Reading print works better for retention. Studies show that people read slower when reading text on paper instead of on a screen. This achieves higher retention rates compared to digital.

Print materials are tangible and memorable. In a world of endless scrolling and pop up ads, print collateral makes it easier for people to remember and recall when making purchasing decisions.

## TIPS TO ACE THE INTERVIEW AND LAND THE JOB

1

### KNOW YOUR SKILLS AND STRENGTHS

Be able to talk about your strengths, most proud accomplishments, areas of interest, personal values, areas for development.

2

### RESEARCH, RESEARCH, RESEARCH

Research the company, the position and your interviewer to be able to talk about them in-depth during the interview.

3

### MASTER THE PHONE INTERVIEW

Enunciate clearly, talk slowly and go to a quiet place where you can concentrate and listen well.

4

### PRESENT YOURSELF WELL

First impressions are formed by 7% of what you say, 38% of your eloquence and confidence, 55% how you dress, act and walk through the door.

5

### PREPARE QUESTIONS TO ASK

Interviewing is a two-way street. What is important for you to know about the workplace, role, team? Be sure to ask those important questions.

6

### PREPARE YOUR ANSWERS

Your answers need to prove your skills and knowledge, aptitude for success in the role, and personality "fit" in the company.

7

### USE THE S.T.A.R METHOD

A good answer to behavioral questions includes stating the situation, task, actions, result.

8

### ASK FOR THE JOB

Examples: Do you have any remaining concerns? What are the next steps? How do you see me fitting in with your company?

9

### FOLLOW UP

Be sure to get your thank you note out in less than 24 hours. The sooner the better. If things drag out, check in periodically.

**UNPARALLELED EXPERIENCE & TRAINING**

To: The Voters of Orleans County

I have worked with coroners in this County for the past 44 years. In that time, I have cross-examined them, called and heard them as witnesses, reviewed coroner's inquests, among many other types of proceedings. Without reservation, I can state that Scott Schmidt is the most professional, well prepared, articulate and reliable of them all. He has a remarkable grasp of all aspects of his subject matter, and has the integrity to give his findings and opinions without fear or favor.

In addition, Scott is a valued and active member of the local community. He is also a leader in the larger community of coroners in the State of New York, and is held in high regard and respect throughout the State. As many of you know, he has heroically contributed his time and expertise in dealing with the aftermath of the 9/11 attacks on our country. He had a leadership role in the complicated, devastating process of identifying the thousands of victims of that attack. I was very proud to be from the same County as Scott when he gave freely of his energy, spirit, and time.

I am honored to recommend Scott for re-election. Any community in the country would do well to seek out a person of Scott's talents for this job, and we are enormously lucky to have him serving in Orleans County.

Sincerely,

James Punch, Esq.  
Former Orleans County District Attorney & County Court Judge

## DO YOU HAVE HEEL PAIN OR ARCH PAIN?

Heel Spur Syndrome/Plantar Fasciitis is a common problem among people who are active. It starts as a dull intermittent pain in the heel and progresses to a sharp persistent pain. Classically, it is worse in the morning with the first few steps, after sitting, after standing or after walking.

- Plantar fasciitis often begins with irritation and tearing of the fibrous band of tissue on the bottom of the foot, which may eventually result in the formation of a heel spur.
- Contributing factors: Flat pronated feet, high arched feet, poor shoe support, increased age, sudden weight increase, increased activity level, family tendency.
- 95% of our patients' symptoms are resolved with conservative treatment, avoiding surgical intervention.
- We also offer surgical procedures with the best post-op success rates using Endoscopic Plantar Fasciotomy techniques (minimal incisions and scarring; often back in a shoe in 1 week).

## Sumer Safety Tips for Children

By Drs. Kelsey Izzo and Sarah Smith, Pediatricians, Oak Orchard Health

In upstate New York, we wait for months for beautiful summer weather. It's finally here but with the sunshine comes new tips for families to stay safe as they enjoy it this time around.

### Sun safety

According to the Centers for Disease Control (CDC), just a few serious sunburns can increase your child's risk of skin cancer later in life. Adults and children need protection from ultraviolet (UV) rays whenever they're outdoors. How can you avoid this?

- Hats and sunglasses with UV protection protect everyone from the sun.
- Kids need to wear sunscreen. Wearing 30 -50 SPF sunscreen is important for kids and reapply every two hours. If they are wet or swimming, you should put it on again after they dry off. Children under 6 months should not be exposed to direct sunlight at all. They should always be protected from the sun.
- On very hot days, be sure children are hydrated by offering them water as often as possible. The exception is with babies under 6 months. They do not need any additional water; breast milk or formula are enough for infants.
- UV rays are the strongest and most harmful during midday.
- Heat and babies. Summer is a great time to take your children out for a stroll but be mindful of how hot it's getting inside the stroller, especially if you're using a sunshade or blanket to shield the sun. Children can overheat. How can you tell? If they are turning red or are sweaty, those are two signs. Also, feel their chest to see if it's hot. Shorter walks are preferred.
- Babies do not need to wear too much clothing on hot days. The rule of thumb is one more layer that you.

