**Novena to the BLESSED VIRGIN**  
 (Never known to fail). O Most Beautiful Flower of Mt. Carmel, Fruitful Vine, Splendor of Heaven, Blessed Mother of the Son of God, Immaculate Virgin, assist me in my necessity. O Star of the sea, help me and show me here in, you are my mother. O Holy Mary, Mother of God, Queen of Heaven and Earth, I humbly beseech you from the bottom of my heart to succor me in my necessity (make request). There are none that can withstand your power. O Mary conceived without sin, pray for us who have recourse to thee (3 times.) Holy Mary, I place this cause in your hands (3 times). Say this prayer for three consecutive days. You must publish it and it will be granted to you. Grateful Thanks.

### Prayer to St. Jude

Most holy Apostle, St. Jude, faithful servant and friend of Jesus, the church honors and invokes you universally, as the patron of hopeless cases, of things almost despaired of. Pray for me, I am so helpless and alone. Make use, I implore you, of that particular privilege given to you, to bring visible and speedy help where help is almost despaired of. Come to my assistance in this great need that I may receive the consolation and help of heaven in all my necessities, tribulations, and sufferings, particularly (your request) and that I may praise God with you and all the elect forever. I promise, O blessed St. Jude, to be ever mindful of this great favor, to always honor you as my special and powerful patron, and to gratefully encourage devotion to you. Amen.

R.R.

**The IBEW is growing and you are invited!!**

Response to our recent advertisements has been terrific! We have welcomed some new contractors into our family and are continually interviewing new membership prospects.

Our new contractors are not only looking for **Qualified Electricians** but also more **Solar Electricians and Tele-Communication Technicians** to staff upcoming projects.

One of the greatest benefits of the Electrical Union is the ability for our members to retire with dignity. Retirement of our well seasoned members provides fantastic opportunities for **Electricians of Foreman and General Foreman qualifications**. If you are an un-represented "lead" electrician, then we should be talking about your future.

We are also always looking for **Quality Open Shop Electrical Contractors** looking to grow with us. It does not matter if you have just 1 electrician or 1000, we have opportunities for everyone!

The IBEW has been successfully training crews for our contractors since Edison and Tesla were young men. For 125 years our signatory contractors have come to the IBEW to hire the highest quality electricians in the industry. We continue today, working in a mutually beneficial partnership with our contractors to offer the best value in the industry to our valued customers.

**Appointments made 7 days a week, in our home or yours!**

**HINTS FOR HOMEOWNERS**

**Lawn Watering Do's And Don'ts**

(NAPSA)—Scorching hot summers can drain even the most water-smart landscape. Here are a few “do’s and don’ts” to help make the most of the water you apply to your lawn and garden and protect your landscape against heat-related stress this summer:

- **Don't** water for a long time. How much and how long to apply water depends on the type of soil that is being watered. Use the 4-3-1 “cycle and soak” method of watering your grass: 4 minutes per watering cycle, 3 times per day with 1-hour in-between cycles. Check to see if water is penetrating 6 to 8 inches beneath the surface of the soil. If not, then another cycle may be needed to encourage root growth.
- **Do** raise the blade. Trim grass at a higher (2 inches or so) mower setting to shade roots from sunlight and encourage deeper growth.
- **Don't** water all areas alike. Develop a separate watering schedule for trees, shrubs and flowerbeds with drip emitters. These plants need less frequent but deeper watering, so do NOT use the cycle and soak method. Instead, set the irrigation to run less often during the week, but for a longer time during each watering.
- **Do** watch the clock. Water in early-morning hours before sunrise to reduce the amount of water lost to evaporation and daytime winds.
- **Don't** water concrete. If you have an underground sprinkler system, make sure your sprinkler heads are not spraying the sidewalk, wall or driveway. Check to make sure the sprinkler heads are not obstructed by grass or other objects.

For the grass to be greener on your side of the fence, water well—but wisely.

