2016 Toyota COROLLA CASH OFFER

\$1,500 CASH BACK

Call us today or come on in!
Expires 05/31/2016

Purchasers can receive \$1500 cash back from Toyota Motor Sales U.S.A., Inc. or can apply cash back to down payment. Vehicle must be taken from dealer stock by 05/31/2016 and is subject to availability. Offer may not be combined with other offers unless specified otherwise. Dealer fees are extra. Vehicle shown may be prototype and/or shown with options. Actual model may vary. ToyotaCare covers normal factory scheduled service. Plan is 2 years or 25K miles, whichever comes first. The new vehicle cannot be part of a rental or commercial fleet, or a livery/taxi vehicle. Valid only in the continental U.S. and Alaska. Roadside assistance does not include parts and fluids from date of purchase lease. APR and cash back offers may not be combined.

2016 Toyota CAMRY APR OFFER

0% APR 60 Months

Call us today or come on in!
Expires 05/31/2016

0% APR financing up to 60 months available to qualified buyers thru Toyota Financial Services. Total financed cannot exceed MSRP plus options. Tax, title, license and dealer fees, 60 monthly payments of \$16.67 for each \$1000 borrowed. Not all buyers will qualify. Vehicle must be taken from dealer stock by 05/31/2016 and is subject to availability. Offer may not be combined with other offers unless specified otherwise. See participating Central Atlantic Toyota dealer for details. Dealer fees are extra. Vehicle shown may be prototype and/or shown with options. Actual model may vary. 0.9% APR financing up to 72 months available to qualified buyers thru Toyota Financial Services. Total financed cannot exceed MSRP plus options. Tax, title, license and dealer fees, 72 monthly payments of \$14.27 for each \$1000 borrowed. Not all buyers will qualify. Vehicle must be taken from dealer stock by 05/31/2016 and is subject to availability. Offer may not be combined with other offers unless specified otherwise. See Participating Central Atlantic Toyota dealer for details. Dealer fees are extra. Vehicle shown may be prototype and/or shown with options. Actual model may vary. ToyotaCare covers normal factory scheduled service. Plan is 2 years or 25K miles, whichever comes first. The new vehicle cannot be part of a rental or commercial fleet, or a livery/taxi vehicle. See participating Toyota dealer for plan details. Valid only in the continental U.S. and Alaska. Roadside assistance does not include parts and fluids. Plus Plug-In Hybrid comes with an extra year of roadside assistance, for a total of three (3) years from date of purchase lease. APR and cash back offers may not be combined. See dealer for details.

2016 Toyota RAV4 LEASE OFFER

\$199 PER MO. 36 MONTHS \$2,499 DUE AT SIGNING

Call us today or come on in!
Expires 05/31/2016

Tax, title, license, dealer fees and insurance are extra. Due at signing includes \$2300 down, first \$199 payment, and no security deposit. Does not include \$350 disposition fee due at lease end. Example based on 2016 RAV4 model 4300 MSRP \$25,340 and capitalized cost, which may vary by dealer of \$25,203. Capitalized cost in example includes \$650 acquisition fee and assumes dealer participation. Your payment terms may vary based on final negotiated price. Offer available on approved credit to qualified customers from Toyota Financial Services. Customer is responsible for excessive wear and excess mileage charges of \$15 per mile in excess of 36,000 miles. Not all customers will qualify. Vehicle must be taken from dealer stock by 05/31/2016 and is subject to availability. Offer may not be combined with other offers unless specified otherwise. See participating Central Atlantic Toyota dealer for details. Vehicle shown may be prototype and/or shown with options. Actual model may vary. ToyotaCare covers normal factory scheduled service. Plan is 2 years or 25K miles, whichever comes first. The new vehicle cannot be part of a rental or commercial fleet, or a livery/taxi vehicle. See participating Toyota dealer for plan details. Valid only in the continental U.S. and Alaska. Roadside assistance does not include parts and fluids. Plus Plug-In Hybrid comes with an extra year of roadside assistance, for a total of three (3) years from date of purchase lease. APR and cash back offers may not be combined see dealer for details.

