Orleans County Sheriff Encourages To Stay Safe On The Road During Labor Day Festivities

Orleans County STOP DWI Coordinator, Sheriff Christopher M. Bourke announced that local law enforcement agencies will actively participate in the STOP DWI Labor Day High Visibility Engagement Campaign which runs August 19- September 5, 2022.

As summer winds down Labor Day is one of the busiest travel holidays of the year. With the increase in traffic on our roadways comes an increase risk in crashes, including impaired-driving crashes. Law enforcement agencies and local STOP DWI Programs will collaborate across the state and will be out in force in this coordinated effort to reduce the number of impaired driving-related injuries and deaths.

ORLEANS COUNTY SHERIFF'S DEPARTMENT

PRESS RELEASE

On Tue., Aug. 23, 2022 at approximately 0135 hours, Orleans County Dispatch received a call for a Motor Vehicle Accident that occurred at the end of a Fire Lane in the Town of Carlton. Orleans County Sheriff's Deputies responded, along with the Carlton Fire Department.

Deputy Stornelli arrived on scene first, followed by Deputy Ashbery and Deputy Martek. Upon arrival, Deputy Ashbery located the vehicle down an embankment, submerged in water. Deputies Ashbery, Martek and Stornelli, along with an individual from Carlton Fire Department climbed down the embankment and entered the water to approach the vehicle, approximately 100 yards from shore. Deputy Stornelli made contact with the driver through the front passenger side window, while Deputies Ashbery and Martek worked to get the driver door open. Once the driver door was opened, all three deputies were able to successfully remove the driver from the vehicle. Once the driver was out of the vehicle, deputies on scene assisted Carlton Fire Department in getting the driver to shore, where the driver began receiving medical treatment before being transported to the hospital by COVA.

Sheriff Christopher M. Bourke is proud of the quick thinking actions of the deputies on scene, as well as the good work of the Carlton Fire Department. This is one example of the great work the men and women of the Orleans County Sheriff's Office does on a daily basis, as well as volunteer members of fire departments throughout the county.

WIC: What is it? Who's it for? Surprising facts.

By Angela Shoemaker, WIC Program Coordinator, Oak Orchard Health

a credit card, it automatically pays for qualified groceries in your shopping cart, and it's automatically reloaded each month. Your eWIC card is a hassle-free way to take advantage of your benefits.

From healthy essential foods to breastfeeding support to tasty recipes and tips for keeping kids healthy and active, WIC offers a whole lot more than you may realize. And there is a lot we can do to help you take good care of your growing family. The Women, Infants, and Children (WIC) program is designed to help women who are either pregnant, breastfeeding, postpartum, or have kids up to five years old. It provides food and other kinds of support families need to live healthy lives. But you might wonder if WIC is right for you—or if you even qualify.

WIC is available to lots of people.

Many families in New York State work hard but still struggle sometimes to get by. You do not have to be unemployed to qualify for WIC. For instance, a family of four with \$51,338 in annual income or less can qualify for WIC, whether that income is from one or two working parents. And if you already receive SNAP or TANF benefits or you're on Medicaid, you automatically qualify for WIC.

In fact, if you receive SNAP—also known as Food Stamps—WIC can be even more helpful because it helps pay for some of the basic nutrition your family needs to help your SNAP benefits go further.

Your eWIC card makes grocery shopping easy and convenient.

When you sign up for WIC benefits, you'll receive an eWIC payment card. It looks just like

Enjoy the bounty of your local Farmer's Market.

There's nothing like fresh, local produce in the summertime. And our program supports local Farmer's Markets by providing you with funds you can spend on delicious local fruits and vegetables. Each participant over the age of 6 months gets \$25—and it is on top of your regular monthly benefits.

WIC can help with breastfeeding and so much more.

If you are pregnant or have a newborn, our expert staff can help prepare you on ways to feed your baby. Our staff is trained to promote breastfeeding and provide the needed support new mothers and infants need for success. Additionally, WIC's breastfeeding program offers Breastfeeding Peer Counselors who have breastfed their babies and are eager to help you do the same. WIC even offers free breast pumps if you need one, as well as an increased food package to keep you well-nourished while you are breastfeeding. We are here to support you through your breastfeeding journey.

