### Monthly Message from Green Orleans

Green Orleans is a small grassroots organization that is open to Orleans County citizens who are committed to encouraging the members of our community to incorporate actions into the daily lives that will help reduce our environmental footprint.

In this vein, on a monthly basis, Green Orleans will share ideas in the Lake Country Pennsaver in hopes that Orleans County residents will consider implementing them in their daily lives. Keep in mind that small actions by many people, will make a difference. This month we will focus on being eco-friendly during the holiday season.

- "Earth911 estimates that approximately 4.6 million pounds of wrapping paper is produced in the U.S. each year and that about 2.3 million pounds (about half of it) ends up in landfills."\*\* Get creative and try wrapping gifts in old newspaper pages, old maps, paper shopping bags (cut them open and turn them inside out), old sheet music (Christmas carols would be fun), pictures from old calendars, kid's drawings or paintings, pages from damaged books, and/or colorful tea towels or scarves. Also, consider using a colorful pillowcase to put large, or awkwardly-shaped, items in.
- Stocking stuffers often are small plastic gadgets or toys that end-up broken or lost by January. Instead, go with an old-fashioned tradition and fill your stockings with edible treats like: nuts, clementines, apples, pears and/or homemade Chex Mix, candy, or cookies.
- Consider donating to a non-profit organization (i.e. a charity, service organization, or church) in honor of the gift recipient and inform them of the donation with a card. There are many organizations right here in Orleans County that would greatly appreciate the support.
- Consider donating a tree to be planted through a tree recovery program to restore a community, state forest or nature preserve that has been impacted by a natural disaster such as a wildfire, hurricane, or flood in honor of the gift recipient. Each honorary tree planting includes a commemorative card. One such tree recovery program is A Living Tribute [<https://shop.alivingtribute.org/products/community-tree-planting>].

If you are interested in becoming part of Green Orleans, or just helping us out occasionally on a project, call 589-5053 or 589-1405 (leave a message). Our next meeting is Thursday, December 15, 2022 at 11:30am the Hoag Library (magazine area).

# Wedding Guide

**BOOK**  
Your Wedding!

## How to build a wedding budget without breaking the bank

Wedding planning is a unique experience unlike any endeavor most couples will ever encounter. Much effort goes into planning a wedding, and that includes building a budget that ensures the big day will be fun without breaking the bank.

Most couples planning a wedding have never tied the knot before, so it can be difficult to determine a reasonable amount to spend. It's easy to go overboard when planning a wedding, and couples may find their list of wants and, consequently, their expenses, growing as they get into the weeds of wedding planning. Though it might require some difficult decisions, couples can keep these tips in mind so they can build a wedding budget that won't land them in debt after saying, "I do."

Determine funding. The days when a bride's parents would finance the wedding entirely on their own are largely a thing of the past. According to a recent

WeddingWire Newlywed Report, parents now pay for 52 percent of wedding expenses. As couples begin establishing a wedding budget, it's imperative that they first determine who, if anyone, will be helping them finance the big day. Fifty-two percent of wedding expenses is a significant amount of money, but in that scenario, couples will still need to come up with roughly half of the money needed to fund their weddings. Couples without substantial savings may be forced to cut back in order to avoid beginning their life as a married couple in debt.

- Make a list of potential expenses. Location will be a significant factor when determining potential expenses. For example, a 2022 ValuePenguin analysis of data from The Wedding Report found that the average wedding in Massachusetts cost roughly \$30,500 in 2020, while couples tying the knot in Arkansas spent around \$12,500

on their weddings. With such wild fluctuations, it's important that couples get an accurate estimate of how much it may cost them to get married in a given city. Couples who met in a city and still live in a city but grew up in a suburb might save a considerable sum by getting married in their hometowns. Compare and contrast prices in locales you're considering, and then build your budget accordingly. This can help you avoid sticker shock and going over budget. Notable expenses to budget include the venue, attire (i.e., wedding dress and tuxedo rental), hairstyle and makeup, entertainment, photography, and transportation, among others.

- Make a list of what's most important. Most couples will have to compromise in order to avoid taking on debt to finance their weddings. An earnest discussion about what's most important to each person can ensure you both get what you

want. Each person can make a list of their priorities, ranking them from most important to least important. Once lists are shared, couples can see where their priorities converge and where they diverge. Any items that rank low on each person's list of priorities can be afforded less funding, while those that are high on each list can take up more of the budget, if necessary.

- Commit to a limit before spending a dime. Committing to a limit before spending a dime can help couples keep wedding costs more manageable. Once that number is defined, couples can then work within its parameters, which can make potentially difficult decisions a little easier by narrowing options at a time when options can seem endless.

A well-planned budget can be just what couples need to begin married life on strong financial footing.

Stock #N5273

**IMPORTANT RECALL INFORMATION:** Before a certified pre-owned vehicle is listed or sold, GM requires dealers to complete all safety recalls. However, because even the best processes can break down, we encourage you to check the recall status of any vehicle at [www.recalls.gm.com](http://www.recalls.gm.com) or [www.SaferCar.gov](http://www.SaferCar.gov).

We've been doing the deal since 1939!