Do You Have Excellent People Skills?

Are You Dependable and Seeking a New Challenge?

Do you enjoy working with customers in developing their advertising and marketing programs?

Then The Windsor Press, Inc. may be just the employer for you! Located at 6 North Third Street in Hamburg, PA, we're looking for a full-time employee to join our sales team.

Candidates should be energetic and possess a positive, goal-driven mindset. Prior sales experience is a plus but not necessarily required. We will train the right person! This is a commission-based position with health insurance, paid vacation and short-term disability benefits. This is a Monday through Friday position.

Founded in 1958, The Windsor Press Inc. is a full-service printer and publisher of The East Penn Valley and Northern Berks Merchandisers. We are a privately owned company serving Berks, southern Lehigh and parts of Schuylkill counties for 56 years.

Interested applicants should E-mail their resume to matt@windsorpress.com. Please feel free to email any questions to the same email address.

We are an equal opportunity employer.

SECURITY SERVICE COMPANY

Help Wanted: Night Shift -Central Station Operator

Security Service Company of Fleetwood is seeking an individual to fill the role of Central Station Operator. This full-time night shift position involves the monitoring and dispatching of residential and commercial alarm signals. It also entails taking incoming call and providing friendly and professional customer service. The Central Station Operator helps with the scheduling of service and installation calls as well as providing support to field technicians. Requirements: The successful candidate must be able to follow internal procedures. They must have top customer service skills and commitment with a verifiable solid work history. Strong keyboarding/data entry skills as well as good listening and verbal skills are also important: High School Diploma or equivalent; Honesty, Integrity, Reliability and Self-Motivation; Aptitude, Personality and Drug testing required. For 40 years, since 1973, SSC has provided exceptional security services and is looking for the best people to join our family team. Please send resume to careers@SSCsince73.com Learn about us at www.SecurityBeyondPeaceOfMind.com

AlturnaMATS. America's Toughest Ground Mats.

Eliminating expensive ground restoration costs is why leading contractors specify AlturnaMATS. Simply lay these rugged 1/2" polyethylene ground protection mats end-to-end and you have an instant roadway or working platform...and you'll never get stuck again. AlturnaMATS handle 60-ton vehicles with ease. Available in sizes ranging to 4' x 8'. The good news, they eliminate soggy, splintered, warped, short-lived plywood.

Plywood's out. AlturnaMATS are in!

READER'S Recipe

DANDELION SALAD

- | | |
|---|-----------------------|
| Dandelion Greens | 1 tsp. Salt |
| 4 Thick Slices Bacon, cut in small pieces | Black Pepper |
| 1/4 cup Butter | Paprika |
| 1/2 cup Cream | 1 tbsp. Sugar |
| 2 Eggs, beaten | 1/4 cup Cider Vinegar |

Carefully wash and prepare dandelion greens as you would lettuce. (Never use dandelion greens after they have begun to flower, because they are apt to be bitter.) Roll in cloth and pat dry. Put greens into a salad bowl and set in a warm place. Fry bacon and turn out onto greens. Put the butter and cream into skillet and warm over low heat. Mix into the beaten eggs the salt, pepper, paprika, sugar and vinegar; blend into slightly warm cream mixture. Increase heat and cook, stirring constantly, until mixture thickens. Pour hot dressing over greens; toss gently and serve at once. *About 1 cup salad dressing.*

For The Year 2015 Drinking Water Quality Report

Public Water Supply Identification (PWSID) Number is 3060041

The Borough of Kutztown & The Kutztown Municipal Authority

We're pleased to present to you this year's 2015 Annual Drinking Water Quality Report.

**ESTE INFORME CONTIENE INFORMACION IMPORTANTE ACERCA DE SU AGUA POTABLE.
HAGA QUE ALGUIEN LO TRADUZCA PARA USTED, O HABLE CON ALGUIEN QUE TO ENTIENDA.**

This report is designed to inform you about the quality water and services we deliver to you every day. Our constant goal is to provide you with a dependable supply of drinking water. We want you to understand the efforts we make to continually improve the water treatment process and protect our water resources. We are committed to ensuring the quality of your water. Our water source consists of four wells located on Borough Property.

