CELEBRATIONS

Congratulations on your expected arrival

Joey & Samatha McMillan

So happy for you guys!

HAPPY 13th BIRTHDAY BRANDON!

Love Mom, Dad & Joel

CELEBRATIONS

Happy 50th Birthday Dad

Love, Travis, Michelle, and Alexis

SAM & BETTY
 Best fur kids ever!

Mommy and Daddy love their kiddies!

CARDS OF THANKS

A big Thank You to all the fire & rescue departments that took part in Harvard Milk Day parade in my honor as Grand Marshall. I will miss all my fellow EMS brothers & sisters in my retirement. Stay safe always & again.

Thank You.
 Jan "Ma" Comer
 EMT-P Harvard & Hebron Fire

THANK YOU
 The family of Edward Roling Jr, who passed away June 3, would like to thank all those that sent flowers, cards and attended his funeral. It was gratifying to know we have such wonderful friends. God bless Helene & family

A DIVISION OF

"I view the doctor-patient relationship
 as a true partnership. Education and
 prevention are our strongest tools as
 we work together toward an active
 and healthy life. My care reflects the
 patient as a whole, not just simply
 a disease or set of symptoms."

Brandon J. Orr, MD, MS
 Family medicine

Mercy Health System is happy to welcome Dr. Orr, who joins the family medicine staff at Mercy Delavan Medical Center.

Dr. Orr's special interests include:

- Asthma
- High blood pressure
- Diabetes
- Preventive medicine
- Exercise science
- Men's health
- Allergies
- School and sports physicals

Dr. Orr now welcomes new patients. To make an appointment, call (262) 728-4301.

The National Council on Fireworks Safety offers these common sense safety tips for using consumer fireworks:

- Fireworks should only be used outdoors.
- Always have water ready if you are shooting fireworks.
- Know your fireworks. Read the caution label before igniting.
- Obey local laws. If fireworks are not legal where you live, do not use them.
- Wear safety glasses whenever using fireworks.

For this and more information please visit <http://fireworkssafety.org/>

As you prepare to celebrate the July 4th Independence Day holiday, please remember to take the time to thank those who made this holiday possible throughout the

history of our great nation. We enjoy the freedom we have because someone else went before us to make that possible.

LDV HIGHEST STANDARDS. UNMATCHED VALUE.

LDV, Inc., has been a family owned and operated business in Burlington for 36 years. We are continuing to grow and are looking for quality employees to join our team!

Full-time, first shift **Production Builder** with a variety of skills and experience to assist with the installation of wood, metal, and electrical components. Experience with power tools, wiring, and measuring is desired. Quality, accuracy and the ability to work within a crew to ensure timely completion of projects required. Electrical, plumbing, carpentry, upholstery, and/or metal fabrication skills are a plus.

Full-time **Service Driver** and part-time **Driver** needed to deliver vehicles and process paperwork in a timely and accurate manner to achieve the goal of 100% customer satisfaction. Responsibilities of Service Driver will include making contacts in the field to perform upfit repairs to customer vehicles. Must possess a valid CDL driver's license, have or qualify for DOT Medical Certificate, excellent driving record, and must have automotive knowledge and good attention to detail. Electronics and/or customer service background is desired. Over-the-road travel is required in both positions.

Full-time, first shift **Lot Attendant** position available. Responsibilities include moving vehicles for all LDV locations as well as other local driving and lot cleanup. Must have a valid driver's license (CDL not required) and clean driving record. Excellent organizational skills and the ability to work in a fast-paced environment are also desired. Experience driving larger vehicles and/or light mechanical experience are a plus.

Full-time, first shift **Detailer** needed for light mechanical work, prepping of vehicles for delivery, and general cleaning and upkeep in the shop. May also be responsible for fueling, weighing, and conducting road tests of vehicles. Must have a valid driver's license with a clean driving record and be able to lift up to 80 pounds.

Full-time, first shift **General Laborer** needed to assist in our main production facility. Responsibilities will include general shop clean-up, running errands in company vehicles, and other miscellaneous duties as needed. May also be asked to use power tools, read a tape measure, and install components on vehicles. Must have a valid driver's license with a clean driving record. Must be able to regularly lift 50 pounds and occasionally lift up to 100 pounds. Forklift experience is a plus.