- **Do** consider drip irrigation. When it comes to watering individual trees, flowerbeds, potted containers or other nongrassy areas, you can apply water directly to the roots with low-volume drip irrigation. This will reduce water waste through evaporation or runoff and keep weeds down.
- **Don't** forget routine inspections. Periodically check your sprinklers to make sure everything is working properly. A clogged head or a torn line can wreak havoc on your landscape and your water bill.
- **Do** be rain smart. Adjust your irrigation system as the seasons and weather change. You can also install a shutoff device that automatically detects rain or moisture. These devices are inexpensive and let you take advantage of nature's free watering service.

More watering tips to help you have a lawn that makes the neighbors green with envy are available from Rain Bird at www.rainbird.com.

**The Garden Bug Dahlias**

If you have very limited growing space, dahlias are very showy and do well in large pots or garden boxes. They do best in containers that hold at least 12 to 14 inches of potting medium (smaller containers will require more frequent watering) and always used the highest quality potting mix possible. If you find them regularly wilting from the heat, move the containers to a location with less afternoon sun.

**Collecting**  
 by Larry Cox

**Future Collectibles**

**Q.** I am curious about what you think future collectibles will be. — *Sam, Lexington, Kentucky*

**A.** Early computers, vintage video games and toys from the 1990s are on my list of future collectibles. Always collectible are political items from national campaigns. VCR movies are presently selling at many thrift stores for about a dollar each. Some titles will certainly increase in value during the next decade or so.

Movie posters are a good bet, especially for big hits such as Academy Award winners. "Spotlight," this year's Picture of the Year, has already increased in value, from about \$5 for the one-sheet just a few months ago to its present price of \$30. Kitchen gadgets from the 1970s are becoming popular. As that interest increases, so will the prices.

**Q.** I have a number of books, and I would like to know their current values. Many are first editions, and almost all are from the 1920s and '30s. I live in a rural area where there are no book dealers who can help me. — *Maryanne, Ward, Colorado*

**A.** One of the better websites is www.abe.com. Go to that site, and type in both the author and title. Pay close attention to editions, since usually dozens will appear listed. Keep in mind that condition is extremely

important. Sometimes more than half of the value hinges on the cover being present and intact.

**Q.** My grandma gave me a Bakelite radio recently: a Philco, Model 49-501. It is called the "Boomerang" because of its style. — *Ken, Austin, Texas*

**A.** Go give your grandmother a big hug. Your radio was manufactured in 1949 and is worth about \$500, according to the "Radio and Television Price Guide" edited by Kyle Husfloen and published by Krause Books.

**Q.** I am searching for a stamp price guide so I can determine the value of several that I have. For example, I have three baseball-related stamps. — *David, Moravia, New York*

**A.** There are several excellent stamp price guides available. One of the better basic ones is "Warman's U.S. Stamps Field Guide" by Maurice Wozniak (Krause Books). There are copies available at amazon.com.

*Write to Larry Cox in care of KFWS, 628 Virginia Drive, Orlando, FL 32803, or send e-mail to questionsforcox@aol.com. Due to the large volume of mail he receives, Mr. Cox cannot personally answer all reader questions, nor does he do appraisals. Do not send any materials requiring return mail.*

**For the Love of Baseball**

So my cousin — a good kid, lives in Vegas, keeps his nose clean — says to me, “You know ... I’d like baseball a whole lot better if they only played, like, 16 games in a season. The season is just too long.”

I didn’t want to break up the party (I think it was a Christmas dinner, we were watching the Knicks midday, if that’s any clue), so I just threw out what I had immediately available to both refute and condemn his view on the national pastime.

“Well then,” I began, “In a 16-game season, how do you suppose a pitcher will put together a 20-win campaign? Who’s going to get 100 RBI in a season? Hit 60 homers?”

You see, in this “right now” world — where everyone has to have instant access to the goings-on of Arianna Grande at the doughnut shop, the latest bout of calamitous discourse from the presidential primaries, the latest late-night sketch — all shown on your little phone or tablet screen, maybe the subtle nuances of a 162-game schedule are lost.

