**ARIES** (March 21 to April 19) Your bold approach to a difficult situation turns a doubter into a supporter. Be aware, though, that you still need to dig for facts to build an even stronger case.

**TAURUS** (April 20 to May 20) Distractions continue to nibble at your available time. Turn them off and concentrate on setting your sights on your goal. Progress might be slow, but it is steady.

**GEMINI** (May 21 to June 20) An opportunity opens up in a new field. You might not feel that it's for you, but check it out anyway. You could be surprised; you might be able to adjust to its requirements.

**CANCER** (June 21 to July 22) A new work environment presents some difficult choices. Best advice: Be ready to defend your decisions while still keeping your mind open to suggested alternatives.

**LEO** (July 23 to August 22) Don't let your Leonine pride continue to jeopardize a cherished relationship. You've already taken too long to make that apology. Do it now before it's too late.

**VIRGO** (August 23 to September 22) A friend needs assistance but fears that you might want to know more than they are prepared to reveal. Provide help without probing into the situation.

**LIBRA** (September 23 to October 22) You face an important personal decision that could affect a family member. Have a full, frank, no-holds-barred discussion with them before you act.

**SCORPIO** (October 23 to November 21) Take some time out to think over the choices that have suddenly emerged in your life. Don't be rushed into making a decision until all the facts are known.

**SAGITTARIUS** (November 22 to December 21) Someone might be trying to gain your trust for their own advantage. Be wary: A seemingly friendly smile might be an exercise in teeth-baring.

**CAPRICORN** (December 22 to January 19) A situation that emerged earlier can no longer be ignored. You need to deal with it now so that it won't interfere with more important considerations.

**AQUARIUS** (January 20 to February 18) A job situation presents some problems. Deal with them one by one, and they'll soon vanish. Meanwhile, in your personal life, a Libra would like to know your intentions.

**PISCES** (February 19 to March 20) Let your partner know how you feel about your stalled relationship. A delay will result in your swimming around in circles and going nowhere.

**BORN THIS WEEK:** Your high energy level allows you to take on and complete more projects than most. You are also an inspired and inspiring teacher.

# Piedmont Pets

October 10, 2024 By Paulette Dean

The lower night temperatures we are having can be a wake-up call to prepare our pets for winter. If you know of an animal that is not being taken care of properly, please call us at 799-0843. We will get the information to the right agency. Cold temperatures and wind chill can threaten a pet's life; the following measures can help ensure your pet will have a comfortable winter:

- Low temperatures are especially hard on short-haired, young, and older animals.
- All cats should be kept inside.
- Salt and chemicals used to melt snow can burn a pet's foot pads and even the mouth when the pet licks the paws. After an outdoor walk, wipe your pet's feet with a damp towel.
- Warm vehicle engines attract cats. Bang on your vehicle hood to scare away any cats before starting the engine.
- Antifreeze is deadly poison, but the sweet taste attracts many animals. Make sure that animals do not have access to the antifreeze.
- When it is snowing, pets can lose the scent of home. Keep pets under close supervision, and make sure your pet wears an identification tag.
- Winter air can dry out animals' skin and make them itchy. Add a small amount of vegetable oil (with your veterinarian's approval) to the pet's diet.

It is prohibited in the City of Danville to have any companion animal tethered when the temperature is 32 degrees or below. For outside dogs, a solid doghouse must be provided. The opening needs to be covered, either with a commercial door or a heavy, fabric flap. The house needs to be raised off the ground at least 2 inches. Cover the floor with cedar shavings to control parasites and to help retain the skin oil. The doghouse should be large enough to allow the dog to enter, turn around, and either sit or lie down comfortably. However, the house needs to be small enough to hold the pet's body heat in. Owners of outside dogs must provide more food in the winter, because keeping warm depletes energy. Water bowls should be checked frequently to make sure the water has not frozen. If you know of an animal that does not have adequate protection from the weather, we urge you to call us before conditions are too bad.

