We Feel the Love.

Daily Local readers have voted, and the results are in. You've named CarShop 2022's **Best Dealer in Chester County**. It's not only an honor, but a pleasure to serve Chester County year after year, first as CarSense, and today under our new name CarShop. Our customers are at the center of all we do and the very reason we skip all the silly "typical car dealership" stuff. Thank you for your trust. We hope to see you soon.

Bulldog yoga classes

were created with a sole focus on your objectives...and to eliminate the intimidating feeling many of us get when we go to a gym, yoga studio, etc.

Do you want to become #bulldogstrong?

Want to be challenged? We can make that happen. Is your goal to **"get a good stretch"** and take it slow? That works, too.

We are about making yoga classes more approachable and accessible....and fun!

The mood at Bulldog is happy, not serious. After all, shouldn't the time you spend taking care of yourself with us be uplifting?

Bulldog yoga studios offers a community which is energetically spirited, friendly and supportive.

The Barron's Winner's Circle Top 100 and the Barron's Hall of Fame are select groups of individuals who are screened on a number of different criteria. Among factors the survey takes into consideration are the overall size and success of practices, the quality of service provided to clients, adherence to high standards of industry regulatory compliance, and leadership in "best practices" of wealth management. Portfolio performance is not a factor. Please see www.barrons.com for more information.

The Forbes ranking of America's Top Wealth advisors, is based on an algorithm of qualitative and quantitative data, rating thousands of wealth advisors with a minimum of seven years of experience and weighing factors like revenue trends, assets under management, compliance records, industry experience and best practices learned through telephone and in-person interviews. There is no fee in exchange for rankings. Forbes "Best In State Wealth Advisors 2022" list (Feb. 2022) and Forbes Top 250 rankings for these lists by SHOOK Research is based on due diligence meetings to evaluate each advisor qualitatively, a major component of a ranking algorithm that includes client retention, industry experience, review of compliance records, firm nominations; and quantitative criteria, including: assets under management and revenue generated for their firms.