During the hot summer, it's never a good idea to leave kids in cars for any amount of time. And be sure to check the backseat so that no child is left behind.

### Water Safety

Naturally, no child should be left alone in or near water. Drowning is a very real risk. According to the CDC, drowning is the #1 cause of death in children ages 1 to 4. Stay within arm's reach of the child even if they're wearing a flotation device.

Be sure to have a fence around your backyard pool with locked gates. Home doors should be locked so kids can't get out to the pool area. Sensors on gates and doors offer added protection and safety. Remember, even small kiddie pools with 6 inches of water, are still a hazard. Kids still need to be supervised.

### Bike riding

- Bike helmets for kids of all ages are recommended. Of course, adults should also wear helmets.
- Limit distractions. No bike rider should be listening to music, they should be aware of their surroundings and hear the vehicles and other bikes that may be in the area.
- Adults can supervise the little ones. Young children shouldn't be riding alone and certainly not riding on busy streets if there's no shoulder or sidewalk.
- Knee pads and elbow pads are a great safety idea.
- Kids should let parents and caregivers know where they are going and when they're expected back. Parents can check in with their kids periodically to be sure they are in a safe location.

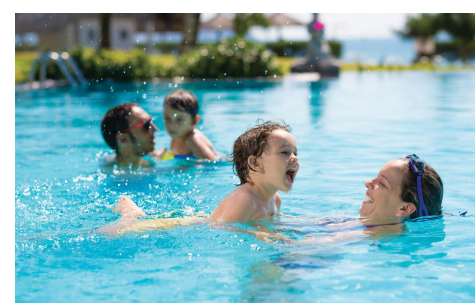

### Cell phones

Whether it's summer or winter, less than two hours of screen time per day (ages 2 and up) is a best practice. The American Academy of Pediatrics discourages media use by children younger than 2 and recommends limiting older children's screen time to no more than one or two hours a day.

Avoiding screen time before bedtime is another great tip. That includes a TV, laptop, tablet, or cell phone.

### Staying healthy in the summer

We're here if you need us. If you're looking for a pediatrician for your children, give Oak Orchard Health a call at (585) 637-3905.

**WANTED: NEW ENERGY FOR A TIRED, OLD SYSTEM**

Neighbors:

On Tuesday, June 25th, there will be an important election for the Town of Shelby. For the first time uncertainly a long time, maybe ever, we have an opportunity to put our voice on the dominant Shelby Republican Committee. We can elect three (3) new committee persons to shape our Town and help drain the swamp of big government.

As a life-long Republican, now seeing the shadows of corruption our local system, I can appreciate the importance of this election that Shelby residents will participate in. That is why I was so encouraged to learn of these candidates: Alana Koneski and Bruce Schmidt in District 3 and John Pratt in District 4.

As a committee person, they would vet future candidates, shape endorsements, interview appointments, and pass petitions for those seeking to run for office. Instead of having more of the same, we should embrace the change. New energy for a tired, old system.

Have you ever wondered why we don't have a say when someone resigns from public office? Why the same people with the same agenda keep getting force fed to us? It's because the committee has never strayed away from their "friends and family" program of power. Why can't we have a stringent code of ethics that PREVENTS people from serving on the political committee and serving town office? It's simple: because absolute power corrupts absolutely.

It's a new era, Shelby. Follow the path that eliminates the choke hold of the political establishment and elitists. Let's put an exclamation mark on what's right by putting your neighbors, your voice, on the committee to help shape your future!

Please join me in supporting Alana Koneski, Bruce Schmidt, and John Pratt for committee person, on Tuesday, June 25th

Respectfully,  
 Eddie Zelazny, Councilman  
 Town of Shelby

# SENATOR ORTT ENDORSES JOHN SANSONE FOR ORLEANS COUNTY D.A.

*"I proudly endorse John Sansone for Orleans County D.A. With his extensive experience and outstanding character, he prioritizes public safety and the well-being of Orleans County families. I have known John for several years, and he is the right choice for Republicans who believe in Law & Order."*

- Senator Ortt

***I am honored by the Senator's Endorsement and will stand with him to fight for changes in Albany.***

Nobody has been more vocal about needing to change the bail reform laws in New York than Senator Orr.

New York's current bail laws put dangerous people back on the streets... You can count on me to fight along side the Senator to change that.

As an experienced and tough prosecutor, you can count on me to keep the "bad guys" off the streets. Criminals from surrounding counties better not come to Orleans!

I will travel to Albany and testify every chance I get to make sure that Orleans County is heard because your family deserves to live in a safe Orleans County.

With your support and vote... I promise no one will work harder for the people and families of Orleans County!

***Here is my promise - I will fight hard to safeguard our residents and communities and I will make you proud as your DA***

***Cast your ballot for the most qualified and endorsed candidate.***
