Do You Hear, but it's Not Clear?

Hearing Problem #1
The ear canal's job is to funnel sound to your ear drum. Sometimes the canal becomes plugged with wax, which mimics a hearing loss because it blocks sound from reaching your eardrum. Use of a cotton swab will pack wax even more. We will check for impacted wax with a video ear camera to see if this is a problem.

Hearing Problem #2
The three tiny bones of your inner ear conduct sound between your ear drum and your cochlea. Otosclerosis is the calcification of these bones, resulting in conductive hearing loss. About 10% of people have this type of loss.

Hearing Problem #3
The cochlea is a snail-shaped organ containing thousands of living hair cells called stereocilia. A condition known as Sensorineural hearing loss (nerve type hearing loss) occurs when any of the hair cells become damaged. About 90% of hearing loss is this type. A new hearing computer has now been released that is programmed specifically for the frequencies of hair cells that are damaged, resulting in improved speech understanding.

Auditory Cortex of the brain

Hearing Problem #4
Tinnitus is the phantom sensation of ringing in the ears. It is the result of damaged or misfiring nerves between the cochlea and the brain. A specialist will identify the tone of your tinnitus and demo how the hearing computer may reduce it.

If You Could Unroll The Cochlea's Tube

In a healthy cochlea, all hair cells are alive and standing upright. As sound waves move through the fluid within the cochlea, each hair cell fires and sends an electrical impulse through the Eighth Nerve to the brain.

Low Tones: j u i a m e o
Medium Tones: r p g
High Tones: k s f th
Vowel Sounds: j u i a m e o
Fricative Sounds: r p g k s f th

Damaged hair cells don't fire properly and some sounds (fricatives and high tones) are not transmitted to the brain. Hair cell damage is a natural part of aging. It can be caused by moderate sounds over long periods, loud sounds over short periods, or even by prescriptions.

I wasn't looking for a discount funeral. I was looking for an affordable one.

Most "discount funerals" mean less money, less service, less attention to detail, less of everything. An affordable funeral is a complete funeral based first on the needs of the family, then priced to fit within their budget.

HERE IS A PLEASANT LITTLE GAME that will give you a message every day. It's a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner and check one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

THE HISTORY CHANNEL

• On **April 23, 1564**, English dramatist and poet William Shakespeare is born in Stratford-on-Avon. While it is impossible to be certain of the exact day of his birth, church records show that he was baptized on April 26, and it was customary to wait three days before baptizing a newborn.

• On **April 20, 1871**, Congress authorizes President Ulysses S. Grant to use military force to suppress the Ku Klux Klan. Founded in 1865 by a group of Confederate veterans, the KKK engaged in night terrorist raids against black Americans and white Republicans.

• On **April 19, 1897**, the first Boston Marathon is held. Women were not allowed to enter the race until 1972, but in 1966 runner Roberta "Bobbi" Gibb hid in the bushes near the start until the race began. In 1967, Kathrine Switzer finished even though race officials tried to physically remove her.

• On **April 21, 1918**, Manfred von Richthofen, the German flying ace known as "The Red Baron," is killed by Allied fire. In a time when 20 air victories ensured a pilot legendary status, von Richthofen had downed 80 enemy aircraft. He was 25 years old.

• On **April 18, 1945**, syndicated journalist Ernie Pyle, America's most popular war correspondent, is killed by Japanese machine-gun fire on the island of Ie Shima in the Pacific. Pyle always wrote about the experiences of enlisted men rather than the battles they participated in.

• On **April 24, 1953**, Winston Churchill, the British leader who guided Great Britain and the Allies through World War II, is knighted by Queen Elizabeth II.

• On **April 22, 1978**, the Blues Brothers make their world premiere on "Saturday Night Live." Led by SNL cast members Dan Aykroyd and John Belushi, the band would go on to score three top-40 hits and a No. 1 album.

Make Life Less Taxing

(NAPSA)—You can save time, trouble, maybe even money next year if you heed a few hints about tackling your taxes right now.

- Contribute to retirement savings plans. This can lower your taxes now and for years to come.
- Buy a home. You can deduct mortgage interest and property taxes.

