Salome's Stars

ARIES (March 21 to April 19) With change dominant this week, don't be surprised to find new emerging facts that could put a slant on a situation and offer you another choice. Think it through before you decide.

TAURUS (April 20 to May 20) There could be some lingering problems from a previous matter that involved a decision you felt you had to make. Resolve the situation with your strong Taurean no-nonsense approach.

GEMINI (May 21 to June 20) The Gemini's carefully made plans could be undone by someone's unexpected decision. Getting the full story behind a surprise move can help you decide how to deal with the matter.

CANCER (June 21 to July 22) Recently uncovered information might put a new light on a situation you thought had been resolved. Keep an open mind about possible changes that you might have to consider.

LEO (July 23 to August 22) With a potential revision of an old agreement, you can't beat the Big Cat for knowing how to sharpen a "clause" to the best advantage. Meanwhile, someone close could have the news you've been waiting for.

VIRGO (August 23 to September 22) Certain issues in the workplace could put you in the middle of a dispute you'd rather not deal with. Express your honest feelings before the pressure to take sides builds up.

LIBRA (September 23 to October

22) You might feel uneasy disagreeing with someone you've been close to. But your relationship should be able to withstand and even thrive when you confront your true feelings.

SCORPIO (October 23 to November 21) A romantic situation seems to be creating more confusion than you can handle. If so, own up to your feelings. The sooner you do, the better your chances are for working things out.

SAGITTARIUS (November 22 to December 21) With change directing the Archer's aim, consider a second look at your plans and see where they might benefit from a revision. In other news, a workplace matter is close to a resolution.

CAPRICORN (December 22 to January 19) New contacts help you learn some important information about upcoming developments. The week calls for the Sea Goat to be more flexible than usual in a number of matters.

AQUARIUS (January 20 to February 18) With both change and uncertainty in your aspect, you might feel less confident in a previous decision. This is OK. Check it out and see where it could be modified, if necessary.

PISCES (February 19 to March 20) Old relationships that seemed to be sinking are buoyant again, and new relationships are benefiting from Cupid's loving care. This could be a good time to make a major move!

BORN THIS WEEK: You prefer making your own path, but you'll go out of your way to help someone in need. You define what it means to be a true trailblazer.

Fun Fact

It is estimated it would take about two years and eight months for a spacecraft to leave Earth for Mars, undergo a "waiting period" there, then return to Earth.

Mars is at its closest position to Earth only about every 2 years, so a craft reaching Mars must wait out its orbit around the sun before the craft can attempt to fly back to Earth.

March 27, 2025 By Paulette Dean

Spring has arrived and that means it is scholarship time for area students. In 2019, we established scholarship programs in partnership with two families.

The first award, named for Margot Mayhew of Gretna, was created by her grandson, Bobby Allen Roach, to honor her during her final stages of glioblastoma brain cancer before passing away on May 2, 2019. The scholarship totals \$500 and is funded through family donations and the Danville Area Humane Society. The Margot Richter Mayhew Scholarship for Professional Studies will be awarded to a Pittsylvania County student who plans to pursue a career helping animals. Primary consideration will be given to a student who will study at a college or university in the Dan River region.

The \$500 scholarship will be awarded to a resident of Pittsylvania County.

The second scholarship, which will be awarded to a student living in the City of Danville, was also created last year in memory of Barbara S. Smith. The Barbara S. Smith Scholarship for Animal Welfare

996 South Boston Rd., Danville, VA 24540
Phone: (434) 799-0843

Studies fund was established by the daughter of Smith, Hilary Wyatt, who worked for us for a few years and has served on the board for several years.

The \$500 scholarship will be awarded to a resident of the City of Danville.

The families of Mrs. Mayhew and Mrs. Smith hope that students who are pursuing careers in veterinary science, animal welfare, or conservation will apply for the scholarships.

Scholarship application forms can be requested via e-mail at dahsinc@yahoo.com or can be picked up at the animal shelter. The deadline for submissions is May 1, 2025.

