"The Aisle Seat"

by Tim Fealy

Sometimes, you just need a show to unwind with after a long day. **"She the People"** came up on my recommended list on Netflix, so I gave it a try. Written, produced & directed by Tyler Perry, **"She The People"** tells the story of Annette who is running for Lt. Governor in Mississippi. Annette is a long shot with limited experience but a strong belief in serving her community. When her 16 year old daughter sneaks away to attend a party, a video of Annette finding her daughter at the party goes viral and she ends up winning the election. More problems will follow as the Governor with whom she works believes she can offer no value and gives her meaningless tasks. This series is 8 episodes long. It has all the elements I love - a main character I can root for, smart dialog, interesting characters and a really fun premise. Watching **"She the People"** offers a fun way to unwind and, **on my scale as to what I would pay to watch this show, "She the People" gets \$7.**

"She the People" reminded me of another film I would like to recommend again. In it, we are introduced to an aspiring writer who, early in his career, rents a local theater for one night for a play he had written. There was a snowstorm, and

no one showed up. This was just one of many setbacks he would endure and eventually he would end up homeless on the streets of Atlanta. But, the time would come when he would have five number 1 movies in four years and own his own production studio. His

name is Tyler Perry and the documentary that tells his story is **"Maxine's Baby,"** available on Amazon Prime. This film will leave you feeling incredibly inspired. Like our own lives, not everything in his life is perfect. His story teaches us that while we cannot always control what happens in our lives, we can do our best to make the most of it, both for ourselves and those around us. *On my scale as to what I would pay to see this film, "Maxine's Baby" gets \$10.*

Outdoor Observations

by Tom Berg

**"American white pelicans are very large birds!
Photo by Tom Berg."**

The Huge American White Pelican

Pelicans. Anyone that has been to Florida is likely familiar with pelicans. But the pelicans which are so common in the sunshine state and some of the other Gulf states during the summertime are mostly brown pelicans. American white pelicans, however, are usually only common along the Gulf coast during the winter and cold weather months.

American white pelicans are extremely large birds, with a wingspan of more than nine feet! They are even larger than bald eagles. As their name suggests, American white pelicans are mostly white in color, with the exception of their black wingtips. The black wings can usually only be seen during flight, as the wingtips are typically hidden when the birds are at rest. Their huge, distinctive bill is yellowish-orange, just like their legs and feet.

As mentioned, white pelicans spend the cold winter months along southern coastlines where it is warm, along both the Gulf coast and the Pacific coast. In the springtime, however, the majority of these birds migrate north, heading for their inland breeding grounds in the northern plains of the U.S. and the vast expanses of central Canada. Some birds breed in the higher elevations of some of our western states, too.

White pelicans are fish eaters, and they are surprisingly good at catching large numbers of fish. Unlike brown pelicans which dive for fish from high in the air, white pelicans stay on the water's surface and dip their massive bills into the water to scoop up small fish. Groups of white pelicans often work together to force schools of minnows and other small fish into shallow water where they can be caught fairly easily.

Like puzzles? Then you'll love sudoku.

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Fit & Healthy Family Guide

Keep Yourself Fit and Active All Summer

The following outdoor activities can actually help improve your health

Swimming

Swimming is said to be an all body exercise as it requires the use of all the muscles in the body. This low impact workout is perfect for cardiovascular fitness. The best part is that swimming can be pretty much done by almost everyone, especially people with physical limitations. Water is a cure for stiff joints and is extremely effective for people with musculoskeletal problems and arthritis. People with arthritis can use swimming to increase their strength along with reducing pain and stiffness in their bones and joints while many athletes make use of water to help recover from injuries. Studies also suggest that people who swim on a regular basis are less likely to develop heart diseases, help combat the onset of diabetes and keep in control blood pressure in an individual.

Cycling

Cycling is another low impact exercise with tremendous benefits for muscles and joints. One of the best advantages of this activity is that it can be done anywhere, anytime. Whether you choose to ride alone or with a friend or your entire family, you can be sure of saving up some good money which would otherwise be spent on getting gas. Moreover, you also help save the environment from pollution by opting for this

eco-friendly mode of transportation. Cycling is considered to be an aerobic activity which means that your lungs, blood vessels, heart all get a workout.

