Happy Mother's Day!  
What can you do to make Mom's day special? Perhaps her birdbaths need scrubbing, or even her feeders. Why not mix a special birdseed blend just for her. Equal amounts of sunflower heart chips, peanuts, black oil sunflower and safflower seed will bring any bird to any yard. Be creative.

**Prayer to St. Jude**  
 Most holy Apostle, St. Jude, faithful servant and friend of Jesus, the church honors and invokes you universally, as the patron of hopeless cases, of things almost despaired of. Pray for me, I am so helpless and alone. Make use, I implore you, of that particular privilege given to you, to bring visible and speedy help where help is almost despaired of. Come to my assistance in this great need that I may receive the consolation and help of heaven in all my necessities, tribulations, and sufferings, particularly (your request) and that I may praise God with you and all the elect forever. I promise, O blessed St. Jude, to be ever mindful of this great favor, to always honor you as my special and powerful patron, and to gratefully encourage devotion to you. Amen.

### Overcoming Boy's Fear of Dogs

DEAR PAW'S CORNER: I read your recent column about a young boy who was afraid of dogs, and I would like to suggest some help to him, or anyone who is fearful of an animal. My dog Hannah and I have worked with many children to help them get over their fears. Hannah is a therapy dog. She is awesome! The children (and some adults) she has worked with are now petting other dogs. We work through our local H.S.S. Lollypop Farm in New York. I'm sure this young man can find a great therapy dog in his area to help him. Good luck! — D. Oswald, Palmyra, New York

DEAR D.: Fantastic idea! Therapy dogs are increasingly becoming an important part of our society and play an indispensable role in many people's lives. Typically, therapy dogs visit with people for a short time each day or week to help relieve stress, provide emotional support, ease loneliness or grief ... or help people overcome their fear of dogs.

A great place to start learning more about therapy dogs is at the Pet Partners website, which gives information about the services that therapy dogs can provide, and can help match patients with dogs in their area.

If you're a pet owner whose dog has a great disposition and is well-socialized, volunteering your pet to be a therapy dog could be very rewarding for both of you. Pet therapy organizations like the one above can help determine if volunteering is for you.

Send your questions or pet care tips to [ask@pawscorner.com](mailto:ask@pawscorner.com).

## Novena to the BLESSED VIRGIN

(Never known to fail). O Most Beautiful Flower of Mt. Carmel, Fruitful Vine, Splendor of Heaven, Blessed Mother of the Son of God, Immaculate Virgin, assist me in my necessity. O Star of the sea, help me and show me here in, you are my mother. O Holy Mary, Mother of God, Queen of Heaven and Earth, I humbly beseech you from the bottom of my heart to succor me in my necessity (make request). There are none that can withstand your power. O Mary conceived without sin, pray for us who have recourse to thee (3 times.) Holy Mary, I place this cause in your hands (3 times). Say this prayer for three consecutive days. You must publish it and it will be granted to you. Grateful Thanks.

Growing Good Exercise Habits

(NAPSA)—Crowded gyms and countless hours on a treadmill may be one way to exercise, but wouldn't enjoying sunshine and fresh air while spending time with your family be more fun? Well, here's a little insider tip gardening enthusiasts have known for ages—gardening is great exercise.

"All the digging, lifting, pulling and twisting that happens as you garden in your backyard or even in smaller container gardens uses major muscle groups and helps you stay in shape," stated Charlie Nardozi, chief gardening officer consultant for Hilton Garden Inn hotels. "It makes perfect sense. Turning compost is a great alternative to weight lifting. Raking simulates the exact motions of a rowing machine. Mowing the lawn is comparable to walking or jogging on the treadmill. And, digging and shoveling are both aerobic and muscle building."

children, gardening offers more than a reason to play in the dirt and some exercise. While gardening, school subjects, such as science, history, economics and language arts, come to life.

Studies performed at Stanford University Center for Research in Disease Prevention show that gardening provides light to moderate exercise. Depending on the activity, 30 minutes in the garden can burn the equivalent amount of calories as 30 minutes of light jogging. By exercising, you lower blood pressure and cholesterol levels, which may help prevent diabetes and heart disease and slow osteoporosis.

