## ENGRAVED BRICK FUNDRAISER

The Coventry Historical Society has launched an engraved brick fundraiser to build a memorial brick walk at the Read Schoolhouse. The walk will be named "Lillian's Way" in honor of Lillian Thurston, who founded the Society in 1971 and who passed away in 2014. The cost per brick is \$75 for a 4"X8" or \$125 for a 6"X9" and is open to both individuals and businesses. Each brick can have up to 3 lines with 18 characters per line (including punctuation & spacing). The proceeds will be used to maintain the Read Schoolhouse. To order a brick or for more information, contact Mary at 828-7523.

**IBEW LOCAL 99**

**Tired of just having a job? Do you want an Amazing Career?**  
**IBEW Local Union 99 is expanding again!**

For over 125 years, the IBEW has been recruiting, training and providing work for the highest skilled and most efficient crafts people in the industry. We do this with a training program, safety record, wage and benefit package that is unmatched in the industry.

If you are brand new, but have an amazing work ethic, are intelligent and love to learn, then you need to talk to us! If you are a licensed journey person who has a great work ethic, is accomplished at the craft and want to be rewarded for your commitment to the industry, then you need to speak to us! If you are licensed and a Foreman, General Foreman or Superintendent and are tired of an unbalanced reward for your investment, then you need to speak to us! If you are an electrical estimator or project manager, we may have opportunities for you also, license preferred but not always necessary!

We are testing and interviewing entry level apprentice applicants right now! We are testing and granting advanced placement to high quality registered apprentices right now! We are testing, training and welcoming into membership qualified open-shop electricians right now!

We are currently expanding our market share and job opportunities for men and women of superior stock, so what on earth are you waiting for!

**The Garden Bug "Cane" begonias**  
These large-growing plants have long stems that resemble bamboo, with showy leaves and clusters of flowers growing from the joints. They can reach 6 feet or more in a pot, and as high as 15 feet or so in the ground in mild winter areas. They like bright light, and need a heavier mix of soil and a substantial pot or support system to keep it from falling over. If leaves yellow and fall off, you are watering too often. — Brenda Weaver

**Q.** I saw an ad for a new HBO show called "Westworld," and it looks really awesome. Can you tell me anything about it? — *Paul T., via email*

**A.** The Western sci-fi thriller, which premieres this fall, is based on the 1973 movie of the same name by Michael Crichton. HBO describes the 10-episode series as "a dark odyssey about the dawn of artificial consciousness and the future of sin." It stars Anthony Hopkins, James Marsden, Ed Harris, Thandie Newton, Evan Rachel Wood and Ben Barnes, and features a whole slew of supporting characters, including "The Hunger Games" alumnus Bruno Gunn.

I spoke with Bruno recently, and he's thrilled to be a part of this "ground-breaking series." Bruno revealed: "It was my first period piece — it's set back in time of the Wild West — it was just mind-blowing. What really impressed me the most was the authenticity of it all."

He also told me that the set was a joy to work on: "Every single person I came in contact with was fantastic. I'm working with James Marsden; he and I have a scene together, and he was terrific. We were bouncing ideas off each other and trying this and that to see what happens. That's what any actor really wants to do; get in there and just play around."

Bruno also has a feature film coming up called "Officer Downe," which has been getting rave reviews as being a groundbreaking entry into the graphic-novel film genre. He told me: "No one has seen anything like this. This is an R-rated movie, much in the vein of 'Deadpool,' and it doesn't shy away from its origins. It is a punch in the face that the film world has been waiting for."

**Q.** You mentioned a few weeks ago that the producers of "Nashville" were in talks to take the series to another network. Have they found a taker? — *Julie R. in West Virginia*

Byron Ashley Bryson  
**Bruno Gunn**

**A.** CMT has come through for all of us "Nashville" fans. On the heels of a tremendous outcry from legions of devoted fans, CMT, Hulu, Lionsgate and ABC Studios announced that the critically acclaimed series will return with a brand-new season on CMT. Longtime partner Hulu will continue to offer all "Nashville" episodes available to stream the day after they air on CMT. In another surprising move, the renewal is for a full 22-episode season (usually cable pickups are only about 13 episodes).

