Constantly improving machines.

Shared platforms, parts, and systems.

Stringer pallet nailing machines.

New lumber of all types.

Reclaimed lumber nailing machines.

Block pallet nailing machines.

Crate Sides & Tops nailing machines.

Custom nailing machines.

FOOD COMPANIES INSIST ON AIR FLOW TRAILER SYSTEMS

- Trailer system kit starts at \$4,400 everything included.
- Reduces moisture and humidity
- Uses regular 53 ft. van.

• Solves storage problems.

• Reduces wasted time.

Jasper Products of Joplin, MO, a manufacturer of food related products, had struggled to eliminate mold on pallets. After trying Air Flow Trailer Systems, they have eliminated the mold problem. "We are happy with it because we aren't seeing moldy pallets. We tried many other solutions before and nothing else worked even marginally, but this AFTS fan system worked exceptionally well," said Ed Beam, vice president of Jasper Products. Jasper recently purchased additional units from AFTS, bringing their total to 40.

"We currently run four Hurdle mills and they give us the versatility to cut cants, ties, grade, and feed our thin-kerf resaws ... Hurdle has been a big part of our success for the last 25 years. You could spend 4 or 5 million dollars building a mill to square logs for a resaw, but why? Hurdle is the MOST cost effective headsaw, no other sawmill can produce like this and keep total capital investment this low!"

Brandon Clark, Clark Lumber Company

Our Customers Are Our #1 Salesman!

We couldn't run at the production rate we are without Cleereman Controls... Fact is we WOULDN'T run without it... Our yield and efficiency wouldn't be possible without them... And the quick, accurate reporting of length, diameter, taper, number of lines and boards, downtime, BF per hour...

Jon Richter
Shamco Lumber
Iron River, MI

The Cleereman Controls on our edger and headrig have been trouble free ... We never have to mess with them, they just run... And fast, our production rate wouldn't be possible without Cleereman Controls... But the best part is saving money by getting maximum yield on every log and every board...

Jay Glime
G & G Lumber
Florence, WI

Cleereman Controls do a great job, but what really sets them apart is service after the sale... Parts and service in hours, not weeks... Cleereman has it going on.

Charlie Netterville
Netterville Lumber
Woodville, MS

We recently upgraded from our old light curtain scanning system to the latest scanning and networks from Cleereman Controls and we couldn't be happier, no more worrying when the old system would finally quit and leave us hanging... Accuracy and ease of use are so much better... And as has always been our experience, the Cleereman team made the installation and implementation process simple and easy...

Phil & Joann Etienne
Etienne Timber Co.
St. Croix, IN

In our quest for production enhancement at Turman Forest Products integrating Cleereman Controls proved to be a game-changer. From cutting-edge optimization technology to unmatched precision, our operators are thrilled, and our maintenance crew enjoys peace of mind. With the unwavering support of the Cleereman Controls team, our decision has undoubtedly paid off. For seamless mill management, just make one call to Cleereman Industries. We look forward to more optimized Cleereman equipment in the future.

Joshua Bond
Turman Forest Products
Bedford, VA

We recently upgraded our mill and went with Cleereman Controls and we absolutely love it... It's very user friendly, installation was quick and seamless... Support and service continues to exceed expectations... It was a great experience, the entire team at Cleereman does a great job!

Throughput on Your Notcher Line Like You've Never Seen Before

Automation is the key to moving more board feet per hour without wasting labor hours.

That's what **MAX** delivers.

The KA 6000 Notcher is your solution for efficient throughput on boards from saw to stacker--nearly hands free.

ByPass Notcher[®] System
Integrates with M2L Board Stacker

Feed both notched and non-notched stringers to the same board stacking line at up to 6000 boards per hour.

The East Coast Equipment Auction is a regional consignment auction featuring a wide variety of sawmill, forestry, farm, construction, and industrial equipment. As part of this sale, Esh Lumber—a respected family-owned business based in Pennsylvania—is offering high-quality surplus machinery from their ongoing operations. Highlights include a nearly new Morbark 648 debarker line, and other well-maintained sawmill, forestry, and construction assets. This is an excellent opportunity to purchase quality equipment at competitive prices. As with all lots in this auction, the highest bidder will take ownership—no reserves, no seller bidding, and no minimums. **Accepting consignments to add to this auction!**

LogRipper-200S In Stock for 3-12" Logs

5th Generation

168 HP of Total Milling Power. Small Footprint
Profiling capabilities. Output: from 1/4x2" to 6x10"
Can mill T&G, Shiplap (*experimental features)

1 man: 1,500 - 3,000 bfm / workshift*

3 men crew: 4,000 - 10,000 bfm / workshift*

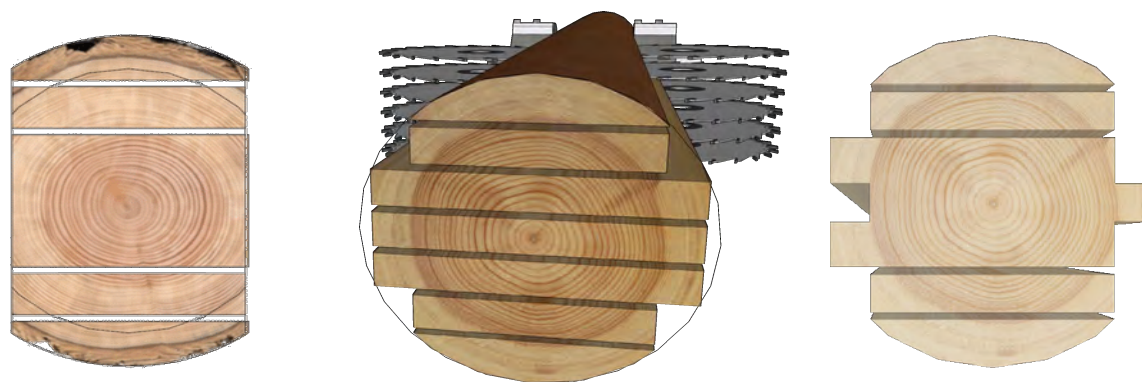

*Larger Diameter Input + Larger Profile = Greater BFM per shift.

Greater BFM requires faster material handling i.e. automation or labor.

LogRipper-200XP In Stock for 3-11" Logs

4th Generation

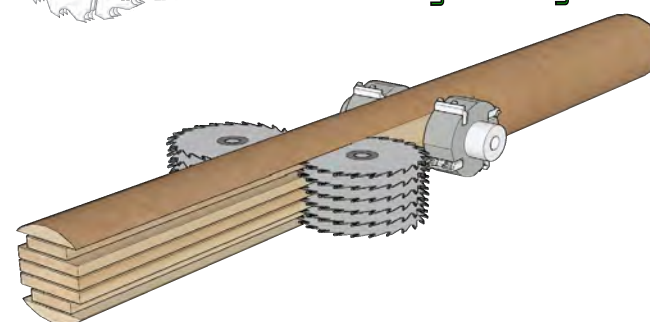

One-Pass & Done Multi-Functional Sawmilling Systems

1-877-508-8777 or LogRippers.com