Teaching children the positive power of gardening, Nardozi heads up the "Grow A School Garden" program developed jointly by the Hilton Garden Inn and National Garden Association. "The 'Grow A School Garden' project both incorporates academic subjects as well as teaches vital life lessons to children including cooperation, patience, persistence and responsibility. It is also a great way to get them to eat fruits and vegetables."

The health benefits of gardening are not limited to adults—for

## Collecting

by Larry Cox

British Royals

**Q.** I purchased a commemorative mug at a garage sale that was issued in 1936 shortly after Edward VIII became King in Britain. His reign lasted less than a year because of his affair and later marriage to Wallis Simpson, a twice-divorced woman from Baltimore. I paid \$25 for it and wonder if I got a bargain. — *Phyllis, Burlington, Vermont*

**A.** Despite the Duke of Windsor's short time as king, items celebrating his coronation and time he spent as the British monarch are fairly common. Typical prices are a tea cup and matching saucer, \$35; tea towel, \$15; a collection of six British magazines covering the coronation, \$30; and a sterling-silver spoon with the King's likeness, \$45. I think you probably paid about what your mug is worth.

\*\*\*

**Q.** I have a paperweight that was made by Charles Kazium. Is it worth keeping? — *Susan, Santa Fe, New Mexico*

**A.** Charles Kazium was born in 1918 in Brockton, Massachusetts, and was an outstanding maker of paperweights. He began working with glass at an early age and by 1942 was making his first paperweights. Most of the ones he crafted featured three colors of overlay with a variety of flower patterns. Most of his work is signed with a "K" worked into the design. In my opinion, it is indeed worth keeping.

\*\*\*

**Q.** I have a copy of "A Treasury of Stephen Foster" illustrated by William Sharp and published by Random House in 1946. It is a first printing and has its original cover. Does it have any monetary value? — *Betty, Albuquerque, New Mexico*

**A.** Not much. I found several first editions at www.abe.com priced in the \$10-\$15 range. For a second opinion, I suggest you contract one of the many of the fine used book dealers in your city.

\*\*\*

**Q.** "Laugh In" was a popular TV show during the late 1960s. I received a deck of "Laugh In" playing cards in 1970. The cards feature jokes from the show. Is it worth keeping? — *Ken, Davenport, Iowa*

**A.** I found your deck referenced in "Schroeder's Antiques Price Guide" published by Collector Books. It is valued at \$40.

*Write to Larry Cox in care of KFWS, 628 Virginia Drive, Orlando, FL 32803, or send e-mail to questionsforcox@aol.com. Due to the large volume of mail he receives, Mr. Cox cannot personally answer all reader questions, nor does he do appraisals. Do not send any materials requiring return mail.*

## Moments in time

THE HISTORY CHANNEL

• On May 19, 1715, the colony of New York passes a law making it illegal to "gather, rake, take up, or bring to the market, any oysters whatsoever" between May and September. This regulation was one of many passed in the early days of America to help preserve certain species.

• On May 22, 1856, Rep. Preston Brooks (D-S.C.) savagely beats Sen. Charles Sumner (R-Mass.) in the halls of Congress as tensions rise over the expansion of slavery. Wielding the gold-topped cane he used for injuries suffered in a duel over politics in 1840, Brooks entered the Senate chamber and attacked Sumner at his desk.

• On May 20, 1873, San Francisco businessman Levi Strauss and Reno, Nevada, tailor Jacob Davis are given a patent to create work pants reinforced with metal rivets, marking the birth of one of the world's most famous garments: blue jeans. They were originally called "waist overalls."

• On May 21, 1881, humanitarians Clara Barton and Adolphus Solomons found the American National Red Cross to provide humanitarian aid to victims of wars and natural disasters.

• On May 18, 1917, six weeks after the United States formally entered the First World War, the U.S. Congress passes the Selective Service Act, giving the U.S. president the power to draft soldiers. Within months, some 10 million men had registered.

• On May 16, 1929, the first-ever Academy Awards ceremony is held. Some 270 people attended, and tickets cost \$5 each. After dinner, complete with numerous speeches, actor Douglas Fairbanks handed out 15 awards in a five-minute ceremony.

• On May 17, 1965, after a two-year investigation, the FBI declares the supposedly pornographic lyrics of "Louie Louie" to be officially unintelligible. Agents had purchased numerous versions of "Louie Louie" played and re-played the song at different speeds in their laboratory.