**READERS:** Here's the rundown of the NBC shows that didn't make the cut for the 2016-17 season: "The Best Time Ever with Neil Patrick Harris," "Coach" (canceled after filming the pilot), "Crowded," "Game of Silence," "Heartbeat," "Heroes Reborn," "Mr. Robinson," "The Mysteries of Laura," "The Player," "Telenovela," "Truth Be Told," "Undateable," "Welcome to Sweden" and "You, Me and the Apocalypse."

HERE IS A PLEASANT LITTLE GAME that will give you a message every day. It's a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner and check one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

**HOLLYWOOD**

by Tony Rizzo

Peter Mountain/Disney Enterprises

Emily Blunt in "Into the Woods"

HOLLYWOOD — "Mary Poppins Returns" will be the sequel to "Mary Poppins" (for which Julie Andrews won her Oscar in 1964). Emily Blunt, who starred in "Edge of Tomorrow" (with Tom Cruise), the Stephen Sondheim musical "Into the Woods," and "The Huntsman: Winter Wars," will play Mary Poppins this time around. Blunt and husband John Krasinski ("The Office" and "13 Hours: The Secret Soldiers of Benghazi") have one child, Hazel Grace, and are expecting their second child later this year. Her next film, "Girl on the Train," with Justin Theroux, Luke Evans and Allison Janney, is due Oct. 7.

Disney hopes to cash in on the smashing success of Lin-Manuel Miranda, author and star of the hip-hop musical "Hamilton" (which was nominated for a record 16 Tony Awards), by co-starring him with Blunt. P.L. Travers wrote seven more Mary Poppins books, any one of which this may be based on. The story is set in Depression-era London and revolves around Jane and Michael (the Banks children) and Michael's three children. Miranda will play Jack the Lamplighter (which sounds akin to the chimney sweep that Dick Van Dyke played). Miranda's work for Disney includes writing music for "Star Wars: The Force Awakens" and the animated "Moana," which features the voice of Dwayne Johnson.

Johnson will follow "Moana" (Nov. 23), "Fast 8" (April 14) and "Baywatch" (May 19) by producing and starring in a remake of the 1975 Ron Ely film "Doc Savage: Man of Bronze," which was not a huge success.

"Deadpool," which earned \$754 million in theaters, has crushed the DVD/Blu-ray market, taking the No. 1 spot its first two weeks on sale. However, "Deadpool" star Ryan Reynolds didn't do as well with "Criminal,"

which opened April 15. It cost \$31.5 million but earned only \$32.7 million, despite having Kevin Costner, Gary Oldman, Tommy Lee Jones and "Wonder Woman" Gal Gadot in the cast. Reynolds' next film is "The Hitman's Bodyguard," with Samuel L. Jackson, Gary Oldman and Selma Hayek.

Also on the casualty list are "Nice Guys," with Ryan Gosling and Russell Crowe, which cost \$50 million to make and took in only \$28.5 million in theaters, and the soft opening of "Alice Through the Looking Glass," which cost \$170 million and opened lower than expected at \$105.3 million. It'll be a long haul to catch the original, which made over a billion dollars.

The box-office dip may have been caused by the beating allegations made against Johnny Depp by his wife, Amber Heard. Imagine saying the first week's grosses were a disappointing \$105 million? I'd cry for them, but I need to save my tears because of the drought we're having in California!

**Hints For Homeowners**

**Know Your Options For Home Cooling Systems**

(NAPS)—When the weather heats up, many homeowners crank up their central air conditioning or turn to multiple noisy window units. Unfortunately, neither option is ideal: central air, wastes energy by its all-or-nothing nature. Window units, in addition to being cumbersome, diminish a room's attractiveness and obscure its views.

Luckily, there is a third option: mini-split systems. **Up To 25 Percent Savings**

Mini-splits are ductless heating and cooling systems that allow you to control the temperatures in individual rooms rather than the entire house. You're not only customizing your comfort, you're saving considerable energy, and up to 25 percent on utility bills. Overall, mini-split provider Fujitsu General offers the most energy-efficient lineup.

