The benefits of attending summer camp

Summer camp is something akin to a rite of passage for millions of youngsters each year. Many adults look back fondly on their experiences at summer camp, often crediting such times as formative periods in their lives.

Summer camp benefits children in myriad ways. Recognition of the many advantages of attending summer camp can serve as a great reminder of just how fun it can be for children to spend their time away from school at a camp of their choosing.

- Campers continue to socialize throughout summer. Socializing isn't just for the school year. While children in high school might be independent enough to come and go with their friends during summer break, kids who are still in elementary school or middle school might not be old enough to handle such freedom. That can make it

hard to stay in touch with friends, which in turn can contribute to feelings of boredom and loneliness. Camp provides ample opportunities for young children to socialize during a time of year when they might not see their school friends as often as they're used to.

- Campers can expand their horizons. Though some summer camps are exclusive to residents of certain communities, many tend to feature children from numerous towns or municipalities. Such camps provide an opportunity for campers to expand their horizons by engaging with youngsters who come from different backgrounds. Indeed, the Graduate School of Education at Harvard University notes that summer camp may be the first time children spend substantial amounts of time with people whose backgrounds differ from their own.

- Camp can get kids off their devices. Modern children are growing up in a digital world, and parents know how hard it can be to get kids to put down their devices and get outdoors. But the key to making that pivot could be access to outdoor play spaces. A 2025 study from researchers at the University of Michigan published in the journal *Health and Place* found that efforts to reduce kids' screen time are more successful when children are given a chance to play outside. Many summer camps are structured around outdoor play, making them a potentially invaluable ally as parents seek to help children cut

back on the time they spend using their devices. Children who do not attend camp and live in households where both parents work or in single-parent households where Mom or Dad works may be forced to spend much of summer indoors, which could increase the frequency with which they turn to devices to occupy their time.

BENEFITS FROM PAGE 7

- Camp adds structure to summer days. Once a school year ends, the structure a school day provides vanishes into thin air. Couple that with extracurricular activities that go on hiatus during summer vacation, and kids accustomed to structure are left with little to do and no need to schedule their time. That can add an aimlessness to summer days. Camp can provide the structure kids are accustomed to but still offer a break from responsibilities like homework or the commitments required of extracurricular activities.

There's no shortage of benefits to enrolling youngsters in summer camp, where kids can socialize, grow and get off their devices while engaged in structured but stress-free activities.

100 Years of Summer Adventures!

University School is proud to be celebrating 100 years of summer adventure! Programs are offered at both their Shaker Heights and Hunting Valley Campuses.

With many week-long options, boys and girls entering preschool to Grade 12 can create their one-of-a-kind summer! Take this opportunity for them to try something new, or dive deeper into something they already love. Your camper will turn curiosity into adventure and fellow campers into friends.

Explorer Programs, like Aviation Challenge or Boating Camp, are a great way for campers to try something new or take what they know even further. Campers will sharpen skills, stretch their imaginations, and discover just how far curiosity can take them.

Athletic Camps, including Football, Basketball, and Wrestling, for all ages are run by accomplished US varsity coaches, and Academic Courses are taught by their inspiring faculty members. Learn more about all of their summer programs at www.us.edu/summer.

Busy Bees offers Creative fun all summer long!

Creative fun all summer long! Busy Bees Summer Art Camp is the place for the kids to "bee" this summer!

Parents looking for "that something different" for their creative kiddos should check out the summer camps offered by the Busy Bees Pottery & Arts Studio in Great Lakes Mall.

Since 2015, the studio has provided a cheerful creative outlet for school-aged children to explore and create throughout the summer. "Within the camps, our instructors take kids on a journey, exploring our mediums, from paint your own unfinished bisque pottery pieces to mosaics, canvas painting, glass fusing, clay hand building, and board art," says owner Beth Brinton. "There's really nothing as special as seeing a child's face light up when they finish creating something."

Beth and her artsy staff have come up with a range of half-day and full-day camps to appeal to kids ages six to 12. Running the second week of June through the first week of August, each day of the week focuses on a special medium and theme! The Summer Art Counselors are an incredible group of people who love sharing and exploring the arts with our local youth. All counselors are First Aid certified and are background checked.

"The kids will create one

to three pieces of artwork each day during the camps," says Beth. "And their pottery, or clay or glass pieces will be kiln fired at the studio which is a really unique experience for the kids. Non-fired projects such as canvases, candles, and mosaics will be available for the kids to explore as well."

Busy Bees Pottery & Art Studio is located in the heart of Great Lakes Mall, near the Fuji Japanese Steakhouse entrance, at 7850 Mentor Avenue, in Mentor. You should book parties in advance, but for regular art projects, walk-ins are always welcome. Register for summer camps online.

The studio is open seven days a week, Monday through Thursday, 11 a.m.-7 p.m.; Friday, 11 a.m.-8 p.m.; Saturday, 11a.m.-7 p.m.; Sunday, 11 a.m.-5 p.m. For more information, call 440-571-5201 or visit www.Mentor.BusyBeesArt.com. From

ceramic and hand-built pottery to glass fusing, painting, jewelry making and more, you can get creative and have a lot of fun at Busy Bees Pottery and Arts Studio.
