el: B	eginne	•						_	Lev

low It Works:

puzzles are formatted as a 9x9 grid, broken down into nine es. To solve a sudoku, the numbers 1 through 9 must fill v, column and box. Each number can appear only once in v, column and box. You can figure out the order in which the s will appear by using the numeric clues already provided in s. The more numbers you name, the easier it gets to solve