Full-time, first shift **Graphics Installer** that has experience with vinyl graphic installation on vehicles and/or full vehicle wraps. This person will be responsible for cutting and preparing graphics, performing weeding and pre-spacing, and applying finished decals to vehicle ensuring accuracy, quality of work, and timely application. Must have an extreme attention to detail.

Full-time, first shift **Electrical Assembler** needed to assist with installing 12 volt battery and charging systems, heavy cabling and engine-driven A/C on specialty vehicles. Experience with power tools, AC & DC wiring, and measuring as well as vehicle air conditioning, batteries, and heavy cabling is desired. Quality, accuracy and the ability to work within a crew to ensure timely completion of projects required. Electrical, carpentry, upholstery, decal application and/or metal fabrication skills are a plus.

Please also visit our website <http://www.ldvusa.com> for additional openings, including **Purchasing Assistant**. Must be 18 years of age or older. LDV, Inc. offers competitive wages and a good benefits package.

Resumes can be submitted by e-mail to: hr@ldvusa.com or apply in person at:

The Bugatti Veyron needs little introduction as it has been around for nearly a decade. Over the years there have been several variations and the Grand Sport Vitesse is the latest. This open-top roadster uses the Super Sport coupe's 1,200-horsepower engine. It's all-wheel-drive, hits 100 km-h (62 mph) in 2.5 seconds and costs 1.79 million Euro (the car pictured here sold for \$2.5 million). The Veyron began in 2005.

Wing automatically raises to prevent lift-off. It's also an air brake.

Roll hoops double as air intakes.

Paint scheme of this car inspired by the 1928 Bugatti Type 37A.

Carbon-fiber body and chassis.

Special lightweight 20-inch wheels.

Specially designed Michelin tires for 250 mph. They cost about \$10,000 a set.

Seven-speed paddle-shift gearbox.

Imagine two V8 engines side by side, angled toward each other to share one crankshaft.

1,200-horsepower engine gets its "16.4" designation from 16 cylinders and four turbochargers.

BUGATTI VEYRON GRAND SPORT

VITESSE

TOP SPEED: 255 MPH
IT'S THE FASTEST AND QUICKEST ROADSTER ON EARTH

VEYRON FAMILY

COUPES
 Veyron: 1,001 hp
 Super Sport: 1,200 hp

ROADSTERS
 Grand Sport: roadster, 1,001 hp
 Grand Sport Vitesse: roadster, 1,200 hp

All-wheel-drive, of course.

AUTO ALMANAC

DRAWING BOARD

Mini 5-door: For the 2015 model year, the Mini Cooper will be available in two- and four-door models. To accommodate the extra portals, BMW's Mini team stretched the distance between the front and rear wheels by three inches and increased overall length by 6.3 inches. The 5-door will use the same turbocharged three- and four-cylinder engines as the two-door version.

AUTO TRIVIA

• The contracted builder for the recent **Ford GT** supercar was none other than **Steve Saleen**, the man who created the **S7 supercar**.

• In 1980, Canadians **Gary Sowerby** and **Ken Langley** circumnavigated the world in just 77 days. The car they used for this unique adventure was a **Volvo 245 wagon**.

WHO AM I?

To guess his secret identity, read the following clues.

- 1) He was born in 1934, in Whitney, S.C.
- 2) He either won or finished second to Richard Petty in 63 stock-car races.
- 3) In 1999, Sports Illustrated named him "Driver of the Century."
- 4) Fans usually saw him driving "Blue Oval" stock cars with number 21 painted on the doors.
- 5) Because of his sly driving style, he earned the nickname Silver Fox.

STILL STUMPED?
Winston 500, Coca-Cola won the Daytona 500, only a few drivers to have **Pearson** and he's one of **David**. His name is **David**.

WHAT'S UP, AUTO DOC?

