**ARIES** (March 21 to April 19) Although you love being the focus of everyone's attention, it's a good idea to take a few steps back right now to just watch the action. What you see can help with an upcoming decision.

**TAURUS** (April 20 to May 20) "Caution" continues to be your watchword this week, as a former colleague tries to reconnect old links. There are still some dark places that need to be illuminated.

**GEMINI** (May 21 to June 20) Making a good first impression is important. Revealing your often hidden sense of humor can help you get through some of the more awkward situations.

**CANCER** (June 21 to July 22) Are you taking that Cancer Crab image too seriously? Lighten up. Instead of complaining about your problems, start resolving them. A friend would be happy to help.

**LEO** (July 23 to August 22) A widening distance between you and that special person needs to be handled with honesty and sensitivity. Don't let jealousy create an even greater gap between you two.

**VIRGO** (August 23 to September 22) Congratulations. Your handling of a delicate family matter rates kudos. But, no resting on your laurels just yet. You still have to resolve that on-the-job problem.

**LIBRA** (September 23 to October 22) You might surprise everyone by being unusually impulsive this week. But even level-headed Libras need to do the unexpected now and then.

**SCORPIO** (October 23 to November 21) A period of turmoil gives way to a calmer, more settled environment. Use this quieter time to patch up neglected personal and/or professional relationships.

**SAGITTARIUS** (November 22 to December 21) A new relationship could create resentment among family and friends who feel left out of your life. Show them you care by making more time for them.

**CAPRICORN** (December 22 to January 19) Concentrate on completing all your unfinished tasks before deadline. You'll then be able to use this freed-up time to research new career opportunities.

**AQUARIUS** (January 20 to February 18) You're right to try to help colleagues resolve their heated differences. But keep your objectivity, and avoid showing any favoritism between the two sides.

**PISCES** (February 19 to March 20) Your personal life continues to show positive changes. Enjoy this happy turn of events, by all means. But be careful not to neglect your workplace obligations.

**BORN THIS WEEK:** People of all ages look to you for advice and encouragement. You would make an excellent counselor.

## Danville Utilities holds ribbon cutting for battery storage project

State and local officials gathered Tuesday to hold a ribbon cutting for Danville Utilities' new battery energy storage pilot project, which was recently energized. Battery storage is one of several initiatives that Danville Utilities has undertaken to offset some of the volatility of the energy market.

The battery system consists of eight containers with 24 banks of advanced commercial batteries in each container. In total, the system has a rated capacity of 10.5 megawatts and 24.6 megawatt hours, meaning it can provide approximately 10.5 megawatts of power for almost 2.5 hours during peak demand events.

"These batteries will let us store energy for when our customers need it most," Mayor Alonzo Jones said at the ceremony. Peak demand usually occurs on the coldest and hottest days of the year. By storing energy during times of low-cost, low-electric demand, the battery system will reduce the amount of energy that must be pulled from the power grid outside the Danville Utilities system during times of high-cost, high-electric demand — in turn, lowering transmission and power capacity costs.

Delorean Power installed the system and will operate and maintain it. Founded in 2019, Delorean Power is an Arlington, Virginia-based company that is developing battery energy storage projects across the mid-Atlantic, Northeast, and Midwest. The Danville battery system is the company's first operational project.

"This project is going to put Danville at the forefront of a rapidly evolving energy industry," said Rory Jones, co-founder and managing partner of Delorean Power. "This is the largest municipal project in Virginia, and it is setting a national precedent. It will pave the way for more projects to come."

Michael Herbert, co-founder and managing partner of the company, said using battery storage for peak shaving is an innovative approach to managing wholesale power costs. "In signing solar contracts and exploring battery storage opportunities before the Virginia Clean Economy Act was ever passed, Danville Utilities stands ahead of the industry in transitioning to a cleaner, more cost-effective future," Herbert said. "This battery project has set significant precedent in local, state and federal level permitting processes, which will create efficiencies for future clean energy deployments." Delorean Power presented a check for \$10,000 to Danville-Pittsylvania County Habitat for Humanity for its Village North project.

\* Halloween can be a spooky good time for children and adults alike, but the cost of costumes can be downright scary. When I was a child, my brother and I dressed as a pirate and a gypsy, respectively, for several years, as they were costumes that could be put together using things you might find around the house. This week, a focus on inexpensive or FREE Halloween costumes. Happy Halloween!

\* Most anyone can come up with a ghost costume (basically, a white sheet with eyes cut out and cut off at the bottom so it's not too long). How about dressing up that ghost with costume jewelry and makeup, or a mustache/beard drawn on, with a tie and carrying a briefcase labeled "Scare Corporation"? Use hats or other dress-up accessories to make Dr. Ghost or Officer Ghost. The possibilities are endless.

\* A basic scarecrow needs only a flannel shirt, a pair of jeans and socks, a floppy hat and some straw. Stuff wadded-up plastic bags into shirt or pants to fill, then use rubber bands to secure straw at the cuffs. Paint on a funny face. (Thanks J.R. in Illinois.)

\* Be an over-the-top tourist: A loud Hawaiian-style shirt paired with a pair of shorts, perhaps socks with sandals? Carry a camera on a strap around your neck. Use a small carry-on bag as your treat bag, or decorate a paper sack by gluing on squares cut from a map.

\* Be Static Cling! Use safety pins to pin a variety of small items to your outfit -- think socks, scarves, even a pair of undies if you dare! Tease hair until it's standing straight up, and use hairspray to keep it that way.

\* Get your hands on a large, clear plastic bag and some small colorful balloons. Cut leg and arm holes in the bag, with the opening side up (it will be secured at your neck). Blow up the balloons and fill the bag while you're wearing it. Secure loosely at your neck with a pretty ribbon, and you're an instant Bag of Jelly Beans. Make a sign to attach across your back or front. Be careful when you sit down!