HOLLYWOOD by Tony Rizzo

HOLLYWOOD — Leonardo DiCaprio has been absent from big screens since "Killers of the Flower Moon," which was an artistic success but a box-office disappointment. However, 50-year-old DiCaprio has just completed "One Battle After Another," opposite Oscar winners Regina Hall, Sean Penn, and Benicio del Toro. It's scheduled to open on Aug. 8.

Brad Pitt wrapped the American sports action drama "F1," featuring the Formula One World Championship, and it opens on June 27. Pitt then jumped right into the action-adventure film "Heart of the Beast," which is about a former Army Special Forces soldier and his retired combat dog who fight for survival after crashing deep in the Alaskan Wilderness. Pitt still doing action/survival films at 61 says a lot about the gene pool that he came from.

George Clooney's next film is the Netflix coming-of-age comedy "Jay Kelly," with Adam Sandler, Laura Dern, Billy Crudup, Riley Keough, Jim Broadbent, Isla Fisher and Greta Gerwig.

As soon as **Julia Roberts** wrapped the thriller "After the Hunt" (due on Oct. 10), with Andrew Garfield and Chloe Sevigny, she jumped right into filming the thriller "Panic Carefully," with Elizabeth Olsen, Eddie Redmayne, Brian Tyree Henry, and Ben Chaplin.

Mark Wahlberg, who is approaching 54 years old, is still going full speed ahead. He shot "Flight Risk" in Las Vegas with Michelle Dockery and Topher Grace, which was directed by Mel Gibson (whose last film "Hacksaw Ridge" earned six Oscar nominations and won two statues). Wahlberg then headed down under to Sydney to shoot "Play Dirty," with Dermot Mulroney, Tony Shalhoub, and Keegan-Michael Key for Amazon MGM Studios.

He loved it so much that he stayed on to shoot another film — the Amazon MGM action comedy "Balls Up," with Molly Shannon and Benjamin Bratt.

Leonardo DiCaprio in "Killers of the Flower Moon"

Is this the end of an era? Founded in 1915, Technicolor was used by Walt Disney for "Snow White and the Seven Dwarfs" (1937), by MGM for "The Wizard of Oz" (1939), and by David O. Selznick for "Gone with the Wind" (1939), to name a few classics. The company recently notified its customers and employees that they're facing "severe financial challenges" and are anticipating closings and layoffs. It may mean that the upcoming "Mission: Impossible — The Final Reckoning" might be one of the last films ever in glorious Technicolor!

Dwayne Johnson must have been disappointed by his Christmas movie "Red One," with Chris Evans, Lucy Liu, Nick Kroll and J.K. Simmons. It only recouped \$185.9 million of its \$250 million cost. But the animated "Moana 2" must have cheered him up with its \$1.05 billion grosses. Next, he's got "The Smashing Machine" with Emily Blunt opening later this year and the live-action "Moana" due in July 2026. Guess his biggest challenge these days is wrestling with how to spend his estimated \$800 million net worth!

Floater in Eye Proves To Be Incredibly Distracting

DEAR DR. ROACH: I am a 67-year-old male with generally good vision. I've had a few floaters in my eyes over the years, but they have generally been small and have not significantly affected my vision. However, about six months ago, I suddenly had a large floater appear in one of my eyes that did affect my vision. It is right in the center of my field of vision and is very distracting.

I had a checkup with my optometrist soon after, and she said there were no major issues with my eye. She said that my brain would adjust to the floater so I would not notice it as much. However, six months later, I still find it very distracting. I frequently have to move my eye to try and get it out of my center vision so I can see clearly. Are there any treatments that can be done to remove distracting floaters? — D.H.

ANSWER: "Floaters" are bits of cellular debris in the vitreous humor, which is the gel-filled space in between the lens and the retina. The sudden appearance of floaters can represent serious eye disease, such as a detached retina, so it was wise to get an evaluation when you noticed a sudden change.

