October is National Breast Cancer Awareness Month

October is National Breast Cancer Awareness Month, which is an annual campaign to increase awareness of the disease. While most people are aware of breast cancer, many forget to take the steps to have a plan to detect the disease in its early stages and encourage others to do the same. Create an Early Detection Plan and invite others to do the same.

BeyondTheShock.com is a free, comprehensive, online guide to understanding breast cancer. It is a resource for women who have been diagnosed with breast cancer, a place for loved ones to gain a better understanding of the disease, and a tool for doctors to share information.
