# Refill with Randy

## By Randy LeBaron

Good morning! Grab your favorite cup. Fill it up. And let's start this NEW YEAR right... TOGETHER!!!

Good morning! Grab your favorite cup. Fill it up. And let's start this day right... TOGETHER!!!

Let me start by saying how much I appreciated all of the shares and feedback over the past couple of weeks in regard to Risen Café's "Pay It Forward" Program for feeding the homeless. I hope you will be just as supportive this week as I share about another fantastic ministry that feeds many here in Orleans County.

I am of course talking about the Orleans Koinonia Kitchen (OK Kitchen) which sets up every Thursday from 4-5:30pm in the Harvest Christian Fellowship Dining Hall located at 560 East Ave. in Albion. I first met the Director, Faith Smith, years ago when she ran the Community Kitchen, a soup kitchen that my church at the time participated in, and so I was excited to sit down with her and her husband Mike to hear about the fruitfulness of their latest endeavor.

First off, for those who are not familiar with the Greek word Koinonia it is a term that describes fellowship, community, and intimacy. When asked what the word Koinonia meant to her Faith simply looked around the dining hall where people had started filling up the tables and responded "This!" and by "this" Faith explained that the vision for the OK Kitchen was not simply to be a soup kitchen to feed the poor but rather a place that anyone from any walk of life could gather with others and experience authentic community. The hope is that when people leave both their stomachs and their souls will be full.

Also, for those who cannot physically get to the OK Kitchen, they have recruited volunteers to help pick people up or to deliver meals to them where they are. These meals include take-outs, frozen dinners, and even "Homeless Care" Bags which are actually backpacks filled with personal care items, food, first aid kits, blankets, water, pen & paper, etc. They have also partnered with Risen Café (469 E. State St. Albion) to allow people to pick up a bag there or to get a meal there that the OK Kitchen will pay for. The goal is to help anyone that is in need to receive 5 days of food.

With a "No Questions Asked" Policy and a warm greeting for all who stop by it's no surprise to find out that last year alone 24,184 meals were given away. And if that sounds like a lot, it is! Thankfully though this is not a solo effort by Faith and Mike. Several groups from churches and local organizations sign up to provide food, and servers if possible, for one or more Thursdays out of the year. Some, like the Albion-Medina Lion's Club, provide food every first Thursday of the month. Also, since the food is already taken care of, those first Thursdays are ideal for any individuals who would like to sign up to serve. On the evening that I was there a group from Oak Orchard Assembly of God both provided and served the meal. The church also filled a table with clothes that anyone could take, and other groups provide similar giveaways on their days.

Both Mike & Faith's enthusiasm for the ministry and their caring for those being served was evident, as was the camaraderie of the patrons and the joy of those volunteering. When asked what their biggest take away from 2023 was The Smiths quickly responded that they were overwhelmed by the amount of love and support that they had received not only from the local community but from all around the County as well.

Lastly, I asked what the biggest needs were for 2024 and the answer was funding and transportation. Last year OK Kitchen received \$37,534.90 in donations but are anticipating the need for more this coming year, especially as the cost of all the paper-ware, take-out containers, silverware, etc. continues to rise. I was reminded of the children's story "Stone Soup" as Faith shared how if the 60+ churches in the area committed to give only \$25 a month it would make a huge impact. How much more of an impact could be made if individuals, businesses, and organizations committed similarly? There is also a great need for volunteers who can deliver meals or, preferably, pick people up and bring them to the Kitchen so that they can truly experience the sense of community that has been developed there.

I am grateful for all of the outdoor fridges, food, pantries, and food distribution sites that we have here in our County and hope you will support any and all as you are able. If you would like to volunteer to provide and/or serve a meal, make a donation, or help with the transportation needs at Orleans Koinonia Kitchen please contact Faith Smith at (585) 319-1578 or by e-mail at Okkitchen2022@gmail.com You won't regret it!

See you in two weeks!  
Pastor Randy

## What does women's health mean to you?

By Michelle Okonieczny, FNP-BC, Medina Community Health, part of Oak Orchard Community Health

Yes, it is true, that women's health can be confusing. So many rules and regulations! When do you get a mammogram or a Pap Smear? If you are at high risk for breast cancer, what are your options? What birth control is right for you? In this article, we will touch upon several topics related to women's health that we hope will clear up the mystery around women's health. These are all topics you should be discussing with your provider at Oak Orchard Health (OOH).

