Salome's Stars

ARIES (March 21 to April 19) Someone has some suggestions to offer regarding your new project. You might find them helpful. Remember to avoid speculation and to stick with just the facts, dear Lamb.

TAURUS (April 20 to May 20) An old friend suddenly reappears. Whether this proves to be a boon or a bane in the Bovine's life depends on the reason for this surprising reappearance. Be cautious.

GEMINI (May 21 to June 20) Vital information finally emerges, allowing you to make that important personal decision. You can now move your focus to an upcoming professional development.

CANCER (June 21 to July 22) You might not like seeing so many on-the-job changes. But some of them could open new opportunities for your Moon Child talents to shine to your best advantage.

LEO (July 23 to August 22) Expect a challenge to the usual way you do things. Although you might prefer the tried-and-true, once you take a good look at this new idea, you might feel more receptive to it.

VIRGO (August 23 to September 22) A close friend could offer advice on how to handle a difficult family matter. But in the end, the decision has to be made based on what is best for you and those you love.

LIBRA (September 23 to October 22) Family problems are best worked out when all those concerned contribute suggestions that will ease tensions. Stay with it until a workable solution is found.

SCORPIO (October 23 to November 21) Expect to hear more about an offer that has piqued your interest. You earn respect for insisting on solid facts, not just a fancy talk about potential opportunities.

SAGITTARIUS (November 22 to December 21) What seemed to be a reasonable workplace request might need to be defended. Don't fret. You have both the facts and a surprise ally on your side.

CAPRICORN (December 22 to January 19) A bit of capriciousness might be just what you need. Plan to kick up your heels in a round of fun and games with family and friends this weekend.

AQUARIUS (January 20 to February 18) Although some of your plans might have to be put on hold, things do begin to take a turn for the better by midweek. Your financial crunch also eases.

PISCES (February 19 to March 20) Your financial picture begins to brighten by week's end. There are also favorable changes in your personal life. Someone you care for has good news to report.

BORN THIS WEEK: You seek balance, but not at the expense of justice. You would make a fine judge.

996 South Boston Rd., Danville, VA 24540
Phone: (434) 799-0843

When I walked through the shelter doors on June 1, 1992, to become the executive director, I thought I was emotionally prepared. I was not. After serving in that capacity for about five years, I enrolled in the humane investigator course sponsored at the time by the State Vet and several months later, was court-appointed in Danville and Pittsylvania County to investigate complaints of animal neglect and cruelty. Because of my years on the board and my five years as the director, I once again made the mistake of thinking I was emotionally prepared. I was not.

Years before, I had read a story in the James Herriot series (I think) about a Golden Retriever who had spent years living in isolated darkness in a shed. She was skinny and scared when she was finally rescued. There were no pictures of her, but I knew exactly what expression she had on her face. I have now seen it thousands and thousands of times.

In 1990, I received a calendar of cat pictures. One picture was a tiny gray tabby that had just been rescued from a storm drain. I know have seen that expression tens of thousands of times.

After seeing a long line of emaciated animals that number into the tens of thousands, we know that pets truly have starved to death. As you are reading this, I can guarantee that many animals in this area are being denied food. The lucky ones are rescued and brought to the shelter where their food bowls are never empty. We have seen starving dogs and cats strain to get to the food as soon as the smell reaches their noses. We have picked up their dead bodies and have taken pictures for evidence. We have also taken pictures of the ones who are so skeletal that we do not know if they will survive.

In hot weather, I cannot drink cold water without thinking of the thousands of animals who would be

grateful for a sip of even warm, dirty water.

I have seen countless animals that are in homes where they live in fear of being abused. Trust me, you would not want to know the details of the abuse. The facts are horrific.

I have seen dogs and cats that have lived in isolation for over a decade, with their living area completely surrounded in black plastic so their world is a very small, sad one.

I have stepped on floors that appear to be moving, until I realized that it was the thousands of roaches that I startled. I have seen dogs that had recently been used as bait by dog fighters and have seized kittens that were in cages, waiting for their turn to be torn apart by dogs.

Hamsters are tortured to death by children whose parents want them to have the experience of pet ownership. Goldfish are flushed when they become too much trouble. On and on and on it goes.

We can tell you that no species of companion animals is immune from the cruelty of humans.

If you are still reading this, thank you! All of these things, plus countless more stories, are why we screen homes before adoptions. The animals are the reason why.

Happy 25th Birthday, Chelsea Custer, on Oct 21st!! Love, Mama

October 2022 Monthly Health Article – Breast Cancer Awareness

Breast Cancer: Your Questions Answered
 By: Collin Kent, MD

Breast Cancer Awareness Month is observed nationwide every October to raise awareness about the impact of breast cancer and provide education on the most common symptoms and risk factors for the disease. By staying informed and taking proactive measures for early detection of breast cancer, we can help to minimize the effect this disease has on women in our communities.