**Floor mounted indoor units are excellent solutions for rooms with minimal wall space.**

comfourt and energy efficiency. You can keep different rooms at different temperatures—a solution to the thermostat wars waged by so many families, especially those with young children or senior parents. And while central air systems and window units can be noisy, mini-splits are whisper quiet indoors and out.

**Maximum Flexibility, Minimum Space**

Mini-split system compressors are outside the house but there's no need for a basement or attic evaporator unit, thanks to thin copper tubing that pumps refrigerant directly to discreet evaporators inside. In cold weather, the same unit works in reverse, absorbing heat from the outside air and moving it indoors. The result is efficient cooling and heating for year-round, whole-house comfort.

Finally, mini-split systems come in all shapes and sizes for a refreshing amount of choice. Wall-mounted systems rest well above eye-level, while floor-mounted systems, with their compact size, are excellent for residential radiator replacements or any room with limited upper wall space, such as a kitchen or sunroom. Slim duct systems are ideal for homeowners who want units completely out of sight, since they're concealed in a ceiling or framed enclosure below a ceiling.

For a nearby Fujitsu General contractor, call (888) 888-3424 or visit [www.constantcomfort.com](http://www.constantcomfort.com) or [www.fujitsu-general.com](http://www.fujitsu-general.com).

**Wall-mounted indoor units are sleek and can be installed high on the wall.**

**Advantages Over Window-Mounted AC & Central Air**

Compared to window units, mini-split systems are more attractive, quieter and more energy efficient. Plus they're set higher on the wall or ceiling, freeing up living space. Central air systems require expensive, intrusive ductwork and they're not scalable, so they can't be easily extended to previously unfinished living spaces such as attics, basements or three-season rooms. Mini-splits don't require complex, expensive ductwork and can be installed to cool and heat newly converted spaces.

Mini-splits also allow for temperature control by indi-

**Mr. Hockey**

There are a lot of things to celebrate and look forward to these days in the world of sports, but sometimes you are reminded of the past. A former mayor of New York once said that "weddings are optional but funerals are mandatory," and it's with that spirit we briefly look past the Pittsburgh Penguins and superstar Sydney Crosby's dominant Stanley Cup run and instead look to the past in honor of Gordie Howe.

Death, as they say, is a part of life. One week after the death of the great Ali, we are again reminded of this fact. It's a morose subject to be sure, but some people just make huge impacts and leave legacies that appear impossible to match. One such athlete was Gordie Howe.

It strains the limits of incredulity that Howe isn't in the world right now, having passed at 88 years of age. He wasn't the Ali of hockey — he was the Gordie Howe of hockey. He was "Mr. Hockey."

Can you imagine? If you were a "war baby" born in 1946, the best player in hockey was playing until you were 34. He played from the Truman administration straight through to Reagan (and that's not counting his Minnie Minosa moment in the '90s when he played a shift for the Detroit Vipers).

Perhaps Howe's greatest ability was his talent for letting the game come to him. He was so efficient in his movement that he kept moving

longer than any other player in NHL history. Through sheer muscle memory, Howe had an uncanny knack at being in position for the great play. Also, he was ambidextrous and could beat you silly from the left and the right.

People like to say that he wasn't the best at any one thing ... he was "just" great at everything. He could skate, but he wasn't the fastest. He didn't have the hardest slapshot, but he had the most goals. He wasn't the best fighter, but nobody dared to say that to his face. It didn't matter because he was the complete hockey player, a champion and an MVP many times over.

Also, he was a great guy. While he didn't earn the type of wage that today's hockey stars command, he was always there for the charity event. He may not have donated millions in cash, but he made others millions just by stroking his signature across a stick, and he was always willing to do it. Stories abound of him coming to the aid of people in tough situations when they didn't even ask. Like on the ice, he just had a uncanny way of being there. Maybe that's why they named an international bridge for the guy.

A famous novelist once said that no matter what a writer says, whatever they just wrote is the very best they can do at that moment. Howe never had a moment of doubt. "You find that you have peace of mind and can enjoy yourself, get more sleep and rest when you know that it was a 100 percent effort that you gave — win or lose," Howe used to say.

Howe never cheated himself, his teams, his family or the fans for even one minute, and that is why he will always be remembered.