### Early Detection of Breast Cancer

Mammograms and breast self-exams are two very important ways to detect cancer early. Early detection saves lives. The age range for a mammogram is 40-75 but talk with your provider if you want to get one earlier or continue past 75. The American College of Gynecology recommends mammograms yearly.

Breast ultrasounds are primarily used to find out if a problem discovered by a mammogram or physical exam of the breast may be a cyst filled with fluid or a solid tumor. Breast ultrasounds are also recommended for screening women with dense breast tissue along with a mammogram.

Breast MRIs may be recommended in addition to mammography if you are at high risk for breast cancer (usually because of a strong family history of cancer or genetic mutations, like BRCA1 or BRCA2). Or to gather more information after you have been diagnosed and to further evaluate breast abnormalities that are difficult to assess with mammography and breast ultrasound.

### When and why should you get a Pap Smear?

The Pap test (or Pap Smear) looks for cancer, and cell changes on the cervix that might become cervical cancer if they are not treated appropriately.

Once you turn 21, the American College of Obstetricians and Gynecology (ACOG) recommends that you have three annual pap smears. If all those are normal and you are HPV negative, then you can go every three years. Once you turn 30, you can have a Pap every 3-5 years depending on your Human Papilloma Virus (HPV) status. If you are positive for HPV that is considered high risk, and your chance of cervical cancer goes up. So those who are HPV positive should have annual Pap Smears.

### Birth Control – so many choices

If you are sexually active and do not want to get pregnant, consult with your Oak Orchard provider about

the many options available. Some include birth control pills, patches, NuvaRing, condoms, and Long-Acting Reversible Contraception (LARC) including Nexplanon implants and IUDs, and Depo-Provera.

Did you know that you often do not need a pelvic exam to get birth control? Birth control pills come in 30-day packs, and you get your period each month, or 90-day pill packs and you get a period every three months. There is no medical reason to have a period, so these are safe options.

### Sexually Transmitted Disease (STD) Testing is easier than you think.

STD testing including urine and blood tests can detect STDs even if you do not have symptoms. Diseases like gonorrhea and chlamydia can lead to pelvic inflammatory disease which can lead to infertility. Sometimes people can have these diseases with little or no symptoms. If caught early, they are highly treatable with an oral antibiotic. A simple urine test can detect gonorrhea and chlamydia. If you are positive, we can also treat your partner.

### What is the HPV Vaccine?

The HPV infection is the most common sexually transmitted infection in the United States. Screening for HPV is effective in identifying precancerous lesions and allows for interventions that can prevent the development of cancer. The use of condoms may decrease the spread of the virus. The HPV Vaccination is effective in preventing the development of infection and related cancers. American Academy of Pediatrics (AAP) recommends starting the series between ages 9-12 years and up to age 26. According to the Centers for Disease Control and Prevention (CDC), all preteens need HPV vaccination, so they are protected from HPV infections that can cause cancer later in life. Even if you have had HPV, you should still get the vaccine.

According to the CDC, the HPV vaccine has the potential to prevent more than 90% of HPV-attributable cancers. Since the HPV vaccination was first recommended in 2006, HPV infections that cause most HPV cancers and genital warts have dropped 88% among teen girls and 81% among young adult women. The vaccine, often called Gardasil, is for both boys and girls. This vaccine not only prevents cervical cancer but also rectal, throat, and oral cancers, as well as penile cancer.

## Do you have HEEL pain or ARCH pain?

**HEEL SPUR SYNDROME/PLANTAR FASCITIS** is a common problem among people who are active. It starts as a dull intermittent pain in the heel which may progress to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing, or after walking.

- Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.

- Contributing factors: flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.

- Approximately 2-3 times your body weight of force is exerted on each foot with walking. Flexible, non-custom molded arch support found at those advertised shoe stores cannot support these forces and usually do not provide long-lasting relief, do not come with a lifetime warranty, and are typically more expensive than custom-molded ones made by our office.

- 95 percent of our patients symptoms are resolved with conservative treatment, avoiding surgical intervention.

- We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques and **EPF** resulting in minimal incisions and scarring, immediate ambulation and often back in a shoe in one week.