True heather is not common in the United States, but many plants belong to the heather family, including the blueberry, cranberry, azalea and rhododendron.

The first presidential mansion was at No. 1 Cherry Street in New York City, the first U.S. capital (1789-90).

## HINTS FOR HOMEOWNERS

### Deck Accessories Give "Finished" Look To Outdoor Living Spaces

(NAPSA)—Millions of homeowners are enjoying the additional living space a deck or patio affords their families. In fact, 25 percent of American homes now have decks—that's 30 million decks.

As more and more families take advantage of the added living space, the traditional deck is becoming more upscale. Homeowners are realizing that simple touches such as adding attractive, ready-made accessories can easily draw out a deck's charm.

Just as crown molding beautifies a home's interior aesthetics, finishing touches such as post caps and post base rings can do wonders by covering a deck's mechanical eyesores. Post caps come in a number of styles—ranging from angled peaks to flat top surfaces, for example. Post base rings, such as those offered by CertainTeed Boardwalk Composite Decking and Railing, can elegantly accentuate the intersection between post and deck surface.

Another simple addition is "fascia," which conceals structural essentials such as unsightly screws and support beams of knotty southern yellow pine. Fascia is designed to complement existing deck design and create a smooth, finished look.

When choosing a decking system, it often makes sense to go with a style that is part of a complete decking and railing system.

The addition of simple touches can turn your deck into your family's favorite living room.

This ensures you that your deck—from floor planking to railing and accessories—maintains a consistent, finished look. The Boardwalk system by CertainTeed is a good bet. The system is easy to install, requires no painting or sealing, and is barefoot-friendly, meaning it won't splinter or crack.

A deck can add much needed living space to a home. By adding simple exterior accessories, your deck can become your family's favorite living room.

For more information on building accessories or Boardwalk Composite Decking and Railing, visit [www.certainteed.com](http://www.certainteed.com) or call 1-800-782-8777.

## Health & Beauty

**Just Relax**  
(NAPSA)—After a vigorous workout, most people just shower and run—perhaps a consequence of going to the gym during lunch hour. Now, however, experts say relaxing in a hot tub for a few minutes before and after your workout can help you get more out of your gym time.

Relaxing in a hot tub can be as much a part of a workout as rowing on the machine.

Scheduling some soak time can be beneficial before and after your exercise. Soaking in a hot tub before exercising relaxes your body and loosens muscles, making exercise easier and reducing the risk of injury.

Afterwards, the hot swirling waters of the whirlpool massage your joints and muscles, keeping them loose and preventing stiffness the next day, so you won't miss a workout.

With all of today's options, it's easy to take relaxation home with you. At [www.lucite.com](http://www.lucite.com), you can browse the many shapes, sizes and colors of whirlpool baths and spas from leading manufacturers, so you'll get the style you want backed by the quality and durability of Lucite® acrylic.

# Health Bulletin

## Is That Sniffle an Allergy or a Cold?

(NAPSA)—It's that time of year again. Your child is sniffing and sneezing, but is it a cold or allergies? Often, it can be hard to tell the difference.

Allergies occur frequently in children but sometimes parents remain unaware because it is easy to confuse the symptoms with a common cold.

The American Academy of Allergy, Asthma and Immunology (AAAAI) describes cold symptoms as nasal discharge or congestion, fever, aches and pain.

These symptoms are usually exhibited slightly at first, get worse within a couple of days, and then diminish in under a week.

Allergies on the other hand, come with symptoms which begin quickly and include a runny nose, sneezing, wheezing, watery or itchy eyes, sore throat and a cough that may be worse at night and in the morning.

Symptoms can remain all season or all year depending on whether your child has seasonal allergies caused by pollen or perennial allergies, which are usually caused by indoor pollutants such as dust mites, pet dander, tobacco smoke and molds.

Here's how you can help:  
 • Keep the windows closed in your car and home, especially on days when forecasts call for medium or high pollen levels. You can check the pollen count in your area at [www.cadr.org](http://www.cadr.org).

• Limit outdoor activity in the early morning, when pollen counts are usually highest.

• Do not hang your laundry outside to dry as pollen may collect. Instead, use a clothes dryer.

• Take a shower before bedtime to help remove allergens.

When buying an air cleaner, know the square footage of the room you want to treat. You'll want one that's large enough for the room.

