AND CELEBRATE HEALTHIER IN THE NEW YEAR!

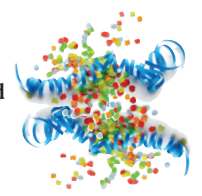

GET YOUR AIR DUCTS CLEANED

Air Duct Cleaning by Ron Cochran of Stanley Steemer
Furnace cleaning is invaluable to the way your home breathes and performs. NADCA recommends you should clean your air ducts every 3-5 years. Depending on the situation of your home, that number can change. Air ducts are the lungs of your home - whatever they breathe in, you breathe in too. If you're not convinced air duct cleaning is necessary, check out these 5 reasons why the investment is worth it.

1. It also gets rid of dirt, dust mites and allergens.
2. Reduces air pollution in your home.
3. Helps increase the efficiency of your HVAC system.
4. Refreshes a home you may be buying, selling or renovating.
5. Helps save money on repairs and utility expenses.

To learn more check out our blog at: <https://www.stanleysteemer.com/blog>

Winter is a great time for tree care

Northwest Indiana-I spent a lot of time this past spring and summer watching one of the regions top residential tree service at work. Day in and day out they were booked with many customers to service sometimes even taking 3 to 4 weeks to get them to the top of the schedule. While its a good thing to be in high demand and very busy, but it can have its draw backs too. I thought to myself, why do so many people fail to consider trimming and removing trees in the wintertime when the prices are lower and the trees are dormant. At least when you go to the doctor and have a procedure done they give you some sort of "anesthetic" to numb the pain. This makes me think of trimming and cutting the trees in the spring and summer when the tree has no kind of "anesthetic" and its wounds just sit open prone to insects and infections. This is why I am a firm believer in wintertime is the best time. When you trim the trees while they are dormant you have a much better result in the spring when it's growth is in full swing. Not to mention the costs will be less in the winter as opposed to the other 3 seasons. Equipment can do a significant less amount of damage to the yard when the ground is frozen and the clean up can be easier too. It makes much more sense to have your trees removed and trimmed in the winter.

Priced-Rite Tree Service is Northwest Indiana's highest rated tree service according to the many sites on the web. They provide complete and professional tree care services in the winter and offer free estimates 6 days a week.

"It makes much more sense to have your trees removed and trimmed in the winter."

A Few Techniques for Trimming Trees in the Winter

Crown Thinning-by removing branches within the crown this will provide a better shape and increase the trees overall health by providing more light and air movement. Dead and weak branches will be removed. Younger trees respond to this technique very well in the winter when it is dormant.

Crown Raising-by removing low branches of the tree this allows more height clearance under the tree.

Crown Cleaning-by carefully selecting and removing of the dead, dying and diseased branches from the trees crown you will have a healthier, stronger, safer and all around better looking tree.

Outdoor Observations
The Common Buckeye Butterfly

“Buckeye butterflies are very beautiful with their multi-colored wings. Photo by Tom Berg.”

Fall is only a memory and winter is here. But not long ago some of our most beautiful butterflies were still active. These are the Buckeye butterflies. Their range includes most of the eastern half of the United States, the warm southwestern states, most of California and much of southern Canada. They are common sights in the Midwest from late-summer through October, and many buckeye butterflies from Indiana actually migrate south as colder weather arrives.

Buckeye butterflies are a nice chocolate brown color, with many other colors on their wings, too. Orange, white, blue, pink and black are all present, and several distinct eyespots really grab your attention. Those cool eyespots are multi-colored, as well. It is thought that the large eyespots help to ward off predators and keep the butterfly safe. Of course, it is not a foolproof defense!

Another defensive mechanism of these butterflies is that as caterpillars, they ingest certain types of glycosides from the plants they eat. These glycosides taste bitter to predators like birds, ants and other predatory insects, which makes the buckeye a less desirable meal. As a side benefit to the buckeye caterpillar, eating glycoside-rich plants stimulates their growth, too!

Buckeyes, as they are commonly called, can be found in a variety of habitats. They prefer open, sunny areas with plenty of vegetation and mixed trees. Parks, gardens and pastures are good places to find them, along with creek banks that are not too overgrown. These butterflies are beautiful and unforgettable, and many people believe they are a symbol of good luck. Consider yourself lucky the next time you see one!

Fit & Healthy Family Guide

Forget the same old resolutions and aim to live more peacefully instead

Around the first of the year, most of us begin focusing on improving our lives. While resolutions often center on developing new habits that will get us into better physical shape—eating more nutritious foods and getting exercise generally top most people’s lists of goals for the new year— reducing stress and getting into better mental and emotional shape can provide huge rewards.

This year, consider incorporating new habits to reduce stress and increase happiness and overall life satisfaction. Here are some important steps you can take to be happier, healthier, and more relaxed in the new year.

Sleep Better

Being sleep deprived can be both a cause and an effect of being stressed. While stress can keep people up at night, continually operating on too few hours of sleep can increase your risk of a variety of health problems such as high blood pressure, diabetes, and obesity. It can also lead to you being less productive.

Pick Up a Stimulating Hobby

While you may have been involved in sports and other fun activities as a child or young

adult, it’s important to keep learning, growing, and doing things you enjoy throughout your adult life.

Invest in Your Social Circle

The company you keep can significantly impact your quality of life. Good friends and close family can celebrate with you during your best times and support you through your worst. A social network of healthy relationships can be a buffer against stress and provide many other benefits.

Get More Music in Your Life

Listening to music is an easy way to elevate your mood and change your energy. Music with a slow tempo—especially slow, quiet classical music—is known for its relaxing effects. Not only can it quiet your mind and relax your muscles, but it can also lower your body’s levels of the stress.