Cocktail Dress

**Q.** I have a cocktail dress from about 1980 that was designed by Oscar De La Renta. It is floor-length with a white bodice and diagonal rows of beads and rhinestones. The skirt is black silk with a front bow. Is it worth taking up room in my closet? — *Sarah, San Francisco*

**A.** Most designer clothes have increased in value in recent years. The 1980s are suddenly very hot, so my answer is yes. I checked with several vintage clothing dealers, and they seem to agree that in good condition, your cocktail dress might sell in the \$500-\$750 range.

If you send me an inventory of your house even with a SASE it is a waste of both your time and money. With a computer you can check current values on eBay. I find that extremely helpful when determining current values.

Put another way, there are no free lunches or 5 cent cigars. If you feel you have something valuable, hire the services of a good professional appraiser. For general information, which I hope is helpful, I am your man.

**Q.** A number of weeks ago, I sent you a three-page list of antiques and collectibles I asked you to appraise. I even enclosed a SASE for your convenience. I have not received an answer. What's up? — *Bill, Sun City, Arizona*

**A.** I don't appraise items for either garage or estate sales. Even though I was in the antique business for more than 30 years, I am not an appraiser nor do I pretend to be.

When I publish a value in this column, I attribute it either to a price guide or expert. I also limit myself to answering one question per reader.

**Q.** I have a Coca-Cola tray from the 1920s featuring a couple playing golf. Do I have a valuable item? — *Dorothy, Ladue, Missouri*

**A.** Yes, if it is authentic. Coca-Cola collectors must be aware that many of the old beverage trays have been reproduced, and some even aged to look much older than they actually are. If your tray is the real deal, it was issued in 1926 and is valued in the \$500-\$750 range, depending on condition.

**Strange BUT TRUE**  
 By Samantha Weaver

• It was noted 20th-century English historian A.J.P. Talyor who made the following sage observation: "Conformity may give you a quiet life; it may even bring you to a University Chair. But all change in history, all advance, comes from the nonconformists. If there had been no troublemakers, no dissenters, we should still be living in caves."

• Those who study such things say that the typical raccoon weighs twice as much in September as it does in March, at the end of the long, lean winter.

• Standard Oil of Louisiana opened the first gasoline superstation in 1912 in Memphis, Tennessee. It offered 13 pumps and a maid who served ice water to customers. On opening day, a gallon of gas cost \$0.29.

• You might be surprised to learn that Cirque du Soleil, the largest theatrical producer in the world, was founded by two street performers who never completed high school.

• Iconic actress Marilyn Monroe spent much of her childhood in foster homes and an orphanage, and her troubled life has been much publicized. Considering her struggles with depression, anxiety and addiction, it should not be surprising that chore — more than anywhere else in the world. Only a third of Americans listen to music, though; according to the survey, the favorite pastime of vacuumers in the United States is just to think about vacuuming.

Thought for the Day: "When the power of love overcomes the love of power the world will know peace." — Jimi Hendrix

The precursor of the tuba was an instrument called the serpent. First made in the late 16th century, it was often painted to look like a fat snake. It was used as the bass line in European churches.

**From the Family of Ryan Bourque**

We would like to thank everyone for their love and support as we grieve over the loss of our beloved son, Ryan Joseph Bourque. Your countless condolences and prayers have helped console our family.

We appreciated the lovely flowers, thoughtful cards, delicious foods, and gifts of remembrance. These genuine acts of kindness will never be forgotten.

A special thank you goes out to the Jamestown Police Department. Their unwavering presence and guidance has helped us tremendously. Thank you to the 100 Club of Rhode Island for their support and friendship. We are eternally grateful to both organizations.

We would like to acknowledge all the state and local law enforcement agencies, fire/rescue departments and local residents for showing Ryan respect and honoring his life.

Thank you to everyone who donated to the Jamestown Playground Restoration Fund in commemoration of Officer Ryan Bourque. Your generosity is both humbling and inspiring.

Lastly, thank you for sharing your grief with us during this difficult time. Ryan will be missed forever. He will endure in the hearts and minds of all who knew him.

