Here's what's Cookin'

By Phyllis Hays, #11 with Trixie

Stuffed Green Peppers

6 green bell peppers

salt to taste

1 pound ground beef

1/3 cup chopped onion

salt and pepper to taste

1 (14.5 ounce) can whole peeled

tomatoes, chopped

1/2 cup water

1/2 cup uncooked rice

1 teaspoon Worcestershire sauce

1 cup shredded Cheddar cheese

2 (10.75 ounce) cans condensed

tomato soup

water as needed

Bring a large pot of salted water to a boil. Cut the tops off bell peppers and remove the seeds. Cook bell peppers in boiling water for 5 minutes; drain. Sprinkle salt inside each bell pepper and set aside.

Place ground beef and onion in a large skillet over medium heat; cook and stir until beef is browned, about 5 minutes.

Drain off excess fat and season with salt and pepper. Stir in

tomatoes, 1/2 cup water, rice, and Worcestershire sauce.

Reduce heat to low, cover, and simmer until rice is tender, about 15 minutes. Remove from heat and stir in cheese.

Preheat the oven to 350 degrees

Stuff each bell pepper with beef and rice mixture; arrange open-side up in a baking dish. Combine tomato soup with just enough water in a medium bowl to make the soup a gravy consistency.

Pour over the bell peppers and cover with aluminum foil. Bake in the preheated oven until heated through and cheese is melted and bubbly, about 25 to 30 minutes. Enjoy!

Times of Restitution of All Things

The world seeks peace and restitution from evil done to them, generation after generation. Yet neither *force* nor *laws* truly bring satisfaction to any yearning heart. However, the desire of all nations will be met by God in due time. (Acts 3:21 and Haggai 2:7)

“Ransom and Restitution”, a topical Bible study, leads to *an understanding of God’s Plan* for His timing and requirements for peace to come to all mankind. We invite you to use the links below to this study. You can email/write to us for details on obtaining the book *The Divine Plan of the Ages* for this and 15 other topical studies.

Outdoor Observations

by Tom Berg

“IO moth caterpillars eat many plants, but sassafras is a favorite. Photo by Tom Berg.”

The Prickly IO Moth Caterpillar

Surely everyone has seen a caterpillar at some point in their life. Caterpillars are common and they can be almost every color under the sun. Some are smooth-skinned and some are very furry-looking. Others are covered with sharp spines or spikes, and it is best to leave them alone. One particularly prickly or “spikey” caterpillar is the IO moth caterpillar.

Adult IO moths are beautiful: males have bright yellow forewings with hindwings that feature large, cool-looking eyespots that are black with a hint of blue to them. The eyespots also have a touch of white in the center. Females are similar but their forewings are reddish-brown in color.

IO moth caterpillars are very distinctive-looking, too. They are bright green and are covered with greenish-yellow spikes or spines (and even fine hairs). They also have red and white stripes on each side of their bodies. The spines and hairs are called setae, and they are very sharp and can break off from the caterpillar and cause painful stings or irritation to the skin if you touch them. Some people are more allergic to these stings than others, so it is wise to avoid touching them altogether.

For most people who handle an IO moth caterpillar and get stung, seeking medical help is not necessary. The sting can be painful, though, and is often compared to a bee sting. Simply remove any hairs or spines that are stuck to the skin and wash the area with mild soap and water. Swelling and itching can be minimized by applying hydrocortisone cream. If you do have a severe allergic reaction, however, call your doctor. And next time, look but don’t touch!

Peanut Power!

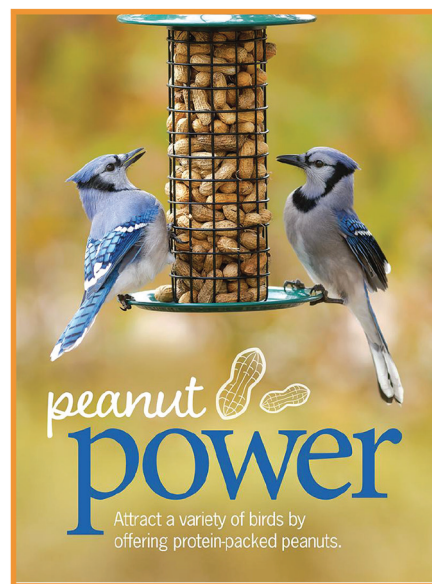

Shell or no shell, birds love peanuts! Loaded with protein and energy, peanuts are especially helpful as birds prepare for migration and the upcoming winter. It's fun to watch for birds like jays, nuthatches and chickadees visiting feeders to snatch peanuts to cache, or hide, for future use. Shop our selection of in-shell peanuts and peanut splits, and help your birds power through this season.

