### *I regret having to inform everyone that Linda Jacobs has passed away. Here is a letter from her loving husband Sal NiCastro:*

The night of June 20th, 2016 was calm with a storm predicted overnight. Around midnight the storm approached us with severe lightning and thunder. Linda opened her eyes and watched for a time. After a heavy downpour, the storm passed and cleared. Linda took a deep sigh and started her journey to God. As her journey started, it was brought to our attention that the sky was clear above the house with several small puffs of clouds around the house.

**1:40 am June 21st, 2016 was Linda's last day on earth. Rest in peace.**

**REMINDER:** Please join us for Linda's Day Memorial on Sunday, July 10, 10am-3pm at 9412 Fuller Road, Nunda, NY.

**Judy's Travel Center**

What began as an idea in 1988 has become the longest standing travel agency in Livingston County. And now, after a full, successful and rewarding career in the travel industry, Judy's Travel would like to announce that Judy is retiring.

She leaves the business in the capable hands of Stacy Wilson who began working with Judy back in 1988. Stacy looks forward to continuing the tradition of providing the same personal customer service that Judy's Travel has been known for over the past 28 years. Airline tickets, cruises, family vacations, destination weddings and more are still part of the great services you can expect at Judy's Travel. Toni Conaway will continue to be a part of our team focusing on group travel and escorting to a variety of exciting destinations both domestically and internationally.

We look forward to working with our existing and new clients as we carry on Judy's legacy.

We wish to say a most sincere **THANK YOU** to Donnie Claud for contributing the proceeds from his barn dance to our family. Donnie is such a kind and thoughtful person who always thinks of other first and what he can do to help them. Also, Thank You to all the businesses and private individuals who contributed so generously monetarily and with door prizes and raffle items. Also, Thank You to those who attended the barn dance for an evening of "old fashioned fun" with a really great band. Not to be forgotten, Thank You to all the other workers who helped in any way to make this such a success!

Most sincerely,  
Eunice & Denny Englert

Through the 4-H market animal project, members learn how to manage, feed, and fit an animal to produce a high quality product for the consumer. The members learn business skills, such as financial management, marketing, and record keeping as they track profit/losses on the project. Support from buyers is critical to the sustainability of this program.

Cornell Cooperative Extension is an employer and educator recognized for valuing AA/EEO, Protected Veterans, and Individuals with Disabilities and provides equal program and employment opportunities. Contact CCE Livingston County if you have any special needs.

### WE NEED THE COMMUNITY'S HELP!

The public is invited to provide input regarding health concerns facing Livingston County. The Livingston County Department of Health, Noyes Health and the Genesee Valley Health Partnership are in the process of conducting a community health assessment. A summary of health needs in the county have been gathered over the last six months and is available for the public's review and comment. Please visit the Livingston County Department of Health's website at [www.livingstoncounty.us/doh.htm](http://www.livingstoncounty.us/doh.htm) and click on the Community Health Assessment Priorities button found on the main page.

Community feedback is a valuable part of the community health assessment and community health improvement planning efforts. For questions or to offer your input, please contact Lisa Beardsley at 585-243-7531.

### Powerful Tools for Caregivers

[www.powerfultoolsforcaregivers.org](http://www.powerfultoolsforcaregivers.org)

#### Are you struggling balancing life with caregiving for a loved one?

This **six-week** educational program, which focuses on the **needs of the caregiver**, is for family and friends who are caring for older adults suffering with long-term conditions. The class provides you with the skills and confidence you need to better care for yourself while caring for others.

Caregivers develop a wealth of self-care tools to reduce personal stress, change negative self-talk, communicate their needs to family members and healthcare providers, communicate more effectively in challenging situations, recognize the messages in their emotions, deal with difficult feelings, and make tough caregiving decisions. Class participants also receive a copy of [The Caregiver Helpbook](#), developed specifically for the class. **Classes offered spring and fall.**

*A researched based program... YOU are not alone!*

**BLUE GREEN ALGAE BLOOM  
HEALTH ADVISORY UPDATE Friday July 1, 2016**

Based on surveillance performed Friday, July 1, 2016, no blooms have been identified on Conesus Lake. Blooms were first identified on June 21, 2016 primarily along the easterly shore. Blooms occur when algae multiply very rapidly over a short period of time, usually in calm, warm, water. There are thousands of different algae species, however, a few of these may produce toxins. The toxins are a concern when there is a high level present in the water. The Livingston County Department of Health is monitoring for algae blooms and may collect samples of the water if the bloom is concentrated and persistent. Blue-green algae blooms may persist in varying degrees and a various locations throughout the summer and fall seasons. The public water supply is safe for drinking.

At this time, visual monitoring has detected the presence of blue-green algae in the noted area. Contact with the algae may result in some health effects such as itching, rashes, fever, headache, upper respiratory symptoms, vomiting and diarrhea. These symptoms are not just caused by blue-green algae contact. If you experience any of these symptoms and they persist, you should seek medical advice. You are advised not to drink or use the lake water for cooking and do not swim, wade, play, or come into direct contact with water that is discolored or has scum on the surface. Pets should not be allowed to drink or to come into contact with discolored water. If contact occurs, wash with soap and clean water to remove algal material. Always rinse after coming into contact with any surface water whether or not a blue-green algae bloom is present. Avoid contact with surface water when open cuts or wounds are present on the body.