Much Love,  
Gary and Lee Bourque

**Ten Ways To Get Prepared For Planting**

(NAPS)—When the weather warms, many people's thoughts turn to how to make sure their yard is in tip-top shape for planting. These 10 tips can help get your garden off to a great start:

**Proper planning can help you have a glorious, pollinator-attractant garden and save you time, trouble and money.**

- 1. Make a plan.** First, decide what to plant. One thing you may want to consider is pollinator-attractant plants. Yellow, blue or purple flowers make your garden more appealing to bees. The Pollinator Partnership's Bee Smart mobile app helps gardeners select the best plants in their area. You can visit FeedABee.com to view pollinator gardens from around the country for inspiration.
- 2. Observe the current state of your garden.** See how well last year's planting choices worked out. Consider placement of compatible plants, sunlight, shade and irrigation.
- 3. Tidy up.** Clean out old plants and weeds from last year's garden, including the roots. Remove winter mulch or pine straw, too.
- 4. Survey the soil.** Make sure the soil contains the right nutrients with a soil sampling kit, found at home and garden centers. This analysis will inform your decisions on fertilizing methods. Aerate your soil by breaking it up so air, water and nutrients penetrate the plant roots.
- 5. Take care of pests.** Check for slugs, snails or aphids, treating any infestations you find.
- 6. If it's broken, fix it.** Fix broken structures and gardening tools. Also, treat wood with a preservative during dry periods to prevent

- cracks and splitting.
- 7. Gather the tools you'll need and make sure they're clean.** Sharpen and clean your tools, as proper maintenance saves you money and keeps disease from spreading between cuttings.
- 8. Planting vegetables?** Consider raised beds. These warm quickly, encourage good irrigation and aeration, and are excellent for difficult soil. In addition, you'll be able to reach every corner to pull young weeds as they appear.
- 9. Prepare a compost pile.** Buy or make a compost bin and throw in all your garden waste, grass clippings, paper, wood prunings, and fruit and veggie peelings. Turn and aerate it with a garden fork every month.
- 10. Label your plants.** If you're growing food, learning to identify plants or sharing a community garden, plant markers are a must. Use the plastic markers that came with the plants or buy or make your own from pebbles, bamboo skewers or broken terracotta pots. Label your plants with the variety name and date you planted it.

*"Over the Counter"*

by Bill Marcotte, Proprietor

Again, in recognition of the Fourth of July, I thought I would reprise my list of things to do on that day, that I wrote in July of 1999. There seemed to be a lot of people who really enjoyed that article. It was fun writing it, and I think my list of things to do would not change if I wrote it again... so here you go:

1. Take the day off.
  2. Spend the morning with a cup of coffee on the deck or in the kitchen... wherever. Just enjoy the quiet.
  3. If you live near the water take out the canoe.
  4. If you don't then try the bike path. Go for a walk.
  5. Find a parade or celebration. March along with the band.
  6. Have a bar-b-que... or a picnic.
  7. Surround yourself with friends and family.
  8. Toast marshmallows as the sun goes down.
  9. Fireworks... you have to find fireworks! (Johnson's Pond?)
  10. Listen to Kate Smith sing God Bless America. (Best presentation of that... Hill Farm Camps and it's hourly!)
  11. Celebrate independence... yours and the countries.
  12. Say goodnight to the ones you love, and sleep well.
- To all of you, have a safe and happy Fourth of July from all of us at Crystal!

## MAKING LIFE MORE FUN

### Tips For Buying Your First All-Terrain Vehicle

(NAPS)—More than a quarter of a million Americans buy all-terrain vehicles (ATVs) a year. If you plan—or just dream—to be among them this year, you should know that, as with any major purchase, a little knowledge can go a long way toward helping you get the best possible deal. These seven suggestions can help:

