Healthy New Year

Wishing you and your loved ones a healthy start to the new year. As we welcome a new year, we want to remind you that scheduling a yearly physical exam is an important part of maintaining good health.

Five questions to ask your doctor this year:

1. What is the most important change I can make to improve my health?
2. What vaccinations do I need to be up to date?
3. What is my blood pressure, cholesterol level and blood glucose level?
4. Knowing my family history, are there screenings or tests I should have?
5. Are any of my current medications no longer needed?

To learn more or find a provider online, visit **SovahHealth.com** or call **844.GO.SOVAH**

Masking and other infection prevention protocols are followed for specific patient encounters, as appropriate.

New Year, New You!

You WILL get out of debt this year. We can help.

ARIES (March 21 to April 19) Shutting people out to avoid distractions, even under a deadline, can cause hurt feelings. Instead, return calls and emails, and explain why you need a zone of privacy for now.

TAURUS (April 20 to May 20) Although your keen Bull's eyes usually can discern what's fact from what's faux, that upcoming decision will need really solid data before you can risk a commitment.

GEMINI (May 21 to June 20) As your confidence grows, you should be able to work toward your goals with more enthusiasm. Open your mind to suggestions. Some of them might even work for you.

CANCER (June 21 to July 22) Reconnecting with someone from your past stirs up that old sense of adventure. But before you do anything else, be sure to get answers to any lingering questions.

LEO (July 23 to August 22) Some people might resent the way you plan to resolve a difficult situation. But your commitment to making tough but fair decisions soon wins you their respect and support.

VIRGO (August 23 to September 22) Mixed signals could be causing that vexing workplace problem. Before you choose to leave the project, ask for a meeting so that you can get things out in the open.

LIBRA (September 23 to October 22) Your good intentions could backfire if you're not careful with other people's feelings. Try using persuasion, not pressure, to get others to see your side of the situation.

SCORPIO (October 23 to November 21) Your dedication to finishing the task at hand is laudable. But be careful not to overdo the midnight oil bit. Take time for relaxation with someone very special.

SAGITTARIUS (November 22 to December 21) Although your intuition will help you make some tough choices in the first half of the month, you'll need more facts to back up your actions later on.

CAPRICORN (December 22 to January 19) All that hard work and research in the workplace finally pays off as you hoped it would. Ignore comments from jealous types who are out to get the Goat riled up.

AQUARIUS (January 20 to February 18) An unfair decision creates unnecessary problems. But avoid anger and move carefully as you work this out. Expect to get support from an unlikely source.

PISCES (February 19 to March 20) A fuzzy financial vista persists until the end of the month, when things begin to clear up. You'll also gain a better perspective on how to handle pesky personal problems.

BORN THIS WEEK: You have a wonderful way of being there for those who need your help in difficult times.

Did You Know???

Colder weather stimulates more hair and coat growth from spending time in heat (inside) and outside in the colder winter weather. It's important to stick to your dog's regular grooming during winter months to keep their skin and fur healthy and well-protected.

Piedmont Pets

January 19, 2023

We receive many notices about pets that have wandered away. We also see many more posts on social media about lost pets. Many owners tell us that their animal must have been stolen because their dog or cat has never just wandered away; however, most of the time the animal has become lost for a variety of reasons.

A dog will sometimes just follow a scent his nose has picked up, sometimes they have been scared by other animals, and sometimes they just wander away. Cats who are allowed outside can also become frightened by other animals or loud noises and run away in fear. In addition, cats do get into car engines and are given a very dangerous ride to destinations far away.

There are many reasons why dogs and cats become strays. The best line of defense is to provide a collar and identification information. Even in areas that permit dogs to wander require a current city or county tag. Microchipping a pet is becoming increasingly important because of the increase in people picking up strays and either keeping them or placing them in rescue groups.

If the worst happens and your dog or cat is missing, contact all animal shelters within a 50-mile radius. It may be very helpful to make copies of a recent picture and take them to the shelters. Sometimes, owners describe an animal and the person hearing the description gets a different picture in their mind. Coming to the shelter is wise.

People are beginning to rely just on social media, and this is not a good idea. Walk or drive through your

DAHS

Danville Area Humane Society

Phone: (434) 799-0843

neighborhood several times each day, and ask mailmen, delivery people, and anyone you see if they have seen your pet.

Most veterinary clinics will allow notices about lost pets to be placed on a bulletin board. Place advertisements in local newspapers and with radio stations. Include a lot of information about your pet, including age, sex, size, breed, and color. It is sometimes wise to leave out one identifying feature so if someone calls claiming to have found your pet, you would be able to spot calls from people who merely seek a monetary reward.

A reward for finding a returning a lost animal is always a good idea, and should be included on all notices and advertisements.

