**Judy Bolton Mysteries**  
**Q.** I realize that you have written in the past about Nancy Drew books. When I was a young girl, I became addicted to the Judy Bolton series and have the first five published during the early 1930s, namely "The Vanishing Shadow," "The Haunted Attic," "The Invisible Chimes," "Seven Strange Clues" and "The Ghost Parade." All are in excellent condition, and all except "Ghost Parade" have their original covers. — *Carole, Springfield, Missouri*

**A.** One of the better reference books for series such as Nancy Drew, Cherry Ames, Penny Parker and Judy Bolton is "All About Collecting Girls' Series Books" by John Axe and published by Hobby House Books. According to Axe, the first Judy Bolton title was issued in 1932. The next nine titles followed between 1932 and 1937. The series, written by Margaret Sutton, eventually ended in 1967 after some 38 titles, a record for a juvenile mystery-series author. Values can vary, but the first editions from the early 1930s seem to sell in the \$5-\$75 range.

**Q.** I am sending you a picture of an antique necklace that I have inherited. I need you to tell me its history and how much it is worth. — *Beverly, Albuquerque, New Mexico*

**A.** As I often say in this column, I do not appraise items. There is a reason for this. I am not an appraiser, and I don't make guesstimates. If I tell you your necklace is worth \$200 and you later find out it is worth several times that amount, you would not be happy with me. If you suspect your necklace is valuable, find out for certain by hiring a professional appraiser in your area. It will be worth the investment.

**Q.** I have inherited about a dozen pieces of majolica pottery. Most are from the Victorian era. Can you recommend a good reference so I can determine current values? — *Carol, El Paso, Texas*

**A.** One of the better references is "Warman's Majolica: Identification and Price Guide" by Mark F. Moran and published by Krause Books. When using a price guide, keep in mind that prices listed are not chiseled in stone. Prices can vary from region to region, and the market is always in flux.

*Write to Larry Cox in care of KFWS, 628 Virginia Drive, Orlando, FL 32803, or send e-mail to questionsforcox@aol.com. Due to the large volume of mail he receives, Mr. Cox cannot personally answer all reader questions, nor does he do appraisals. Do not send any materials requiring return mail.*

**Prayer to St. Jude**  
 Most holy Apostle, St. Jude, faithful servant and friend of Jesus, the church honors and invokes you universally, as the patron of hopeless cases, of things almost despaired of. Pray for me, I am so helpless and alone. Make use, I implore you, of that particular privilege given to you, to bring visible and speedy help where help is almost despaired of. Come to my assistance in this great need that I may receive the consolation and help of heaven in all my necessities, tribulations, and sufferings, particularly (your request) and that I may praise God with you and all the elect forever. I promise, O blessed St. Jude, to be ever mindful of this great favor, to always honor you as my special and powerful patron, and to gratefully encourage devotion to you. Amen.

**The IBEW is growing and you are invited!!**

Response to our recent advertisements has been terrific! We have welcomed some new contractors into our family and are continually interviewing new membership prospects.

Our new contractors are not only looking for **Qualified Electricians** but also more **Solar Electricians and Tele-Communication Technicians** to staff upcoming projects.

One of the greatest benefits of the Electrical Union is the ability for our members to retire with dignity. Retirement of our well seasoned members provides fantastic opportunities for **Electricians of Foreman and General Foreman qualifications**. If you are an un-represented "lead" electrician, then we should be talking about your future.

We are also always looking for **Quality Open Shop Electrical Contractors** looking to grow with us. It does not matter if you have just 1 electrician or 1000, we have opportunities for everyone!

The IBEW has been successfully training crews for our contractors since Edison and Tesla were young men. For 125 years our signatory contractors have come to the IBEW to hire the highest quality electricians in the industry. We continue today, working in a mutually beneficial partnership with our contractors to offer the best value in the industry to our valued customers.

**Appointments made 7 days a week, in our home or yours!**

**Salome's Stars**

**ARIES** (March 21 to April 19) You're the first sign in the Zodiac and like to take the lead wherever you go. But this time, you'd be wise to follow someone who has much to teach you.

**TAURUS** (April 20 to May 20) Your adversary hasn't given up trying to undermine you. Continue to stay cool — someone in authority knows what's happening.

**GEMINI** (May 21 to June 20) Spring brings a positive aspect for relationships. Paired Twins grow closer, while the single set finds new romance — perhaps with a Leo or .

**CANCER** (June 21 to July 22) Wavering aspects this week mean weighing your words carefully to avoid misunderstandings.

**LEO** (July 23 to August 22) You could soon be on a new career path in pursuit of those long-standing goals, but don't cut any current ties until you're sure you're ready to make the change.

**VIRGO** (August 23 to September 22) A former colleague wants to re-establish an old professional connection. It would be wise to make the contact, at least until you know what he or she is planning.

**LIBRA** (September 23 to October 22) A relationship that survived some rocky moments could be facing a new challenge. Deal with the problem openly, honestly and without delay. Good luck.

Why do this...  
When you can do this?  
**OFTEN FOR THE SAME OR LESS COST!**

**Why is CONCRETE QUICK Different?**

1. Concrete is mixed on site. There is no minimum order as with traditional concrete companies.
2. 1 YARD OF CONCRETE YIELDS = 50 (80lb.) Bags of Cement = A sidewalk 3'x25'x4" = A patio 8'x10'x4" = 20 (8") Deck Piers
3. Why load-up your vehicle and mix bag after bag of cement in your wheelbarrow.

Grape hyacinths start from small bulbs. Place them in groups of ten or more, with the bulbs twice as deep as they are tall and a couple of inches apart. They grow in sun or light shade. Don't plant them where it's too wet or too dry. They spread very quickly and can be quite invasive; plant them where it is acceptable for them to spread freely. The flower spikes don't appear until mid-spring. There may be some variation in color, depending on which ones you plant, but smoky blue is the most common color. Once their leaves die off, you can cut them back.