- **Are you prepared to play safely?** Safety is always an important consideration when purchasing an ATV. Enrolling in a safety training course will get you acclimated to riding an ATV. The ATV Safety Institute offers courses that help you become a more safe and aware rider.
- **Consider the age and experience of the primary rider.** ATVs come in all shapes and sizes. It's important to match the right features with the rider for a more enjoyable ATV experience. Is the rider a youth, beginner adult or adult with other power sports equipment experience? There are vehicles available for children as young as 6, and adult-only vehicles in different power options. Don't overdo it on your first purchase. You can always upgrade power and performance down the line.
- **How many riders will your ATV need to carry and how?** In addition to the typical straddle ATV for one person, there are also ATVs specifically designed to carry a driver and passenger for double the fun. Known as "2-Up" ATVs, they feature a longer chassis with a second seat behind the driver.
- **Determine the terrain where you'll be riding.** Will it be hard-packed trails, fields, mud, sand or steep hills? If mostly deep mud or steep hills, a four-wheel drive ATV, with its enhanced traction, would probably make for a more enjoyable experi-

With a variety of options available, ATVs are great for leisure riders or families to enjoy the great outdoors together.

ence. For regular trails and field riding, a two-wheel drive vehicle should suffice. If riding in highly rutted or rocky terrain, an ATV with electronic power steering might be the best bet to help reduce handlebar feedback and rider fatigue.

- **Weigh how the ATV will be used.** ATVs, generally, are either for sport or utility. Sport quads are made for recreational or high-performance riding. Utility ATVs, such as the Polaris Sportsman, from Polaris Industries, a leading manufacturer of ATVs, offer four-wheel drive and can carry loads, tow, plow and perform many other tasks.
- **Do you prefer a steering wheel and pedal controls?** The new "style" of ATV introduced as the Polaris ACE is a single-seat, sit-in ATV with a steering wheel and a cage for more comfort, confidence and capability. It offers a unique way for both novice and experienced riders to hit the trail.
- **Finally, how much do you want to spend?** Research the various features to find a machine that fits your budget, riding style, work expectation and experience. Keeping in mind these considerations and doing your research will ensure a smooth purchase and even smoother ATV riding experience.

Steffy set Liam straight regarding whether or not there could ever be a future between them. Still in the newlywed phase of his marriage, Wyatt bragged to Katie that he and Steffy modeled their relationship after hers and Bill's. Meanwhile, Brooke and Bill's secret rendezvous came to a screeching halt when Rick nearly caught them together. A frustrated Thomas stood up to Ridge about their arrangement concerning Douglas. Liam pitched an idea that fell flat with Bill and Wyatt. Ridge was blindsided when Caroline started taking Thomas' side. Sasha missed working opposite Zende during her lingerie photoshoot. An oblivious Katie wondered who the new man was in Brooke's life. **Wait to See:** Andre and Kate strike up an unusual friendship.

by her feelings for both Morgan and Dillon. Franco elected not to respond to Nina's texts. Anna and Paul found some common ground. Later, Paul made a promise to Mayor Lomax. Sonny confronted Julian about his treatment of Alexis. Carly was warned not to push matters where Michael and Sabrina were concerned. Anna advised Alexis on her next move. Monica read Finn the riot act. Ava feared that she would be hunted down. Julian was reminded of what he must do. Valerie was forced to make a tough judgment call. **Wait to See:** Sonny is concerned by Morgan's codependence on Kiki.

**THE YOUNG AND THE  
RESTLESS**  
Summer informed Nick about the huge oil spill after she couldn't reach Victoria in time. Lily was convinced that Hilary only pretended to faint. Meanwhile, Jack hid Hilary's trembling hands from Devon. Kevin demanded to know the real reason why Mariah was living with her mom again. Victoria was convinced that Victor was responsible for sabotaging the oil rig. Phyllis shunned Jack's attempts at intimacy. Summer grilled Travis about his relationship with Victoria. Meanwhile, Luca didn't waste any time telling Billy about the new man in Victoria's life. Adam was convinced that Victor was framing someone. **Wait to See:** Adam receives some devastating news.

**DAYS OF OUR LIVES**  
Aiden witnessed the undeniable bond between Hope and Rafe. Ciara tried her best to deny her feelings for Chad. Aiden accepted Andre's offer to eliminate his romantic rival. Claire was thrilled to learn that her parents were getting back together. Adrienne and Lucas shared a romantic reunion. Marlena visited Abigail and tried to calm her agitation. Meanwhile, Chad privately made plans to break Abigail out of the facility. Hope asked Aiden to join her on a trip to Green Mountain Lodge. A man named Monahan announced to the skeptical police that he killed Stefano. Paul accepted John's offer to work for him at Black Patch. Kate fired Nicole in front of Dario. **Wait to See:** Ex-spouses compare notes regarding recent transgressions.