Another option for reducing allergens in the air is to place a room air cleaner in your child's bedroom.

According to a recent study conducted by the Association of Home Appliance Manufacturers (AHAM), 38 percent of all air cleaner purchases were made to improve the health of self and other adults and children in the household; 57 percent of air cleaner owners believe that their air cleaners have had a large impact on the quality of indoor air.

Before purchasing an air cleaner, know the square footage of the room you want to treat. You'll want to select an air cleaner that's large enough for the room you're treating.

Also, consider air filtering efficiency. Look for the Cleaner Air Delivery Rate (CADR) seal on the product packaging. The seal indicates that the unit has been tested for its performance and shows how well an air cleaner reduces pollutants such as tobacco smoke, pollen and dust.

To learn more, visit [www.cadr.org](http://www.cadr.org) or call 800-267-3138.

There are 403 steps from the foundation to the top of the torch in the Statue of Liberty.

One way to tell the difference between alligators and crocodiles is by their teeth. On crocodiles, the fourth tooth on each side of the lower jaw projects outside the snout when the mouth is closed.

Don't Fear the Check Engine Light

(NAPSA)—Although the check engine light may look scary lit up on the dashboard, you don't need to panic. A glowing check engine light doesn't mean you have to immediately pull the car to the side of the road; it does mean you should get the car checked out as soon as possible.

"Motorists should not get spooked when the check engine light comes on," says Rich White, executive director, Car Care Council, the source for the "Be Car Care Aware" campaign promoting regular vehicle care, maintenance and repair. "When illuminated, the check engine light usually means that a vehicle system, such as the ignition, fuel injection or emission control, is not operating properly."

**Possible Problems**  
Some common malfunctions that can cause the light to illuminate include a faulty oxygen sensor, mass air flow sensor, or spark plugs and wires. If the light flashes, the condition is more critical and must be checked immediately to prevent severe damage, which may include catalytic converter problems.

"Even if the vehicle appears to be running normally, ignoring the warning light could result in more costly repairs," adds White. "At the very least, the light could be alerting you to an engine problem that is negatively impacting fuel economy and costing you money."

**Service and Solutions**  
When scheduling service, make sure the repair shop that examines your vehicle has professional

A "check engine" light coming on doesn't mean you have to stop driving immediately but you should get it looked at very soon.

technicians who are trained and certified in OBDII diagnosis and repair. The technician will connect your vehicle's computer system to a diagnostic scan tool, which will provide trouble codes indicating why the check engine light was activated. While the diagnostic tool is connected, the technician can analyze data streams such as the idle speed, throttle response, engine temperature, fuel system pressure, manifold vacuum, exhaust emission levels and many other key indicators. Once the problem is identified and the repair is made, the car's computer is reset.

### Protecting Your High-Mileage Vehicle

(NAPSA)—These days, many drivers are finding ways to keep their vehicles on the road longer. Having an odometer that reads 100,000 miles or more need not mean the vehicle is on its last legs. It may just mean you should stick to a regular maintenance schedule and take advantage of automotive products that help extend the life of the vehicle.

These tips can help:  
• **Use the right gas.** Unless your manufacturer's manual says the vehicle requires a high-octane gasoline, it will probably run with no problems on regular unleaded. The difference in price can be as much as 30 cents a gallon. Your money is better spent on maintenance than at the pump.

• **Cut down warm-ups and eliminate excessive idling.** Older cars may need to warm up briefly, but letting it idle for a long time before you put it in drive is not better. In fact, a vehicle just sitting there can suffer stress on the components and burns fuel less efficiently.

• **Get motor oil designed for high mileage.** If there are over 75,000 miles on the odometer, consider a formula designed for high-mileage engines, such as Royal Purple's HMX oil. In addition to proprietary additive technology, it contains additives to reduce internal wear and condition engine seals.

Your high-mileage vehicle needs TLC (Tender Loving Care) to keep it running hassle free and safe on the road.

It's a common misconception about vehicles with high mileage that you should not use synthetic motor oil because it will remove deposits and restrict oil flow. In fact, one of the benefits of using high-mileage synthetic oil such as HMX is that the detergents in the additives in the product clean out the deposits in the engine. Maintaining cleanliness will promote the longevity of the engine.