The Borough of Kutztown and the Kutztown Municipal Authority are pleased to report that our drinking water meets federal and state requirements.

The Northeast Berks County Wellhead Protection Plan was completed in 2008. The plan has found that our well sources are potentially most susceptible to agricultural activities and transportation corridors. Overall, our sources have a high risk of significant contamination. Complete reports were distributed to municipalities, water suppliers, local planning agencies and PADEP offices. Copies of the complete report are available for review at the PADEP Southcentral Regional Office at 717-705-4700.

IMPURITIES DETECTED BY THE BOROUGH OF KUTZTOWN AND THE KUTZTOWN MUNICIPAL AUTHORITY

Contaminant	Highest Level Detected	Range	MCL in CCR Units	MCLG	Sources of Contaminant	Violation Y/N?	
Turbidity (NTU)*	0.089	0.011-0.089	TT	N/A	Soil Runoff	N	
INORGANIC CONTAMINANTS							
Nitrate (ppm)**	5.37	4.11-5.37	10	10	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits	N	
Barium	0.033	0-0.033	2		Mineral deposits	N	
Chromium	0.002	0-0.002	0.1		Mineral deposits	N	
Nickel	0.002	0-0.002			Mineral deposits	N	
DISINFECTION BYPRODUCTS							
Haloacetic Acids (HAA5) (ppb)	1.36	N/A	60	N/A	By-product of drinking water disinfection	N	
TTHM (Total trihalomethanes) (ppb)	15.6	N/A	80	N/A	By-product of drinking water disinfection	N	
PERFORMANCE MONITORING							
Chlorine Residual (ppm)	0.7	0.26-0.7	4	4	Water additive used to control microbes	N	
ORGANIC CONTAMINANTS							
Total Organic Carbon (ppm)	2.0	0-2.0	N/A	N/A	Naturally present in the environment	N	
LEAD AND COPPER RULE							
Contaminant	90th Percentile	Range	Number of sites above action level	Action Level	MCLG	Sources of Contaminant	Violation Y/N?
Lead (ppb)	4	0-4	0 of 20	AL=15	0	Corrosion of household plumbing systems; Erosion of natural deposits	N
Copper (ppm)	0.23	0-0.23	0 of 20	AL=1.3	1.3	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives	N
ENTRY POINT DISINFECTION RESIDUAL							
Contaminant	Lowest Level Detected	Range	MinRDL	Sample Date	Sources of Contaminant	Violation Y/N?	
Chlorine (ppm)	0.4	0.4-1.2	0.2	2/19/2015	Water additive used to control microbes	N	

Notes: * TT=Treatment Technique; to meet TT standard, at least 95% of monthly samples must be less than or equal to 0.3 NTU. Also, TT=1.0 NTU for a single measurement. The highest detected Turbidity was 0.089 NTU. The Treatment Technique level is not to exceed 1.0 NTU. ** Nitrate in drinking water at levels above 10 ppm is a health risk for infants of less than six months of age. High nitrate levels in drinking water can cause blue baby syndrome. Nitrate levels may rise quickly for short periods of time because of rainfall or agricultural activity. If you are caring for an infant, you should ask advice from your health care provider. ♦ The 90th percentile results were reported for Copper and Lead as the Highest Detected Levels. Lead and Copper are regulated using a Treatment Technique which requires systems to control the corrosiveness of their water. The Action Level serves as a trigger for water systems to take additional treatment steps if exceeded in more than 10% of tap water samples. The Action Level for Copper is 1.3 ppm, and the Action Level for Lead is 15 ppb.

WHAT DOES THIS MEAN?

The Borough and its Municipal Authority routinely monitor for constituents in your drinking water according to Federal and State laws. The enclosed test table shows the results of our monitoring for the period of January 1 to December 31, 2015. As you can see by the table, our system had no contaminant violations. We are proud that your drinking water meets or exceeds all Federal and State requirements. The state does allow us to monitor for some constituents less than once per year because the concentrations of these constituents do not change frequently. Some of our data is from prior years in accordance with the Safe Drinking Water Act. All drinking water, including bottled drinking water, may be reasonably expected to contain at least small amounts of some constituents. It's important to remember that the presence of these constituents does not necessarily pose a health risk.