The Auto Doc is not a fan of gratuitous use of unnecessary technology in automobiles, however of the more useful and interesting ideas is the hands-free liftgate in several Ford products. Let's say that your arms are full of shopping bags and kids and dogs and a barbell set. All you have to do is replicate a kicking motion under the center of the bumper. As long as you have the key on you somewhere, the liftgate will open (and close when you unload) without using your hands. Wow. On the flip side, magnetic-ride shock absorbers found in the Audi R8 will cost close to \$5,000 plus labor to replace if they go bad. In fact, the Sleuth knows one R8 owner who has to replace two such shock absorbers on a car with just 23,000 miles on it. Would a set of conventional shocks be as good? Perhaps not quite, but they would likely cost less to replace and possibly last longer. Magnetic ride control, which uses varying amounts of electricity to control the viscosity of the "liquid metal" inside the shock absorbers, is actually not that uncommon and raises a question about such technology's cost/performance quotient.

Autofile

Acura ZDX: 2010-'14

HISTORY
The ZDX
was easily
the most au-

dacious automobile that Honda's upscale division had devised since the NSX sports car was unveiled more than 20 years ago. The ZDX began with a platform developed from Acura's highly successful MDX tall wagon. From there, the California design team shifted into overdrive in developing the radical shape. The roof itself is actually a continuous glass surface extending from the windshield to the farthest edge of the hatch opening. The ZDX's 3.7-liter V6 directed its 300 horsepower to all four wheels via a six-speed automatic transmission with paddle shifters. After four years, the ZDX was retired.

Variations

Dash layout

Rear vantage

ZDX cargo

THE GOOD STUFF

The ZDX was built to attract singles and empty-nest types who valued style over function. For normal driving, the all-wheel-drive's torque was split on a 30:70 front:rear, but it would automatically adjust up to 90:10 if the rear-wheels lost traction. In a turn, up to 100 percent of the rear torque could be shifted to the outside rear wheel to maximize cornering bite. The ZDX's storage area could be extended when the passenger seat and split-folding rear seat were folded flat.

HEADS UP!

The front doors were coupe-like long, which was intentional since they masked two smaller rear-seat openings with door handles that were cleverly camouflaged beside the rear-most roof pillar. The only problem was that access to the back seat was close to impossible for adults, who had to dive in headfirst to gain entry. Fortunately, a rearview camera was standard for the ZDX, which provided considerable assistance when backing up since the view out the rear window area and the liftgate class was severely limited. Unfortunately, the blind-spot warning system that informed drivers of cars approaching from the left- or right-hand lanes was optional. Overall, the ZDX was a tough sell when compared to the more practical MDX since they were similarly priced.

OVERALL

A truly sporty sport ute has its drawbacks and compromises and the ZDX was no exception. On the other hand, the comfortable driving position was up to snuff, the 300-horsepower V6 was an eager performer and the ride was solid and comfortable. In short, the ZDX provided nearly everything you would expect to find in a personal — some might say unusual — luxury car. And if that wasn't for you, a more practical alternative could be found in the mechanically similar, but much roomier MDX.

VITALS

Engine: 3.7-liter DOHC V6, (300 hp)
Transmission: Six-speed auto-

Layout: Front-engine, all-wheel-drive
Body: Four-door hatchback

By MALCOLM GUNN
WWW.WHEELBASEMEDIA.COM

The BMW X4 might not represent everything for everyone, but as a compromise between a hatchback and a wagon it delivers more space and all-weather functionality than you might think.

BMW's expansion plans are moving just as rapidly as those of its Audi and Mercedes-Benz rivals, with new models entering the pipeline on a seemingly monthly basis. The recently available 2015 X4 hatchback is part of that rapid growth.

Based on the 4 Series coupe platform, the X4 draws inspiration from the X6 that has been around since the 2008 model year. Both could best be described as tall sport utility passenger cars with sloping rooflines and large hatch openings instead of trunks. BMW prefers the term "Sport Activity Coupe," but with four passenger doors that description is technically inaccurate.

Compared to the X6, the scaled-down X4 is close to eight inches shorter, four inches narrower and lacks about five fewer inches between the front and rear wheels. It's also lighter by more than 650 pounds, which legitimizes the "sport" term to a degree.

The interior is certainly plenty sporty and luxurious enough in classy BMW fashion. The dash and wood-trimmed control panel are well laid-out, with BMW's console-mounted iDrive Controller directing most key functions, including climate, audio and communications. There's plenty of room for four passengers (five in a pinch) and fortunately the ceiling is high enough at the mid-point that only taller adults might notice any rear-seat headroom short fall.

