2023 Best Communities for Music Education Mount Morris Central School District

The Mount Morris Central School District has been honored with the Best Communities for Music Education designation from The NAMM Foundation for its outstanding commitment to music education. The Best Communities for Music Education designation is awarded to districts that demonstrate outstanding achievement in efforts to provide music access and education to all students. This year, only 830 school districts nationwide received this special distinction. With offerings like Concert Band, Jazz Lab, Jazz Band, Marching Band, School Musical, Music Therapy, Chorus, Digital Media Festival, All County & NYSSMA competitions, students at Mount Mourris have multiple opportunities to participate in music programming.

To qualify for the Best Communities designation, schools must meet specific criteria related to funding, graduation requirements, music class participation, instruction time, facilities, and support for the music-making programs and community music-making programs. "We are honored and thrilled to receive this recognition again from the NAMM. It is important to understand that being a "Best Community for Music Education" is largely due to the enthusiastic support from teachers and community members that don't have direct involvement in the music program. The University of Kansas has published a wealth of scientific and anecdotal data that demonstrates the positive academic and cultural outcomes from support for music education. In my view, Mount Morris is second to none at living out this type of critical culture and I believe that it shows in our data and daily experiences" said Carl Irwin, Mount Morris Band Director.

The NAMM Foundation is a nonprofit organization supported in part by the National Association of Music Merchants and its approximately 10,400 members around the world. The foundation advances active participation in music making across the lifespan by supporting scientific research, philanthropic giving, and public service programs. For more information about the NAMM Foundation, please visit www.nammfoundation.org.

The specific list of the 830 nationwide school districts that are receiving this special designation can be found at: <https://www.nammfoundation.org/articles/bcme-2023-districts>

Presented by Livingston County Historian Holly Watson. The institution known as the Livingston County Poorhouse and later the County Home strove to provide care to Livingston County residents from the 1820s through the 1960s. During this time, the Poorhouse evolved along with perspectives on care of people experiencing loss, poverty, and mental illness. The program will trace these changes and what life in the Poorhouse might have been like, concluding with a discussion on recent preservation initiatives for the former buildings and the remaining Poorhouse cemeteries. **FREE & open to the public.** Wheelchair accessible.

The Role of Our Local Library and the Need for Your Continued Support

Modern public libraries, local or municipal, offering free library services to the public and supported by tax money date back at least to the mid-1800s. Since their inception, they were conceived as part of the nation's broader educational movement, and it was precisely their educational function that provided the main justification for public support. Initially, libraries contributed to improving the general well-being of their communities by aiding in literacy development, making reading materials available not only to school children, but also to adults in the community.

Today, libraries offer much more than books. The resources offered include newspapers, magazines, movies, games, electronic and audio materials, puzzles, parks and museums passes, etc. Spanish language materials are available as well. In addition, libraries also provide children and adult programming, lectures, a place to gather, assistance with tax preparation, technology tutoring, social assistance information, English as a Second Language resources, assistance, and interpretation, and many other services.

In short, we are a community center committed to building strong ties by sharing resources and efforts in a sustainable way to promote a collaborative, healthy, and informed citizenry. Please support us to carry on this important work.

Thank You!
