AMERICAN LUMBER & PALLET PO. BOX 1136 FAYETTEVILLE, TN 37334

71/2 HP Table Saw

Perfect for serious woodworkers

- » Digital readout for bevel angle
- » 36" Rip capacity
 - » Smooth and quiet poly-V serpentine belt system

» Cast-iron trunnions

15 HP Planer w/ Helical Cutterhead

Engineered for power and precision

- Helical cutterhead with 174 inserts rotated at 15°
- 3-Speed feed rate
- Digitally controlled table elevation
- Segmented chip breaker
- Table size: 251/8" x 695/8"

G0603X ONLY \$11,995

16" Double-Sided Planer Streamline commercial planing operations

- » Dual spiral cutterheads. each with 60 indexable cutters
- Two main motors for increased power
- » Variable-feed speed control via digital inverter
- Quick inserts changes on lower slide-out cutterhead
- » Digital thickness positioning

G0968 ONLY \$26,250

» Spring-tensioned rollers with ³/₄" travel

Heavy-duty gear reduction with hardened gears

Universal positioning with

> Forward/reverse feed

Multiple feed speeds

handle locks

Power Feeder, 4-Roller / 4-Speed

Complete large-scale milling and ripping

New!

Twin-Head/Dual-Blade Resaw Bandsaw For extended resaw production

- » Dual-voltage 20 HP motor
- » Digital blade height controls and DROs
- » Powered saw elevation
- » Hydraulically driven feed conveyors
- Hydraulic blade tensioning with gauge

G0919 ONLY \$24,650

12" 20 HP Horizontal Resaw Bandsaw Industrial capacity to boost efficiency

- » Variable feed speed 32-82 FPM
- Return rollers
- Adjustable HSS blade guides
- Manual cutting heigh adjustment Movable control
- panel

G0503 ONLY \$12,995

\$**599 **

G1095 ONLY \$1275

15 HP Straight-Line Rip Saw

For all-day repeatable cutting

- » Variable-speed feed conveyor
- » Extra-long infeed table » Large-scale rip fence
- » Built-in anti-kickback fingers
- Heavy-duty pressure rollers

10 HP Cyclone Dust Collector

Designed for large duct systems

- High-capacity airflow of 4029 CFM
- 99.9% Filter efficiency at 0.2-2 microns
- Ramped inlet maximizes dust flow into collection drums Mufflers reduce noise level
- without restricting airflow Steel collection drum with casters for easy dust disposal

120-Gallon 10 HP Air Compressor Extensive output for commercial shops

- » Max. air pressure: 175 PSI
- » Two-stage, three-cylinder, cast-iron, oil-lubricated pump
- » Uses synthetic air compressor oil for reduced maintenance
- Wired-formed belt guard for more efficient cooling
- » ASME-certified 80-gallon tank

G0943 ONLY \$4795

Libla. Leadership.

The Libla name has deep roots in the pallet industry. From father David to son Jeff and daughter Marsha, the family has enjoyed a great partnership with pallet companies for many years. Legacy Fasteners, a new company, was started to continue that relationship of supplying pallet nails, expertise & pallet assembly solutions.

Marsha, Jeff and their team would like to talk with you today.

When using a Sharp Chain Scragg or an Overhead Scragg with Vertical Edgers, to get the most of out of each log, Slab Recovery is very important. If you're looking for another option, other than resaws to recover your slabs, then a VSA is a great option to make boards out of slabs.

Use in conjunction with a pallet trimmer for finished pallet cants. The system requires only one person to run it, cutting down on labor.

With almost 60 years under our belt, our machines are built tough by our family for you and generations to come.

INCREASE YOUR CAPACITY WITH LESS LABOR WITH COOPER MACHINE.

SMART PRODUCTS

Is Your Answer! For Pallet Lumber Recovery and Repair Solutions. "The Difference is Engineering"

Leasing & **Financing** Alternatives Available

Dismantlers

One-Man Dismantler

- 52" or 64" capacity10 HP, 3-phase, electric motor standard (2200 FPM blade speed) (single phase
- available)
 Optional 15 HP, 3-phase (4400 FPM blade speed) electric motor available
- 18 HP gas-powered electric
- start on Portable Dismantler
 Gear reduction drive
- Self-contained hydraulic
- blade tensioning Low maintenance durable
- blade guide bearingsPush button operated table height adjustment

