Salome's Stars

ARIES (March 21 to April 19) As eager as you are to take on that new challenge, it would be best to temper that spurt of "Ram"-bunctious energy until you have more facts to back up your decision.

TAURUS (April 20 to May 20) This is a good time for hardworking Bovines to take a break from their hectic on-the-job schedules to bask in the unconditional love and support of friends and family.

GEMINI (May 21 to June 20) Pay attention to what you hear in the workplace. You could pick up some hints about possible changes. Meanwhile, a new infusion of creative energy sets in by week's end.

CANCER (June 21 to July 22) Try to be more flexible in dealing with a suddenly difficult situation, whether it's on the job or at home. Others might have some good points to offer. Listen to them.

LEO (July 23 to August 22) You might think you're not getting the royal treatment you deserve. But, be careful not to become a royal pain by complaining about it. Be patient and allow things to work out.

VIRGO (August 23 to September 22) Watch that penchant for being super judgmental at work. It might create a bad impression with someone whose decisions could determine the course of your career.

LIBRA (September 23 to October 22) You've been your usual busy-bee self, gathering nectar wherever you can find it. But now's a good time to kick back, relax and just enjoy smelling the roses.

SCORPIO (October 23 to November 21) That pesky personal situation seems to be improving. But, change comes slowly, so be patient. Expect someone to bring more positive news by week's end.

SAGITTARIUS (November 22 to December 21) Whoa! Ease up on that hectic pace you've been putting yourself through. Take time to recharge your energy levels before going at a full gallop again.

CAPRICORN (December 22 to January 19) Try to be intrigued, not intimidated, by the issues you're suddenly facing, and you'll be ahead of the game. Don't be afraid to demand answers to your questions.

AQUARIUS (January 20 to February 18) Are new associates freezing you out of their inner circle? Never mind. Put a warm smile on that friendly face of yours, and you'll soon thaw them all down to size.

PISCES (February 19 to March 20) Your wise guidance helps colleagues agree to compromise and move forward. Meanwhile, there are still vital issues you need to deal with in your personal life.

BORN THIS WEEK: You enjoy being free with your emotions, but you can exercise disciplined focus as well. You would make a fine artist.

Nutritious Eating

According to a recent article I just read on nutrition, they said eating right doesn't have to be complicated. Nutritionists say there is a simple way to tell if you're eating right. Colors. Fill your plates with bright colors. Greens, reds, yellows.

In fact, I did that this morning. I had an entire bowl of M&M's. It was delicious! I never knew eating right could be so easy.

I now have a whole new outlook on life.

Some time ago, a family had to make a difficult life decision and had to find another home for their beloved family dog. As the woman left crying, she turned to me and whispered, "Please make sure she is loved."

We believe that it is a purpose of every shelter and rescue group to not only find homes for as many animals as possible, but to find loving, lifelong, responsible homes where their physical and emotional needs will be met.

We live in the Information Age and can see a picture of the pineapple that someone's nephew's cousin's grandmother is going to eat for breakfast after landing in Hawaii. Having such instantaneous connections and billions of nuggets of knowledge at our fingertips can be both good and bad.

The posting on social media of videos and pictures of animals has helped us know what those who love and respect animals already have known - that animals have deep emotions.

We have all seen videos and pictures of mother animals that are distraught about their babies who are in trouble. Many years ago, April Hogan, the shelter manager, and I received a call about a bird that seemed in distress. When we arrived at the location, we saw the adult bird hopping around a storm drain. Her fledgling had fallen into the storm drain and could not get out. We duct-taped a wooden dowel to a small fish net and were able to rescue the bird from the drain. The two of them flew off together. At the shelter, we have witnessed the joyful reunions of dogs and cats with their owners; in fact, the body language of the animal can speak volumes of how they feel about their humans.

I will never forget the case years ago when an emaciated ferret was found on the Riverwalk trail and brought to us. Her relief was evident when she was put in a cage with a soft towel, food, and water. However, a couple of days later a family brought another emaciated ferret they had found on the Riverwalk. We felt it was not a coincidence, so we put them together. The happiness was apparent and we felt they had both been abandoned. Anyone who witnesses any of the above events can know that which people who love and respect animals have always said - that animals have relationships and emotional ties independent of humans. We simply cannot know the depth of their happiness, grief, pain, contentment, etc.

That is one of the reasons we humans must be so careful making decisions about and for animals. We make the decisions, and they usually bear the consequences. Our adoption decisions are based on the thought, "Make sure they are loved."

Even Exchange by Donna Pettman

Each numbered row contains two clues and two 6-letter answers. The two answers differ from each other by only one letter, which has already been inserted. For example, if you exchange the A from MASTER for an I, you get MISTER. Do not change the order of the letters.

