## Get Vaccinated and Boosted!

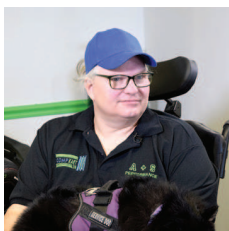

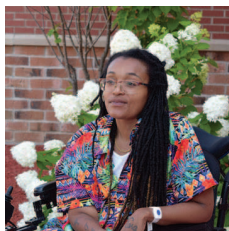

Unfortunately, many people now feel that COVID isn't a deadly threat anymore, but if you're an older adult or a person with chronic or disabling conditions, getting COVID can still kill you. Getting Vaccinated was definitely the right decision for me."

*David Wantuck - Amherst, NY*

"Everyone is different. If you catch COVID, there's no way to predict how severe it might be. It can kill you or you can have no symptoms at all. That's why I got Vaccinated."

*Krystle Babbs - Buffalo, NY*

If you are listening to all the misinformation out there, listen to this. The COVID vaccine is still the safest and most effective way of reducing risk of a serious illness or death. Just ask your doctor, I did."
