How We Help You Reach Your Goals

Before we can help you identify and work toward your goals, it's critical to understand what is important to you and your family. We believe that following a systematic approach can help you answer the following questions:

Step 1 Where Am I Today?

You and your Edward Jones financial advisor will determine your current needs. This will help provide an overview of your current situation.

Step 2 Where Would I Like to Be?

After determining where you are today, your financial advisor can help you take the next step to set your specific goals.

Step 3 Can I Get There?

Together with your financial advisor, you can work to create and implement strategies that can help you achieve your goals.

Step 4 How Do I Get There?

Your financial advisor can help you select the appropriate mix of investments based on your financial goals, risk tolerance and time frame.

Step 5 How Can I Stay on Track?

Meeting on a regular basis with your financial advisor can help determine whether you should make any adjustments to your portfolio.
