Surf Scoter: Sea Duck of the North

"The surf scoter is a strange looking duck! Photo by Tom Berg."

Of all the duck species in North America, the Surf Scoter is one of the most unusual-looking. It is a medium-sized sea duck, and the males are completely black except for small white patches on the back of their head, on their forehead, and at the base of their bill. They also have a bright white eye. Their most unusual feature, however, is their large, colorful bill. It is a combination of white, orange, pink and black.

Like most sea ducks, the surf scoter spends much of its time along the sea coasts – both on the Atlantic and the Pacific sides of the USA. Their name of "surf" scoter is quite appropriate, since they feed in the relatively shallow surf of northern coastlines. Although they often feed in the shallow surf zone, these ducks are capable of diving down to depths of 75 feet or more.

Since surf scoters are expert divers, they routinely dive down to the bottom in search of shellfish like clams, mussels, snails and small crabs. They can even use their large bills to pry clams off of underwater rocks while diving. They swallow the clams and other shellfish whole, and rely on their strong gizzards to crush the shells and digest the shellfish.

Male surf scoters are sometimes called "old skunkhead" since they are mostly black with a flash of white. American coots are also mostly black, so surf scoters are also called "skunk-headed coots." Weird names! During their annual migration, surf scoters can sometimes be seen on the Great Lakes as they are heading north. The male pictured here was photographed on southern Lake Michigan in early February.

Gardening Tips

by Jackie Kubiak #12

"May" we start planting flowers?

Yes you MAY!...finally no worries of any frost.

It's a great time to plant many warm-season vegetables and flowers.

Plant frost-tender plants after the danger of frost has passed for your area. This includes warm-season vegetables (such as tomatoes, peppers, eggplant, and vine crops) as well as most annual flowers and tender perennials (such as cannas, gladiolus, dahlias, tuberous begonias, and caladiums).

Now it's time to up the ante by filling your outdoor space with a vibrant vegetable garden. Tomatoes, zucchini, eggplant, and peppers are just a few of the delightful veggies we dream of, and May is the perfect time to start planting all annuals, shrubs and perennials.

Plant Seedlings Outdoors: When to put small seedlings that you grew indoors (OR starter plants that you bought at a garden nursery) in the outdoor soil.

Start Seeds Outdoors: When to plant seeds directly into the outdoor soil. In May, tropicals and annuals need to wait until after risk of frost and evening temps are not dipping too low, its rare we get a frost in May but usually by mid-May we are safe as temps start to even out. Make sure you find out if plants have been "hardened off" that you are purchasing. *Please Shop Local, see ya next month!*

SAVE THE DATE

Saturday May 31st

the Hobart Garden Club is having their Annual Plant and Treasure Sale at the Chamber of Commerce Parking Lot, 1001 Lillian St. Hobart, IN from 9am to 1pm

Here's what's Cookin'

By Phyllis Hays, #11 with Trixie

Mint Chocolate Mousse

Serves 4

5 ounces dark chocolate (60 to 70 percent cocoa solids), chopped or broken up into smaller pieces

4 to 6 chocolate covered dinner mints, chopped

4 eggs, separated

2 tablespoons sugar

4 tablespoons heavy cream

1 teaspoon powdered gelatin

2 tablespoons chopped chocolate mint sticks, or frosted mint leaves and 1 cup heavy cream, to decorate

4 pots or dessert cups, for serving

Melt the chocolate with the dinner mints over a double boiler or in the microwave. Let cool slightly. Using an electric mixer, beat together the egg yolks and sugar in a large bowl until thick and mousselike, then beat in the melted chocolate-mint mixture.

Sprinkle the gelatin over 4 tablespoons water in a small, heatproof bowl and let soak and swell for 2 to 3 minutes. Put the bowl in a pan of simmering water and stir until the gelatin has dissolved.

Beat into the chocolate-mint mixture.

Working quickly, beat the egg whites in a clean, dry bowl until stiff but not dry, then fold into the chocolate mixture with a metal spoon.

Divide the mousse between the pots. Scatter with the chopped mint sticks, then refrigerate until set. Alternatively, whip the 1 cup cream and use to decorate the mousses, along with the frosted mint leaves. Leave at cool room temperature for about 20 minutes before serving.

After Evil — Comes Peace

Many hope for a day when evil will end and the world will live in peace. Has evil been a curse to mankind, or has it served a higher purpose in God's plan for man's school of life lessons?

Those who have considered the topical Bible Study — *The Permission of Evil and Its Relation to God's Plan* — found the sound wisdom of God for his delayed Day of Peace announced by the angels at Jesus' birth.

We invite you to use the links below to this study. You can email / write to us for the details to get the book *The Divine Plan of the Ages* for this and 15 other topical studies.
