Lumber Resources delivers throughout North America

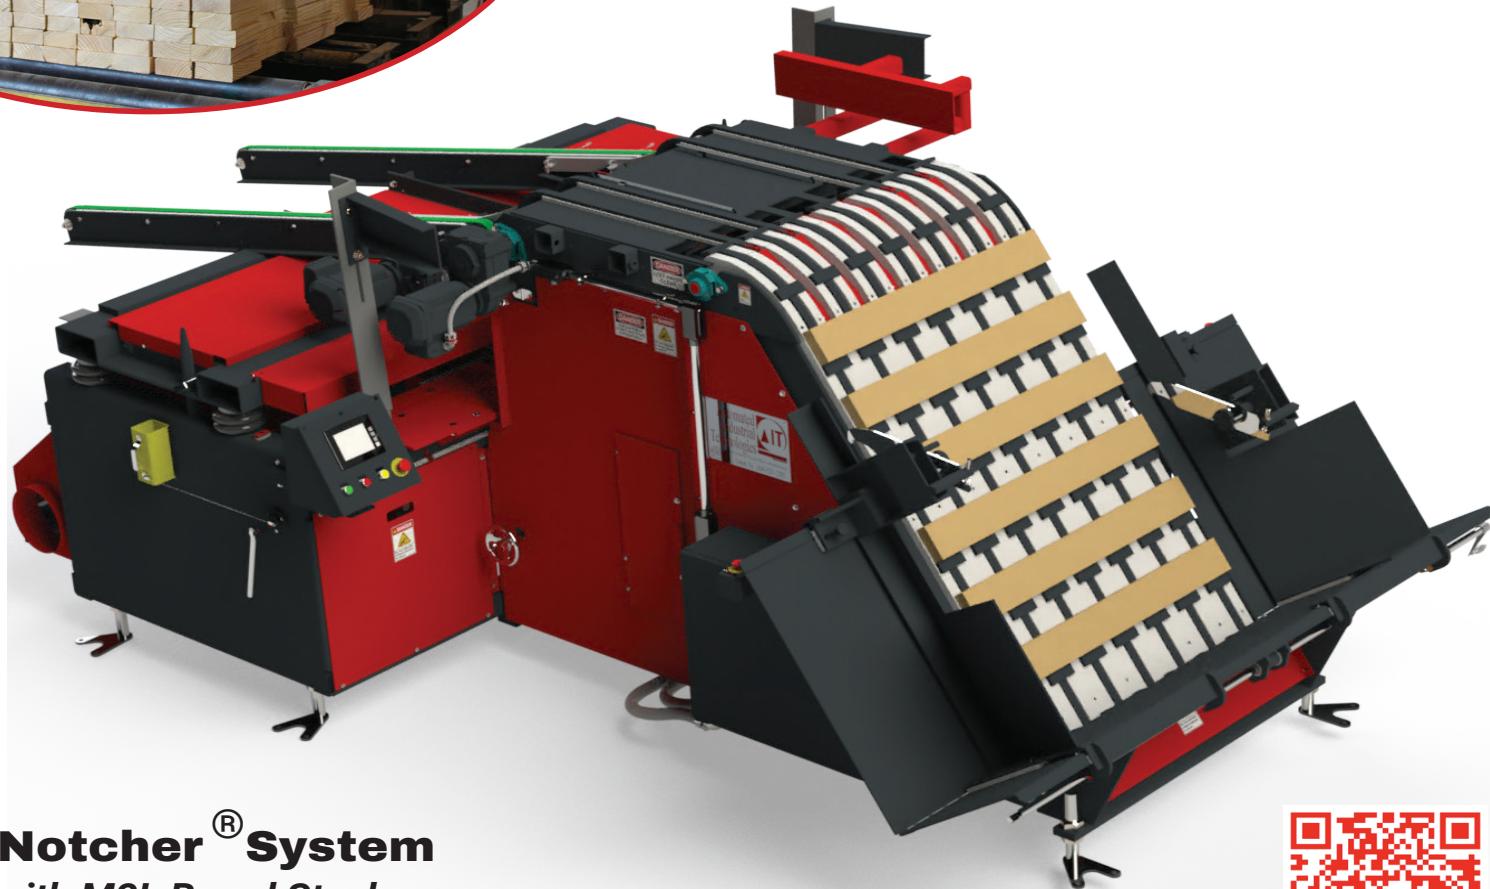

# Throughput on Your Notcher Line Like You've Never Seen Before

Automation is the key to moving more board feet per hour without wasting labor hours.

That's what **MAX** delivers.

The **KA 6000 Notcher** is your solution for efficient throughput on boards from saw to stacker--nearly hands free.

## ByPass Notcher® System

*Integrates with M2L Board Stacker*

Feed both notched and non-notched stringers to the same board stacking line at up to 6000 boards per hour.

