# Refill with Randy

By Randy LeBaron

*Good afternoon! Grab your favorite cup. Fill it up. And let's start this day right... TOGETHER!*

Ultimately The Falls are something to be experienced more than simply seen in pics or described in words so I would encourage each of you to stop by soon and encounter it for yourself. You won't regret it.

Today I want to talk about one of Orleans County's hidden gems—Holley Falls. I say hidden not only because this beautiful respite is tucked in behind the bank, pharmacy, and other businesses in the heart of Holley but also because I personally did not know about it for the first 8 yrs. after moving to the area. This might seem absurd to some, since it is a such a sought out location for Senior pics, weddings, and fishing among other things, but I have discovered lifelong residents who have either not heard of, or at least had not visited, there yet.

*See you in two weeks! Pastor Randy*

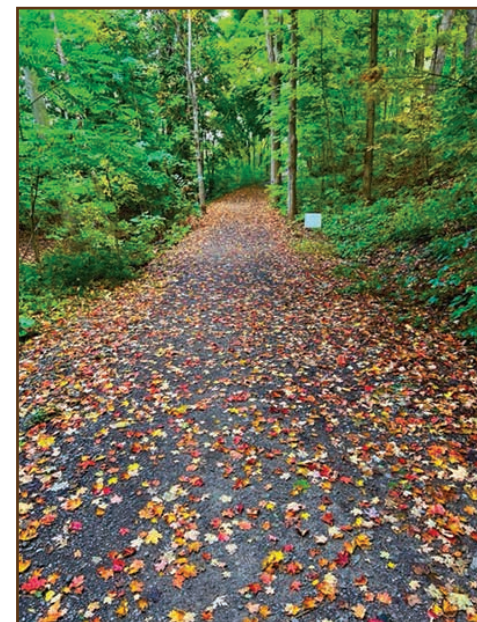

So what makes this place so special? Well, first off, the scenery really is gorgeous no matter the season—and this coming from someone who lived in Niagara Falls for 6 yrs. prior to moving here. You can check out some of the photos below or take a virtual tour with me to the top of the Falls by clicking <https://youtu.be/S7292uxa0k4>

Even more than the beauty though is the serenity that I personally experience there. While on a 6 week Sabbatical in 2018 it became my outdoor office, on many occasion I simply stop and get out of

my car for few minutes in order to recenter between making difficult hospice care visits, and just this past October I participated in Supportive Care Orlean's "Walk to Remember" where I walked for my mother who died from brain cancer in 2012 while in hospice care. You can click here if you would like to experience a virtual walk from that event <https://youtu.be/mTy7nKAKOTO>

**Edwin L. Sidari**, age 79, passed away peacefully March 17, 2023 at the Martin Linsin Hospice residence. He was born in Bismark, North Dakota, a son of the late Rocco A. Sidari Sr. and Angeline (Hess) Sidari. Ed served in the United States Marine Corps from 1962-1966. Ed lived a colorful life and created