The eye does not have a way to remove floaters, so you will have them as long as you live unless you do something about it. As your optometrist said, they don't bother most people; however, several of my readers over the years have been so bothered by floaters that they have

undergone surgical vitrectomy. This is the removal of all the gel material from the vitreous cavity, including all (or nearly all) of the vitreous opacities that cause floaters. Published complication rates with this procedure are less than 1% in experienced hands.

I have also read about using a laser to break up large floaters into smaller and presumably easier-to-ignore pieces, but I have no personal experience with this. In addition, the literature is mixed.

DEAR DR. ROACH: I was diagnosed with sleep apnea decades ago. While I was not obese, I was a little overweight at the time and made a commitment to eat better. I lost 10-20 pounds, and I'm down to under 250 pounds at 6 feet, 1 inch tall. Voila, my sleep apnea was cured! I kept the weight off and have not snored since.

While you note the connection between excess weight and sleep apnea, I didn't see any mention of weight loss as a cure. Is it really this easy, or was I just lucky? — D.K.

ANSWER: Weight loss is effective at treating sleep apnea in many people. However, losing and keeping the weight off in the long-term is very hard for most people. The GLP-1 drug tirzepatide (Zepbound) was recently approved for obstructive sleep apnea in people who are obese, in combination with a healthy diet and physical activity. GLP-1 agonists are quite effective at helping people lose weight and keeping the weight off (as long as the person keeps taking the medication).

It's critical to note that not everyone with obstructive sleep apnea is obese. Some people just have the anatomy in the back of their throats that makes sleep apnea more likely, despite having a normal weight. Weight loss may not help them at all in these cases.

Dr. Roach regrets that he is unable to answer individual questions, but will incorporate them in the column whenever possible. Readers may email questions to ToYourGoodHealth@med.cornell.edu.

Public Works temporarily restricts compost distribution due to limited supply

The Public Works Department will temporarily restrict compost distribution to the public effective immediately due to a limited supply.

To ensure compost remains available for as many residents as possible, the following restrictions will be in place:

- Dump trucks will not be loaded.
- Pickup trucks may receive a maximum of one bucket scoop.
- If a pickup truck has a trailer and the owner prefers to load compost there, Public Works will accommodate the request, but the total limit remains at one bucket scoop.

These restrictions will be lifted once the compost stockpile is replenished. Public Works appreciates the community's cooperation and understanding during this temporary adjustment.

* There's no end to the quick time-savers and innovations in the kitchen. Today's homemakers are likely to have a full-time job already. Here's one for those mornings when you want to get a little fancy, but don't have all day: Make hash browns in a waffle iron. Parboil shredded potatoes the night before. Store in the refrigerator in a plastic bag. Generously oil your waffle iron and scatter precooked potato shreds on. They cook twice as fast, and have all of the double-sided crispiness of pan-fried.

* Freeze leftover wine for use in cooking. Use and ice-cube tray for uniform measuring.

* Want to hard-cook many eggs at once? Bake the eggs in the oven 325-350 for 30 minutes, then submerge them in ice water for 10 minutes. Peel and enjoy.

* "Tension rods can be used in cabinets to separate cookie sheets and have them stored upright. Use two shorter ones mounted vertically in the cabinet, and slide the sheets right in. You can also use a dish rack to store pot lids upright. This is something I do, and my cabinets are nice and organized." -- R.L. in Indiana

* Try prep cooking once a week for as many elements of that week's meals as possible. Chop veggies, saute or even brown meats for casseroles or prep slow cooker bags. It does save time if you are able to cook two meals at once, say, roast two chickens: one for tonight's dinner and another for chicken enchiladas later in the week.