Life as a stray animal is not pleasant, and owners need to be diligent in doing everything they can to search for their pet and bring them safely home.

FLASHBACK

POP ROCK & SOUL TRIVIA BY NICK HARPER

- Who was the lead singer for The Crickets?
- "I'd Like to Teach the World to Sing (In Perfect Harmony)" ended up as advertising for which product?
- Name the group that released "Our Day Will Come."
- Which artist released the "One Man Dog" and "Walking Man" albums?
- Name the song that contains these lyrics: "Why can't you see what you're doing to me, When you don't believe a word I say?"

Answers

- Buddy Holly. Holly was releasing music under both his own name and anonymously with the group, working for two different record producers.
- Coca-Cola, in 1971. The original was a jingle called "True Love and Apple Pie," by a pair of British songwriters. In TV commercials, groups of people stood on a hill in Italy lip-synching the altered lyrics with and without references to the soft drink.
- Ruby & the Romantics, in 1963. In 2007 the group was inducted into the Vocal Group Hall of Fame.
- James Taylor, in 1972 and 1974.
- "Suspicious Minds," by Elvis Presley in 1969. The song was originally written and released by Mark James, but it never got any attention until Presley released a cover the following year.

New Year, New You: Four Tips for a Healthy Start to 2023

By: Andrea Harvey, FNP, Primary Care Provider

The beginning of a new year symbolizes a fresh start and, for many of us, it provides a renewed focus on our overall health and wellbeing. That's why so many of us set New Year's resolutions intended to improve our wellness. Turning the page on the calendar gives us a chance to turn the page on old unhealthy habits, commit to being better, healthier versions of ourselves and look to the future with hope for what's to come. Living a healthier life can reduce your risk of illnesses like heart disease, diabetes and cancer; and it can help to boost your energy, sharpen your memories and stabilize your mood, leading to a noticeable improvement in your overall health. If you have intentions of leading a healthier life this year, check out these tips to help you make simple changes and stay healthy for the long run.

Be realistic about changing your eating habits.

Changing how you eat overnight can be daunting, but eating healthy doesn't mean you have to starve or deprive yourself. Instead, allow yourself the occasional indulgence, and make one or two healthy changes each week, like drinking fewer soft drinks or eating a salad with dinner each night. Rather than making a sweeping change that can be hard to sustain, you'll be building and maintaining healthy habits that will last throughout 2023 and beyond.

Drink more water.

Drink at least 64 ounces of water each day. If you engage in regular physical exercise, you may need more water to stay hydrated. Sports drinks can be helpful to replace salts and provide some sugar if you are especially active. Sodas, energy drinks, fruit juices and adult beverages are a big source of extra sugar. Cut them out, and you'll cut out a lot of empty calories. Instead, choose water, tea, coffee or other unsweetened beverages.

Prioritize your sleep hygiene.

According to the Centers for Disease Control and Prevention (CDC), a third of U.S. adults say they typically get less than the recommended amount of sleep. Poor sleeping habits can raise your risk for high blood pressure, increased stress, weight gain, depression, loss of motor skills and poor heart health. If you are having difficulty maintaining good sleep hygiene or are experiencing any of the symptoms of a sleep disorder, it's important to contact your healthcare provider to determine the best treatment for you.

Schedule an annual check-up with your provider.

There's no better time than the start of a new year to schedule your annual check-up or any other health screenings you may need. Annual wellness exams and recommended health screenings give you and your provider the opportunity to catch health issues before they become serious and avoid any potential complications that arise from delaying care. Scheduling your annual check-up or screening is also a great way stay on top of things like recommended immunizations and any other needed procedures.

Danville celebrates the expansion of The Brick with a ribbon cutting

"The Brick, 410 Main Street, is expanding in the River District. That means business is good, and this is a sign of success," said Neal Morris, IDA board chairman. "The IDA is always happy when we participate in the success of our businesses!"

Danville, VA — Officials from the River District Association and the City of Danville joined other area leaders and citizens Friday afternoon in celebrating the expansion of The Brick Running and Tri Store, which specializes in the sale of shoes, apparel, equipment and nutrition to walkers, runners, and triathletes.

Located at 410 Main St., Adam Jones opened the store 10 years ago. The Brick's new expanded upstairs provides additional retail space for expanded service and product offerings related to bike sales and gear, as well as bike repair, and a common community space for group gatherings where relationships and friendships can be forged through the love of physical activity. "As a cardiologist, I cannot stress enough the many benefits of physical activity," Vice Mayor Dr. Gary Miller said. "Adam and his staff are ready to assist you with meeting your goals. On behalf of the City Council, City staff, and all citizens of Danville, I congratulate Adam on growing his business in Danville."

