We Can't Wait To Vote On November 8!

There are so many issues that affect so many people of all ages in this year's election: working people, women, children, parents, the elderly, students, retirees, homeowners, renters, union members, business owners, home makers, medical personnel, healthcare, insurance, public safety, taxes, right to vote, infrastructure. Will you vote, or will you let someone else make your choices for you? Get involved! Go to the polls on November 8 or vote absentee. Encourage your friends and family to register and vote. Not registered? Here's how to register and guarantee your right to be heard: in person or by contacting your clerk's or secretary of state office or online at mVIC.sos.state.mi.us

You may also request an absentee ballot by either method.

80 million registered voters did not vote in 2020. They doubled the value of someone else's vote. Not voting is not a protest. It is a surrender.

AMERICA NEEDS YOUR VOTE!

Fall Car Care

Fall is the ideal time to give your car some extra attention before harsh winter weather sets in. Taking a little time for auto care now can help you avoid the headaches of a costly emergency breakdown later.

1. **Check all fluids**, including engine oil, power steering, brake and transmission as well as windshield washer solvent and antifreeze/coolant.
2. **Check the hoses and belts** to make sure they are not cracked, brittle, frayed, loose or showing signs of excessive wear.
3. **Check the battery** and replace if necessary. Make sure the connection is clean, tight and corrosion-free.
4. **Check the brake system** annually and have the brake linings, rotors and drums inspected at each oil change.
5. **Inspect the exhaust system** for leaks, damage and broken supports or hangers if there is an unusual noise. Exhaust leaks can be dangerous and must be corrected without delay.
6. **Check the engine** to make sure it is delivering the best balance of power and fuel economy and producing the lowest level of emissions.
7. **Check the heating, ventilation and air conditioning (HVAC) system** as proper heating and cooling performance is critical for interior comfort and safety reasons, such as defrosting.
8. **Inspect the steering and suspension system** annually, including shock absorbers, struts and chassis parts such as ball joints, tie rod ends and other related components.
9. **Check the tires**, including tire pressure and tread. Uneven wear indicates a need for wheel alignment. Tires should also be checked for bulges and bald spots.
10. **Check the wipers and lighting** so that you can see and be seen. Check that all interior and exterior lighting is working properly and replace worn wiper blades so you can see clearly when driving during precipitation.

We feature high-quality Andersen® Products

At Andersen, we're driven to deliver the best windows possible. For over 100 years we've constantly innovated how our windows are made. Along the way we've evolved each of our windows to use the right materials in the right places so that they provide unmatched beauty on the outside and industry leading performance on the inside. We back our windows with some of the most comprehensive warranties in the business, so rest assured that your windows will perform beautifully for years to come.