• **Tender Loving Care.** If your vehicle needs repairs, address them as needed and don't let them go until you find yourself stranded. These small steps can ensure that you'll be able to enjoy your vehicle for many more miles to come.

• **Learn more.** You can find further facts and tips online at www.royalpurple.com.

## Strange BUT TRUE

By Samantha Weaver

• It was 20th-century English novelist E.M. Forster who made the following sage observation: "We must be willing to let go of the life we have planned, so as to have the life that is waiting for us."

• If you're a pogonophobe, the rise of hipsterism in recent years is not good news — anyone afraid of beards isn't going to get far in public these days without confronting one.

• For centuries, the wrinkling of skin on fingers and toes when they soak in water was cause for puzzlement (among those who take the time to wonder about such things, if nobody else). Researchers believe they've found the answer: traction. Like the treads on a tire, the wrinkles of wet skin help improve the gripping power of our extremities; for our ancestors, this made it easier to walk and grip objects during wet seasons.

• You might be surprised to learn that immigration was not a national issue until the late 19th century. Up until 1890, when President Benjamin Harrison declared Ellis Island to be the first federal immigration center, foreigners who wanted to live in America were handled on a state-by-state basis.

• John Sylvan is known as the creator of Keurig coffee pods, used in abundance throughout the world these days. Despite the success of his inventions, however, he refuses to use them himself; he says that he abhors the effect the non-recyclable, non-biodegradable pods have on the environment.

• Of all the actors who have portrayed James Bond in films before 2015, Pierce Brosnan racked up by far the most kills per movie. (The tally for last October's "Spectre" has not yet been counted.)

**Understanding Your Body**  
 FACTS TO HELP YOU HELP YOURSELF

**Better Overall Health Starts With Better Digestion**

(NAPSA)—Consumption of whole, living, enzyme- and probiotic-rich foods is the foundation for superior nutritional health. That's the message of Jordan S. Rubin, who made an extraordinary recovery after a near-fatal case of Crohn's disease, a debilitating digestive condition.

No one knew why Rubin contracted the life-threatening illness and finding a solution proved to be even more of a challenge. The intravenous and oral antibiotic and anti-inflammatory drugs prescribed for him only made his condition worse, causing the former 19-year-old college athlete to lose 81 pounds in a few months.

After more than 500 treatments from 70 health professionals, Rubin discovered the connection between health and nutrition. Rubin found that the body's gastrointestinal tract or "gut" is central to maintaining overall health. A healthy GI tract makes it possible for food to nourish the body as it was meant to do. This means maintaining the proper balance of good and bad bacteria. By following a historically-based diet rich in whole foods, nutrients, enzymes, and naturally occurring probiotics (a Greek word meaning pro-life) called soil-based organisms, he empowered his body to fight back.

A modern diet of overprocessed food along with environmental toxins, overuse of antibiotics and agricultural chemicals (pesticides, etc.) will put stress on the digestive system and further disturb balance in the body.

To restore the beneficial bacteria normally found in the digestive tract, Rubin advocates a diet rich in whole, fermented foods and probiotic supplements.

Following his recovery, Rubin founded Garden of Life in 2000 to help people attain better health.

Rubin has spread inspiration through hundreds of public appearances as well as several books, including his latest publication, *The Maker's Diet*.

For more information, visit [www.gardenoflife.com](http://www.gardenoflife.com) as well as [www.makersdiet.com](http://www.makersdiet.com).

**At left, Jordan Rubin, a victim of Crohn's disease, before his extraordinary transformation. He credits his recovery largely to a strict diet of whole foods, fermentation and probiotics.**

**The IBEW is growing and you are invited!!**

Response to our recent advertisements has been terrific! We have welcomed some new contractors into our family and are continually interviewing new membership prospects.

Our new contractors are not only looking for **Qualified Electricians** but also more **Solar Electricians and Tele-Communication Technicians** to staff upcoming projects.

One of the greatest benefits of the Electrical Union is the ability for our members to retire with dignity. Retirement of our well seasoned members provides fantastic opportunities for **Electricians of Foreman and General Foreman qualifications**. If you are an un-represented "lead" electrician, then we should be talking about your future.

We are also always looking for **Quality Open Shop Electrical Contractors** looking to grow with us. It does not matter if you have just 1 electrician or 1000, we have opportunities for everyone!

