BE EMBER AWARE!

DEBRIS PILES
Embers left behind from burning debris piles can remain hot for days, even weeks. Wind can expose smoldering embers hidden in the ashes, allowing them to escape and cause a wildfire. Before leaving, drown the remains with plenty of water, stir, and repeat until cold.

WOOD HEAT ASHES
Embers from cleaning out ashes in a woodstove, fireplace, wood boiler, or outdoor furnace can remain hot for many days when dumped in the outdoors. Wind can

expose smoldering embers, allowing them to escape and cause a wildfire. Store ashes in a metal container, drown with plenty of water, stir, and repeat until cold. Only dump cold ashes in areas free of flammable material.

CAMPFIRES
Embers left behind from burning in fire pits or campfire rings can remain hot for several days. Wind can expose smoldering embers hidden in the ashes, allowing them to escape and cause a wildfire. Before leaving, drown the remains with plenty of water, stir, and repeat until cold.

The JADE 20 sewing machine features a sleek modern design. All accessories can be conveniently stored in the three built-in compartments. It looks nice from any angle.

Turning Ordinary Into Beautiful