Jones was awarded funds from the River District Association's Dream Launch Pitch Competition to assist with the expansion. "It is essential to continue to support entrepreneurs that wish to successfully open and/or grow their businesses for the long-term economic diversification and success of our community" said Diana Schwartz, executive director of the River District Association. "The Brick expansion is a great example of a very successful existing business that is able to grow and serve even more customers, highlighting how important successful collaborations are for our community overall." The building is owned by the Industrial Development Authority (IDA), which assisted in the expansion.

New identity unveiled for iconic White Mill at groundbreaking ceremony

The City of Danville and The Alexander Company held a groundbreaking ceremony on Thursday to celebrate the commencement of construction that will transform the long vacant White Mill in Danville's River District from its original role as part of a sprawling textile operation along the Dan River into a community hub with a mixture of complementary uses including housing, office, and retail, nestled within a planned new riverfront park to be enjoyed by all.

At the ceremony, "Dan River Falls" was unveiled as the site's new identity. The name is a nod to Dan River Fabrics, the textile powerhouse of which the White Mill was a part; Wynne's Falls, the name of the first settlement along the river that became Danville; and the use of the Dan River, the banks on which the mill building sits, as an economic engine.

Mayor Alonzo Jones made the announcement and proclaimed Thursday as "Dan River Falls Day" in the city.

"This monumental redevelopment effort that we celebrate today is injecting new energy and investment into a site that was left behind," Jones said of the mill building, which was Dan River Mill No. 8 but had been commonly referred to as the "White Mill." "Rather than cling to the name "White Mill," we celebrate the site's history along the Dan River and look toward its future."

Ramon Rodriguez in "Will Trent"

Q. Who is the actor starring in the new detective series "Will Trent"? Also, who plays Angie on the show? She looks so familiar. — *E.M.*

A. "Will Trent" is a police procedural series on ABC based on a series of novels written by Karin Slaughter. It stars Ramon Rodriguez, who played Renaldo on the critically acclaimed HBO series "The Wire," Bosley on the short-lived "Charlie's Angels" TV series a decade ago, and most recently Benjamin Cruz on the HBO series "The Affair." He's one of those recognizable faces with a solid resume, but never was the headliner until now.

"Will Trent" also stars Erika Christensen as Angie Polaski (who is best known for her role as Julia on the hit series "Parenthood"), Jennifer Morrison ("House"), and Mark-Paul Gosselaar ("Saved by the Bell").

Q. I really enjoyed Paul Reiser in the comedy series "Reboot." It made me wonder whatever happened to Helen Hunt? The last time I saw her was in a Tom Hanks film about 20 years ago. — *H.A.*

A. The daughter of respected acting coach Gordon Hunt, Helen Hunt was a child actress who guest-starred on numerous television productions in the '70s and '80s, including "The Bionic Woman," "The Mary Tyler Moore Show" and "The Facts of Life." She became a household name because of the hit sitcom "Mad About You," opposite Paul Reiser, which was part of the Thursday night NBC lineup before "Friends" took its spot. Speaking of reboots, "Mad About You" returned for a limited run in 2019 as part of the Spectrum Originals subscription service.

Hunt won four consecutive Emmy Awards for "Mad About You" before moving on to a successful movie career. She starred in blockbuster hits like "Twister" as well as critically acclaimed indie films like "The Sessions," the latter of which earned her an Oscar nomination. The highlight of her career was winning an Academy Award for the film "As Good as It Gets."

She co-starred with Tom Hanks in "Cast Away," in 2000, and while her roles haven't been as high-profile since, she's been acting on camera and

doing voiceover work steadily for the past decade. She recently narrated the Lifetime true crime series "Meet, Marry, Murder" and was a regular on the Starz series "Blindspotting."

"Twisters," a sequel to "Twister," is coming to theaters in the summer of 2024, but whether or not Hunt is attached to that project has yet to be confirmed.

Q. I missed the first episode of "Chicago Fire" when it returned in the beginning of January. What happened to Stella? I'm glad she survived, but I don't know the details. — *H.A.*

A. When NBC's hit show "Chicago Fire" went on hiatus for the holidays, it did so with a cliffhanger that left fans worried about the fate of characters Stella and Carver as they rushed into a burning building to save Pryma. Fortunately, all three made it to January when new episodes resumed.

However, Carver (Jake Lockett) was left feeling guilty because Stella (Miranda Rae Mayo) was seriously injured after jumping in front of him during an explosion. Pryma (Troy Winbush) also survived, but suffered a broken leg.

Even Exchange by Donna Pettman

Each numbered row contains two clues and two 6-letter answers. The two answers differ from each other by only one letter, which has already been inserted. For example, if you exchange the A from MASTER for an I, you get MISTER. Do not change the order of the letters.