## KOVELS® Antiques & Collecting

By Terry and Kim Kovel

### Puzzle Mugs

Collecting ceramics may be seen as traditional, even old-fashioned, but there is plenty of room for eccentricity. This puzzle mug by George E. Ohr is an unusual piece by an unconventional artist. There are holes in its sides; if you try to fill it and drink from it like an ordinary mug, the liquid spills out — probably onto you. Puzzle mugs usually have a hollow portion, often in the handle, that works like a drinking straw. The trick is to know which holes to cover and which to drink from.

A puzzle mug is a fitting piece for Georg Ohr, who had a flair for the unusual. Ohr, known as "the Mad Potter of Biloxi," was born in 1857 and started working on his own as a potter in 1883. He made his pottery from very thin clay in twisted, folded shapes, glazed in rich colors. Ohr loved self-promotion and considered himself "the best potter in America," but sold little of his pottery and faded into obscurity. As if making up for lost time, Ohr's pottery now sells for high prices. This mug sold for \$2,250 at a Rago auction.

\*\*\*

*George E. Ohr's pottery can be recognized by its thin clay, vividly colored glaze and an overall sense of eccentricity.*

**TIP:** To be collectible, trunks must be in good condition. Refinishing destroys the trunk's value as an antique. Trunks in poor condition can be refinished to be attractive and useful as pieces of furniture, but they will no longer be of interest to serious trunk collectors.

**Q:** I have this odd \$20 bill with markings and I don't know who to take it to for a value that I can trust. Can you please help me with this?

**A:** The markings on your bill look like part of the word "TELLER." They are probably from a teller stamp. When bank tellers bundle bills together to go into the vault, they wrap the bundle with a paper strap, then stamp the strap and add their initials to verify that they counted the bundle. Your bill was probably on top of a bundle where the teller's stamp slipped and partly missed the strap. On one hand, this does not make the bill rare or worth more. On the other hand, it is still legal tender and can be spent like any valid \$20 bill. We would recommend taking the bill to a bank to verify this. They will probably exchange it for a clean bill.

**Kathy Bates in the CBS series "Matlock"**

**Q.** My wife and I really enjoyed the premiere of the new "Matlock" with Kathy Bates, but there have been no subsequent episodes. Did it change nights? — K.L.

**A.** The new "Matlock" reboot recently debuted on CBS on a Sunday night at 8 p.m., but the next episode wasn't slated to be broadcast until Thursday, Oct. 17, at 10 p.m. ET. It was a huge ratings hit, becoming CBS's best premiere in over five years. It continues to generate big numbers on the streamer Paramount+ as well. The question is, will fans follow the show to Thursday nights three weeks after the pilot episode aired? Granted, CBS will re-air the pilot on Oct. 10 in the new time slot, so this should reignite interest in the show.

I personally think they should keep "Matlock" on Sunday nights, as older audiences will likely stay tuned to CBS after "60 Minutes" is over. However, the Justin Hartley drama "Tracker" will air in this slot instead, but if Hartley doesn't bring in the numbers that Kathy Bates did, I wouldn't be surprised if "Matlock" is back on Sundays.

Interestingly, it was recently reported that Bates said "Matlock" will be her last hurrah and that she plans to retire, but CBS has said she's changed her mind. In fact, her co-star Skye P. Marshall, who plays attorney Olympia Lawrence, said that she would "drag [Bates] out of her house kicking and screaming if she thinks America or the world is going to let her retire."

**Q.** I was so sad to hear about the death of Drake Hogestyn. Did he film any more episodes as John on "Days of Our Lives" that haven't aired yet? —R.W.

**A.** Drake Hogestyn, a fan favorite as John Black on "Days of Our Lives" for a total of 38 years, passed away on Sept. 28 at the age of 71. His family says that he put up an "unbelievable fight" in his battle against pancreatic cancer. Unfortunately, his appearance on "Days" had already aired on Sept. 9, as the show films six to seven months in advance of the airdate.