DEFINITIONS:

In these tables you will find some terms and abbreviations you might not be familiar with. To help you better understand these terms we've provided the following definitions:

Non-Detects (ND) – Laboratory analysis indicates that the contaminant is not present at a detectable level.

Parts per million (ppm) or Milligrams per liter (mg/l) – One part per million corresponds to one minute in two years or a single penny in \$10,000.

Parts per billion (ppb) or Micrograms per liter – One part per billion corresponds to one minute in 2,000 years or a single penny in \$10,000,000.

Picocuries per liter (pCi/L) – Picocuries per liter is a measure of the radioactivity in water.

Nephelometric Turbidity Unit (NTU) – Nephelometric turbidity unit is a measure of the clarity of water. Turbidity in excess of 5 NTU is noticeable to the average person.

Millirems per year (mrem/yr) – Measure of radiation absorbed by the body.

Action Level (AL) – The concentration of a contaminant, which, if exceeded, triggers treatment or other requirements, which a water system must follow.

Treatment Technique (TT) – A treatment technique is a required process intended to reduce the level of a contaminant in drinking water.

Maximum Contaminant Level (MCL) – The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal (MCLG) – The "Goal" (MCLG) is the level of a contaminant in drinking water which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Maximum Residual Disinfectant Level (MRDL) – The highest level of a disinfectant that is allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Maximum Residual Disinfectant Level Goal (MRDLG) – The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.

Minimum Residual Disinfectant Level (MinRDL) – The minimum level of residual measured at the entry point to the distribution system.

KNOW THE HEALTH RISKS:

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The Borough of Kutztown and the Kutztown Municipal Authority are responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in drinking water, testing methods and steps you can take to minimize exposure are available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers.

The Environmental Protection Agency (EPA) and The Center for Disease Control (CDC) guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Contaminants that may be present in source water include microbial contaminants such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife; inorganic contaminants such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil, and gas production, mining or farming; pesticides and herbicides which may come from a variety of sources such as agriculture, urban storm water runoff and residential uses; radioactive contaminants, which are naturally occurring; and organic chemical contaminants, including synthetic and volatile organic chemicals, which are byproducts of industrial process and petroleum production and mining activities.

We at the Borough of Kutztown and the Kutztown Municipal Authority, work around the clock to provide top quality water to every tap. We ask that all our customers help us protect our water sources, which are the heart of our community, our way of life and our children's future.

We're proud that your drinking water meets or exceeds all Federal and State requirements. We have learned through our monitoring and testing that some constituents have been detected. All sources of drinking water are subject to potential contaminants that are naturally occurring or man made. Those contaminants can be microbes, organic or inorganic chemicals, or radioactive materials. All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration regulations establish limits for contaminants in bottled water which must provide the same protection for public health. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

If you have any questions about this report or concerning your water utility, please contact Dale Kramer, Water Plant Manager, at 484-646-9521. We want our valued customers to be informed about their water utility. If you want to learn more, please attend any of our regulatory scheduled Water/Wastewater committee meetings. They are held on the second Wednesday of the month at 7:30 PM at 45 Railroad Street, Kutztown.

*Once Upon
 A Time....*

There was an owner of a very successful hot dog stand. This owner built his business by having the best hot dogs around and by letting his customers know about them through extensive advertising. His business was so successful that he was able to send his son to a prestigious Ivy League school where his son was studying to receive his M.B.A.

One day the son came home for a break and promptly questioned his father "Dad, don't you know that there is a recession going on out there?" The father replied that his business was going very well, but the son persisted telling his father "Dad, you've got to cut back." So the father, figuring his son knew all about business, followed the son's advice. He promptly cut his advertising budget and then cut his hot dog & bun orders. Before long, business in fact did slow down. So the father replied to the son "You were right, son. Business is terrible. There is a recession going on out there."
