Dear Class of 2024

I would like to congratulate the class of 2024 on their high school graduation. It is amazing how quickly your K-12 education goes, hopefully you made the most of your years and leave Anchor Bay High School with mixed emotions – a little sad that it is over, but excited for what lies ahead. At the beginning of the year, I spoke to you about three things I feel you need to do to be successful: Reflect, Believe and Act – Reflect on what you want to do, Believe that you can achieve it and Act on making it happen. Regardless of what your post - secondary goals are, the key is to have a plan. It doesn't matter if you are going to 2-or 4-year college, into the military, trades or workforce, I encourage you to go with passion and find happiness in all that you do. If your path is not fulfilling, be courageous enough to change paths. My challenge for the class of 2024 is to drown out the noise and be your own person. The world has never been more divisive; choose patience, kindness and grace and remember that everybody has a story – be the light in the life of another and you will live a life well spent. I wish you all the best, be safe, make smart decisions and always know that you have a home at Anchor Bay High School.

Congratulations,
Mike Mackenzie
Principal
Anchor Bay High School

Good afternoon students, faculty, friends, and family. My name is Savannah Adams and I am the senior class president. When we were little, we were posed with the same question over and over again-"what do you want to be when you grow up" As our answers varied anywhere from a doctor to a police officer to an astronaut, we failed to realize how much that would change. How much everything would change in the next 12 years of our lives? I have always imagined that life was like a movie. I remember watching movies about high school kids, high school musical specifically, but I never thought one day that it would be us. High school was definitely not a musical, no breaking out in songs or dancing on tables, but it was so much more. The football games, the dances, the random laughs in class, and all of the other amazing high school experiences have shaped our way into the future and truly have made us who we are today. However, life is not a dress rehearsal. It is full of moments, good and bad, but all moments come to an end. While graduating high school is an achievement, it has also been a privilege. Many moments and memories have been made throughout the past 4 years. I feel grateful to be surrounded by so many loving classmates, and staff members. We have all grown closer as our time in high school went by. Now it's a senior year and today is the last day we will all be in the same place. I remember leaving the school exactly one week ago thinking, what now? What are we supposed to do? Who are we supposed to be? As unknown as the future may seem for many of us, our lives are about to change. For the better or for the worse, the future continues to be unknown. As we turn to this new chapter of our lives, it is finally our time to complete our goals that fulfill our younger selves. Although we are saying goodbye to the only thing we have known for our whole lives, a new door is opening and ready for us to walk through. It is our time to chase our dreams and find the best version of ourselves. Embrace the opportunity of the unknown and never be afraid to take risks. We only live one life and whether we like it or not, life continues to happen without us. I wish everyone the best of luck in the future and always remember to live in the moment. Congratulations class of 2024. We did it!

Superintendent's Letter to Our Graduates

Dear Class of 2024,

As you get closer to commencements and get ready to go out into the "real" world, I am sure you might have some trepidation. It can seem daunting to venture out into the crazy and chaotic unknown. I assure you it has always been so for every graduating class as each has gone out into their own version of unprecedented times.

Life and society are always busy and boisterous. In the daily tumult of it all, one can lose their bearings and get overwhelmed. My advice to you is to never fear taking a step back to see the big picture. All those countless decisions, while formidable, are really opportunities. They are a chance to get better, to find the love of your life, to answer your life's calling, or even to remember God's grace. In the midst of the noise and commotion, always remember this, no matter how low you feel or how bad your day - the world is full of promise. Embrace the word "IF"

When you welcome the possible, you move past the fear and dread to find something more important - hope. The world needs dreamers and innovators. Those who can look at any situation and see what might be achievable for the greater good. In fact, the world is built on it. Most of the things you see around you, from cell phones, electric cars, or even Door Dash are things that many in previous generations would never believe could exist. Yet someone had an idea and the determination to make it a reality.

As you move into the next phase of your life remember it is a big, dynamic world out there full of possibilities if you are willing to face it in all its messy uncertainty and conquer all the possibilities that lie before you. Go fearlessly into the future and embrace the ifs in your life.

Congratulations Anchor Bay Class of 2024!