Why is Breast Cancer Awareness Month so important?

The average woman's risk of breast cancer is around 13 percent in the U.S. – meaning about one in eight women will be diagnosed with invasive breast cancer in her lifetime. In fact, breast cancer is the most common form of cancer among American women besides skin cancers. Breast cancer is also the second leading cause of cancer death in women, surpassed only by lung cancer. According to the Centers for Disease Control and Prevention (CDC), about 264,000 women are diagnosed with breast cancer each year in the U.S., and roughly 42,000 women die as a result.

What are the risk factors?

Arguably the biggest risk factor for developing breast cancer is aging, but it's important to remember that all women – no matter their age – can develop breast cancer. This means you may need to begin annual screenings sooner if you are at higher risk. Important risk factors to consider include a family history of breast cancer, certain genetic mutations, having dense breasts, lack of physical activity, and being overweight after menopause, among others. Talk with your provider about your risk factors and ask about the best time for you to begin regular breast health screenings.

What are the symptoms?

There are many types of breast cancer, and they can present with a variety of warning signs. Some of these signs include a new lump in the breast or underarm, change in the size or shape of the breast, breast skin irritation, pain in the breast, and discharge other than breast milk. Although there are a variety of symptoms of breast cancer, many people diagnosed with breast cancer have no signs at all. That is why it is important to stay on top of your health and take the proper steps to detect breast cancer early, including having annual mammograms.

What is a mammogram?

A mammogram is a simple, routine screening recommended for women aged 40 and older that helps detect breast cancer before symptoms arise. A mammogram screening only takes about an hour, once a year, and is the best way to detect breast cancer before lumps can be felt or other symptoms appear. Mammograms have been proven to help reduce deaths from breast cancer by detecting the disease early, when you're more likely to have easier and more effective treatment.

What else can I do?

In addition to annual mammograms, there are a few proactive things you can do to help lower your risk for breast cancer including exercising regularly, eating a healthy diet, avoiding smoking, and limiting alcohol intake. Talk to your doctor if you notice any concerning changes in your breasts.

For more information on breast cancer symptoms, risk factors and screening methods, please visit <https://www.cdc.gov/cancer/breast/> or www.breastcancer.org. If you would like to schedule your annual mammogram or talk with a provider about your breast health, Sovah Health can help. Call 844.GO.SOVAH or visit the "Find a Doctor" tab at SovahHealth.com.

* Those of us who have a little difficulty successfully sealing wraps, gyros or burritos are at last in luck, thanks to a group of female engineering students who came up with a solution called Tastee Tape. It will hold your food nicely in place during cooking or consumption. And yes, it is an edible tape.

* Only humans have chins.

* Ladybugs are cute, but they're also cannibals. These tiny spotted creatures will, if need be, eat fertilized ladybug eggs, ladybug larvae and even other adult ladybugs.

* Do you know someone who really loves to tell jokes? Here's hoping they aren't suffering from a rare syndrome known as Witzelsucht, or joke addiction, affecting certain folks with an injury to their brain's right hemisphere. One such patient couldn't stop waking his poor wife in the middle of the night to share his jokes with her.

* The longest eyelash on record reached a length of 2.75 inches and belonged to one Stuart Muller, who attributed the record-setting strand to a "mutant follicle."

* When the German football club FC Union Berlin faced bankruptcy in 2004, its loyal fans donated enough blood en masse that sufficient funds were raised to save it.

* King Charles III will receive his crown while sitting on a throne containing the Stone of Destiny, a rock that was stolen from Scotland in 1296 and carried to Westminster Abbey by King Edward I, then returned to Scotland 700 years later. But why is it significant, other than its feature in a royal coronation? It is said to be the stone on which the biblical Jacob rested his head when he dreamed of a ladder ascending to heaven!

Cutting Down on Scam Phone Calls

Welcome to the season of increased scam telemarketer phone calls, either political or holiday related.

The National Do Not Call Registry is a government program intended to block unwanted sales calls. It's a free service, and all you have to do is sign up either on your phone or on the internet.

Call 888-382-1222 from the phone you want to block and follow the steps. Or go online to donotcall.gov and read the info. A word of warning: If you register your number online, you are also required to enter an email address. They'll send you a note asking you to click a link in that email to finish the registration to stop unwanted calls -- if they stop.

Blocking scammers on the registry doesn't take care of the whole problem. The FAQ on the site says that certain types of calls are allowed: political, charitable, debt collection, informational and surveys. Think about the holes those leave.

I maintain that receiving a political call is still a sales call -- they're trying to sell us on the idea of voting a certain way, and therefore political calls also should be blocked in the Do Not Call Registry. Surveys can be just as bad if the questions they ask are clearly skewed in one direction or another.