The IBEW has been successfully training crews for our contractors since Edison and Tesla were young men. For 125 years our signatory contractors have come to the IBEW to hire the highest quality electricians in the industry. We continue today, working in a mutually beneficial partnership with our contractors to offer the best value in the industry to our valued customers.

**Appointments made 7 days a week, in our home or yours!**

**Food in the News**

Here's a roundup of some of my favorite cookbooks, television shows, websites, radio shows, podcasts and recipes featured in the news recently:

**FOOD ON TV**

"I'll Have What Phil's Having" is a six-part PBS TV series (see Season One anytime online at [www.pbs.org/wgbh/what-phil-having/](http://www.pbs.org/wgbh/what-phil-having/)) that explores delicacies from around the world. The show is the brainchild of Phil Rosenthal ("Everybody Loves Raymond"), who is making his return to TV for the first time in years.

Each one-hour episode of "I'll Have What Phil's Having" sends viewers on gastronomic adventures with Rosenthal himself exploring the best dishes in Hong Kong, Barcelona, Paris, Tokyo and Los Angeles. Along with celebrity guest stars, Rosenthal's quirky and adventurous spirit seeks to inspire audiences to venture out on their own culinary discoveries.

**FOOD IN PRINT**

Women of African descent have contributed to America's food culture for centuries, but their rich and varied involvement is still overshadowed by the demeaning stereotype of an illiterate "Aunt Jemima" who cooked mostly by natural instinct. To discover the true role of black women in the creation of American — and especially Southern — cuisine, author Toni Tipton-Martin has spent years amassing one of the world's largest private collections of cookbooks published by black authors.

"The Jemima Code" presents more than 150 black cookbooks that range from a rare 1827 house-servant's manual — the first book published by a black in the trade — to modern classics by authors such as Edna Lewis and Vertamae Grosvenor. The books are arranged chronologically and illustrated with photos of their covers; many also display selected interior pages, including recipes. Tipton-Martin provides notes on the authors and their contributions, and the significance of each book.

These cookbooks offer firsthand evidence that African-Americans cooked creative masterpieces from

meager provisions, educated young chefs, operated food businesses and nourished the black community through the long struggle for human rights. "The Jemima Code" transforms America's most maligned kitchen servant into an inspirational and powerful model of culinary wisdom and cultural authority.

**FOOD RADIO/PODCASTS**

American Public Media's "The Splendid Table" is public radio's culinary, culture and lifestyle program that celebrates food and its ability to touch the lives and feed the souls of everyone. Each week, award-winning host Lynne Rossetto Kasper takes

- black pepper, more as needed*
- 1 (4 to 5 pound) chicken cut into 8 serving pieces, rinsed and patted dry
  - 1 garlic head, separated into cloves
  - 1 bay leaf, torn into pieces
  - 1/2 bunch thyme sprigs
1. Heat oven to 425 F. Lay bread slices in the bottom of a heavy-duty roasting pan in one layer. Brush with mustard, drizzle liberally with olive oil, and sprinkle with salt and pepper.
  2. Season the chicken all over with salt and pepper, and place the pieces on the bread, arranging the white meat in the center and the dark meat

listeners on a journey of the senses and leads discussions with a variety of writers and personalities who share their passion for the culinary delights. The Splendid Table can be heard weekly on more than 400 public radio stations. Listeners can sign up for email newsletters featuring the recipes of the week. (<http://www.splendidtable.org/listen-and-follow>)

The recipe below for Garlic and Thyme-Roasted Chicken with Crispy Drippings Croutons is adapted from another favorite, "In the Kitchen With a Good Appetite: 150 Recipes and Stories About the Food You Love" by New York Times food columnist Melissa Clark (Hyperion).

**GARLIC AND THYME-ROASTED CHICKEN WITH CRISPY CROUTONS**

*Country bread, ciabatta or other sturdy bread, preferably stale, sliced 1/2-inch thick Mustard, as needed Extra-virgin olive oil, as needed*

1/5 teaspoon kosher salt, more as needed

1/2 teaspoon freshly ground

and wings around the sides. Scatter garlic cloves, bay leaves and thyme over the chicken, and drizzle everything with more oil (take care to drizzle the garlic cloves).

3. Roast the chicken until it's lightly browned and the thigh juices run clear when pricked with a knife, about 50 minutes. If you like, you can crisp the skin by running the pan under the broiler for a minute, though you might want to rescue the garlic cloves before you do so they don't burn (if you don't plan to eat them, it doesn't matter so much).