Baseball puts it all out there, and they do it for nearly half a year. In no American professional sport can you find such a rich timeline full of individual stories, vividly reported on day after day, during three seasonal climatic changes (spring, summer and fall). It’s the only sport that translates as well, if not better, on radio as it does on TV. In fact, some of my finest memories were of listening to the Yankees on WABC

**OFTEN FOR THE SAME OR LESS COST!**

**Why is CONCRETE QUICK Different?**

1. Concrete is mixed on site. There is no minimum order as with traditional concrete companies.
2. 1 YARD OF CONCRETE YIELDS = 50 (80lb.) Bags of Cement = A sidewalk 3'x25'x4" = A patio 8'x10'x4" = 20 (8") Deck Piers
3. Why load-up your vehicle and mix bag after bag of cement in your wheelbarrow.

**A New Kind Of Energy Investment**

(NAPSA)—Few investments offer a guaranteed return. However, thanks to a new type of window, that's exactly what a growing number of homeowners are getting.

The window, which is said to enhance both the beauty and value of a property, comes with a pledge that a homeowner will save 49 percent on fuel consumption. The manufacturer also offers a transferable lifetime warranty and an optional glass breakage warranty.

Vinyl sashes and frames are said to make a new type of window virtually maintenance free.

Called the Quantum2, the windows feature foam-filled frames and sashes made of vinyl that tilt in. These features are said to make the windows maintenance free and easier to clean. Plus multiple weather seals around the sash help to make the window weather resistant.

The window meets the requirements of the federal government's Energy Star program and is offered with a glazing package that is said to block 99.5 percent of all UV rays.

To learn more, visit the Web site at [www.quantum2.net](http://www.quantum2.net) or call 877-RVALUE10.

## Strange BUT TRUE

By Samantha Weaver

- It was 19th-century Dutch post-Impressionist painter Vincent van Gogh — one of the most popular artists of all time — who made the following sage observation: “Conscience is a man’s compass, and though the needle sometimes deviates, though one often perceives irregularities when directing one’s course by it, one must still try to follow its direction.”
- Those who study such things say that penguins are so well insulated that, in general, they have a harder time staying cool than they do staying warm.
- You’ve probably never wondered how to categorize the dill pickle, but some people have. Is it a fruit? Hard to say. The cucumber is, technically, a fruit — part of the gourd family — so it would seem that a pickle is, too.
- You’ve almost certainly heard of the Rock of Gibraltar — as a metaphor for strength and solidity, if for no other reason. This famed monolith of limestone on the European side of the Strait of Gibraltar, that narrow connection between the Atlantic Ocean and the Mediterranean Sea, makes up only half of the Pillars of Hercules. On the African side of the strait is Jabal Musa, and this southern half of the Pillars is twice as tall as its more famous partner to the north.
- Many people don’t realize that the popular name Renee means “reborn.”
- The state of Delaware was named for Delaware Bay, which in turn was named for the first English governor of the colony of Virginia. His name was Thomas West, but his title was Baron De la Warr. Ultimately, his title is derived from the Old French term “de la werre,” which means “of the war.”

**Feed Baby Birds**  
Baby birds are everywhere this time of year, and high-protein foods are a must if they are to grow healthy. Some baby-bird favorites are:

1. Suet nuggets (any flavor).
2. Whole-grain bread with peanut butter.
3. Sunflower chips and safflower seed.
4. Peanuts (no salt!).
5. Black oil sunflower seed.

HERE IS A PLEASANT LITTLE GAME that will give you a message every day. It's a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner and check one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

**Q.** I remember this lovely actress who played Mark Greene's daughter on "ER" and who also was on "The Young and the Restless" for a few years as Daisy. Can you tell me what I can see her in nowadays? — *Tiffani T, via email*

**A.** Yvonne Zima, who made her big-screen debut at age 5 opposite legendary actor Al Pacino in "Heat," has been keeping herself busy. Aside from numerous roles in TV shows and movies such as "The Long Kiss Goodnight," "Law and Order: SVU," "Castle" and "Masters of Sex," she also takes on the dual starring role in the Lifetime television original movie "Killing Mommy" (premiering Saturday, June 11), where she plays twins Deb and Juliana Hansen.

I asked Yvonne what it was like filming this dual role, and she told me she was excited to take on the challenge: "It's a really wonderful script, written by Trent Haaga. And the person behind all these films, (executive producer) Pierre David, makes a ton of films for Lifetime. He has figured it all out. I really like Pierre. I think he's lovely. He's French-Canadian. He smokes; he swears; he's a real person.

