We can stop HIV, Iowa— by finding the best way to prevent HIV for us!

	<p>Find a health care provider you feel comfortable talking to openly about your sexual health. If you don't feel your regular provider can provide the best care in this area, consider finding a second provider that is knowledgeable, inclusive and affirming who will provide you the best sexual health resources.</p>
	<p>Make prevention and testing part of your journey. Getting tested for HIV is the only way to know your status. And knowing your HIV status helps you choose options to stay healthy!</p>
	<p>Practice safer sex. Internal and external condoms can prevent HIV and other STIs when used properly, and using an appropriate lubricant is also helpful! You can also choose sexual activities with a lower likelihood of passing on an infection.</p>
	<p>Get in care. Stay in care. If you're living with HIV, getting and keeping an undetectable viral load helps you stay healthy and prevents transmission to your sex partners.</p>

BEHIND THE CARD

Insulation is the "not-so-glamorous" side of a building or remodel project...definitely not as much fun as new granite counter tops or a tile shower! In fact, the best insulation will go unnoticed if it is done right-

it keeps you comfortable and extra money in your pocket from lower energy bills.

BUT "cheap" or poorly installed insulation will constantly remind you that something is wrong, usually with drafts and cold spots and can lead to high heat and cooling bills. Bad insulation can also lower the life expectancy of your home or other building!

Insulate your building right the first time! Four Way Insulation offers affordable, technologically advanced insulation options for your home, shop, ag building, or commercial project that will protect your investment and keep you comfortable. Our staff has the knowlege to take care of all the details and get the job done right. Give Pat a call for a free estimate!
