Salome's Stars

ARIES (March 21 to April 19) Rumors of a change in the workplace could make you a mite uneasy about going ahead with implementing your ideas. Best advice: Ignore the talk and proceed as planned.

TAURUS (April 20 to May 20) Everyone has an opinion on how to handle a recent business suggestion. Thank them for their advice, then go ahead and follow your own fine instincts.

GEMINI (May 21 to June 20) While home is your main focus this week, new issues in the workplace need your attention as well. Take things step by step. Pressures will ease in time for weekend fun.

CANCER (June 21 to July 22) Be less rigid when handling a relationship problem. You might believe you're in the right, but try to open your mind up to the possibilities of facts that you're currently unaware of.

LEO (July 23 to August 22) Leos and Leonas run at a hectic pace throughout much of the week. But by the 22nd, the Lions' dens become a "purrfect" place for you Fine Felines to relax in over the weekend.

VIRGO (August 23 to September 22) Change is favored early in the week. This should make it easier for you to reassess your plans for handling a troubling professional relationship. Good luck!

LIBRA (September 23 to October 22) A suggestion from a colleague could give your professional project a long-needed boost. Meanwhile, someone close to you still needs your emotional support.

SCORPIO (October 23 to November 21) Before complying with a colleague's request, check to see that the action benefits all, not just one person's agenda. Continue firming up any travel plans.

SAGITTARIUS (November 22 to December 21) Your social life is on the upswing, and the only problem is deciding which invitations to accept. Enjoy yourself before settling down for some serious work next week.

CAPRICORN (December 22 to January 19) With your creative aspects on high, you might want to restart your work on a project that you put aside. Your efforts will bring a surge in your self-esteem.

AQUARIUS (January 20 to February 18) While you're generous with others, be sure that you're not overlooking your own needs. Take time to assess your situation and make adjustments where necessary.

PISCES (February 19 to March 20) Being applauded for your achievements is great, but watch out that you don't start acting like a star. It could lose you valuable support with your next project.

BORN THIS WEEK: Your strong belief in justice along with your leadership qualities help you protect the rights of others.

Regency style

Furniture revivals have taken place since at least the 19th century and probably earlier. New technology made earlier ornate styles easier and less expensive to make, and therefore more accessible to the average buyer. Some are difficult to distinguish from authentic pieces. If you see the word "style" in a description, it is probably a copy or revival piece, not an authentic piece from the period.

For example, this wine rack is described as "Regency style." It was made in the 20th century, not the Regency period, and it sold for \$813 at New Orleans Auction Galleries. The Regency period was from 1811 to 1820 in England, when King George III's son served as Prince Regent. The corresponding American furniture period is American Empire.

Both Regency and Empire were influenced by classical art of ancient Greece, Rome and Egypt. Mahogany was a favorite wood. This wine rack imitates mahogany with a dark stain on pine wood. The wine rack has a brass gallery on top and ring handles on the sides, features that can be seen on authentic pieces from the Regency period.

Although it was made in the 20th century, this wine rack brings Regency style into a modern setting.

your typewriter indicates it was made in 1937. Some old typewriters are collectible and sell for a few hundred dollars. A few rare typewriters sell for more than \$1,000. Many common old typewriters sell for \$20 to \$50.

TIP: To clean furniture, dip your dusting cloth in 1/2 cup of vinegar mixed with a teaspoon of olive oil.

On Tuesday afternoon, a woman brought six bearded dragons to release to us. They had belonged to someone she knew and that person had decided he would take them someplace and "release them."

That is abandonment. It is cruel and it is illegal. The legal definition in the Code of Virginia is "to desert, forsake, or absolutely give up an animal without having secured another owner or custodian for the animal or by failing to provide the elements of basic care (as set forth in 3.2-6503) for a period of four consecutive days."

Since bearded dragons come from deserts, they would have had a zero percent chance of surviving.

Bearded dragons are among the most popular pet reptiles. They have very specific habitat and food requirements and, although they are generally healthy

and resilient, they do have specific health and behavioral requirements.

If you are an experienced bearded dragon owner, please consider applying to adopt one. Our adoption areas are open Monday, Tuesday, Thursday, and Friday from 12-5:30 and 12-3:30 on Saturday.

