In Loving Memory

This special section includes listings of community members who were featured in the obituaries section of our newspapers between July 1 - September 30, 2025. You will find a truncated version of the notice featuring the following information, if provided: a photo, date of birth, date of passing, and city of residence. We publish this to remember those who passed and to create one more keepsake for those who remain.

If so included, please take another look at the guestbook featured on our newspaper website to send another note of support to the bereaved or if you have been affected by a death please visit to remind you of the love and support around you during this difficult time. The guest book lives on line in perpetuity.

We also invite you to receive daily updates of those who have passed in your email by going online and subscribing our newspaper website.

We ask that you take the time to remember those that were lost and join us in a celebration of life.

The next publication will be January 2026.

All our Best, Newspaper Obituary Team.

5 Things Funeral Directors Wish Everyone Knew

(Family Features) Most people don't want to think about death - let alone talk about it. When the time comes, families often find themselves overwhelmed, not only by grief but by the many decisions that need to be made quickly.

Funeral directors witness this every day. They see the stress and confusion that can come when there is no plan in place and the peace of mind that comes with thoughtful preparation.

After consulting funeral directors nationwide, the National Funeral Directors Association (NFDA) uncovered five things they wish families knew before a death occurs.

1. It's Never Too Early to Start Planning

While everyone knows death and taxes are inevitable, conversations about death are often avoided.

Simply documenting your wishes and discussing your preferences with your family can alleviate the difficult decisions your loved ones will have to make in the future.

Speak with a funeral director to explore the many options for planning a meaningful funeral.

2. Legal and Financial Details Can Cause Unexpected Issues

Families often don't realize power of attorney ends at death, meaning a designated person can no longer make decisions or access bank accounts once an individual dies.

To avoid complications, consider adding a trusted loved one to your bank account and ensure life insurance beneficiaries are up to date. Too often, deceased individuals leave minor children, deceased spouses or former partners as beneficiaries, leading to legal and financial challenges.

3. Final Wishes Shouldn't Be In Your Will

Many people believe the best place to document their final wishes is in their will. However, wills are often not read until after funeral services take place, making them an unreliable way to communicate last requests. Instead, discuss and document your wishes with family members or a trusted funeral professional who

can keep your wishes on file until there is a need.

4. There Are a Variety of Memorialization Options

End-of-life planning offers more choices than many realize. While burial remains a common preference, cremation is an increasingly popular choice and can even include a viewing and funeral service. Additionally, eco-friendly options, such as

5 THINGS FUNERAL DIRECTORS FROM PAGE 2

alkaline hydrolysis, natural burial and natural organic reduction are becoming more widely available for those seeking green memorialization. In fact, according to NFDA's 2024 Consumer Awareness and Preferences Study, 68% of respondents expressed interest in green funeral options.

Exploring these possibilities with a funeral professional can help ensure your final arrangements reflect your values, traditions and personal wishes.

5. Funeral Directors Don't Just Manage Funerals - They're Trusted Guides In Honoring Life

Funeral directors play a vital role in helping families create meaningful services that reflect their loved one's life, values and traditions. Whether planning ahead or facing a recent loss, funeral professionals provide expertise, compassionate care and personalized guidance during one of life's most difficult moments.

Choosing the right funeral director is an important decision and finding someone who understands your needs can make all the difference in honoring your loved one in a personal and meaningful way.

Start the conversation today by talking about end-of-life planning. It isn't easy, but it's one of the most important conversations you can have with your loved ones. A little planning today can make a world of difference tomorrow.

Use comprehensive resources like RememberingALife.com, which is designed to guide families through every stage of the journey, including planning, funeral options and grief resources. The site offers valuable tools and support, such as the "Find a Funeral Home" tool to connect families with compassionate, local funeral directors and much more.

* Inogen Rove 4 weighs 2.9lbs. with a standard battery

SM250015 EN_EX_USA | Rx Only. © 2024 Inogen, Inc. 859 Ward Drive, Suite 200, Goleta, CA 93111 Inogen® Rove 4™ and Inogen® Rove 6™ are trademarks of Inogen, Inc. The usage of any Inogen, Inc. trademark is strictly forbidden without the prior consent of Inogen, Inc. All other trademarks are trademarks of their respective owners or holders.

USES: The Inogen Portable Oxygen Concentrator provides a high concentration of supplemental oxygen to patients requiring respiratory therapy on a prescriptive basis. It may be used in home, institution, vehicle, and various mobile environments. DO NOT USE IF: This device is not intended to be used in any way other than described in the indications for use. Do not use in parallel or series with other oxygen concentrators or oxygen therapy devices. This device is to be used as an oxygen supplement and is not intended to be life sustaining or life supporting. ONLY use this product if the patient is capable of spontaneous breath, able to inhale and exhale without the use of a machine. The conserving, or pulse dose, oxygen delivery technique used by this device is contraindicated in persons whose breathing during normal resting would be unable to trigger the device. Proper device triggering, setup and operation must be confirmed by an experienced clinician or other respiratory professional. Not for pediatric use. Not for use by tracheotomized patients. WARNINGS: The device produces enriched oxygen gas, which accelerates combustion. Do not allow smoking or open flames within 2m (6.56ft) of this device while in use. If you feel ill or uncomfortable, or if the concentrator does not signal an oxygen pulse and you are unable to hear and/or feel the oxygen pulse, consult your equipment provider and/or your physician immediately. If you are unable to communicate discomfort, you may require additional monitoring and/or a distributed alarm system to convey the information about the discomfort and/or the medical urgency to your responsible caregiver to avoid harm. Use only spare parts recommended by the manufacturer to ensure proper function and to avoid the risk of fire and burns. To avoid danger of choking or strangulation hazard, keep cords away from children and pets. TALK TO YOUR HEALTH CARE PROVIDER: The oxygen flow setting must be determined and recorded for each patient individually by the prescriber, including the configuration of the device, its parts, and the accessories. It is the responsibility of the patient to periodically reassess the setting(s) of the therapy for effectiveness. The proper placement and positioning of the prongs of the nasal cannula in the nose is critical for oxygen to be delivered.