"Days" airs exclusively on NBC's streaming service Peacock, so you can easily find the episode, as they are listed in date order. Also, according to TVLine, if you're looking for Hogestyn's final scene with Deidre Hall, who plays John's soulmate Marlena, you'll find it on the Sept. 5 episode.

**Q.** Is "Silo" coming back to Apple TV+ for another season? What about "Bad Sisters"? — K.S.

**A.** Yes, both "Silo" and "Bad Sisters" will return to Apple TV+ for their second seasons. The dystopian sci-fi drama "Silo" returns on Nov. 15 with one episode. Subsequent episodes will drop weekly on Fridays through Jan. 17, 2025. Steve Zahn ("The White Lotus") joins the cast. "Bad Sisters," a dark murder-mystery series, will be back beginning Nov. 13 with a two-episode premiere. The rest of the new episodes will air each Wednesday with eight episodes in total.

## Laidback Golf Tour Results from Forest Oaks Major

Although mourning the loss of one of their beloved Tour members Randy Kenyon who passed away on September 29th; nine members of the Tour participated in the Tours event at Forest Oaks Country Club on October 7th. Randy had been a faithful member of the Tour since 2015 and had won his flight three times this season before cancer forced him to become inactive. In 2022 Randy had held the Tours Points Championship lead throughout most of the season before his call to duty as a juror forced him to miss several tournaments resulting in his second place season finish. Randy will be remembered and missed by all who came to know him.

The Tours last outing at Forest Oaks was in 2023 in which twenty-three players played resulting in four rounds in the seventies, one eagle and sixteen birdies made. This time although near perfect weather was present the group was not able to card any rounds in the seventies and only three birdies were made. The beautiful course which opened in 1962 and was redesigned in 2002 by Davis Love 111 was the location of the Wyndham Greater Greensboro Open from 1977-2007 and has been rated 4.7 out of 5 by Golf World Magazine. The course lived up to its ratings by allowing only five rounds in the eighties. Robbie Revis claimed his fifth win of the season with the days low round of 80. Mike Pritchett, playing in his first tournament of the season claimed the top spot in the B-Flight with an 82. Meanwhile in the combined C and D-Flights Jody Myers claimed his 7th first place finish of the year with his score of 87. There were no Honey Hole winners in either flight today therefore \$50 in A&B Flight and \$140 in C & D Flights Pool will carry-over to the Chatmoss tournament.

The Tour only has two more scheduled events this season with the next one being Monday October 21st at Chatmoss Country Club in Martinsville, VA beginning at 10am. Entry fee for this event will be \$75 with registration required by Monday October 14th. This will be the last tournament of the season in which points toward the Tour Championship will be awarded. The Tour will close-out their season Monday November 4th at Goodyear Golf Club in Danville with season awards to follow play.

## Even Exchange by Donna Pettman

Each numbered row contains two clues and two 6-letter answers. The two answers differ from each other by only one letter, which has already been inserted. For example, if you exchange the A from MASTER for an I, you get MISTER. Do not change the order of the letters.

**Learn To Adjust Your Body to a New Sleeping Schedule**

DEAR DR. ROACH: I just retired from working the graveyard shift for 40 years. I am hoping you can share some information on how to safely learn to sleep at night once again. -- E.H.

ANSWER: Changing your body's circadian rhythm isn't always easy, and after such a long time, it will take longer for you. But it shouldn't be as difficult as you might fear. When people fly to the other part of the world, they need to get accustomed to a new sleep schedule, and it usually doesn't take more than a week or two for them to get accustomed. For you, it will be difficult learning to be up during the day, which is more of a behavioral issue than a circadian-rhythm issue.

The first advice I give is to push your internal time clock forward, not backward. Try to stay up two hours or so later each day until you get to a bedtime that works with your family (if appropriate) and goals. Your body has an easier time moving forward than backward.

