Karen E. Cook, beloved wife of Roy Nichols, passed away unexpectedly on May 11, 2024, at Strong Memorial Hospital, Rochester, NY. She was a passionate relationship-builder, achieving excellence in her chosen profession of mortgage banking. She helped many, many families achieve home ownership over her 40+ year career. She was the Innkeeper of Rosewood Bed and Breakfast on Geddes Street in Holley, NY for nearly 30 years, and she loved welcoming visitors and travelers into her home and community. When she wasn't working, she found creative work restorative. She designed beautiful jewelry, decorated the interior of the B&B and enjoyed the surrounding gardens, once she decided that they weren't plants and bugs, but more beautiful décor to enjoy. She was an expert on Ancestry.com, and we all have family histories back to the 1500's now. She was an excellent baker, and enjoyed the creative presentation of baked goods. There was no meeting that wasn't made better by her cupcakes. Karen was born in 1951 in Binghamton, NY, the third child of Burton and Eva Cook. She was the second of three sisters. She welcomed her step-daughter Stephanie Galley into her life and home at age eight. Her grandson Brandon Reed spent many summer days with his grandparents in Holley. She is also survived by her older brother, Richard Cook, and his wife and family, Maryland; her older sister Vivian Cook, her husband and family, eastern NY; and her younger sister Mary Cook Langsdorf, her husband and family, California. Karen studied music from an early age with piano and voice lessons and continued to do so through college; she was always her younger sister's inspiration in choral music. She was a doting aunt to her nieces and nephews, scattered from Washington and California to Maryland and Georgia, and a devoted grandmother to Brandon, in Idaho. She is also mourned by her miniature schnauzers, Maisie and Riley. Karen will be remembered by all who knew her for her honesty and integrity, but also for her great generosity of spirit and capacity for steadfast friendship and love. Every person whose life she touched was the better for it. In lieu of flowers, the family requests that donations be made to the Eastern Orleans Community Center for those needing assistance with food and clothing: <https://caoginc.org/> A celebration of life will be held after the summer season ends and venues become more available. To share a special memory of Karen, please visit: [www.mitchellfamilyfuneralhomes.com](http://www.mitchellfamilyfuneralhomes.com) Karen's arrangements have entrusted to Christopher Mitchell Funeral Home 16650 Route 31 Holley, NY.

## Care Closer to Home--Child and Adolescent Behavioral Health Expansion at Oak Orchard Health

By Robin Govanlu, LMHN, LAC, LPC, Chief of Behavioral Health, Oak Orchard Health.

Although many aspects of daily life appear to have returned to some sense of normalcy since the pandemic, there is an increasing impact and cultural shift in the need for mental health services, especially for children and adolescents. Since the start of the pandemic, Oak Orchard Health (OOH) continues to see the demand for behavioral health services on the rise, with limited resources to respond to that demand in the rural regions that we serve.

Since 2020 we have continued to see immense growth year after year with a 119% increase in all behavioral health visits and a 164% increase in pediatric visits since the start of the pandemic. Our Brockport and Albion sites are our largest volume sites serving many of our child and adolescent patients. Unfortunately, that has resulted in longer than usual wait times for an appointment. As a parent, we know how difficult that can be, so we've been partnering with many organizations to help improve this situation.

Oak Orchard Health has served as a lead agency for many years on the Western Monroe County Child and Adolescent Behavioral Health Coalition, which includes important community partners such as The University of Rochester Strong Pediatric Comprehensive Psychiatric Emergency Program (CPEP), Rochester Regional Health, SUNY Brockport, and the Brockport Central School District. The collective data from this coalition further demonstrates the need for expansion of pediatric behavioral health services in Western Monroe and Orleans Counties, and the surrounding areas as many

families that live west of Rochester experience significant challenges with accessing care closer to home.

To adequately address the behavioral health crisis in our regions and keep more children out of the hospital we need more mental health services in our community and that's where Oak Orchard comes in. Getting our young patients connected quickly to the services that they need is vital to their well-being and ongoing development. Therefore, OOH will be expanding child and adolescent behavioral health services at the Brockport Health Center and the Albion Wellness Center. This expansion will include hiring additional therapists with a specialty in pediatric behavioral health. We'll also be hiring support staff and a Psychiatric Nurse Practitioner within the next year. Services can be provided in-person and through our telehealth program which allows for audio or video communication between the patient and mental health provider using their phone, laptop, or iPad.

Another goal is to reduce the wait from time of referral to time of intake to get kids and families the help they need sooner. With the new therapists hired in the coming months, we expect to be able to see new patients this summer. We plan to care for kids from as young as 2 to 21 years of age. Please share with others and we look forward to partnering with schools and parents in the area regarding the expansion of this program. We hope to make a major impact on the youth in the region. If you have any questions or want to make an appointment for the July/August period, please call Oak Orchard Health at (585) 589-5613.

## DO YOU HAVE HEEL PAIN OR ARCH PAIN?

Heel Spur Syndrome/Plantar Fasciitis is a common problem among people who are active. It starts as a dull intermittent pain in the heel and progresses to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing or after walking.

- Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.
- Contributing factors: Flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.
- 95% of our patients' symptoms are resolved with conservative treatment, avoiding surgical intervention.
- We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques (minimal incisions and scarring; often back in a shoe in 1 week).

Reading print works better for retention. Studies show that people read slower when reading text on paper instead of on a screen. This achieves higher retention rates compared to digital.

Print materials are tangible and memorable. In a world of endless scrolling and popup ads, print collateral makes it easier for people to remember and recall when making purchasing decisions.