I see charitable calls as scams if they take your personal banking or credit-card information. Additionally, if you've ever done business with a company, they're allowed to call you.

So, there are holes in the system. But you can take steps to stop at least some of the calls by registering with Do Not Call.

As an aside, I called the registry to verify that my phone is already listed. Yes, despite all the calls I get, it's been listed as a do-not-call number since 2006.

* Using your fireplace? Try adding citrus peels to the logs for a nice aroma. They can be a good starter material as well.

* Those hide-a-key rocks can be a little obvious -- at least they are to me. I have a spare key hidden outside too, but I sealed mine in a plastic baggie and buried it in a spot known to our family members. Also, it's not right by the door. -- I.E. in Mississippi

* When closing up our cabin for the season, we brought a box of mothballs and scattered them around the porch perimeter. This keeps the small animals like mice and skunks from setting up shop there while no one is around. -- S.F. in Pennsylvania

* Now's a great time to start weatherstripping! Check and recaulk windows. Caulk along baseboards to deter drafts. Add insulation to electrical outlets and under sinks around plumbing. Seal it up to stay toasty this winter.

* Remember to turn off bathroom fans after 10 minutes. In the winter, if your house is on the dry side, don't use the fan at all: Open the door so the humidity from the shower or bath reaches into the house.

* "To remove the skin from salmon, I freeze it and skin it while frozen. The skin comes off much easier, and I waste less of the fish. I buy a large piece and parcel it into several smaller pieces, since it's just me. I like salmon, and it's healthy for me!" -- L.A. in Florida

- Who wrote and released "Big Yellow Taxi"?
- Which group released an album titled "Waiting for the Sun"?
- Why was Carnaby Street popular in the 1960s?
- Which group released "Lyn' Eyes"?
- Name the song that contains these lyrics: "Loneliness is the cloak you wear, A deep shade of blue is always there."

Answers

- Joni Mitchell, in 1970. She wrote the song in Hawaii after seeing the gorgeous landscape broken up by a massive paved parking lot.
- The Doors, in 1968. It was their only No. 1 album and included "Hello, I Love You," one of their only two chart topper singles, the other being "Light My Fire."
- Carnaby Street, likely first built in 1685, became a hippie haven by the 1960s. It was dedicated to fashion and music, with underground clubs where groups like the Rolling Stones and The Who got a start.
- The Eagles, in 1975. The song nabbed a Grammy for Pop Vocals.
- "The Sun Ain't Gonna Shine Anymore," by Frankie Valli in 1965, and then a year later The Walker Brothers released their own cover. The Valli version only hit No. 128 on the charts, but the Walkers' version went to No. 13 and is the one everyone remembers.

EASY CHILI RECIPE

Ingredients

- 2 tablespoons olive oil
- 1 yellow onion, diced
- 2 lbs. ground beef, 90% lean
- Salt/pepper
- 3 cloves garlic, minced
- 1 green bell pepper, seeded and diced
- 1 jalapeno pepper, seeded and diced
- 3 tablespoons tomato paste
- 1 tablespoon brown sugar, optional
- 2 teaspoons Worcestershire sauce
- 2 teaspoons hot sauce
- 1 cup chicken broth, see notes
- 1 cube beef bouillon, or 1 tsp better than bouillon
- 28 oz. crushed tomatoes
- 14.5 oz. diced tomatoes, undrained
- 16 oz. Kidney Beans, drained
- 2 ½ tablespoons chili powder
- 1 teaspoon Each: ground cumin, dried oregano, salt, mustard powder
- 1/4 teaspoon cayenne pepper
- 1 pinch red pepper flakes

Garnish Options

Shredded cheddar cheese, sour cream, lime wedges, and Fritos or tortilla chips.

Instructions

Heat olive oil in a large pot over medium heat. Add the onions and let them soften for 8 minutes, stirring occasionally. (This allows them to release their natural sugars which is a nice offset to the acidity from the tomatoes. They also are very soft and subtle in the chili.) Season the ground beef with salt and pepper. Increase heat to medium-high. Add the ground beef and cook and crumble it for 5 minutes. Add the garlic and bell/jalapeno peppers and cook for 3 more minutes. Drain excess grease. Add the seasonings and toss to coat. Add the tomato paste, brown sugar, Worcestershire sauce, and hot sauce. Toss to season and coat the beef evenly. Add the chicken broth and use a silicone spatula to "clean" the bottom and sides of the pot. Add the beef bouillon, crushed tomatoes, and diced tomatoes. Bring to a boil, then reduce to a simmer. Cover partially and simmer for 45 minutes, stirring occasionally to lift any meat that has settled to the bottom. Stir in the drained kidney beans and simmer for 15 more minutes or until desired consistency is obtained. Taste and add seasonings as needed. Let it rest for 5 minutes prior to serving (with cornbread!), it will thicken even further.
