### MARK VUKELICH

Mark Anthony Vukelich, 60, died surrounded by loved ones in Waco, TX on Thursday, January 26, 2023.

Visitation will be held at 1:00 p.m. followed by a Memorial Service at 2:00 p.m. with friends and family on Saturday, May 27, 2023 at the

Koop Funeral Home in Crosby. Friends and family are encouraged to speak during the Memorial Service to share a memory of Mark. Burial will be at the Lakewood Cemetery in Crosby. In lieu of flowers, donations in Mark's memory can be made to the National Multiple Sclerosis Society.

He was born to George "Sonny" Vukelich and Genevieve Vukelich in Minneapolis, on May 20, 1962. Mark graduated from Normandale Community College with two Associate's Degrees, and his career as an Information Technology professional brought him to companies like Epson, Carlson, and UnitedHealth Group where Mark would solve and manage challenges of all difficulties and scales. To his friends, Mark was the ever social butterfly and listener. His laughs filled his favorite bars and pizza nights at his

golf tournament he organized. Mark was always solving his friends' nuanced computer problems or sympathizing with overworked nurses caring for him in the later years. Mark's family journey saw him buy a home in Rogers, where he helped raise his two sons, Robert and Steven. He'd put unending energy and support into their interests and talents whether that be bringing Steven to the Timberwolves games at Target Center and Steven's intramural basketball games or bringing Robert to the Wild games at Xcel Energy Center and Robert's varsity hockey games. And, of course, Mark would bring the family together with movie nights with his carefully planned home theater setup.

Mosquitoes. Everyone's least favorite insect. But there are some things people can do to reduce the swarm! Because mosquitoes need calm, standing water to reproduce, removing those environments from your yard can help slow down the little buggers! Store barrels upside down, flip wheelbarrows over, and empty kiddie pools that are not in use to limit the number of areas mosquitoes can lay eggs.