4. Serve the chicken with pieces of the bread from the pan.

*Angela Shelf Medearis is an award-winning children's author, culinary historian and the author of seven cookbooks. Her new cookbook is "The Kitchen Diva's Diabetic Cookbook." Her website is www.divapro.com. To see how-to videos, recipes and much, much more, like Angela Shelf Medearis, The Kitchen Diva! on Facebook. ## May Breakfast

**CHURCH OF CHRIST THE KING MAY BREAKFAST**  
Church of Christ The King, 124 Legris Avenue (Rte. 117), West Warwick, will hold their Annual May Breakfast on May 15 from 7:30-11:30AM in the Church Hall. Adults \$7, children (6-12) \$4, children 5 & under are guests of the Church.

**ARIES** (March 21 to April 19) A once-harmonious relationship appears to be hitting some sour notes. Spend some time together to see why things have gone off-key. What you learn might surprise you.

**TAURUS** (April 20 to May 20) You feel a need to make some changes. Good — you can do it on a small scale (some new clothes, for example), or go big and redecorate your home and/or office.

**GEMINI** (May 21 to June 20) Control your tendency toward early boredom. A situation in your life might be taking a long time to develop, but patience pays off. Stay with it.

**CANCER** (June 21 to July 22) You might feel that you're on an emotional roller coaster this week. Don't fret; just ride it out and let things settle down. A Pisces shows understanding.

**LEO** (July 23 to August 22) Do something different for once — compromise. A stubborn stand on an important issue proves counterproductive. You need to be open to new ideas.

**VIRGO** (August 23 to September 22) A friend offers advice that you perceive as an act of betrayal. But before you turn against the messenger, pay attention to the message.

**LIBRA** (September 23 to October 22) A year of riding an emotional pogo stick finally settles down. Use this calmer period to restore frayed relationships and to pursue new opportunities.

**SCORPIO** (October 23 to November 21) Your words can sting, so be careful how you respond to a friend's actions. A calm approach could produce some surprising facts.

**SAGITTARIUS** (November 22 to December 21) Be careful about whose secrets you're being asked to keep. They could impose an unfair burden on a straight arrow like you.

**CAPRICORN** (December 22 to January 19) While you prefer taking the tried-and-true course in life, be adventurous this week and accept a challenge that can open new vistas.

**AQUARIUS** (January 20 to February 18) Your strong sense of justice helps you deal with a job- or school-related situation. Stay with your principles. A Sagittarius emerges as a supporter.

**PISCES** (February 19 to March 20) You need to build a stronger on-the-job support system to convince doubting colleagues that your innovative proposals are workable.

**BORN THIS WEEK:** You might not say much, but you're capable of extraordinary achievements. You are a loyal friend and a devoted family person.

**Cooking Ideas**

(NAPSA)—There are many delicious ways to enjoy watermelon all year long. Carve a "foot-ball-shaped" watermelon and fill with a variety of colorful fruits for a Super Bowl party or celebrate Memorial Day with a flag made from watermelon, blueberries and whipped topping. Check the National Watermelon Promotion Board Web site for more great ideas and step-by-step instructions to complete 12 carving designs to use throughout the year. A crisp, sweet slice of watermelon is certainly delicious and easy, but try watermelon, banana, granola, yogurt and coconut for a great new way to start your day. A two-cup serving of watermelon is an excellent source of vitamins A, B6, C and the powerful antioxidant lycopene. For watermelon recipes and information, visit the Web site [www.watermelon.org](http://www.watermelon.org); and for more information about 5 A Day The Color Way, visit [www.5aday.com](http://www.5aday.com) and [www.aboutproduce.com](http://www.aboutproduce.com).

Alcohol-free wines come in popular varieties such as White Zinfandel, Chardonnay and Merlot, as well as Sparkling Brut and Spumante. They can also be mixed into drink recipes that you would prepare with regular wine. Sutter Home Fre alcohol-free wines are created with a special process that separates and protects the wine's fragile aroma and flavor essences before removing the alcohol. These essences are returned to the wine after the alcohol is removed, along with unfermented varietal grape juice. For more information and alcohol-free drink recipes, visit [www.frewines.com](http://www.frewines.com).