a hundred lifetimes of memories! He experienced a variety of fulfilling friendships, interests, and hobbies throughout his 79 years and is known in our parts as the 'Unelected Mayor of Albion', and quite a legend. Among his many entertaining stories, some of Ed's favorites were of his time in the Marine Corp. (a special connection he shared with his son) and the friendships he made while enlisted. Relationships and connection to people were always important to him. It could be seen in all the facets of who he was and how God used him in this lifetime. It was seen in his work at Kodak and how he became a self-taught photographer, photo developer, and shutterbug enthusiast. He loved to photograph people in candid moments of life in order to capture their pure emotion and humanness. That talent and interest was passed on to his daughter and remains a special part of their relationship. Dad's love for relationship and connection was also seen in the many volunteer positions he held within the community, including as an Orleans County Hospice volunteer, a eucharistic minister at St. Joseph's parish, COVA volunteer, a youth softball coach, Nursing Home volunteer, Religious Education teacher, volunteer at Bullard Park Recreation Youth Program, head of the unofficial 'welcoming committee' for new priests and, most notably, as a professional comedian within our town. He truly loved talking to people! (and trees, and flag poles, and anything nearby!) He always offered a listening ear, an open heart, and wonderful wisdom to anyone in need. He was a dear friend and confidant to many, and everyone who ever met him will likely have an Eddie story that is highly inappropriate, and that's what made him so fun! Some of his other work, interests and hobbies included carpentry (like his dad and brothers), fishing (which is something he introduced his grandson to), antique dealing, and having deep, introspective conversations with his cat, Homer. One page cannot sum up the essence of Ed Sidari. He was bigger than life and an icon in our community. He provided his children with a wonderful life focused on God, family, and respect for all people and animals, and his legacy of laughter and love will carry on through his family and all those who loved him dearly. Eddie is survived by his daughter, Stephanie Dinwiddie (Jason), his son, Dominick Sidari (Amber), and his two grandsons, Cole and Zachary. Ed's family received friends at the Christopher Mitchell Funeral Home 21 W. Avenue, Albion, on Tue., March 21, from 4:00-7:00pm. Ed's Mass of Christian Burial was held at Holy Family Parish-St. Joseph's Church on Wed., March 22, at 10:00am. Interment with Military Honors at St. Joseph's Cemetery. Memorials may be made to Supportive Care of Orleans (Hospice) 14080 Rt. 31, Albion, NY 14411 or Holy Family Parish 106 S. Main St. Albion, NY 14411. **Thank You!**

The KRG lost their patriarch in the early morning of March 10. In the wake of our loss we were flooded with love, care, kindness, and compassion from all who knew and loved Ernest Stephens. We would like to extend our gratitude to all of those who visited, called and sent words of kindness during our time of sorrow. We would especially like to thank Wilmot Cancer Center, Orleans Hospice and Christopher Mitchell Funeral Home for their care and compassion for not only our patriarch but for us as well.

## AME Class Has Successful Signing Day with Finger Lakes Youth Apprenticeship Program

Several students in Bill Rakoncay's Advanced Manufacturing and Engineering program were matched up with companies by the Finger Lakes Youth Apprenticeship Program's (FLYAP) Signing Day on March 14th.

Anthony Cercone, Diamond Chandler, Tyler Chraston, Gavin Cunningham, Conner Dietz, Brayden Flynn, Tim Goerss, Jaiden Just, Peter Kieffer, Vinny Molisani, Evan Pease and Zack Walker were connected with advanced manufacturing companies through matching day events that lead to job shadows and paid co-ops. FLYAP is the first of its kind in New York State and is an essential workforce solution that ensures a robust economic future for Western New York. Companies Custom Laser, E&R Machining Inc., Jeffery Machine, J.W. Burg Machine & Tool, Metal Works, Myles Tool, Niagara Precision, Nuclear Alloys, Nutall Gear and TF Enterprise partnered with the students from Orleans Career and Technical Education Center.

"FLYAP is a one-of-a-kind career exploration program which provides students across

the greater Rochester and Finger Lakes region the opportunity to explore and begin a career in advanced manufacturing while still in high school," said RTMA (Rochester Technology and Manufacturing Association) Director of Workforce Development, Rich Turner. "We are connecting students to local companies offering great career opportunities. Events like 'Signing Day' are a great way to celebrate our students, families, educators and businesses as we celebrate one of our region's largest industries."

"High School students get recognized for sports and where they are going to college," explains Mr. Rakoncay. "I think we need to recognize the students that are in our local workforce. I want to thank all the local employers that opened their doors and allowed my students to do a paid co-op with them. Also thank you to all the parents and guests who came out on a snowy afternoon to support their loved ones. I am extremely proud of all my students."