"A big part of my preparation was trying to keep these two characters separate and to make them quite opposite. You have Juliana, who is a materialistic brat. Then you have Deb, who is kind of a barfly and completely in pain. She drinks and she smokes and she gets into fights. Keeping those two people separate was the main challenge, because you don't want to watch a movie where you have twins and they are doing the same stuff and they're basically the same."

**Q.** I have been watching a series on ABC called "American Crime," and it hasn't been on for three or four weeks, and I was wondering if it has been canceled. — *Mike H., Palm Springs, Florida*

**A.** ABC has renewed "American Crime" for a third season, and

Yvonne Zima

like the previous two seasons, it most likely will premiere in the first quarter of the new year. And also like the previous two seasons, viewers can expect an entirely new storyline, with familiar faces playing new characters. I can't wait to see what John Ridley and company have in store for us.

\*\*\*

Readers: Three days after I filed my most recent TV column, in which I spoke of the future of "Castle," ABC announced that it had decided to cancel the long-running series. Along with "Castle," ABC also has canceled "Wicked City" (which was the first to go this past fall), "The Family," "Galavant," "Marvel's Agent Carter," "The Muppets," "Nashville" (which is being heavily shopped to other networks, like Hulu and CMT — fingers crossed!) and "Of Kings and Prophets." Stay tuned, as I'll reveal over the next several weeks which of your favorite shows at the other networks got the ax.

**Be Car Care Aware®**

**Don't Let Your Car Make Your Allergies Worse**

(NAPS)—You don't have to let the joys of warm weather driving be diminished by the irritating pollen and pollutants that can be drawn inside through your car's air-conditioning and ventilation systems.

Cabin air filters clean the incoming air, removing allergens, as long as they're replaced regularly.

"A dirty or clogged cabin air filter can cause contaminants to become so concentrated in the cabin that passengers actually breathe in more fumes and particles when riding in the car than when walking down the street," explained Rich White, executive director, Car Care Council. "Replacing the cabin air filter is a simple way for you and your passengers to breathe easier while driving."

In addition to trapping pollen, bacteria, dust and exhaust gases, the cabin air filter prevents leaves, bugs and other debris from entering the heating, ventilating and air-conditioning (HVAC) system. A restricted cabin air filter can mean musty odors in the vehicle and impair airflow in the HVAC system, possibly causing interior heating and cooling problems. Over time, the heater and air conditioner may also become damaged by corrosion.

Cabin air filters should not be cleaned and reinstalled. Instead, they should be replaced every 12,000 to 15,000 miles, or per the owner's manual. Most filters are accessible through a panel in the HVAC housing, which may be under the hood or in the interior of the car. An automotive service technician can locate the cabin filter and replace it according to the vehicle's owner manual. Some filters require basic hand tools to remove and install their replacement while others just need your hands.

To learn more about cabin air filters, view the Car Care Council's Car Care Minute video and see the free digital "Car Care Guide." Motorists can also order a free printed copy of the popular guide.

The Car Care Council is the source of information for the "Be Car Care Aware" consumer education campaign promoting the benefits of regular vehicle care, maintenance and repair to consumers. For a copy of the council's "Car Care Guide" or for more information, visit [www.carcare.org](http://www.carcare.org).

### A Perfect Solution for Picky Eaters

Mealtimes are an opportunity to share time together as a family. If your dinner table has become a strug-

**A.** Children's appetites can vary from day to day, and children often eat in spurts. While some children may be able to eat regular meals, others may need a series of small meals through the day. Give children credit that they will eat when they are hungry. It's also not uncommon for children to get on food jags and want to eat the same thing meal after meal.

The important thing is to learn your child's individual needs and preferences and not overreact when he won't eat or wants cereal three meals in a row. As long as your child is growing and healthy, he is probably doing fine. If you have concerns about your child's growth rate or health, see your pediatrician.

**Q.** My 4-year-old twins are so picky about what they will eat that I worry they're not getting a balanced diet. What can I do?