**Six Things You May Not Have Known You Could Do With Your Range**

(NAPS)—Here's hot news for home cooks: You may be able to get much more out of the kitchen stove than you realize. Today's ranges let you do more than just heat up a frozen pizza or boil water. Here are six things you can do to make meals easier, faster and more fun to make.

**1. Understand the conventions of convection heating:** True European Convection is a setting that may be a bit confusing to people who haven't used it before. Simply stated, it means that a separate heating element works in conjunction with the traditional top and bottom elements along with a fan that works to evenly distribute heat. This makes for fast, even baking. Plus, this function limits flavor transfer between foods so that you can cook a savory main dish with a sweet desert without mixing flavors—saving valuable time and energy, too.

**2. Make defrosting delightful:** Some ranges, like the professional-style Verona, have a defrost setting that turns on the fan and oven lamp simultaneously. This function allows food to defrost quickly without beginning to par-cook, which is what usually happens when you use the defrost setting on the microwave. The defrost setting also keeps food from drying out as it would in a microwave.

**3. Create a great personal pizza:** Try the pizza mode setting for your frozen or homemade pizza. An exclusive feature of the Italian-made ILVE range, the pizza mode setting removes the guesswork by automatically heating the oven's elements and setting the temperature

**Some ranges let you do a lot of really cool things in the kitchen.**

to 480° F for a perfectly crisp crust and flawlessly melted toppings without burning.

**4. Wake up to the possibilities of the wok ring:** Whether you enjoy making your own Asian foods or just want to sauté some vegetables quickly for dinner, this can be a great tool. It's especially designed to cradle the bottom of a wok and evenly distribute heat for high-temperature cooking and sautéing without burning.

**5. Be up on upper element mode:** This setting found on ILVE ranges turns on the top heating element only. It's great for that last 10 minutes of cooking lasagna or any dish that says "remove lid" so you can brown, crisp or melt for a special finishing touch.

**6. Get cooking faster:** Some ranges can preheat faster; for example, ILVE offers an exclusive quick start mode, which goes from 0° to 350° F in just eight minutes.

### Under Cover

Little bird areas are a safe place for birds to feed, as well as fledglings. Shy birds like buntings feel safe under cover. My bird area is about 5 feet in circumference, under a lantana bush. There's always something going on. I love to watch that area the most.

## Salome's Stars

**ARIES** (March 21 to April 19) You clever Ewes and Rams love nothing more than to rise to a challenge. So, by all means, if you feel sure about your facts, step right up and defend your side of the issue.

**TAURUS** (April 20 to May 20) You've done some great work recently. Now it's time to reward yourself with something wonderful, perhaps a day at a spa or a night out with someone very special.

**GEMINI** (May 21 to June 20) You love to talk, but don't forget to make time to do a little more listening; otherwise, you could miss out on an important message someone might be trying to send to you.

**CANCER** (June 21 to July 22) Your aspect indicates some uncertainty about one of your goals. Use this period of shifting attitudes to reassess what you really want and what you're ready to do to get it.

**LEO** (July 23 to August 22) Your social life is picking up, and you'll soon be mingling with old friends and making new ones. But 'twixt the fun times, stay on top of changing workplace conditions.

**VIRGO** (August 23 September 22) A trusted friend offers understanding as you vent some long-pent-up feelings. Now, move on from there and start making the changes you've put off all this time.

**LIBRA** (September 23 to October 22) You might well feel uneasy as you face a difficult situation involving someone close to you. But you know you're doing the right thing, so stick with your decision.

**SCORPIO** (October 23 to November 21) You're a good friend to others. Now's the time to allow them to be good friends to you. Rely on their trusted advice to help you get through an uncertain period.

**SAGITTARIUS** (November 22 to December 21) Family and friends are always important, but especially so at this time. Despite your hectic workplace schedule, make a real effort to include them in your life.

**CAPRICORN** (December 22 to January 19) That project you've been working on is almost ready for presentation. But you still need some information from a colleague before you can consider it done.