## 3-DAY NOTICE OF INTENT TO FILE AN APPLICATION

AES Clean Energy Development, LLC ("AES") is proposing to construct the Somerset Solar Project, a major solar electric generating facility, under Section 94-c of the Executive Law (Section 94-c). This notice announces that on or about April 4, 2023, AES intends to file an Application with the Office of Renewable Energy Siting (ORES or the Office), pursuant to Section 94-c seeking a Siting Permit from the Office authorizing the construction and operation of the Project. The 94-c process has been implemented by rules enacted by the Office and establishes a review process with uniform standards and conditions for all renewable energy projects. The uniform standards and conditions are available at 19 NYCRR 900-6 and [www.ores.ny.gov/regulations](http://www.ores.ny.gov/regulations).

The Somerset Solar Project is proposed to be an approximately 125 megawatt (MW) solar photovoltaic electric generating facility proposed to be located in the Town of Somerset, Niagara County, New York (the "Project"). The Project will span approximately 693 acres ("Facility Site"). The Project is anticipated to positively impact both the environment and the local economy by reducing carbon dioxide emissions by an estimated 131,000 metric tons each year – the equivalent of taking approximately 28,000 cars off the road – and producing significant tax revenue and other economic benefits for the area. The Facility will include, among other components, solar panels, access roads, substation, inverters, transformers, electrical collection lines, and temporary construction staging and storage areas.

For more information about the Project please visit the Project website at <https://www.aes.com/somerset-solar-project> or contact Somerset Solar at:

## Shortage of Dental Hygienists is Nationwide

By Dr. Rachel Nozzi, DDS, Chief Dental Officer, Oak Orchard Health

Many of you have had trouble getting an appointment for a dental cleaning. You also may remember that during COVID, Oak Orchard Health (OOH), like many other dentists and community health centers, had to close their dental practices or only see people with dental emergencies. According to a 2020 report from the American Dental Association (ADA), 76% of dental offices saw only emergency cases for the latter half of March 2020. In NYS, dental offices were allowed to resume regular dental procedures June 2, 2020 with restrictions.

During the pandemic, many dentists in our area retired or closed their offices due to the Covid regulations that were hard to fund and sustain. Offices left open were not able to see as many patients and some discontinued taking certain insurances, like Medicaid. This has left Oak Orchard Health as one of the few dental centers that take most insurance including Medicaid.

While the state of emergency for the pandemic is over, it has left Oak Orchard Health with a long waiting list based on that backlog initiated during the pandemic. Couple that with the workforce shortage of dental assistants and dental hygienists, and you will better understand why it's difficult to get a dental appointment. And it's not just OOH, this is a nationwide problem.

### Less dental assistants and hygienists available to hire

The American Dental Association (ADA) has stated in a recent report that the dental sector is facing a serious workforce shortage. Vacant positions in dental assisting and dental hygiene have reduced dental practice capacity by an estimated 10% nationally. One in three dentists who do not have full appointment schedules

indicates that trouble filling staffing positions is a contributing factor. Workforce shortages were initially attributed to the COVID-19 pandemic. We now know that is just part of the story. Enrollment in dental assisting programs has been trending downward since 2015, and the pandemic had a negative impact on dental hygiene program enrollment. While there has been some recovery of enrollment in dental hygiene programs, data suggest that dental assisting program enrollment will not rebound soon. As a result, workforce shortages are likely to remain an issue for years to come.

### What are Oak Orchard's next steps?

This workforce shortage isn't going away anytime soon since the pool of applicants for those positions is less and less. However, here's what we're doing to help provide dental services at Oak Orchard Health:

1. We are actively looking for more dental assistants and hygienists including reaching out to graduates as they complete the program and advertising on employment sites.
2. All our dentists are also doing cleanings for patients.
3. OOH dentists are still treating patients for fillings, extractions, dentures, root canals, and crowns.
4. As soon as we have cancellations, we call patients to get them in.
5. Be sure to have your children receive dental cleanings from the OOH Mobile Dental unit when it visits their school in Orleans County. Follow-up care for kids can be received at our Albion Dental Center.