**A.** There are many ways you can add variety and make foods fun. Here are some suggestions:

- Make smiley faces on foods.
- Add cheese to vegetables or other foods.
- Cut sandwiches into shapes with cookie cutters.
- Make juice-sicles by freezing juice using popsicle sticks.
- Give children choices: "Would you prefer carrot or apple slices?"
- Involve children in shopping for food and planning, preparing and serving meals. Children may be more willing to eat meals that they have helped select and prepare.
- Keep fruit and other nutritious snacks available and accessible.
- Set out healthy ingredients and let children put together their own snack creations.

—Don't allow snacks to take the place of meals.

Remember that most picky eaters will change their eating habits over time, but this usually will happen much sooner if parents avoid power struggles over food.

Serve your picky eater these delicious and nutritious Cheesy Spinach Squares. Most picky eaters make an exception when there's cheese involved. Spinach is a good source of protein, calcium, fiber, iron, niacin, zinc and vitamins A, C, K and B-6. These squares also can be cut into fun shapes using a cookie cutter.

### CHEESY SPINACH SQUARES

- 2 tablespoons unsalted butter, melted
- 3 large eggs
- 1 cup whole milk
- 1 cup all-purpose flour
- 1 teaspoon baking powder
- 1 teaspoon salt
- 1/8 teaspoon ground nutmeg
- 1 pound Cheddar cheese, shredded
- 1 pound chopped frozen spinach, thawed and drained
- 1/4 cup grated Parmesan cheese

1. Heat oven to 375 F. Line a 9-by-13-inch rimmed baking sheet or baking dish with parchment paper. Pour melted butter into the prepared pan and spread to coat evenly.

2. In a large bowl, beat eggs until well-blended. Whisk in the milk, flour, baking powder, salt and nutmeg. Add Cheddar cheese and spinach, and stir until combined. Pour spinach mixture into the prepared pan and spread in an even layer. Sprinkle Parmesan evenly over the top.

3. Bake until top is lightly browned and juices are bubbling, 30-40 minutes. Transfer to a wire rack and let cool until just warm to the touch. Cut into 2-inch squares or use a cookie cutter to cut into shapes and serve. Makes 6-8 servings.

**LIBRA** (September 23 to October 22) Expect to hear good news about a loved one. Also, be prepared for some changes in several family relationships that could develop from this lucky turn of events.

**SCORPIO** (October 23 to November 21) Some surprises are expected to accompany a number of changes that will continue through part of next week. At least one could involve a romantic situation.

**SAGITTARIUS** (November 22 to December 21) You might be upset by some of your critics. But most of your associates continue to have faith in your ability to get the job done, and done well.

**CAPRICORN** (December 22 to January 19) A workplace goal that suddenly seems out of reach is no problem for the sure-footed Goat, who moves steadily forward despite any obstacles placed in his or her way.

**AQUARIUS** (January 20 to February 18) Uncertainty about who is right and who isn't might keep you from making a clear-cut decision. Wait until you know more about what you're being asked to decide.

**PISCES** (February 19 to March 20) Be careful to keep your emotions in check when dealing with a demanding personal situation. You need to set an example of strength for others to follow.

**BORN THIS WEEK:** You have an extraordinary ability to rally people to do their best. You would be a treasure as a teacher.

## HOLLYWOOD

by Tony Rizzo

Tom Cruise in "The Mummy"

**HOLLYWOOD** — Tom Cruise wants his Mummy! Not long ago we suggested that the 53-year-old superstar should stop making action films and return to making movies like "Born on the Fourth of July" (1990), "Jerry Maguire" (1996) and "Magnolia" (1999), for which he received Oscar nominations. Now instead of the tall buildings and fast-moving vehicles, he'll be chasing a mummy — and mummies don't run very fast.

Universal Studios has long wanted to reboot its "Mummy" franchise, which started in 1932 with Boris Karloff. There were seven "Mummy" films made between 1999 and 2015, ending with the four "Scorpion King" movies. Tom Cruise gets his "Mummy" come July 2017.

Meanwhile, "Beautiful Mind" Oscar-winner Russell Crowe has signed on to play "Dr. Jekyll and Mr. Hyde" (for which Fredric March won an Oscar in 1931). He's currently onscreen in the comedy "The Nice Guys," with Ryan Gosling, Matt Bomer and Kim Basinger.

