It is not written in The Holy Bible what most so called Christian churches teach. Keeping the 1st day holy is by their mother church, but Julian Caesar, who created their solar calendar, was a pagan, Pope Gregory in 1582 adjusted it by 10 days. Inherence of heaven is only by assuming, Christ said the meek shall inherit the earth (Mt 5:5). Blessed are they that do His Commandments, that they may have right to the tree of life and may enter in through the gates into the city (Rev 22: 14). This city will be on earth, not in heaven (Rev 21: 1-8). Father Elohim sends a strong delusion to believe a lie (Gen 3:1-5, 1 Kings 22:20-23, Mt 4:1-11, 2Thess 2:10-12, Heb 12:5-8). So Be It!

The U.S. Food and Drug Administration has approved a new indication for the Integra Omnigraft Dermal Regeneration Matrix (Omnigraft) to treat certain diabetic foot ulcers. The matrix device, which is made of silicone, cow collagen, and shark cartilage, is placed over the ulcer and provides an environment for new skin and tissue to regenerate and heal the wound. An estimated 29 million people in the United States have been diagnosed with diabetes, according to the Centers for Disease Control and Prevention, and about 25 percent of them will experience a foot ulcer during their lifetime. Chronic diabetic foot ulcers are associated with tissue and bone infections and result in 50,000 amputations each year.

Advanced age is a powerful risk factor for thromboembolic stroke in patients with atrial fibrillation (AF). Oral anticoagulation reduces this risk by almost two-thirds in patients at risk. Traumatic intracranial bleeding, which is most commonly attributable to falls, is a common concern among health care professionals, who are hesitant to prescribe oral anticoagulants to older adults with AF. In a study published by JAMA Cardiology, researchers found that the rate of traumatic intracranial bleeding among older adults with AF initiating warfarin therapy was higher than previously reported in clinical trials.

A healthy intake of vitamin D in the first year of life appears to set children up to have more muscle mass and less body fat as toddlers, according to a new study published in the journal Pediatric Obesity.

Special Music by Josh Logan

Logan was diagnosed with autism at the age of 2. Although he cannot carry on a conversation with you, God has given him the gift of music. Record producer Ken Royster says "He's in his own world, but put a set of headphones on him, and put him in front of a microphone, and he is going to sing like a bird."

Everyone Welcome!

Josh Logan