Pallet Dismantler System

- 64" capacity Front Discharge Dismantler
- Linear accumulating conveyor feeds boards easily to operator of Inclined Power Trim Saw
- · Add additional dismantlers for higher production

Portable Dismantler

Two-Man Dismantler

Pallet Prep

- · Commonly referred to as the "SmartSaw"
- · Smart Saw is multifunctional: designed for repair (1 person) or recycling (2 person) operations of BLOCK or GMA/STRINGER pallets
- · Standard 10 HP, 3-phase, electric motor with gear reduction drive
- 20' standard M42 bi-metal band saw blade
- Air actuated, 3-position, roller table and table extension easily positions pallet for board removal
- Machine provided with advanced safety measures in place, including interlock switches for perimeter guarding and cabinet doors
- Improved canopy guarding, with front and rear portions that move up and down with the roller table
- \bullet Specifically designed to QUICKLY (as a 1-person operation) cut out damaged boards, including top and bottom deck boards, as well as connector and stringer boards
- Also designed, as a 2-person operation, to process the disassembly / tear-down of block or stringer pallets for INCREASED LUMBER RECOVERY. For block style machine, includes a specially designed Block Recovery Tool (or BRT) that salvages blocks now being scrapped with other machines and processes

Double End Power

Feed Trim Saw

- Power Feed Trim Saws trim boards 2" thick from 18"- 60" in length on the single end, and 18"- 66" in length on
- Inclined board feed and overhead saw design help eliminate board kickback
- . Manual Trim Saw handles boards up to 6" thick and 6" wide
- 18" diameter nail resistant saw blades and 10 HP motors
- Heavy duty steel tube construction
- Multiple adjustable board stops on Single End and on Manual Feed Trim Saws
- Easy blade change

the double end

- · Easily moved with built-in fork lift pockets
- Right saw head on double end easily adjusts to cut desired board length

Notchers

Double Head Notcher

- Two, 20 HP, three (3) phase, electric motors with V-belt driven indexable notching cutterheads
- One-person operation/1,000 double notched stringers per hour
- Notches new or recycled lumber
- 48" to 96" stringer capacity standard
- 9" x 1-1/2" notches, with 18" between notches
- · Quick set-up
- Continuous power feed system
- Self exhaust design (useful when notching recycled material)

Single Head Notcher

• 20 HP, three (3) phase, electric motors with V-belt driven indexable notching cutterhead

Single End

- One-man operation/500 double notched stringers per hour
- Notches new or recycled lumber
- 72" stringer capacity standard
- Quick set-up
- Continuous power feed system
- · Self exhaust design (useful when notching recycled material)

B751 PRO 18HP Band Sawmill

What are users saying?
"My PRO has been
extremely accurate,
therefore when I get high
value logs I can produce
high value lumber."

- Customize the mill based on your needs. Trailer kits for mobility, support legs to raise the mill, 1 meter extensions, or upgrade to a fully hydraulic one-man mill."
- Upgrades can be made on YOUR timeline. Start with the mill, upgrade as needed.
- This mill is designed by sawyers, so all the 'quality of life' features will blow you away. Our favorite is the Rapid indexed blade height crank to easily factor in kerf for exact board thickness every time.

ERVIN RAY YODER - SALES

McDonough Certified Rebuilds **Include Warranty**

When we rebuild your McDonough machine, it leaves our shop with a full 1-year warranty... just like a new machine! Our team of experts know exactly how to get your machine looking and performing like new again for less investment than buying a new machine, but with the same guarantee.

 The equipment is completely stripped down to the frame

- Any missing parts, worn or obsolete, are replaced using genuine McDonough factory parts
- Equipment is repainted to look brand new
- Leaves with a 1-year warranty

If you don't already own a McDonough but purchase one at an auction, ship it back to our facility to have it rebuilt and we'll send it to you as good as new!

For additional information, contact us at 715-834-7755 or visit www.mcdonoughmfg.com.

APPRAISALS - AUCTIONS - LIQUIDATIONS

THINKING ABOUT AN AUCTION OR **APPRAISAL FOR YOUR BUSINESS?**

HERE'S WHY YOU SHOULD CHOOSE TRI-STATE AUCTION & REALTY...

