 Survivor Lap & Caregivers Lap
 10 pm Friday – Luminaria Ceremony
 8 am Saturday – Fight Back & Closing Ceremony

What Is A Relay Event?

- Organized, overnight community fundraising walk
- Teams of people camp out around a track
- Members of each team take turns walking around the tracks
- Food, games and activities provide entertainment and build camaraderie
- Family-friendly environment for the entire community

Luminaria Ceremony

The Luminaria Ceremony takes place after dark, so we can remember people we have lost to cancer, honor people who have fought cancer in the past, and support those whose fight continues. Candles are lit inside of personalized bags and are placed around the Relay track as glowing tributes to the people who've been affected by cancer.

For Luminaria forms or for more information on the Janesville & Milton Relays please contact
 Meghan Havill (608) 662-7551

Survivors Lap

During the Survivors Lap, all cancer survivors at the event take the first lap around the track, celebrating their victory over cancer while cheered on by the other participants who line the track. Relay For Life events also recognize and celebrate caregivers, who give time, love and support to their friends, family, neighbors, and coworkers facing cancer.

Caregivers Lap

During the Caregivers Lap, anyone who ever cared for someone with cancer walks a lap so they can be honored for their support. Caregivers walk this lap with the people they helped if they are also present at the event.

Fight Back Ceremony

This emotionally powerful ceremony inspires Relay participants to take action. The Fight Back Ceremony symbolizes the emotional commitment each of us can make in the fight against cancer. The action taken represents what we are willing to do for ourselves, for our loved ones, and for our community to fight cancer year-round and to commit to saving lives.

Moving over for utility workers

MADISON — Wisconsin drivers will need to slow down or move over to protect the safety of utility workers who are on the job near busy roadways, thanks to legislation signed into law by Gov. Scott Walker recently.

"Thanks to Gov. Walker and a bipartisan group of legislators, Wisconsin utility workers will be offered the same protections as other emergency responders who are on the job," Bill Skewes, executive director of the Wisconsin Utility Association, was quoted as saying in a news release. "We all appreciate the job our utility workers do when they're out in dangerous conditions, day or night, working to restore power. It's important for drivers to respect the room utility workers need to perform their job safely."

Assembly Bill 803, now officially 2013 Wisconsin Act 291, passed both houses of the Legislature with bipartisan, unanimous support, and was backed by both utili-

ties and labor. Senators Paul Farrow, R-Pewaukee, and Dave Hansen, D-Green Bay, and Representatives Robb Kahl, D-Monona, and Mike Kuglitsch, R-New Berlin, were the lead authors of the legislation.

According to the Wisconsin Department of Transportation website, the "Move-Over Law" requires drivers to shift lanes or slow down in order to provide a "safety zone" for a squad car, ambulance, fire truck, tow truck or highway maintenance vehicle that is stopped on the side of a road with its warning lights flashing. Assembly Bill 803 extends the same protections to "any vehicle of a public utility, telecommunications carrier or cooperative association...displaying one or more flashing amber lamps..."

2013 Wisconsin Act 291 also extends drug-testing provisions to ensure contractors performing utility work are doing it as safely as possible.