**If you can't remember when your feet didn't hurt, now is the time to give us a call!**

**Tips on how to write CLASSIFIED ADS that sell!**

- 1 USE A KEY WORD.** This immediately tells the reader exactly what you have to sell.
- 2 Make your description CLEAR AND FACTUAL.** State the year, make, model, color & size and tell what condition the item is in. Also, state the special features.
- 3 STATE THE PRICE.** Successful classified advertisers have learned that the price in an ad helps increase the chances for results.
- 4 IF THERE IS A GENUINE SENSE OF URGENCY,** say so. The words "We're moving," or "Must sell fast," suggest that readers respond immediately.
- 5 INCLUDE YOUR PHONE NUMBER.** Classifieds get results fast and often generate immediate sales. If you cannot be available to answer the phone at all times, be sure to specify special calling times such as "after 9pm" or "before 11am."

**Correcting an omission to our Outstanding Citizens**

By Tom Rivers, Editor Posted 9 January 2024 at 9:15 am

Orleans Hub each year recognizes outstanding citizens who inspired the community, and worked selflessly for others or to move a difficult project forward.

We posted our list on Jan. 1, recognizing eight people for their efforts in 2023. We should have had nine in the list of extraordinary people.

I forgot about Brett Sobieraski. Brett does mighty feats frequently. In 2015, he swam 32 miles across Lake Ontario for a charity that helps support the surviving spouses and children of fallen soldiers. In 2018, he ran over 175 miles for 50 hours nonstop to raise money and awareness for Special Olympics.

Sobieraski is a retired Rochester police sergeant who lives in Kent. He ran for Orleans County sheriff in 2019, and was edged by Chris Bourke.

In 2023, Sobieraski announced he would be running a marathon every day for 48 days, traveling on foot from Florida and Rochester, going 26.2 miles a day. He would run the marathons to honor the memory of Rochester police officer Anthony "Maz" Mazurkiewicz. He was killed in the line of duty on July 21, 2022. Sobieraski also sought to raise \$100,000 for Mazurkiewicz's family.

That goal was expanded to 50 marathons in 50 days, and Sobieraski would raise \$110,000 for the family.

The journey began April 23 in Palatka, Florida and ended June 11 in Rochester. Sobieraski added two marathons near the end. He was allowing two rest days but added more when he was feeling strong and the mission had such a following as he passed through communities and reporters picked up the story.

One of his extra days was June 10. He ran from his house in Carlton to Albion, and then ran the Albion Strawberry Festival 5K, and then ran back home. He wanted Orleans County to be part of the epic adventure.

The "8 States for Maz" marathon mission was featured by the Today show in a moving feature about the loss of a fallen police officer and the impact on Mazurkiewicz's family.

Sobieraski said he felt like the community too quickly moved on after the death of Mazurkiewicz. Sobieraski said he wanted the officer's family to feel love and respect from the community, and know Maz's life of service is deeply appreciated. The response was far more than Sobieraski could have imagined. In the last 5K of the final marathon, 850 people joined him.

Sobieraski announced the plan to run the marathons on Facebook and posted short videos of each the day's journey. He started April 23 in Palatka, Florida and finished June 11 in Rochester. When Sobieraski announced the 8 States for Maz, it seemed preposterous to me. Sobieraski is 56 years old. I didn't see how the mind or body could take such a beating.

But Sobieraski shocked me. He ran fast, too. His times got faster, consistently around 4 hours. He pushed through pain in the feet, shins and hips.

Sobieraski said he met many inspiring people along the way, and their kind words and hospitality kept him energized. He is writing a book about the "8 States for Maz," which he said was a humanity tour. He wants to share highlights from the journey, and honor the memory of Maz.

"I met so many amazing people," Sobieraski said. "I saw too many great people and saw great things not to tell the world all about it."

Sobieraski spent much of the trip as a lone solitary figure, running along the side of a road, often carrying an American flag. He took a chance in committing to such a demanding goal, including sections that were up mountains.

In the end, he brought together the community, and honored Mazurkiewicz, a Rochester PD veteran who was shot in the upper body on Bauman Street. He worked in RPD's Tactical Unit 8. He investigated many of the city's toughest cases. Sobieraski said Maz was deeply respected in the RPD. Sobieraski picked eight states to run with the eight in recognition of Maz's tactical unit number.

"We need to pay attention when cops are murdered," Sobieraski said. "These are our people, and their families are suffering."