Running

Perhaps the oldest sport and the most widely used form of doing cardio, running has been a part of our identity since the time our forefathers started walking on their feet. Running is a great outdoor activity and one that can be practiced on a daily basis. You can build yourself up to it slowly and then pick up the pace as and how you feel comfortable covering more ground and distance. Another great form of cardiovascular fitness, running gets your blood and heart pumping.

Yoga

Yoga may have its roots in India but today, it has spread to every nook and corner of the globe. A spiritual, mental and physical practice that has been around for centuries, Yoga is a good exercise that can be practiced outdoors or from the comfort of your home. The benefits of doing Yoga are immense right from helping you relieve stress, improving your body flexibility and also muscle strength.

Hiking

A good old way to get fit and fab, hiking is a regular staple and part of our regular past time in America. Spending time taking the scenes of the mountains and the natural greenery surrounding you is a great way to beat stress and keeping fit. An activity that can be done solo as well as in groups, hiking is the easiest and most affordable activity out there.

Gardening Tips

by Jackie Kubiak #12

The longest day of the year falls on June 20th, bringing warmer temperatures and extra sunlight. Flowers are blossoming, there's lots to harvest in the vegetable garden, and keeping on top of bolting plants is a priority — particularly weeds!

-Check plants daily and water them if the soil is dry — especially newly planted fruit trees and shrubs that are still getting established.

-Harden off any remaining half-hardy bedding plants ready for planting out. To learn more about making your beds & borders look great across the seasons, head over to our bedding hub page.

-Use blinds or apply shade paint to prevent your greenhouse from overheating. Remember to open vents and doors on warm days.

-Keep on top of weeding. Your plants shouldn't have to compete for precious water, light, and nutrients.

In the flower garden

-Lift and divide clumps of snowdrops and bluebells once the leaves start to yellow.

-Lift and divide overcrowded clumps of flower bulbs and tubers.

-Wait for bulb foliage to die down naturally before cutting back.

-Start to pick sweet peas as soon as they flower to encourage more blooms.

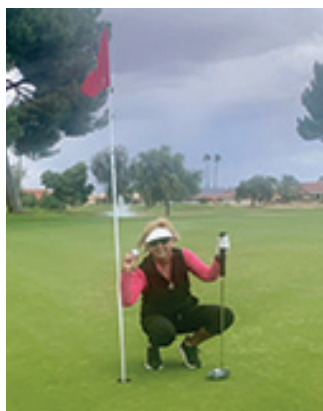

-Dead-head your roses if they're repeat-flowering types.

Otherwise, leave the seed heads on for decoration.

-Stake tall perennial plants to prevent wind damage.

-Towards the end of June, if your hardy geraniums have finished flowering, cut them back to encourage new foliage and flowers. *Please Shop Local, See ya next month!*

Strawberry Mousse

This Strawberry Mousse, which is made with families in mind, is a perfect recipe to make with your little ones or for a date night dessert. It's sweet, fluffy and smooth all at the same time. Made to serve a handful of people, it only takes a few moments to complete. Moms love it and kids enjoy the taste and texture.

Servings: 6-8
1 cup strawberries, halved
2 cups heavy cream
1 cup powdered sugar
1 package (8 ounces) cream cheese, softened, assorted fruit, for serving

In blender, puree strawberries until smooth. Set aside.
In mixing bowl, whip heavy cream and powdered sugar until fluffy.
In separate mixing bowl, beat cream cheese until smooth. Add strawberry puree to cream cheese and mix until combined. Add whipped cream and stir until combined.
Serve in bowl with fruit. In a mixing bowl, combine whipping cream and powdered sugar until smooth.
In a different bowl, beat cream cheese until smooth then add the pureed strawberries.
Finally, add the whipped cream mixture to the cream cheese and strawberries. Stir all the components together until they reach the desired consistency before serving with fresh fruit.
It's easy, fresh and delicious. Your kids can help you combine all the ingredients and excitedly try the sweet result.

After Evil — Comes Peace

Many hope for a day when evil will end and the world will live in peace. Has evil been a curse to mankind, or has it served a higher purpose in God's plan for man's school of life lessons?

Those who have considered the topical Bible Study — *The Permission of Evil and Its Relation to God's Plan* — found the sound wisdom of God for his delayed Day of Peace announced by the angels at Jesus' birth.

We invite you to use the links below to this study. You can email / write to us for the details to get the book *The Divine Plan of the Ages* for this and 15 other topical studies.