Cull Your Clutter

Without some regular purging, your drawers and closets can get so jam-packed that it becomes almost impossible to find the items you actually want and need. Living in a cluttered space may also be causing you more stress than you realize. Not only does it decrease productivity, but it also drains your wallet and robs you of time.

Stress Free Techniques to Start the New Year 2025

Reduce Job Stress

Regardless of what kind of work you do, workplace stress can negatively impact your emotional and physical health. One of the best things you can do for yourself is to examine your work situation and see what changes you can make to your work life a little easier. This may include finding ways to increase your productivity, changing certain aspects of your job, adding to your life outside of work, or even examining whether you're in the right field.

Make a Plan for the Future

When you're feeling stressed, thinking beyond today and into the future can be overwhelming—but it doesn't have to be. In fact, taking some time to think about your goals and dreams for your future can give you more to look forward to and inform the resolutions you make this year and next.

Do you have a strong financial plan in place? Are you expressing yourself as fully as you'd like? Are you on the path to where you'd really like to be with your relationships and personal growth?

Adam to Zion Home Bible Study

One of the greatest blessings as parents is to follow God's guidance towards our Children: "And ye shall teach them [God's Words] to your children..." (Deut. 11:19)

The book, *Adam to Zion*, and its accompanying workbook contain 93 valuable Bible lessons for parents and their children of all ages to read and discuss. The accounts recorded in the Bible can become powerful teaching tools to guide them through their life experiences.

We invite you to supplement your home lessons by using the link below. Or email / write us for the details to get the book and workbook.

Gardening Tips

by Jackie Kubiak #12

Here are some tips for gardening in the Midwest in January:

Plan and order seeds

January through March are good months to plan, order seeds, and start plants indoors.

Start seeds indoors

January is a good time to start growing vegetable and flower seeds indoors. You can use a seed-starting kit and a grow light.

Plant root vegetables

Root vegetables like carrots, turnips, radishes, and parsnips can be planted in January and early spring.

Consider the moon phase

When the moon is waxing, it's a good time to plant seeds that yield fruit above ground. When the moon is waning, it's a good time to plant root crops.

Work back from the last frost date

To develop a timeline, work back six weeks from the last frost date in your area. In Indiana, this is typically mid-May or Rule of Thumb, Mother's Day Weekend.

Use the right media

Don't use regular potting soil or garden soil to sow seeds. These can be too heavy for small seeds and garden soil may contain diseases.

"The Aisle Seat"

by Tim Fealy

In the new Netflix film directed by Tyler Perry, **"Six Triple Eight"**, Lena is grieving over the loss of her romantic interest, Abram, who goes off to fight in World War II. He had promised to write but she never receives his letters. Lena joins the war effort herself and enlists in the only all black, all female battalion in the Army. She is under the command of Major Charity Adams who makes these everyday women into soldiers. Adams is extra tough as she knows the prejudice her soldiers will face. When their orders finally come, they are given the nearly impossible task of sorting the mail. There are hangars full of letters that have never made it to loved ones. Imagine the anguish on both sides, never hearing from a loved one? There are many in the Army who believe they will fail and thus confirm the Army is no place for black women. But history will prove otherwise in this true story that you never knew happened. The story is well told and inspiring and, **on my scale as to what I would pay to see this film, the "Six Triple Eight" receives \$8.**

Sticking with the theme of inspiring movies, our next film introduces us to an aspiring writer who, early in his career, rents a local theater for one night for a play he had written. There was a snowstorm, and no one showed up. This was just one of many setbacks he would endure and eventually he would end up homeless on the streets of Atlanta. But, the time would come when he would have five number 1 movies in four years and own his own production studio. His name is Tyler Perry and the documentary that tells his story is **"Maxine's Baby"**, available on Amazon Prime. This film will leave you feeling incredibly inspired. Like our own lives, not everything in his life is perfect. His story teaches us that while we cannot always control what happens in our lives, we can do our best to make the most of it, both for ourselves and those around us. **On my scale as to what I would pay to see this film, "Maxine's Baby" gets \$10**

Garlic Parmesan Baked Shrimp: Grab some shrimp - fresh or frozen, doesn't matter as long as they're peeled and deveined. Whip up the recipe in a snap, pop it in the oven for 15, and you've got a healthy dinner that people will devour!

- 1 pound large shrimp, peeled and deveined
- 2 tablespoons olive oil
- 4 cloves garlic, minced
- 1/4 cup grated Parmesan cheese
- 2 tablespoons chopped fresh parsley

- 1 teaspoon lemon zest
- Salt and pepper to taste
- For Garnish (Optional):**
- Lemon wedges
- Additional chopped parsley

Preheat the Oven: Preheat your oven to 425°F (220°C) and line a baking sheet with parchment paper for easy cleanup.

Prepare the Shrimp:

In a large mixing bowl, combine the peeled and deveined shrimp with olive oil, minced garlic, Parmesan cheese, chopped parsley, lemon zest, salt, and pepper. Toss until the shrimp are evenly coated.

Arrange on the Baking Sheet:

Spread the seasoned shrimp in a single layer on the prepared baking sheet, ensuring they are not crowded. This allows for even cooking and a delightful texture.

Bake to Perfection:

Place the baking sheet in the preheated oven and bake for approximately 12-15 minutes or until the shrimp turn opaque and are cooked through.

Garnish and Serve: Once baked to perfection, remove the shrimp from the oven. Garnish with additional chopped parsley and lemon wedges for a fresh burst of flavor.

WHY HAVE A TUNE-UP?

There are a few important things you can do to ensure that your heating and cooling systems run efficiently to keep utility bills down and your comfort up:

- **Change your air filters at least twice a year so your family is breathing cleaner air and your HVAC system is not being overworked.**
- **Install a programmable thermostat.**
- **Have yearly system tune-ups.**