**AQUARIUS** (January 20 to February 18) Don't let those negative attitudes that have sprung up around you drain your energies. Shrug them off, and move ahead with the confidence that you can get the job done.

**PISCES** (February 19 to March 20) Aspects favor some dedicated fun time for the hardworking Piscean. A nice, refreshing plunge into the social swim can recharge your physical and emotional batteries.

**BORN THIS WEEK:** You love to travel and be with people. You probably would be happy as a social director on a cruise ship.

### Get Fired Up for the Fourth

Celebrating our nation's independence with parades, speeches and a barbecue dinner is a long-standing tradition. Citizens in every part of the country would come to town for the celebration. They would form a line and march behind their local military regiment until they reached the courthouse square or church grounds.

A typical Fourth of July ceremony opened with a prayer, followed by songs and speeches from politicians before ending with a reading of the Declaration of Independence. Then everyone would join in for a community feast of barbecued meats, vegetables and desserts.

So if you're dining on barbecue on July 4, you're continuing a long, proud American tradition. If you're using a Weber grill, you have George Stephen to thank for this innovative device.

The year was 1952. At the Weber Brothers Metal Works, employee George Stephen had a crazy idea. Using the marine buoys made by his company as a model, he concocted a funky dome-shaped grill with a lid to protect food and keep in the rich barbecue flavor. From those humble beginnings, an international grilling revolution was born.

James Purviance is the author of "Weber's New American Barbecue — A Modern Spin on the Classics." Purviance is one of America's top grilling experts and Weber's master grill. Through stories and essays, hundreds of photos, crystal-clear techniques and 100 exceptional and foolproof recipes, "Weber's New American Barbecue" celebrates what's happening at the grill today.

From everyday backyard heroes melding flavors to chefs creating new classics and pitmasters setting new standards of excellence at competitions, this book explores the delicious

evolution of our true American pastime — barbecue.

Purviance's recipe for Spicy Shrimp with Charred Poblano Romesco is the perfect Independence Day appetizer. Serve it with some toasted, crusty bread or tortilla chips for dipping into the flavorful Romesco.

### Spicy Shrimp with Charred Poblano Romesco

The green romesco is less sweet and a bit spicier than a traditional roasted red pepper romesco. Remember that

*peeled and deveined, tails left on, patted dry.*

1. Prepare grill for direct cooking over high heat (450 F to 550 F).  
2. Grill the poblano chiles over direct high heat, with the lid closed, until blackened and blistered all over, 10 to 12 minutes, turning occasionally. Place the peppers in a bowl and cover with plastic wrap to trap the steam. Let stand for about 10 minutes. Remove and discard the charred skin, stems and seeds, and then coarsely chop the chiles.

3. In the bowl of a food processor, combine the poblanos, jalapeno, cilantro, almonds, lemon juice, garlic, pepper, sugar and 3 tablespoons of the oil and 1 teaspoon of the salt, and process until well-blended but some texture still remains. Transfer sauce to a serving bowl.

4. In a medium bowl whisk together the remaining 1 tablespoon oil and 1 teaspoon salt, the paprika and cayenne. Add the shrimp and turn to coat in the mixture. Grill the shrimp over direct high heat, with the lid closed, until firm to the touch and just turning opaque in the center, 2 to 4 minutes, turning once.

5. Arrange shrimp on a platter and serve with the romesco sauce for dipping, and toasted bread and/or tortilla chips for dipping. Serves 4 to 6.

**Novena to the BLESSED VIRGIN**  
(Never known to fail). O Most Beautiful Flower of Mt. Carmel, Fruitful Vine, Splendor of Heaven, Blessed Mother of the Son of God, Immaculate Virgin, assist me in my necessity. O Star of the sea, help me and show me here in, you are my mother. O Holy Mary, Mother of God, Queen of Heaven and Earth, I humbly beseech you from the bottom of my heart to succor me in my necessity (make request). There are none that can withstand your power. O Mary conceived without sin, pray for us who have recourse to thee (3 times.) Holy Mary, I place this cause in your hands (3 times). Say this prayer for three consecutive days. You must publish it and it will be granted to you. Grateful Thanks.