* I only buy my bread when it's two for one. I freeze it in half loafs, so I always have fresh bread, even if my nest is empty now! -- D.D. in Maryland

PERFECT FRUIT PIZZA

INGREDIENTS

- Sugar Cookie Crust:**
 3/4 cup (170 g) salted butter, softened to room temperature
 1 cup (212 g) granulated sugar
 1 large egg
 1 large egg yolk
 1 teaspoon vanilla extract
 1 teaspoon fresh lemon zest, optional (but delicious)
 2 cups (284 g) all-purpose flour
 1 teaspoon baking powder
 1/2 teaspoon baking soda
 1/4 teaspoon salt
- Cream Cheese Frosting:**
 1/4 cup (57 g) salted butter, softened to room temperature
 8 ounces (227 g) cream cheese, softened to room temperature
 1 tablespoon sour cream
 1/2 teaspoon vanilla extract
 1 3/4 cups (200 g) powdered sugar
 Pinch salt
- Fruit:**
 Fresh strawberries, cut in half or quarters
 Fresh blueberries
 Red grapes, cut in half
 Kiwi fruit, peeled and cut into triangles
 Canned mandarin oranges, drained and patted dry
 Canned pineapple tidbits or chunks, drained and patted dry

INSTRUCTIONS

Preheat the oven to 350 degrees F. Line a half sheet pan (a rimmed baking sheet about 11X17-inches) with parchment paper and lightly spray parchment with cooking spray. See note for alternate pan sizes.

For the sugar cookie crust: in large bowl, cream together the butter and granulated sugar with an electric handheld or stand mixer until smooth, 1-2 minutes. Mix in the egg, egg yolk, vanilla, and lemon zest. Add the flour, baking powder, baking soda and salt, and mix until no dry streaks remain (don't over-mix).

Press the dough into a rectangle shape in the center of the pan, about 10X14-inches. It doesn't have to be exact, just make sure it is fairly evenly thick throughout so it bakes evenly. Bake the crust for 10-12 minutes until just baked. It should be soft and not overly brown around the edges. Don't over bake. Let the crust cool completely.

For the frosting: in a medium bowl, add the butter and cream cheese and beat with an electric mixer (handheld or stand mixer) until smooth, 30-60 seconds. Add the sour cream and vanilla and mix until smooth. Add the powdered sugar and pinch of salt, and mix until well-combined and light and fluffy, 1-2 minutes, scraping down the sides of the bowl as needed. Spread the frosting evenly on the cooled sugar cookie crust, leaving a thin border. Arrange fruit on top of the pizza. Chill in the refrigerator until serving. The fruit colors can bleed into the frosting, so it's best to serve within 1-2 hours of making the fruit pizza.

NOTES
 Pan Size: a 9X13-inch pan can be used in place of the half sheet pan (the crust will be slightly thicker and take a bit longer to bake) or a circle pizza pan can be used. I would not suggest using a baking stone.
 Cream Cheese: full fat cream cheese works best in the frosting recipe; light cream cheese can be used but will make the consistency of the frosting runnier.
 Fruit: the fruit given in the recipe is just a suggestion! The sky is the limit with other fruit options. Use ripe, fresh fruit that isn't overly juicy and will hold its shape. For canned fruit, make sure to drain well and pat very dry with paper towels.

4. Who wrote and released "Bad Medicine"?
5. Name the song that contains this lyric: "Your lips on mine are soft as dew, Your kiss is so divine, Your eyes are like the skies of blue, And stars that brightly shine."

Answers

1. No, it wasn't Tanya Tucker, although hers was the best known, nor was it Helen Reddy, although she topped the charts with her cover of the song. The first to release the song was Bette Midler on her debut album in 1971.
2. Bob Dylan, in 1962. The song didn't get much attention when it first came out, but it ended up as No. 14 on the Rolling Stone list of 500 greatest songs of all time and went into the Grammy Hall of Fame.
3. The all-female The Go-Go's, organized in 1978.
4. Bon Jovi, in 1988.
5. "So Many Ways," by Brook Benton, in 1959. Benton (born Benjamin Franklin Peay) had three songs top the R&B charts that year, and "So Many Ways" stayed there for three weeks.