Bright light can be your friend or your enemy. You want bright light when you wake up, not right before bed. Computers, phones and tablets all put out light that signals your brain to wake up, so don't use these before bed. Making sure that your bedroom is dark when you want to sleep is something you probably have already done, but it's still worth mentioning.

Caffeine is very helpful to a lot of people, so if you partake, do so when you awaken, not before bedtime. Some people metabolize caffeine slowly, so if you do, don't have any caffeine for at least 8 hours before planning to go to sleep.

DEAR DR. ROACH: Recently, I had COVID and was given Paxlovid. I am a 74-year-old woman with a 25-year history of a fibromyalgia-type disorder, along with rheumatoid arthritis and a few other problems. I was expecting to feel worse after taking Paxlovid, but I was quite surprised that I felt much better. The COVID symptoms were gone in 24 hours, and for the first time in years, I had energy. The fibromyalgia symptoms were gone, too.

This lasted for four days, then it was back to reality. Once I stopped Paxlovid, the symptom relief halted as well. Have you ever heard of this? -- F.P.

ANSWER: Yes, this is well-reported among the fibromyalgia community. It's not at all dissimilar to what I have heard from some patients about feeling better after getting antibiotics for an unrelated condition.

As far as I know, nobody has a definitive answer as to why this happens. I doubt very much that it is an effect of Paxlovid. Many people have tried using antivirals or antibiotics for fibromyalgia, but it does not seem to be helpful. Some authorities have speculated about it suppressing other viruses, but this isn't likely either. It seems that not only do people feel relatively better after being very sick with COVID, people report being able to do activities that they hadn't been able to do before.

I'm sorry that I don't have an answer as to why this happens. A diligent search doesn't lead me to any great insight. Obviously, a better understanding of these types of conditions would be great if it could lead to more effective treatments.

Dr. Roach regrets that he is unable to answer individual questions, but will incorporate them in the column whenever possible. Readers may email questions to ToYourGoodHealth@med.cornell.edu.

\* There are many uses for empty Tic Tac containers. Here are three: Wrap with pretty paper and use as a tiny vase for a single-stem flower. Or, separate small scrapbooking supplies in them. Last, thread two needles with a length of thread -- one white and one black. Poke the needles through a small square of paper and wrap the thread around the paper. Slip into the container for a travel sewing kit.

### Hot Fudge Pudding Cake {9X13-inch Pan}

#### INGREDIENTS

##### Topping:

- ¾ cup granulated sugar
- ⅓ cup natural unsweetened cocoa powder

##### Cake:

- 2 cups all-purpose flour
- 1 cup sugar
- ½ cup natural unsweetened cocoa powder
- 1 tablespoon baking powder
- ½ teaspoon table salt
- 1 cup milk, preferably not skim
- ½ cup butter, melted
- 2 large egg yolks
- 1 tablespoon vanilla extract
- 1 cup semisweet chocolate chips
- 2 cups boiling water

#### INSTRUCTIONS

Preheat oven to 350 degrees. Spray a 9X13-inch baking dish with cooking spray.

For the topping, whisk the sugar and cocoa powder together until well-combined. Set aside.

For the cake, whisk the flour, sugar, cocoa powder, baking powder, and salt in a large bowl.

To the dry ingredients, add the milk, butter, egg yolks, and vanilla and whisk together until just combined.

Add the chocolate chips and stir to combine evenly; the batter will be fairly stiff.

Spread the cake batter evenly in the prepared pan. Sprinkle sugar/cocoa topping evenly over the top of the cake batter.

Carefully pour the boiling water over the top. Do not stir.

Immediately bake the cake until the top is puffy and slightly cracked, sauce is bubbling and a toothpick inserted into cakey area comes out with moist crumbs attached, about 22-25 minutes.

Over baking may result in a very thin or nonexistent pudding layer, so keep an eye on the baking time.

Cool the cake for 10-15 minutes. Serve warm with vanilla ice cream.