We also offer great nutrition advice, including tasty recipes you can make the foods you qualify for with WIC. And if you have other health care needs beyond our ability to help, we will connect you with someone who can—from dentistry to housing and many things in between.

It is easy to get started. Just give us a call.

If WIC sounds like it might be right for you and your family, call (585) 344-2203 and we will walk you through it. For details about the WIC program, visit oakorchardhealth.org/health-services/wic.

Avocados are packed with nutrients & vitamins

Avocados are beloved by foodies, particularly those who enjoy guacamole. The Cleveland Clinic notes they are good sources of these nutrients and vitamins:

- **Folate:** Folate promotes normal cell function and tissue growth. The nutrition database of the U.S. Department of Agriculture indicates that one-half of a raw avocado contains about one-fifth of the daily recommended amount of folate.

- **Vitamin K-1:** Researchers believe vitamin K-1 helps to maintain bone mineral density, and the Harvard T.H. Chan School of Public Health reports that vitamin K helps to produce four of the 13 proteins needed for blood clotting. Livestrong.com reports that one cup of mashed avocado contains as much as 40 percent of the daily recommended value of vitamin K.

- **Potassium:** The Cleveland Clinic reports that avocados contain more of this heart-healthy essential mineral than bananas. Potassium helps to control blood pressure and promotes a healthy heart.

- **Vitamin C:** The health care experts at Cedars Sinai note that avocados are a great source of vitamin C. What's more, Cedars Sinai reports that avocados help the body absorb nutrients, allowing it to utilize them more effectively.

- **Fiber:** High fiber diets provide a host of benefits, as fiber helps to lower blood sugar and reduce bad cholesterol. Cedars Sinai estimates that one avocado contains around 10 grams of fiber.

Despite their high nutrient content, avocados should be consumed in moderation. That's because the Cleveland Clinic notes that a single avocado can contain upward of 400 calories.

Do you have HEEL pain or ARCH pain?

HEEL SPUR SYNDROME/PLANTAR FASCITIS is a common problem among people who are active. It starts as a dull intermittent pain in the heel which may progress to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing, or after walking.

- Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.

- Contributing factors: flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.

- Approximately 2-3 times your body weight of force is exerted on each foot with walking. Flexible, non-custom molded arch support found at those advertised shoe stores cannot support these forces and usually do not provide long-lasting relief, do not come with a lifetime warranty, and are typically more expensive than custom-molded ones made by our office.

- 95 percent of our patients symptoms are resolved with conservative treatment, avoiding surgical intervention.

- We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques and **EPF** resulting in minimal incisions and scarring, immediate ambulation and often back in a shoe in one week.

If you can't remember when your feet didn't hurt, now is the time to give us a call!

Travel Thoughts By Kim

Let's go on an adventure together...to Rome, Italy!

The Spanish Steps in Rome, Italy. The 135 steps start there behind the fountain and go up to the first landing, then arch around to a second and third landing before reaching the church at the top of the steps.

After dinner, a little nap turned into a full night's sleep to shake the jet lag and recoup from a full day of walking in the brutal heat.

Day Two - I had "skip the line" tickets to the Vatican, so I grabbed a taxi and headed out after breakfast. A guided tour took me through all the buildings and rooms at the Vatican - a 110-acre sovereign nation where the pope and about 800 people reside. WOW - that was amazing! The Vatican Museums are a maze of rooms and buildings with wonderful works of art, artifacts, mosaic floors, and intricately painted ceilings. Several courtyards connect the buildings. Each room, courtyard, and garden took my breath away - so beautiful and peaceful. Included was time in the Sistine Chapel to see the famous ceiling painted by Michelangelo and St. Peter's Basilica - photos are prohibited in the chapel and basilica, but any photos I would have taken would never have done them justice, anyway. I also got to spend a little time in St. Peter's Square. All absolutely incredible! A point to be aware of: entry into any religious building in Italy requires you to have shoulders and knees covered - you won't be granted access otherwise. After the tour, I did some more walking around the area around the Vatican and sat a while with a cold bottle of water to "people watch" before grabbing a taxi back to the hotel for dinner.