Tradesman Trucking Breaks Ground on Gretna Facility, Investing \$4.5 Million and Creating 30 Jobs

Pittsylvania County officials and community leaders joined representatives from Tradesman Trucking to celebrate the groundbreaking of a new 22,500-square-foot facility in the Gretna Industrial Park. A growing trucking and transit company that provides freight and other services, Tradesman Trucking is investing \$4.5 million and creating 30 new jobs with this project.

Litter Cleanup Project on Goodyear Blvd.

On August 27th, six members of the American Criminal Justice Association's Alpha Upsilon Lambda's Professional Chapter collected 8 bags of litter on a 4-mile stretch of Goodyear Blvd. According to advisor John Wilt, the chapter's next activity is to travel to West Chester University in Pennsylvania and participate in a Fall 2022 ACJA-LAE Region IV conference which features speakers, a job fair, competition events and academic examinations.

DCC Educational Foundation Funds New Health Sciences Equipment

DANVILLE, VA — The Dental Assisting and Certified Nurse Aid (CNA) programs at Danville Community College (DCC) will be enjoying new, state-of-the-art equipment for the 22-23 academic year, thanks to the DCC Educational Foundation and its generous donors.

"It is our top priority to ensure that our students receive the highest quality higher education possible," said Dr. Jerry Wallace, president of DCC. "The DCC Educational Foundation supports this priority by purchasing equipment that we might not otherwise be able to obtain."

The purchase included two blood pressure simulators, complete with a speaker system, for the incoming CNA class of 20 students, which began on Tuesday, August 22. The two blood pressure simulators were purchased from Pocket Nurse for \$3,500.

Also purchased as part of the equipment donation were two simulation manikins with opaque jaws on disconnect trays, complete with sliding clamp assembly. These chair mounted mannequins were purchased through Columbia Dentoform Corporation for \$4,300. The incoming Dental Assisting cohort has 12 students.

"Without the generosity of our amazing donors, the DCC Educational Foundation would not have the opportunity to provide new equipment for our incoming students," stated Shannon Hair, vice president of Institutional Advancement at DCC and executive director of the DCC Educational Foundation. "This new equipment provides a cutting edge learning environment for our students."

DCC Educational Foundation strives to bridge the gap for programs where upgraded equipment is needed for instruction but operational budgets may be too tight to allow for these large purchases.

"I have found through my years of instruction, manual blood pressure; the art of measuring blood pressure using a stethoscope and sphygmomanometer, can be intimidating for students," said Rosa Wilson, RN, BSN, instructor of nursing at DCC. "The ability to perform the technical aspects, as well as the auditory aspects, requires lots of practice. The blood pressure arm simulators will be of great benefit to our nurse aide students and our medication aide students. We are thrilled that the DCC Education Foundation, with the help of their donors, reached out to provide our students with this much needed teaching tool."

Annually, DCC Educational Foundation is actively fundraising to ensure that instructors and students are teaching and learning with the most modern, up-to-date equipment possible.

"As an instructor, I am very grateful to the DCC Foundation and its donors who have generously provided us with these mannequins," said Carmen Chilton, CDA, Dental Assisting instructor at DCC. "We will use this equipment to train our dental assisting students to proficiently execute intraoral radiographs in preparation for their future roles in working dental offices."

For more information about the DCC Educational Foundation or to donate, visit danville.edu/foundation.

Kiwanis Speaker

On September 1st, Kiwanis Club members heard from retired optician Dr. Nancy Clark about her trips to Peru, Honduras, Mexico City, El Salvador and Guatemala where she and team members held eye clinics and delivered reading glasses to local residents. Since 1979, Dr. Clark has made over 30 trips to central and South American countries helping residents improve their eye site capabilities. Pictured with Dr. Clark is Vanessa Scarce who is the Kiwanis Club program committee chairperson.

IN OR OUT! School's in, but which path leads to the door? Choose line 1, 2, 3 or 4, and see if you have picked the right one.

REACT-O! Quick: Rearrange letters of REACT to form four more five-letter words.
Crate, cater, caret, trace.

SUM PURR-PUSS! Blame it on the cat. Eight of the 18 numbers of this multiplication problem are missing, purloined perhaps by our frisky kitten friend. In any case, you are invited to restore what's missing.
Hint: Five times something results in a five, and five times five requires a certain sum to produce eight.
How quickly can you fill the blanks?
Time limit: Two minutes.

HOLD THAT LINE DRAWING TEST

IT IS possible to draw the configuration, left, in a continuous single line. That is to say, without lifting pencil from paper. To start, place pencil at point A, draw to B, around to C...and take it from there. Lines may cross but may not be retraced. Remember, object is to draw the figure in a single continuous line.

Draw A to B, to C, back to A, to D, around circle back to D, to E, F, G, H, I, E, J, K, L, M, back to J, to L.

SAY WHAT! Some expressions involving edibles are as right as rain. Hot potato, for instance. Or cool as a cucumber. And how about pea soup fog? Lentil soup fog, chicken soup fog or minestrone fog just don't cut it. Don't you agree?

Six five times three five seven equals two three two zero five.
