Propane Prices Got You Down? Yank the Tank!

Natural Gas will save you money!

- Dependability: Since the vast majority of the natural gas system is underground, it is not typically affected by inclement weather or other transportation problems. Always there when you need it.
- Monthly billing: No more large bills due when the tank is filled, you will receive a monthly bill.
- More economical: Operating cost for Natural gas equipment is substantially less than propane. Consider this:
- ▶ If you used 800 gallons of propane last year at \$1.50 per gallon, you spent **\$1200** for fuel alone.
- ▶ Using natural gas, your fuel cost for the same amount of energy would have been approximately \$519 on our heat only rate or only \$445 for year round use.

For more information on the availability of clean efficient NATURAL Gas please call or drop by today!