Hollywood bigwigs have voted Johnny Depp the actor they'd most like to be invisible, so now he'll play "The Invisible Man," opening in April 2018.

\*\*\*

Woody Allen's new film, "Cafe Society," narrated by Allen and starring "The Heartbreak Kid," Oscar-nominee Jeannie Berlin (daughter of Elaine May), Steve Carrell, Jesse Eisenberg, Blake Lively and Kristin Stewart, opens July 15. It is his is 47th film, and his first shot with a Sony CineAlta F65 digital camera. Remember when Allen said he'd only shoot in Europe because the U.S. was too expensive? Well, he must have gotten fantastic tax breaks and discounts, because this film was shot in the streets of Los Angeles and Brooklyn.

\*\*\*

Who'd ever imagine that wrestling star Dwayne "The Rock" Johnson

would become one of the most successful film stars of this decade? In 2014, his "Hercules" film cost \$100 million and grossed \$245 million, while Kellen Lutz's "Legend of Hercules," from the year before, cost \$70 million and only grossed \$61 million. "Furious 7" followed in 2015 at a cost of \$190 million and grossed \$1.5 billion, while "San Andreas" cost \$110 million and grossed \$447 million. Now he's teamed up with Kevin Hart ("Ride Along 2" cost \$40 million and grossed \$122.6 million) for another kind of ride-along film, "Central Intelligence," arriving June 17. "Fast 8" is due April 14, and then it's back to the beach for "Baywatch," playing the role that made David Hasselhoff famous, due May 2017. And you thought the only Rock in movies was Rock Hudson!

"Sharknado the Fourth Awakens" is hitting TV screens in July, with Ian Ziering, Tara Reid and David Hasselhoff in jeopardy again. With every "Sharknado" film, I can see my shark's tooth and sharkskin suit going up in value!

## Salome's Stars

**ARIES** (March 21 to April 19) Lots of possibilities begin to open up by midweek. Some seem more appealing than others. But wait for more facts to emerge later on before you consider which to choose.

**TAURUS** (April 20 to May 20) Bravo to the determined Bovine. While others might give up, you continue to search for answers. Expect your Tauran tenacity to begin paying off by week's end.

**GEMINI** (May 21 to June 20) You might want to consider stepping back from the task at hand for a while. This could help you get a better perspective on what you've done and what still needs to be done.

**CANCER** (June 21 to July 22) Your keen Cancerian insight should help you determine whether a new offer is solid or just more fluff 'n' stuff. The clues are all there, waiting for you to find them.

**LEO** (July 23 to August 22) Being ignored is difficult for any proud Leo or Leona. But pushing yourself back into the spotlight might be unwise. Instead, let things work themselves out at their own pace.

**VIRGO** (August 23 to September 22) Trying to uncover a colleague's secret under the pretext of showing concern is ill-advised. Control your curiosity in order to avoid raising resentment in the workplace.

Those who don't floss miss cleaning 35 percent of the surface of their teeth.

• Clean your paintbrushes before you begin that spring-cleaning paint job. Bring a few cups of white vinegar to a boil, and soak brushes in the vinegar for up to 20 minutes. Use a plastic scrubbie to remove stuck-on bits, then rinse in cool water. Use a fine-toothed comb to get rid of what's leftover. The brush should be clean and the bristles nice and soft.

• Don't overlook your own garden and yard when putting together a centerpiece for a backyard BBQ or informal gathering. Herbs make a wonderful bouquet.

• You can polish metal with wax paper.

• To keep your kitchen trash can smelling sweet naturally, put three drops of eucalyptus or cinnamon oil on a cotton ball and drop it the bottom of the can.

• What's the right way to fold towels? So your folded towel uses the depth of the shelf it's stored on. That way, you can store the maximum towels per shelf.

• Do you have a large assortment of different colored cupcake liners? Store them in a mason jar. You'll be able to see what you have at a glance, and they fit perfectly inside a wide-mouth jar.

• "Bath toys plus glue gun equals no more gross moldy water inside your tub duck. Just use your glue gun to seal up the 'drain hole' on the bottom of most bath toys. I honestly don't know why they do that, as it seems to only suck up water and not drain anything!" —L.R. in Virginia