Questions may be directed to the Livingston County Department of Health. The Livingston County Department of Health can be reached at 243-7280 Monday thru Friday from 8:00am to 4:00pm or by e-mail: [dept-of-health@co.livingston.ny.us](mailto:dept-of-health@co.livingston.ny.us). For emergencies, you may also reach the Department of Health after business hours or on weekends by calling the Livingston County Sheriff's Department at 243-7100 and asking for the Public Health Duty Officer.

## Need Help Paying Bills?

The Weatherization Program of Wyoming County Community Action, Inc. helps reduce the heating bills and energy costs of clients. Another side benefit is that it will improve the safety of someone's home through energy efficiency measures. While the exact amount of savings will vary, most households who receive assistance from this program may experience energy cost savings in excess of 20%, which can be the equivalent to hundreds of dollars.

So what this means is that a family's heating bill may go down by over 20%. In order to apply or get more information, contact Debbie Fladie today at Wyoming County Community Action, Inc. at 585.237.2600, ext. 131.

## I FOUND A BAT IN MY HOUSE!

**You could be subject to getting rabies vaccinations if the bat is not tested.**

Bats are important in the environment but can cause a serious health risk in the home. Based on *NYS Department of Health* guidelines, if you encounter a bat while sleeping you may need to undergo rabies treatment. Bites can be very small and unknown. **Once rabies is contracted it is nearly always fatal.**

### If you find a bat in your home:

1. Keep it isolated to one room if possible.
2. Capture the bat if you are comfortable doing so. Wait until it lands and then place a can, plastic container or box over it. Slide a paper under it and then place a cover on top to contain it. You may also contact a wildlife removal specialist to capture it.
3. If the bat is killed, the head must not be crushed or destroyed to allow testing.
4. Call the Livingston County Department of Health, Center for Environmental Health, at (585) 243-7280 / (585) 335-1717. For after hours emergencies, call the Livingston County Sheriff's Office at (585) 243-7100.

## WISDOM TEETH

Wisdom teeth, also known as "third molars," are the last teeth to develop and erupt into the mouth. Unfortunately, they are the most common teeth to be 'impacted' or unable to fully erupt between the ages of 15-20, but can be seen earlier or appear much later in life. Impacted teeth are not able to erupt through the gum tissue fully or at all. This can be due to many reasons, including lack of room for the teeth (jaw growth), malposition of teeth or pathology. Nearly everyone has at least 1 impacted wisdom tooth.

### Why are wisdom teeth removed?

There are many reasons wisdom teeth require removal; These include pain, swelling, infection, orthodontic treatment, periodontal disease, cavities, shifting of teeth, age and pathology (such as cyst development). If not removed, impacted wisdom teeth could lead to damage of adjacent teeth or cause infection, which is a very common reason that they are removed. If they do erupt fully, they often are difficult to clean and maintain, have bacteria associated with them which can lead to systemic infection and illness that can affect the heart and make management of other illnesses such as diabetes more difficult. If the teeth remain impacted as people age, other pathology can develop, such as cysts and tumors. Management of these situations is often compromised by anatomy and other medical concerns. Pain-free does not mean problem-free or pathology-free. If the wisdom teeth erupt fully, are hygienic and without pathology, proper follow up is in order with periodic exam and x-rays.

### What is the best age to remove wisdom teeth?

Studies have consistently shown that removing wisdom teeth in the teen years is by far easier for patients. This is due to bone being softer, roots not being fully developed, better healing process, and an essentially uncomplicated or benign medical history.

### Oral & Maxillofacial Surgeons and Wisdom Teeth

If you have been recommended to have your wisdom teeth removed, you will most likely be referred to an Oral Surgeon (OMS) for evaluation. OMS's remove thousands of teeth, including wisdom teeth, every year. They perform hundreds of anesthetics for various reasons every year, have advanced training in surgical and anesthetic complications and employ a team that is certified in anesthetic care giving. There are various types of anesthetics that an OMS can administer in a very safe and controlled environment. Most often, as a result of their extensive training and experience, teeth removed by an OMS results in less pain, swelling, infection and other complications.

# Keep **Greg McCaffrey** Your District Attorney

*Integrity ✦ Experience ✦ Results*

Dear Neighbors,

Ever since I was a child attending York Central School, with a mother who was a teacher and father who served as a New York State Trooper, I was educated on the importance of public service and the integrity of the criminal justice system. My approach to being your District Attorney is simple: Proactive, aggressive and efficient prosecution of all crimes in our community. I hope the results of the past four years prove that I take my job very seriously.

- a record number of cases handled
- a record number of convictions secured
- a new and highly effective Drug Task Force
- a focus on securing justice for elders, children, victims of domestic violence and sexual assault
- 100% trial conviction rate on cases I personally prosecuted.

**More prosecutions and more convictions add up to more protection for you and your family.**

Under my leadership, our office has been determined and effective. We haven't backed away from sensitive cases, and we have prosecuted a record number of drug cases and other major felonies. We have stepped up DWI fine collections, and participate in a newly formed multi-disciplinary task force to aid a dramatically growing number of victims of elder abuse.

The most rewarding part of being your District Attorney is knowing that I am making a difference in the community that three generations of my family call home. **There is no greater honor than serving those who have shaped the person that I am today, and no greater reward than knowing that my neighbors and peers have confidence in me.**

I would be honored to have your support in the upcoming election this fall. In the meantime, wishing you and your family a fun and safe summer.

Sincerely,

Greg McCaffrey  
Livingston County District Attorney