Now is the time to get your files organized for next year's taxes, so you get every deduction to which you're entitled.

- Give to charity—and get a receipt. Clothes and furniture donations are deductible as well as cash contributions; the cost of traveling to volunteer may be also.
 - Organize your finances. One thing that can help is a Dome Tax Deductions File with schedules on which you can record all your tax-deductible items and convenient file pockets where you can preserve all bills and receipts. If you have rental income, you can use the Dome Rental Property File to track income and expenses.
- You can find both these useful items from Dome at most office products stores and websites. You can learn more at www.domeproducts.com and (800) 432-4352.

Health Trends

Key Partners In Global Health Battle AIDS

(NAPSA)—Global efforts to fight disease and improve public health have been helped significantly by the humanitarian efforts of one American industry.

The pharmaceutical industry's health spending in developing countries rivals that of the World Health Organization. In 2002, the pharmaceutical industry donated more than \$800 million in medicines to the developing world. Since 1998, that amount is more than \$2.7 billion.

More important, the collaboration among pharmaceutical companies and their partners—many of the world's leading humanitarian, academic, governmental, multilateral and community-based organizations—have benefited tens of millions of people living in more than 100 developing countries around the world.

The battle against AIDS is one area that enormous strides have been made in. Here are some of the industry's contributions, according to PhRMA (Pharmaceutical Research and Manufacturers of America).

- Boehringer Ingelheim donated medication that prevents mother-to-child transmission of HIV in 36 developing countries for five years.
- Merck enhances Botswana's national response to AIDS in the areas of education, care, support and treatment by \$50 million.
- Bristol-Myers Squibb initiated a five-year, \$115 million program to address the needs of women and children affected by AIDS in countries in Southern and West Africa.
- Abbott created a multi-million dollar program to improve

Many pharmaceutical companies pledged to remain involved until the diseases they are fighting have been eradicated.

local health care services for children affected by AIDS and provide HIV counseling and education in Tanzania, Burkina Faso, India and Romania.

- Pfizer donated training for health care workers and medicine to fight life-threatening opportunistic infections in 12 African nations and Haiti.
 - Novartis provided psychological care to AIDS orphans and counseling training in Tanzania.
 - Johnson & Johnson trained people in Thailand in the benefits of touch and infant massage to the overall well-being of orphaned and abandoned HIV-infected babies and children.

Smart Choices

Need Help With A Game Plan? Consider A Coach

(NAPSA)—Where do you turn when you want to achieve a goal? For many people, the best way to level the playing field may be to get good advice from a coach.

Many people now have coaches to help them form a game plan in their personal and professional life. Basically, coaching is helping people increase their life skills or performance.

Coaches are experts in listening and working with people to find their optimal point of view or perspective and create strategies to support them in reaching their goals.

"A life or business coach works with people to identify, clarify and achieve goals," says Judy Feld, MCC, President, International Coach Federation. "Some people may want help in working on a life change or a career change." People for whom a coach may be helpful include:

- Individuals who no longer have a job or whose jobs have become untenable because of economic circumstances;
- Individual business professionals who face challenges maintaining their businesses;
- Individuals who now want to re-evaluate their life goals or perhaps set goals to make significant life changes; and
- Individuals who have worked in one career for a long period of time and now want to explore other possibilities.

Others may want support in beginning a business or changing the focus of their business. Every coach has a different approach, so

If you need help with your game plan, a coach may be able to map out a course of action.

when looking for a coach, find someone you can feel comfortable talking to on a weekly basis.

A life or business coach should also be someone you can trust and feel safe being honest with.

A good place to start the search for a coach may be the International Coach Federation (www.coachfederation.org), the coaching professional association. Or you can try www.coachreferral.com, a database of life coaches.

International Coach Federation is the largest worldwide non-profit professional association of personal and business coaches. ICF establishes and administers standards for credentialing professional coaches and coach training programs. ICF also provides a process for an ethical conduct review of its members. For more information, visit www.coachfederation.org or to speak to ICF Executive Director Dan Martinage, call 1-888-423-3131.