Strange BUT TRUE

By Lucie Winborne

* Research has shown that girls and women who watched the TV series "The X-Files" were more likely to believe in the importance of STEM (science, technology, engineering and math) and to encourage their own daughters and granddaughters to pursue careers in those fields -- something called "The Scully Effect" after the series' female main character, Dana Scully.

* Pentheraphobia is the fear of your mother-in-law. There, folks, you now have an official name for it.

* In 2006, actor William Shatner, beloved by "Star Trek" fans as Captain James Tiberius Kirk, sold his kidney stone, complete with stent and string, to a casino for \$25,000. While Shatner retained "visitation rights," the complete proceeds were donated to Habitat for Humanity.

* Whack, zoom, out of the way! A table tennis ball can travel off the paddle at a speed of 105.6 mph.

* All of the world's pandas are technically owned by China. The country leases them to zoos in an act called panda diplomacy.

* Ever dreamed of being a swashbuckling buccaneer? Try attending MIT, where after completing courses in pistol shooting, fencing, archery and sailing, undergraduates can earn a bona fide Pirate Certificate. (Note: For entertainment purposes only!)

* On Dec. 19, 1881, Sir William Payne Gallwey, a retired conservative member of the British Parliament, died while out shooting on his estate, Thirkleby Park -- but not from a gunshot. Instead, Gallwey suffered a fall and landed on a turnip, sustaining serious internal injuries to which he succumbed a few days later.

KOVELS® Antiques & Collecting

By Terry and Kim Kovel

Betty Lamps

Think how difficult it was before 1800, when you had to have light to work at night and there were only candles or several kinds of oil lamps. By the 1850s, it was easier. There were kerosene lamps, gas lamps and finally electric lamps.

The Betty lamp is one of the earliest portable light sources. It usually is made of brass or iron. The bottom layer is a pan that shapes to a point: the spout. A second pan is on top to hold the wick, usually a twisted piece of fabric placed in the spout to soak up some fuel. The lamp also has a hook so it can be hung on a wall.

Antique Betty lamps are sold in many auctions for \$40 to about \$150. A wrought iron, copper and brass Betty lamp sold at a recent Hess auction for \$2,000 after 21 bids. It was made by craftsman Peter Derr of Pennsylvania (1793-1868), making it a prize for a collector. A new, reproduced Betty lamp sells for about \$40 to \$100.

Q: We have a set of 12 Lenox dinner plates, each depicting a different sailing ship. They are gold-rimmed and marked with the name of the ship and a description. Eight plates depict a Challenge Cup and year, and four are Cup Defenders. They have the Lenox mark and "J. McD. & S. Co." What is this mark? Are the plates valuable?

A: Sets of plates picturing yachts sailing in the America's Cup races were made by Lenox in different versions and sold by several companies in the 1930s. The mark with the initials on your plates was used by Jones, McDuffee & Stratton Co., a dealer and distributor in Boston that began working under that name in 1871. By 1910, it was the largest wholesaler and retailer of china and glassware in the U.S. The company sold commemorative plates for Lenox and other companies until about 1960. The border, signature or provenance can add value. Some sets have sold at auction for over \$1,000.

This antique Betty lamp was made by a known craftsman of the early 1800s, so it is very expensive: \$2,000.

TIP: Never put gold or platinum-trimmed dishes in the microwave. The metallic trim will spark and may damage the oven and burn the dishes.

* Make ice cubes out of punch when you are entertaining. I like to make different combinations, which can be adapted for adult and child parties. One that I like very much is to make ice cubes from red fruit punch and then float them in lemonade. As the cubes melt, the mixture turns pinky-orange. -- I.F. in Missouri

* Bring egg whites to room temperature before whipping. You will get better volume, and they will be more stable.

* Ever make a delicious dinner that involves some stinky ingredients? This happens when I make broccoli cauliflower casserole, or pork and sauerkraut. No worries; you don't have to smell that smell all day. Just simmer a pan of vinegar on the stove while making foods that are odorous. The vinegar smell goes away quickly, taking with it any other odors. All that's left is the smell of yummy. -- M.N. in South Carolina

* Wash bath towels in cold water. It preserves color and still cleans them well. Add a clean, dry bath towel to smaller dryer loads to speed up drying time.

* Turn down the maximum temperature on your family's water heater. You will do two things: One is to avoid accidental scalding, which is especially important if you have young children or seniors in your house. The other is to lower your electric bill, because the water heater will not have to work as hard to keep that big tank of water so hot. -- T.D. in New Mexico

* Keep a few bandanas handy in cold weather. They can be used as a mouth/face cover to keep your nose from freezing. They are easy to store in a pocket, and easy to put on and remove.