Apple Monkey Bread

3 tubes (7.5 oz) of refrigerator biscuits

1 medium granny smith apple; peeled, cored and diced.

1 cup granulated sugar

1 tablespoon pumpkin pie or apple pie spice

1 stick (1/2 cup) butter

1/2 cup brown sugar

2 tablespoons honey

1 teaspoon vanilla extract

Preheat oven to 400 degrees. Spray a bundt pan with non-stick cooking spray and set aside.

In a large Ziploc bag, combine the sugar and the pumpkin or apple pie spice. Set aside.

Carefully remove the biscuits from the cans and, using a sharp knife, cut the biscuits into fourths.

Carefully separate the biscuit pieces and place them in the Ziploc bag. Seal the bag and shake until coated. Add the diced apple and shake until the spiced sugar mixture has evenly coated everything. Transfer the mixture to the bundt pan and set aside.

Place the butter, brown sugar, and honey in a 4-cup glass measuring cup. Microwave 1 minute at a time, stirring well after each minute, until the mixture is combined and easy to stir (about 3 minutes.)

Add the vanilla, stir to combine, and pour the mixture evenly over the biscuit/apple mixture.

Bake for 20-25 minutes or until the top is evenly browned. Remove from oven and cool for at least 5 minutes before inverting onto a plate to serve.

Gardening Tips

by Jackie Kubiak #12

10 Tips for October Gardening

1. In vegetable garden beds, be sure to remove old plants, as well as any foliage that has fallen on the soil.
2. Do a final weeding, and mulch the bed with straw, grass clippings, or chopped leaves. These mulch's can be turned into the soil next spring to help fertilize next year's crops.
3. Collect and store flower bulbs—such as gladiolus, freesia, calla, and canna bulbs—after their tops have frozen.
4. Mow the lawn one last time. Spread corn gluten meal if you have problems with crab grass.
5. Collect leaves to shred (with a shredder or mower) and compost.
6. Before you put away your mower, take it to the shop for any repairs and to have the blade sharpened.
7. Cut back tender roses to 10 to 12 inches, and remove all foliage so insects and diseases can't winter over.
8. Cover tender, hybrid roses with leaves or straw to protect against winter temperature changes.
9. Bring in any pots that can't take a freeze — terra-cotta, ceramic, and many plastic pots
10. Clean and oil garden tools before storing for winter

JORDAN FAMILY CHIROPRACTIC

Share for Care

Celebrating 33 years of giving back to our Local Communities!

**Don't Let Spinal Issues Get in the Way
While Enjoying the Upcoming Holidays!**

Choose safe, natural chiropractic care for drug-free pain relief and injury prevention.

My name is Dr. John Jordan and I would like to share how you can give to those in need and in turn, receive a wonderful offer. My office will be hosting our **33rd Annual "Share for Care"** community food drive from October 1st to November 7, 2025. Current patients of mine are asked to bring in \$10 worth of non-perishable food items on November 7th in exchange for a FREE spinal adjustment. New patients are asked to bring in **\$25 worth of non-perishable food items** in exchange for a FREE examination as well as 2 x-rays (if needed) that can be scheduled anytime through the end of November, 2025. This is a great opportunity to experience the best Chiropractic Health Care and at the same time be an enormous blessing to others.

When you schedule your new patient appointment between now and the end of November, you will receive your initial visit for **\$25** in "Share for Care" non-perishable food items. That's with two x-rays if necessary. This initial visit could cost you \$250 elsewhere. Further care is very affordable and you'll be happy to know that **I have affordable family plans.**

**Thank you for considering my offer.
I look forward to meeting you!**

~Dr. John S. Jordan

**P.S. Because of the popularity
of our offer, space is very limited.**

Dale and Lois Botma founded Lansing Heating & Air Conditioning 54 years ago, delivering exceptional service and earning customer satisfaction. Lansing Heating holds an **A+** rating from the Better Business Bureau.

After Dale died in 2002 and Lois retired in 2010, Todd Botma and his brother Chris Botma acquired her shares, with Todd as president and Chris as vice president.