**MAGNUM LT CARRIAGE**  
Tough. Fast. Simple

"We currently run four Hurdle mills and they give us the versatility to cut cants, ties, grade, and feed our thin-kerf resaws ... Hurdle has been a big part of our success for the last 25 years. You could spend 4 or 5 million dollars building a mill to square logs for a resaw, but why? Hurdle is the MOST cost effective headsaw, no other sawmill can produce like this and keep total capital investment this low!"  
Brandon Clark, Clark Lumber Company

## FOOD COMPANIES INSIST ON AIR FLOW TRAILER SYSTEMS

Jasper Products of Joplin, MO, a manufacturer of food related products, had struggled to eliminate mold on pallets. After trying Air Flow Trailer Systems, they have eliminated the mold problem. "We are happy with it because we aren't seeing moldy pallets. We tried many other solutions before and nothing else worked even marginally, but this AFTS fan system worked exceptionally well," said Ed Beam, vice president of Jasper Products. Jasper recently purchased additional units from AFTS, bringing their total to 40.

[www.aftstrailers.com](http://www.aftstrailers.com)

For more information, call Air-Flow Trailer Systems, LLC:  
**(262) 677-9033** or e-mail: [aftstrailers@yahoo.com](mailto:aftstrailers@yahoo.com)

# INTRODUCING

## The Marketplace for Premium Lumber

WoodRing is the newest division in the Bright Star family. It gives mills and industrial sellers a dependable marketplace for premium timber with the same proven consistency you expect from Bright Star. WoodRing offers fast payouts, strong buyer participation, and clear load descriptions that help sellers move inventory with confidence.

WoodRing will hold online lumber auctions twice a month, creating a steady rhythm for buyers and a reliable outlet for mills across the country.

Whether you are selling stringers, pallets, hardwood, softwood, cants, mixed loads, cut stock or wood residuals, WoodRing provides a straightforward process that turns inventory into real results. Every auction reflects the speed, transparency, and professionalism that define Bright Star Auctions.

### What We Sell

- Lumber  
(Hardwood and Softwood)
- Stringers
- Pallets
- Cants
- Wood Residuals & Mulch
- Specialty & Mixed Loads
- Cut Stock & Pallet Cut Stock

### Consign with WoodRing in Four Easy Steps

1. **Consign Your Lumber:** Connect with a Bright Star lumber specialist and identify the bundles, stringers or cut stock you'd like to sell!
2. **Marketing Campaign:** We'll promote your lumber to our national network of pallet & lumber buyers through email, print, and digital campaigns.
3. **Auction Day:** We'll conduct an online only auction for maximum exposure and handle all of the coordination.
4. **Pay Day:** We'll collect all verified payments and proceeds will be disbursed within one week!

Visit [BrightStarAuctions.com/WoodRing](http://BrightStarAuctions.com/WoodRing)  
for auctions, schedules, and consignments.

The smartphone screen shows the American Lumber & Pallet website with various equipment categories like SAWMILL, PALLET, and CONVEYORS. The magazine spread shows a full-page advertisement for a vertical sawing machine with the headline "Unleash the Awesome Power of the Vertical Ps!" and another page with a large advertisement for a dual-disk saw.

# FOUNDED ON EXPERIENCE. BUILDING FOR THE FUTURE.

## Industrial Camera

**Opticom Tech**, a leader in industrial video monitoring solutions, announced the release of its updated CC02 industrial camera with an even more rugged anodized coating, built-in vibration mount and lens options—and it's now made in the United States. "We've been designing, prototyping and testing this CC02 camera with our U.S. manufacturing partner for over 18 months," said Heidi Schmidt, global sales manager for Opticom Tech. "We were able to retain, and even enhance, the quality and durability that the CC02 is known for while adding features, bringing manufacturing to North America, and maintaining a similar price point."

Prototypes of the camera were tested in the harshest environments, including sawmills, where cameras have to withstand vibration, heat, dust, debris and even direct hits by boards and logs. The new anodized coating provides increased resistance to corrosion and wear, ensuring long-lasting performance in extreme conditions.

A built-in vibration mount now comes standard, which simplifies installation, improves image stability in high-vibration settings and increases product lifespan. "This is the same CC02 camera our customers know and love—just made in the U.S. and tougher than ever," Schmidt said.

The new CC02 camera is now available to order through Opticom Tech or its distributors. **For more information, visit [www.opticomtech.com](http://www.opticomtech.com) or call 800-578-1853.**

## The Northeast's biggest and best forest industry show returns to Essex Junction, Vermont in May 2026!

Thousands of hard-working people are planning to gather in May to conduct some serious business and to have some fun. The **LOGGERS' EXPO** features a wide array of supplies and services, heavy equipment and trucks—for loggers and land clearers, tree care professionals and firewood dealers, sawmillers and landowners. This year's show features the **Weiler Log Loading Competition**.