Algae grow in gutters, ponds and other water-holding fixtures surrounding a home. After a rain (or several days of rain), growing algae turns into spores. As the water drains, existing algae spores dry and can be easily blown into your swimming pool, causing the water to become less than attractive.

BioGuard, one of the leading manufacturers of pool and spa products, offers these simple tips to ensure the comfort and enjoyment of your swimming pool throughout the swimming season:

- Use a program approach to pool care, one that incorporates a weekly preventative algacide
- Weekly shock routine to eliminate unwanted contaminants
- Maintain a good sanitizer level (range) 1-3 ppm

By following these three easy steps, you can prevent excessive algae infestation in a year where algae could be a threat all season. Bring a water sample to a BioGuard dealer for a computerized analysis of your swimming pool water.

For more information on the proper use of pool and spa maintenance products, visit www.bioguard.com or consult your yellow pages.

Gifts That Aren't Appreciated

DEAR PAW'S CORNER: My mother has a 3-year-old mixed Shitzu/poodle. He is very spoiled and loves to go with her everywhere. The problem is that when she leaves him (it doesn't matter what house he's left at), he leaves a large, smelly "present." I can see this is in defiance, but what can we do? Please reply; I'm desperate. — C.L., via email

DEAR C.L.: Your first move should be to erase the word "defiance" from your vocabulary. Yes, your mother's dog (let's call him "Fluffy") is getting upset when he's left behind, but he's not being angry or defiant or petulant. The term here is "separation anxiety," and many pets suffer from it.

Fluffy is very attached to your mother. And your mom keeps the dog close by at all times, bringing him along on most of her errands, as well as to your house, where she occasionally leaves him while she runs out.

The length of time she is gone doesn't matter. When your mother leaves Fluffy behind, he becomes very anxious. Like many anxious pets, he engages in destructive behavior — in this case, soiling. Some pets chew up their owners' shoes or destroy the living room.

Yelling at Fluffy, rubbing his nose in his own mess or confining him will not stop the behavior. His anxiety has to be addressed.

Fluffy needs independence training, possibly combined with an anti-anxiety drug. The veterinarian is the first step in the process. An obedience trainer can put together a regimen that gradually increases Fluffy's ability to be left alone.

If your mother follows the vet's (or trainer's) program faithfully, Fluffy will improve immensely. And your carpet will look much, much better.

Send your questions or tips to ask@pawscorner.com.

Ruby Glass

Q. I have a 50-piece set of ruby glass. Several years ago, I was offered \$75 per glass, but I want to sell the entire set. Any suggestions? — *Marilyn, Sonoma, Calif.*

A. Ruby glass is a flashed glass, deeply red in color, and was manufactured by numerous companies beginning during the 1890s and continuing through the 1940s. Although it is sometimes confused with red carnival glass, it is made differently and not the same. Values are tricky. It might be a good idea to consult the numerous price guides available and monitor ruby glass prices on eBay.

Another suggestion is to contact a good appraiser. Although you will pay a nominal fee, you will get an expert's opinion of what your collection is worth.

Q. We have a collection of 78-rpm and LP recordings, mostly classical. Could you provide me with the names of buyers? — *Janice, via e-mail*

A. I get questions about older recordings at least a dozen times a month, and my answer is always the same: Unless you have real rarities, there is little market for older recordings. I contacted used record dealers in Los Angeles, St. Louis, Dallas and New York, and I was told that it was difficult, if not impossible, to sell classical recordings in the secondary marketplace. You might consider donating your collection to a charity.

Q. I have a series of 12 postcards that were printed to promote the 1939 New York World's Fair. I have been offered \$100, but I do not feel that is enough. — *Josie, Ormond Beach, Florida*

A. According to three collectors I consulted, postcards from the 1939 World's Fair are fairly common. Your postcards are probably worth between \$2.50 and \$5 each. If you have been offered \$100 for the set, my advice is to take the money and run.