Odds & Ends

Sky Light

"It's a Bird... It's a Plane... It's Superman!" No, it was mysterious streaks of light that filled the sky above California recently. Some guessed that it was the SpaceX Falcon 9 rocket that took off from Vandenberg Space Force Base. Others guessed it was streaks of light caused by a falling space module. Whatever it was, it was, indeed, an amazing celestial event that lit up the dark night sky and provided earthlings with a lot to talk about.

He was caught on film

Hammerin' Hank Aaron hit his 715th home run and broke Babe Ruth's record fifty years ago on April 8, 1974 at the Atlanta-Fulton County Stadium in Atlanta, GA. He made baseball history and one, Charlie Russo, caught it all on film. The Associated Press reports that "the 81-year-old Russo is releasing his long-private footage of the moment," what he calls a truly "magical" moment.

'Cicada-geddon'

Some cicadas surface every 13 years; others show up every 17 years. This year, according to the entomologists, the two species are expected to join forces and show up this spring. According to the University of Connecticut, the 13-year Brood XIX -- the largest of all periodic cicada broods "will co-emerge with 17-year Brood XIII." They'll be showing up mainly in the Southeast and in Illinois. Biophysicist Saad Bhamla at Georgia Tech says "trillions of these amazing living organisms [will] come out of the Earth, climb up on trees and it's just a unique experience, a sight to behold. It's like an entire alien species living underneath our feet and then some prime number years they come out to say hello." Some experts call the event a "cicada-geddon"

SENIOR NEWS LINE

by Matilda Charles

What Seniors Worry About

It's very helpful to have friends and acquaintances scattered across the country when I need to do another informal poll. This time my questions to them concerned what seniors worry about.

I got them started with a list of suggestions on a page, to be ranked in order, with a blank place under each one for comments, and space below for their own contributions.

And I wasn't surprised.

The number one concern was about money. Is there enough to last the rest of our life? Will grocery prices ever come down again? We're concerned about having to go back to work to keep from burning through our savings, running up medical bills, losing the house because of not being able to pay the mortgage and having the rent raised to an amount we can't pay.

Health was the second biggest concern, with loss of independence topping that list. We fear getting dementia, losing muscle strength, falling and breaking a limb, having to go into the hospital or rehab for an extended stay, catching Covid or a bad flu. This was a very long list with everyone adding comments.

Concerns about safety was surprisingly high in the rankings. We worry about crime on the streets, not being able to trust our financial advisers and that we might need to give up driving.

Other topics ranked lower, but they're concerns just the same. We worry about identity theft and not being able to recover from it if we lose money. Tied with that are concerns that we might not recognize scams. We worry about needing to ask others for help with things we used to be able to do.

But the one topic that garnered the most comments was loneliness. We fear losing all our friends when they die. We fear being the last one standing.

Constant Aleve and Ibuprofen Consumption Can Cause Damage

DEAR DR. ROACH: My husband, age 70, had been diagnosed with osteoarthritis in his neck, for which he would take Aleve to relieve his discomfort when needed. Just before Christmas last year, his back began hurting so much that he went to his doctor, who said to get up and move more. (We have always exercised and remained active in life, but he did slow down due to his pain.)

My husband then added ibuprofen to the Aleve he was already using. His doctor said that the pain is due to osteoarthritis in his mid-back area. Apparently, there is nothing to do for it but take Extra Strength Tylenol at the recommended dose. Ibuprofen or Aleve isn't recommended because it causes liver and kidney damage. So, we bought Tylenol, and he used this medication instead of his usual. But his pain only got worse.

So, this morning, he switched back to Aleve and ibuprofen. It is what helped before and is helping again now. In addition, he is using a drug-free Aleve Direct Therapy pad that uses waveform technology. He also uses Icy Hot pain relief cream and a heating pad. These reduce his pain, but his back continues to hurt since before the holidays.

Our question is, should he use Aleve and ibuprofen instead of the Tylenol that doesn't seem to help? He has actually used Aleve for a very long time. He just had his blood tested, and the doctor said his liver and kidneys are good. Is there anything more we can do to relieve his osteoarthritic pain? It is hard to see my husband in so much discomfort when he was previously a very active, pain-free man. -- S.F.A.