I ate dinner there both nights because it was convenient, the food was amazing, the price was reasonable, and the waiters were adorable flirts! Hahaha

One of many stunning rooms with intricately painted ceilings, beautiful mosaic floors, and ancient artifacts in the Vatican in Rome, Italy

I would have liked to go to the colosseum after the Vatican, but it took longer than I expected and it was late in the day, so skipped it. I also really wanted to see the Trevi Fountain, but never found it in my exploring time - everyone I asked said it was "just over there - 5-10 minutes, tops", but it sadly eluded me. So, there were things I missed out on seeing, but it is OK.....I did a LOT in two days and got to see quite a bit of Rome. I kept reminding myself that Rome wasn't built in a day and it isn't possible to see it all in two days! Hahaha I think I did pretty darned good with the time I had. You won't want to miss out on seeing all the photos from my adventure in Rome that are featured in my Blog Post: <https://thoughtsbykim.com/2022/08/19/2022-mediterranean-adventure-rome-italy/>

My first day I stored my bags at the hotel and did a lot of walking around the heart of Rome and took a Hop-On-Hop-Off bus tour to get a taste of Rome. The famous Spanish Steps seen in many movies (like "Roman Holiday", starring Gregory Peck and Audrey Hepburn) were just a block or so away from the hotel, so I started there. Believe it or not, I made it up the 135 steps and back down. The view from the top was incredible! I got back to the hotel after several hours of exploring to check in and went across the street for dinner and a glass of wine. I had a wonderful conversation with a lady at the next table - she was a Delta flight attendant from Brooklyn.

Happy Adventuring,
Kim Pritt

This restaurant was across the narrow street from my hotel - amazing food with outdoor seating made for awesome dinners.

This is the first of a series of articles I will be writing to share stories and photos from a wonderful adventure I experienced as I cruised around the Mediterranean Sea in August. It was a trip I always wanted to do and when I saw a friend posting photos on Facebook of many of the places still on my bucket list, I checked it out....and decided to just do it!!! The trip began with two days in Rome, Italy and included a Mediterranean Cruise - 7 ports in 7 days covering Italy, France, and Spain. I technically visited five different countries, since I visited Vatican City and Monaco - the two smallest countries in the world as part of my time in Italy and France. The cruise started and ended in Rome.

International travel has been tricky of late with all the post-Covid restrictions. But, just as I was booking the cruise, the negative Covid test requirement for re-entry into the US was dropped - YAY! And, then, the cruise line dropped their requirement for a negative Covid test prior to boarding the ship as of August 1st. So - no Covid tests were required for any part of my trip. I had my vaccination records with me, but the only time I was asked for them was upon checking in to board the ship (but, we were told that any Italian or Spanish port could randomly ask for them and to be ready). So, it was a lot easier than my post-Covid trips to Costa Rica and Scotland. That was a real relief!

This article will focus on my two days in Rome. While the lifted restrictions for testing helped make international travel easier in that sense, there are still some things that need to be considered. In particular, the issues with air travel. Most airlines are still struggling with delays, cancellations, and other issues that cause problems with getting where you want to go in the time frame you want to get there. So - to ensure I didn't run into anything that would cause me to miss the start of my cruise on Tuesday, I left for Rome on Saturday. That would give me time to work through delays or cancellations without added stress. Luckily, all my flights went off as scheduled and I arrived in Rome on Sunday morning. That gave me Sunday and Monday to spend exploring Rome a bit. PERFECT!

The hotel I chose was the Hotel Homs in the heart of Rome - perfect location and a very nice boutique hotel. They had a lovely buffet breakfast and there was an outdoor restaurant located right across the narrow street.

Orleans County Sheriff's Office
CHILD PASSENGER SAFETY
Child Car Seat Check Point

PRESS RELEASE

Attention all Orleans County Parents/Caregivers:

Orleans County Sheriff Christopher M. Bourke announced a Child Car Seat Check Point Event will be held on Wednesday, August 31, 2022 at the Lyndonville High School Parking Lot.

According to data, vehicle crashes are the leading cause of death for children ranging from ages 1 to 13. Preventative measures, such as proper installation of car seats, boosters and seat belts can lower many deaths and injuries. Informing and instructing parents and caregivers on child safety and proper installation of car seats is critical to saving young lives.

Our Certified Child Passenger Safety Technicians will inspect your car/booster seats to assure that your child is in the correct seat for their size and age.

Car Seat Questions- Please contact Certified Technician Kevin Colonna 585-589-5527 Kevin.Colonna@orleanscountyny.gov
