guitar and mandolin with groups such as Big Country Bluegrass Band, Freeman and Williams Trio, Blue 58, Shelton & Williams and the Larry McPeak Tribute Band.

Williams has also been involved with The Crooked Road for many years, as part of The Crooked Road on Tour program, bringing heritage music to many audiences.

Having been involved with over 90 recorded projects, Williams owns record label Grass Tank Music and just released a new Shelton & Williams album entitled "So Much Time, So Much Love" in 2022. A portion of that recording was supported by The Crooked Road's Heritage Music Fund, that helps regional artists with professional projects.

Williams was the Chairman of Blue Ridge Acoustic Uprising, co-founded the Dan River Region Bluegrass Association, and has won the Merlefest Chris Austin Songwriter Contest for bluegrass in 1998 and 1999.

"Johnny Williams is a well-respected part of the bluegrass music community. He will bring a high level of expertise, connections and experience to this appointment as the 2nd Artist-in-Residence for The Crooked Road," says Dylan Locke, President of The Crooked Road's Board of Directors.

As The Crooked Road's Artist-In-Residence, Williams will perform at various events and participate in educational opportunities. He will also contribute an original piece of music or new performance of an existing traditional piece of music for The Crooked Road's use.

Williams says, "Working with The Crooked Road in this position is a great opportunity and I'm incredibly honored and excited to be the new Artist-In-Residence and I look forward to sharing my passion for heritage music with audiences all along the Crooked Road."

"Johnny's been involved with heritage and traditional music of Southwest Virginia for so long, his participation in the Artist-In-Residence program will be a tremendous asset to The Crooked Road," comments Carrie Beck, The Crooked Road Executive Director.

Williams will be part of an all-star songwriting workshop and showcase event along with Jeanette Williams, Louisa Branscomb and Larry Cordle, that will be held on October 6 at Mountain Empire Community College. Details on that event can be found at <https://www.eventbrite.com/e/the-crooked-roads-songwriting-workshop-showcase-tickets-349661325437>.

This program will be supported in part by the National Endowment for the Arts.

DCC's Seventh President: The First 30 Days

DANVILLE, VA — As my wife Allyson and I wind down the logistical challenges of moving across the country, I am quickly learning how wonderful it is to find yourself working and living in the City of Danville and the region of Southern Virginia as a whole. Not only are we living in a beautiful city, but we are also surrounded by the vibrant, energetic feeling of growth and renewal that accompanies community revitalization. It's an exciting time to be at Danville Community College.

The first 30 days as president at DCC have been a swift, sometimes dizzying learning experience that has included meeting talented professionals from across a variety of organizations, including K-12 schools in Pittsylvania County, Halifax County, and the City of Danville; the Institute for Advanced Learning and Research; the Chamber of Commerce; local healthcare organizations including SOVAH Health, Centra Health, and Sentara Healthcare; local industry leaders; elected officials; and everyone in between. In this short time, I've learned a great deal about the integral role that DCC plays in this region in terms of economic development, quality of life, and community support services.

We've also had the privilege of attending quite a few community events in our short time in Danville. We've enjoyed "Thursday Music in the Market," "Coffee and Cars at Crema and Vine," and the "Project Imagine Back to School Event." It has been a distinct pleasure to meet our new neighbors and to support these regional endeavors.

As I continue to explore the needs of our students, community members, and industries, I'm excited to begin working toward creating a more accessible, welcoming, inclusive, and life-changing campus for those who choose to pursue their educational and professional goals at DCC. This includes focusing on the key components of our strategic plan: Student success, advancing excellence, resource development, and diversity, equity, and inclusion.

DCC is already serving the region in so many ways. Students can choose from a variety of educational and career paths from the moment they walk through our doors. We offer high school seniors the tremendous opportunity to complete the first two years of their four-year degree at a fraction of the cost of a university. We offer accelerated career credentials for those who want to get trained quickly, and get to work. There are even options for students who want to take classes for the sake of learning. There is truly something for everyone at DCC. Expanding upon this robust framework to become the choice destination for higher education is an exciting focus and goal that I look forward to accomplishing with the help of our talented team.

As I work toward my 60-day mark, I look forward to continuing the collaboration with our staff, faculty, partners, and community members to make DCC and the communities we serve the very best they can be.

1. What is the whole title of the song "Exordium & Terminus"?
2. Name the three big hits that came out of the film "Grease."
3. Which group released "I Don't Want to Live Without You" in 1988?
4. Who was Casey Kasem?
5. Name the song that contains these lyrics: "I turn around in the still of the room, Knowing this is when I'm gonna make my move."

Answers

1. "In the Year 2525 (Exordium & Terminus)," by Zager and Evans in 1969. Oddly enough, the duo never released another song that even reached the charts.
2. Frankie Valli's "Grease," "You're the One That I Want," a duet by John Travolta and Olivia Newton-John and "Hopelessly Devoted to You," by Newton-John alone, in 1978.
3. Foreigner, on their "Inside Information" album. It topped the Adult Contemporary chart, the group's only No. 1 hit.

NO-BAKE PEANUT BUTTER PIE

Ingredients

- Crust**
- 1 ½ cups graham cracker crumbs
 - 3 tablespoons brown sugar
 - Pinch salt
 - 6 tablespoons unsalted butter melted
- Filling**
- 2 ¼ cups heavy whipping cream chilled
 - 1 ½ cups powdered sugar divided
 - ½ teaspoon pure vanilla extract
 - 8 ounces cream cheese at room temperature
 - 1 cup creamy peanut butter at room temperature

Garnish Ideas

- Salted peanuts
- Graham cracker crumbs
- Hot fudge sauce
- Melted peanut butter
- Chocolate peanut butter cups

Instructions

Crust:
Preheat oven to 325°F (see notes for no-bake option). Combine graham cracker crumbs, brown sugar and salt. Add melted butter and stir until well combined. Dump the crumbs into a 9 or 9 ½ inch pie plate. Firmly press the crumbs into the bottom and up the sides of the pie plate. Use the bottom of a glass or measuring cup to pack it in. Bake the crust for 8-10 minutes, until golden brown and fragrant. Cool to room temperature.

Filling:
Using a hand mixer, or stand mixer, whip the heavy cream, ¾ cup powdered sugar and vanilla until stiff peaks form. Transfer bowl to the refrigerator.

In a separate bowl, beat cream cheese, peanut butter and remaining ¾ cup powdered sugar until smooth and combined. Add a little more than half (eyeball it) of the chilled whipped cream to the peanut butter mixture. Beat briefly, until just combined. Place the remaining whipped cream back in the fridge, as this will be for topping the pie. Pour the peanut butter mixture into the crust and smooth the top. Cover and refrigerate for at least 4 hours, until firm.

To serve: Top the pie with the remaining whipped cream. Sprinkle with peanuts and graham cracker crumbs. Serve with hot fudge sauce and melted peanut butter, for drizzling.

Notes
To make this pie no-bake, you can skip baking the crust. After pressing the crumbs into the pie plate, refrigerate the crust (without the filling) for at least 3 hours. You can also use a store-bought graham cracker crust, if preferred.