"I believe the secret of our success lies in our motto, **'Let our family take care of your family.'** I have always instilled in all the workers that they should deal with each customer like a family member," said Todd Botma.

A Carrier Factory Authorized Dealer for more than 20 years, they offer full-service HVAC solutions for residential, commercial and light industrial clients in Northwest Indiana and Chicagoland.

October is Breast Cancer Awareness Month!

Ask your doctor when you should get a mammogram.

Other than skin cancer, breast cancer is the most common cancer among American women. Mammograms are the best way to find breast cancer early, when it is easier to treat and before it is big enough to feel or cause symptoms.

What Are the Symptoms?

There are different symptoms of breast cancer, and some people have no symptoms at all. Symptoms can include—

- Any change in the size or the shape of the breast.

- Pain in any area of the breast.

- Nipple discharge other than breast milk (including blood).

- A new lump in the breast or underarm.

If you have any signs that worry you, see your doctor right away.

What Are the Risk Factors for Breast Cancer?

Studies have shown that your risk for breast cancer is due to a combination of factors. The main factors that influence your risk include being a woman and getting older. Most breast cancers are found in women who are 50 years old or older.

Some women will get breast cancer even without any other risk factors that they know of. Having a risk factor does not mean you will get the disease, and not all risk factors have the same effect. Most women have some risk

Fit & Healthy Family Guide

factors, but most women do not get breast cancer. If you have breast cancer risk factors, talk with your doctor about ways you can lower your risk and about screening for breast cancer.

Risk Factors You Cannot Change

- **Getting older.** The risk for breast cancer increases with age; most breast cancers are diagnosed after age 50.
- **Genetic mutations.** Inherited changes (mutations) to certain genes, such as BRCA1 and BRCA2. Women who have inherited these genetic changes are at higher risk of breast and ovarian cancer.

- **Reproductive history.** Early menstrual periods before age 12 and starting menopause after age 55 expose women to hormones longer, raising their risk of getting breast cancer.

- **Having dense breasts.** Dense breasts have more connective tissue than fatty tissue, which can sometimes make it hard to see tumors on a mammogram. Women with dense breasts are more likely to get breast cancer.

- **Personal history of breast cancer or certain non-cancerous breast diseases.** Women who have had breast cancer are more likely to get breast cancer a second time. Some non-cancerous breast diseases such as atypical hyperplasia or lobular carcinoma in situ are associated with a higher risk of getting breast cancer.

• Making treatment decisions

It's important to discuss all of your treatment options, including their goals and possible side effects, with your doctors to help make the decision that best fits your needs. It's also very important to ask questions if there's anything you're not sure about.

If time permits, it is often a good idea to seek a second opinion. A second opinion can give you more information and help you feel more confident about the treatment plan you choose.

"The Aisle Seat"

by Tim Fealy

My friend & I love Halloween so much that we start our celebration soon after the Fourth of July! Among the favorite things to do is watch a scary movie. I have a few choices that you may not have watched but are well worth the look.

"Totally Killer," available on Amazon Prime, is a wonderfully fun, comedy/horror film about a small town where three high school students were murdered by a serial killer back in 1987. When the serial killer returns 35 years later to claim another victim, 17-year-old Jamie travels back in time to stop the killer before he even starts. If you lived in the 1980's, the film makes some fun comparisons about how much life has changed in the past 30 years. For example, Jamie manages to get the killer's DNA and turns it over to the police, only to realize it will be several more years before DNA testing becomes common practice. Traveling through time creates its own set of problems with any change made in the past altering the future. Still, what if you could interact with a lost loved one? This film will keep you smiling and entertained. **On my scale as to what I would pay to see this film, "Totally Killer" receives \$8.**

"Haunt" is also streaming on Amazon and tells the story of a group of college friends who visit a haunted house attraction on Halloween night. They start their adventure being welcomed by a clown and placing their cell phones in a lockbox. The rooms have them disoriented; skeletons are popping out & it's all in fun. Until it's not. In one room, there is a witch who drags a bound woman to the middle of the floor to torture her. Is this real or just a really well-done effect? They have their answer soon enough as the crew running the attraction starts to hunt them down to kill them. Finding a way out, fending off the creeps, just staying alive adds to the tension, frights & suspense. Yes, the movie is gory but does not overdo it. It is a fun scare that will have you rooting for the kids until the end. **On my scale, "Haunt" gets \$8.**