Q. I have six vintage irons, all pre-1900. Whom can I contact about them? — *Betty, Shreveport, Louisiana*

A. David Irons (yes, that's his real name) is an expert and can help you determine the value of your irons. His contact information is dave@iron-santiques.com; 223 Covered Bridge Road, Northhampton, PA 18067; 610-262-9335.

SEWING PROJECT TO HELP FOSTER KIDS IN RI
 Organizers of The Sewing Project to Help Foster Kids are looking for volunteers to sew kid-friendly pillowcase bags for foster children. When a child is taken from a home that has been deemed unsafe by DCYF (Dept. of Children, Youth & Families), the child may take only a small amount of toys, clothes, and personal belongings. Many times, DCYF workers just don't have enough suitcases to use, so when a child arrives at a Crisis Center, Group Home or Foster Home, many times they arrive with literally 1 or 2 large black trash bags full of personal items. Let's change that! This is an ongoing project. Work at your own pace. For more information, contact Hollie at 385-9876 or holliegal@verizon.net

The IBEW is growing and you are invited!!

Response to our recent advertisements has been terrific! We have welcomed some new contractors into our family and are continually interviewing new membership prospects.

Our new contractors are not only looking for **Qualified Electricians** but also more **Solar Electricians and Tele-Communication Technicians** to staff upcoming projects.

One of the greatest benefits of the Electrical Union is the ability for our members to retire with dignity. Retirement of our well seasoned members provides fantastic opportunities for **Electricians of Foreman and General Foreman qualifications**. If you are an un-represented "lead" electrician, then we should be talking about your future.

We are also always looking for **Quality Open Shop Electrical Contractors** looking to grow with us. It does not matter if you have just 1 electrician or 1000, we have opportunities for everyone!

The IBEW has been successfully training crews for our contractors since Edison and Tesla were young men. For 125 years our signatory contractors have come to the IBEW to hire the highest quality electricians in the industry. We continue today, working in a mutually beneficial partnership with our contractors to offer the best value in the industry to our valued customers.

ARIES (March 21 to April 19) Whether a waiting period is taking longer than expected, or just seems that way, the anxious Lamb would do well to create a center of calm within her- or himself, and not do anything rash.

TAURUS (April 20 to May 20) Practical matters dominate the week, but cultural activities also are favored, especially those that can be shared with someone special in the Bovine's life. Some important news might be forthcoming.

GEMINI (May 21 to June 20) You need to know more about a possible career move in order to see if it offers a real opportunity or just a change. You're sure to get lots of advice — some of it good — but the decision must be yours.

CANCER (June 21 to July 22) The arrival of hoped-for good news about a loved one dominates most of the week and provides a great excuse for the party-loving Moon Child to plan a special event to celebrate.

LEO (July 23 to August 22) Leos and Leonas rushing to finalize their plans might want to think about slowing down the pace, or risk overlooking an important consideration that could become a sore point down the line.

VIRGO (August 23 to September 22) The week's challenges call for logical approaches. But sentiment also has its place. Sharing memories with a special someone, for example, strengthens the bond between you.

LIBRA (September 23 to October 22) A brand-new approach to a problem could have a good chance of succeeding if it's based on a solid foundation of fact to strengthen its potential for standing up to scrutiny.

SCORPIO (October 23 to November 21) A favorable report should give your optimism an important boost as you confront another phase of a challenge. Don't be timid about accepting advice from someone you trust.

SAGITTARIUS (November 22 to December 21) You might want to target another goal if your current aim is continually being deflected. But stay with it until you find that first sign of an opening, and then follow through.

CAPRICORN (December 22 to January 19) Although offers of advice might not always please the usually sure-footed Goat, good counsel is always worth considering, especially from those whose experience can be invaluable.

AQUARIUS (January 20 to February 18) Don't rush to make up for lost time. Your productivity can be measured not only by what you do, but how you do it. Move carefully until the job is done the way you like it.

PISCES (February 19 to March 20) Emerging facts about someone you know might cause you to rethink your relationship. But remember to make judgments in context of a full situation, not just on scraps of data.

BORN THIS WEEK: You are known both for your love of acquiring beautiful things as well as for your generosity to others.