ANSWER: Osteoarthritis in the neck is a common and painful condition, and there are not always good treatment options. In terms of medicine, anti-inflammatory medicines, like Aleve or ibuprofen (Advil and many other brands), can be very helpful for some people.

However, taking both doesn't improve pain relief. It does increase the risk of toxicity, so he should never take two anti-inflammatory medicines -- choose just one. Tylenol helps some people, but in my experience, most people do better with anti-inflammatories instead of Tylenol. Tylenol does have a smaller risk of side effects.

In addition to liver and kidney problems, Aleve and similar medicines can cause stomach problems, ranging from mild upset to life-threatening ulcers; though, this is uncommon with over-the-counter doses. I often recommend a trial of Tylenol to see if it is as good as the anti-inflammatories. Since it's not for your husband, he should tell his doctor this, and it seems reasonable for him to go back to taking Aleve alone. However, I can't tell you to disregard his physician's advice. Some people benefit from Tylenol on top of Aleve.

Beyond pain medicines, the Aleve Direct Therapy pad uses electricity to relieve pain without medicine. It's fine to combine this therapy with medicines. Creams -- whether they are anti-inflammatory, menthol and camphor, or topical anesthetics -- provide some relief, but they tend to be better on the hands, wrists and knees than the neck. Though, they still may be worth trying in combination with medicines.

In more severe cases, injections can be used before considering surgery.

Dr. Roach regrets that he is unable to answer individual questions, but will incorporate them in the column whenever possible. Readers may email questions to ToYourGoodHealth@med.cornell.edu.

Leftover Mashed Potato Cheese Puffs

Ingredients:

- 3 cups mashed potatoes
- 1 cup shredded cheese (cheddar, mozzarella, or your favorite melting cheese)
- 1/4 cup all-purpose flour
- 2 tablespoons Parmesan cheese
- 2 tablespoons chives
- 1/3 cup sour cream
- Salt to taste
- 2 eggs, beaten

Instructions:

1. Preheat your oven to 400°F (200°C) and grease a muffin tin.
2. In a mixing bowl, beat the eggs and mix in the sour cream until well combined.
3. Add the shredded cheddar cheese, Parmesan cheese, chopped chives, and a pinch of salt to the egg mixture. Mix thoroughly.
4. Gently fold in the mashed potatoes, ensuring the mixture is evenly combined.
5. Spoon the mixture into the greased muffin tin, filling each cup to the top.
6. Bake in the preheated oven for about 20-25 minutes, or until the tops are golden brown and puffed up.

Allow the potato puffs to cool slightly before carefully removing them from the muffin tin.

Serve the leftover mashed potato puffs as a delicious side dish or snack.

VA by the Numbers

The Department of Veterans Affairs has been going all out to provide expanded access to care to veterans. They're calling it Access Sprints, and it means they're scheduling more appointments at night and on weekends, as well as scheduling more veterans into their daily schedule.

The effort seems to be showing progress. Just this year so far the VA has had 25,000 more new patients than they did during the same period last year. Appointments increased by 11%.

Per the stats, 12% fewer new patients had to wait over 20 to 28 days to get an appointment, and 14% fewer new patients are having to wait to see community providers because of wait time eligibility.

This is on top of the care they provided in 2023 in over 116 million appointments.

Other 2023 stats are equally impressive. The crisis line took over 1 millions calls, over 33,000 veterans received emergency care in suicide crises and 5.5 million dental procedures were completed for over 560,000 patients.

Nearly 5 million veterans were screened for toxin exposure, an important step in monitoring their health. (As of March 5, 2024, veterans exposed to toxins and meeting other requirements have become eligible for VA health care, even before enrolling for other VA benefits. This means those who were in the Vietnam War, Gulf War, Iraq, Afghanistan, the Global War on Terror or any other combat zone since Sept. 11. Any who weren't deployed but who trained and were exposed here in the U.S. are included in eligibility.)

Even the non-medical efforts saw success: Ten million veterans have individual pages in the online digital Veterans Legacy Memorial website, with over 5 million of those being created in the last year, and 5.6 million policyholders got life insurance coverage.

The VA was able to hire over 61,000 staffers to provide care to the increased number of veterans seeking health care, bringing the total to over 400,000.

Not a bad year for the VA ... and veterans.