- Honesty You can trust our expert team to give you a fair, honest assessment of your equipment and business.
- Reputation Since the 1970's companies like yours have placed their trust in us to deliver TOP DOLLAR for your hard-earned assets.
- Family Owned We know how hard you've worked building your business over the years. We've built our business on the same values of honesty, hard work and commitment.
- Experience Our greatest qualification is that we know and have worked with machinery in the forest products industry for the past 50 years.

We strive to stay abreast of the ever-changing products and technical advancements within the industry so that we can competently evaluate your machinery based on the facts. We're ready to go to work for you.

HOT ON THE MARKET!

Metal Detector System

MDI introduces its most advanced metal detector system to date, the TWA5000-X. The technology in the new TWA5000-X provides more consistent targeting of contaminants, better interference rejections due to environmental noise and product effect. However, the most exciting feature of the TWA5000-X Metal Detector is the highly successful MDI View-Link Remote Diagnostic Module, which allows MDI to remotely connect to your MDI Metal Detector to monitor, diagnose, and calibrate your system -- optimizing your metal detector for maximum sensitivity and stability right there in your own unique environment. Many happy customers already know "It's like having an MDI technician right there in your mill, but only a phone call away!"

The TWA5000-X Metal Detector can scan up to 60" in diameter softwood or hardwood logs and comes with a 3-year product warranty and a 3-year View-Link remote service package. In addition, MDI offers unlimited lifetime telephone technical support for all its products at no additional charge.

For more information, contact MDI at 541-345-7454 or sales@mdiblue.com or visit www.mdiblue.com.

Entry-Level Portable Sawmills

Capturing the growing interest of hobby sawmilling and the DIY woodworker movement, **Wood-Mizer**, a globally renowned leader in the sawmill industry, introduces the LX50START and LX50SUPER portable sawmills. Combining premium quality features with an entry-level price, the LX50START and LX50SUPER portable sawmills are an exceptional value for anyone who wants to start sawing their own lumber and slabs for buildings, fencing, furniture, and more with minimal investment.

The LX50START and LX50SUPER portable sawmills feature the ability to saw 26" diameter hardwood and softwood logs into boards and slabs with a 23-1/2" width of cut and 8" depth of cut. In addition, longer logs can be sawn with optional modular bed extensions. Packed with performance-enhancing features, both LX50 portable sawmills include reliable KOHLER gas engines, high-performance blade guide rollers, gravity-fed blade lubrication, quick up/down sawhead, and quick-set log handling for a user-friendly sawing experience.

These portable sawmills are now available to order worldwide. With a 2-year warranty and 30-day money back guarantee in the United States, customers also have access to experienced and professional technical service. For more information or to order, **visit woodmizer.com or contact your local Wood-Mizer representative.**

Consider Woodlandia LogRippers to Optimize and Prepare for the Next Growth Cycle.

One-Pass & Done Sawmilling System for Logs up to 11"

"If you're running a band sawmill you're behind. ~Client Testimonial ogRipper Sawmills are the future...

Ihallenging Times Le Make It Great Again!

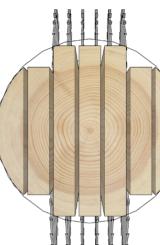

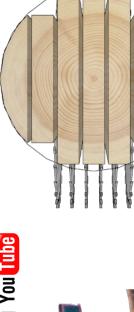

LogRipper-300 series "One Pass & Done" Sawmilling System

with Profiling Capabilities

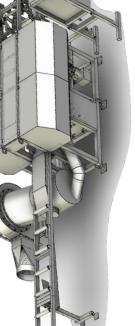

1-877-508-877 For further info & videos, please, visit our website or call: www.woodlandia*ca

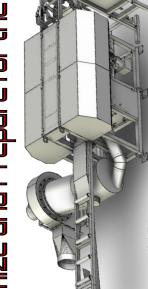

Why Looklipper-200 or 300 series ? Reduce Labor reduced man-hours

"One Pass & Done" eliminate multiple operations to mill final products

Multifunctional, can work as sawmill, multisaw, slab processor

Less Slabs or "**No Slabs** with 2 pass process" means less labor with waste At **1-4 logs/min** that's 5-10x faster than band sawmills

Compact Solution = Small Footprint = Less Maintenance

Complete Sawmilling **Solution** including: Motorized In-feed + LogTurner + Out-feed + VAC System

2-3 man crew can run the machine all day

Create Profit by milling smaller stems (usually less expensive)

Very **reasonably priced**, one of the best cost/productivity ratios in the industr<u>.</u>
