Chipper Infeed Auto-Stop

DO NOT Jam Your Chipper 1 more time!

Buy an infeed auto-stop box for your chipper or hog.

- When chipper begins slowing down, infeed pauses till chipper speeds back up (adjustable restart delay).
- Increases an underpowered chipper's capacity: slugs of material only feed in as fast as chipper can handle.
- Super-easy to install: customized cord lengths, works with AC or DC power, chipper can be electric, hydraulic, or lineshaft drive.

Order yours today for \$1,060.

Dismantlers

One-Man Dismantler

- 52" or 64" capacity10 HP, 3-phase, electric motor standard (2200 FPM blade speed) (single phase available)
 Optional 15 HP, 3-phase
- (4400 FPM blade speed) electric motor available
- 18 HP gas-powered electric
- start on Portable Dismantler
 Gear reduction drive
- Self-contained hydraulic blade tensioning
- Low maintenance durable
- blade guide bearings
 Push button operated table height adjustment

Pallet Dismantler System

- 64" capacity Front Discharge Dismantler
- Linear accumulating conveyor feeds boards easily to operator of Inclined Power Trim Saw
- · Add additional dismantlers for higher production

Portable Dismantler

Two-Man Dismantler

Pallet Prep

- · Commonly referred to as the "SmartSaw"
- · Smart Saw is multifunctional: designed for repair (1 person) or recycling (2 person) operations of BLOCK or GMA/STRINGER pallets
- · Standard 10 HP, 3-phase, electric motor with gear reduction drive
- 20' standard M42 bi-metal band saw blade
- Air actuated, 3-position, roller table and table extension easily positions pallet for board removal
- Machine provided with advanced safety measures in place, including interlock switches for perimeter guarding and cabinet doors
- Improved canopy guarding, with front and rear portions that move up and down with the roller table
- \bullet Specifically designed to QUICKLY (as a 1-person operation) cut out damaged boards, including top and bottom deck boards, as well as connector and stringer boards
- Also designed, as a 2-person operation, to process the disassembly / tear-down of block or stringer pallets for INCREASED LUMBER RECOVERY. For block style machine, includes a specially designed Block Recovery Tool (or BRT) that salvages blocks now being scrapped with other machines and processes

Kut Grinder

View the video on our website.

BOX 29 Imperial SK S0G 2J0 Canada

Because what sets the Kuiet Kut apart is not just its strength, but its user-friendly design. The machine has been redesigned to make it easier to work on, allowing for smoother operation and maintenance. This means less downtime and more productivity, as you can focus on getting the job done without unnecessary complications.

The Kuiet Kut Grinders is designed to grind slab wood, edgings, floor sweepings, bark, re-saw trash, and waste in general from sawmills, furniture and pallet facilities. These grinders are an excellent addition to any sawmill operations because of its ability to affordable convert waste products that originally were going in the landfill or being burned into a valuable, usable bedding. This bedding is highly popular for dairy and equine bedding applications because of its high absorbability.

Available Grinder Power Components:

- Electric Powered Infeed - Mechanical Powered Infeed - Hydraulic Powered Infeed

FOOD COMPANIES INSIST ON AIR FLOW TRAILER SYSTEMS

Jasper Products of Joplin, MO, a manufacturer of food related products, had struggled to eliminate mold on pallets. After trying Air Flow Trailer Systems, they have eliminated the mold problem. "We are happy with it because we aren't seeing moldy pallets. We tried many other solutions before and nothing else worked even marginally, but this AFTS fan system worked exceptionally well," said Ed Beam, vice president of Jasper Products. Jasper recently purchased additional units from AFTS, bringing their total to 40.