Beyond people pampering, the X4's key attribute is stowage flexibility. With the rear seat occupied there's still several golf bags worth of room back there.

All models come with an eight-speed automatic transmission and the iDrive control knob that runs the various systems.

The layout is classy, although you might find the switchgear a bit on the small side. There's plenty of room for four people although five will fit in a pinch.

The sloped roof obviously limits cargo capacity, although the seats fold forward to hold longer items, even if they can't be that tall.

When more room is required, the 40:20:40 split-folding second-row bench increases the load space appreciably, although not quite to the extent that a comparably sized wagon — BMW's X3, for instance — can provide.

For engine choices, the X4 mirrors many other BMW mod-

What you should know 2015 BMW X4

Type	Four-door, all-wheel-drive hatchback sedan.
Engines (hp)	2.0-liter DOHC I4, turbocharged (240); 3.0-liter DOHC I6 turbocharged (300).
Transmissions	Eight-speed automatic.
Market position	BMW pioneered the part-sport ute, part hatchback X6 model and is adding to the niche with the similar X4 and upcoming X2. Mercedes-Benz is planning a similar models and other automakers will likely follow suit.
Points	• Copycat styling might actually cut into sales of larger X6. • Base four-cylinder turbo engine is pretty gutsy, six-cylinder even more so. • Practical, multi-configurable seating/cargo arrangement. • Limited rear visibility a drawback for some drivers. • Adding options won't come cheap, but sticking to the basics keeps it affordable.
Safety	Front airbags; side-impact airbags; side-curtain airbags; anti-lock brakes; traction control; stability control.

MPG (city/hwy): 21/38 (2.0, est.) **Base price (incl. destination):** \$45,600

BY COMPARISON

Range Rover Evoque	Porsche Cayenne	Cadillac SRX
Base price: \$41,500 Radical (for Land Rover) off-roader available in two- or four-door versions.	Base price: \$50,500 Classy sport ute comes in several performance levels, with prices to match.	Base price: \$38,500 Handsome tall wagon has plenty of standard content at an attractive price.

els. The base X4 xDrive28i has a turbocharged 2.0-liter four-cylinder that produces 240 horsepower and 260 pound-feet of torque. Move up to the xDrive35i and the 3.0-liter inline six-cylinder engine (also turbocharged) makes 300 horsepower and 300 pound-feet. Each engine is connected to an eight-speed automatic transmission with paddle shifters. BMW's testing indicates that the four-cylinder will scoot to 60 mph from rest in 6.0 seconds, while the six-cylinder handles it in 5.2.

As their respective nomenclatures imply, both the xDrive28i and xDrive35i are equipped with BMW all-wheel-drive that sends power to both axles as needed, but also shifts torque to the outside rear wheel when turning, which actually helps reduce understeer.

To maximize fuel efficiency, both models feature auto stop-start (shuts the engine off when the vehicle is stopped in traffic). The X4 comes with an ECO PRO mode that when selected reduces

the load on the various electrical systems (e.g. air conditioning) and shuts off the engine when coasting downhill.

Although official numbers have yet to be announced, you can expect the xDrive28i to ring in at about 21 mpg in the city and 28 on the highway.

Of course premium content abounds for both models, with features including a power moonroof and liftgate, eight-way power front seats, backup warning system, high-strength xenon headlights and rain-sensing wipers, all included as standard.

From there the option packages run the gamut and can ring up the final price tag considerably. Heading the list is the M Sport grouping that bundles together an aero body kit, plus fancier wheels and exterior/exterior trim, sport seats and a sport suspension.

Other packages add a navigation system, premium Harmon Kardon sound system, heated front and rear seats and other delights.

The BMW X4 could sorely tempt X6 fans that are lacking in funds. At a \$45,600 base price, it's \$16,000 cheaper than the bigger "X", but in obvious ways could be considered the bigger deal.

All models are all-wheel-drive and can overdrive the outside rear wheel when cornering. That helps the X4's stability by reducing understeer, which is a vehicle's natural tendency to continue in straight line while cornering.