We continue to recruit for dental positions and hope that this workforce shortage will change quickly.

## Is tea or coffee the healthier choice?

Millions of people consume coffee or tea, with some even enjoying multiple cups of these caffeinated beverages daily. Coffee is known to perk a person up in the morning, while tea is touted as a relaxing drink that can ease away stress. Some may wonder if one of these popular beverages is more beneficial for overall health than the other. Both, it turns out, have distinctive benefits.

Coffee and certain teas contain caffeine, a powerful stimulant for the central nervous system. Caffeine may improve endurance exercise outcomes and improve mental alertness. Healthline says that caffeine may reduce type 2 diabetes risk by improving insulin sensitivity. In addition, moderate caffeine intake has been linked to protective effects against dementias, metabolic syndrome and non-alcoholic fatty liver disease. Since coffee tends to have higher concentrations of caffeine than black tea (95 mg vs. 47 mg in an eight-ounce serving), it can provide more caffeine-related benefits than tea.

Both tea and coffee have high levels of antioxidants that can help people reduce their risk for certain illnesses. The National Cancer Institute reports that antioxidants in both tea and coffee have been shown to slow the growth of cancerous tumors. Tea may help lower cholesterol and the polyphenols in tea could boost good bacteria in the gut, according to Eat This, Not That! People may be more inclined to drink more coffee and tea so they can consume more antioxidants. However, excess coffee consumption can make people jittery from too much caffeine. Since tea has less caffeine, it might make for a better choice.

But tea and coffee provide similar health benefits, and one isn't necessarily better than the other.

## Do you have HEEL pain or ARCH pain?

**HEEL SPUR SYNDROME/PLANTAR FASCITIS** is a common problem among people who are active. It starts as a dull intermittent pain in the heel which may progress to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing, or after walking.

- Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.

- Contributing factors: flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.

- Approximately 2-3 times your body weight of force is exerted on each foot with walking. Flexible, non-custom molded arch support found at those advertised shoe stores cannot support these forces and usually do not provide long-lasting relief, do not come with a lifetime warranty, and are typically more expensive than custom-molded ones made by our office.

- 95 percent of our patients symptoms are resolved with conservative treatment, avoiding surgical intervention.

- We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques and **EPF** resulting in minimal incisions and scarring, immediate ambulation and often back in a shoe in one week.

**If you can't remember when your feet didn't hurt, now is the time to give us a call!**

## TIPS TO ACE THE INTERVIEW AND LAND THE JOB

- 1 KNOW YOUR SKILLS AND STRENGTHS**  
Be able to talk about your strengths, most proud accomplishments, areas of interest, personal values, areas for development.
- 2 RESEARCH, RESEARCH, RESEARCH**  
Research the company, the position and your interviewer to be able to talk about them in-depth during the interview.
- 3 MASTER THE PHONE INTERVIEW**  
Enunciate clearly, talk slowly and go to a quiet place where you can concentrate and listen well.
- 4 PRESENT YOURSELF WELL**  
First impressions are formed by 7% of what you say, 38% of your eloquence and confidence, 55% how you dress, act and walk through the door.
- 5 PREPARE QUESTIONS TO ASK**  
Interviewing is a two-way street. What is important for you to know about the workplace, role, team? Be sure to ask those important questions.
- 6 PREPARE YOUR ANSWERS**  
Your answers need to prove your skills and knowledge, aptitude for success in the role, and personality "fit" in the company.
- 7 USE THE S.T.A.R METHOD**  
A good answer to behavioral questions includes stating the situation, task, actions, result.
- 8 ASK FOR THE JOB**  
Examples: Do you have any remaining concerns? What are the next steps? How do you see me fitting in with your company?
- 9 FOLLOW UP**  
Be sure to get your thank you note out in less than 24 hours. The sooner the better. If things drag out, check in periodically.
