Auctioneer's Note: Mr. Rudell has collected many unique items over the years. Everything is very well taken care of. Many more collectibles in barns and boxes yet to be unpacked. Visit our website for auction pictures and updates. Auction will be held rain or shine. Be prepared for 2 auction rings. Tractors and equipment will sell at approx. 12:30. Your attendance at the Rudell auction is appreciated. **Terms of Sale:** Cash or MI check w/proper ID accepted. 3% buyer's premium added to payments made by credit card. All items to be settled for in full before removal from premises. Not responsible for accidents before, during or after auction. Everything sells as is, where is. Auctioneers act as selling agents only and assume no guarantees or liabilities. Announcements made day of sale take precedence over printed matter. Lunch on grounds.

How does your life sound?

We put the giggle, the sizzle, the rock and the roll back into your life.

You set your favorite listening environments and GENIUS™ does the rest!

If your life doesn't sound this good - it could! With the new Miracle Ear GENIUS™ 2.0 technology you can gain up to 25% BETTER SPEECH RECOGNITION in challenging listening environments than people with normal hearing, and with the GENIUS™ Control App your hearing is in your control with just the touch of a button! Better hearing is at your fingertips - in every environment YOU CHOOSE! Simply download the free app and set it to YOUR preferred listening environments – the technology does the rest!

Come in for a Free Demonstration and Experience GENIUS™ for Yourself!

*Hearing aids do not restore natural hearing ability. Individual experiences vary depending on severity of hearing loss, accuracy of evaluation, proper fit and ability to adapt to amplification. *See your Miracle Ear representative for complete details. Studies conducted at the University of Northern Colorado (2014) and Oldenburg Horzentrum (2013) showed that Speech Reception Thresholds (SRT) in cocktail-party situations improved up to 2.9 dB for wearers with mild to moderate hearing loss using GENIUS with Directional Focus, compared to people with normal hearing. This corresponds to over 25% improvement in speech understanding.

- Helps reduce tossing and turning**
ComfortRight™ Layers
This advanced system of foams and fluffy fibers is designed to provide instant comfort. This helps reduce the pressure points that can cause tossing and turning so you can sleep more comfortably through the night.
- Minimize impact from partner movement**
TrueSense® Design
Serta's exclusive design helps minimize the impact of partner movements, working to isolate motion at its source so you can enjoy a peaceful night's sleep with fewer disruptions.
- Encourages proper back support & alignment**
Custom Support® System
Every Perfect Sleeper features a system of durable, yet flexible carbon steel coils that work to promote proper support and alignment across the entire body.
- Resists sagging & edge roll-off**
ComfortLast® Construction
Designed to enhance durability of the mattress and is thoroughly tested beyond industry standards to make sure it can resist sagging and edge roll-off. This enhanced durability can help extend the comfort life of your mattress.
- Promotes a balanced sleep temperature**
CoolBalance® Technology
A unique combination of high-performance heat and moisture-regulating fabric and an overall mattress design that helps promote airflow. Together, these help provide a comfortable, balanced sleep temperature.

The Straight Scoop: Digital Hearing Aids Can Significantly Improve Your Quality of Life

The Surgeon General recommends everyone over the age of fifty have their hearing checked at least once a year.

Hearing loss makes life increasingly difficult to interact with friends and loved ones and not just for the person with the loss but many times even more frustrating for the people that are trying to communicate with you. They have to repeat themselves, raise their voices, or take the time to get in front of the hard of hearing person so they can read lips. Yes it's stressful on all concerned.

Vanity and denial - are these the reasons you're not helping yourself hear better? Think of your loved ones and friends. Is it fair to them or you?

If the brain has difficulty understanding speech or you get words confused, please come

in and get your hearing checked. The longer you wait, the more time you will spend not understanding their message. Help the folks you communicate with by helping yourself with hearing treatments that can significantly improve the quality of life.

It is estimated that partial hearing loss strikes one out of three adults over the age of fifty. A hearing loss usually comes on so gradually, most people are not aware of it happening. It is silent and painless, gradually stealing away your ability to hear the soft sounds of speech clearly. Early detection and correction are essential in avoiding speech deprivation now and in later years.

Michael Long has served this community in hearing health care since 1986, providing the highest professional standards in dispensing

premium hearing systems and services. His utmost concern is making people hear and seeing them smile.

It's not just your hearing that's affected when you don't hear well, but your whole way of life. Hearing helps people and families to get close again - puts happiness back in their marriages - lifts people up from depression - recreates friendships - gets people out of their homes and back into the flow of living - makes people feel younger, which improves their outlook, which improves their health and most importantly, no more embarrassment!

You'll be surprised to learn that digital hearing aids are very affordable today and are available in a variety of styles and sizes.

Digital hearing aids provide effective solutions to complaints commonly associated

with analog products: feedback, background noise and low-fidelity sound processing.

The newest digital chip performs millions of calculations per second based on the algorithm's hearing correction code. The Advanced Digital Algorithm provides:

- Automatic Feedback Suppression
- Adaptive Noise Management
- Digital Directional Technology
- High Fidelity Digital Sound
- Extended Battery Life

If you or a loved one suspect an untreated hearing loss, you should contact your local hearing professional.

Come in - don't put this off any longer! Hear your loved ones and the sounds of the world!

0% Interest! JUST 1/2 DOWN and LOW Monthly Payments WITH NO INTEREST!

Top five myths about hearing loss

1) Hearing loss only affects the elderly. Hearing loss can affect anyone, not just the elderly.

2) My primary physician will tell me if my hearing is failing.

Since your general practitioner is only so well-versed in specific areas of the body, you should have your hearing checked routinely by a HIS, just as you have your vision checked or your teeth cleaned.

3) I notice a difference in one ear, but the other is fine so I'm ok.

If the hearing in one ear starts to fade, your brain will adapt to the changes, at least up to a certain point. Your hearing loss could be well-advanced before you even notice a difference. A regular hearing test can help track your hearing capability.

4) Hearing aids will restore my hearing to normal levels.

The one thing hearing aids CAN'T do; however, is restore your hearing to "normal." As much as we've learned about how our sense of hearing works, there is no man-made device that can completely replicate human hearing. The good news? Hearing aids can significantly improve your ability to hear well, which leads to enhanced communication with family, friends and co-workers.

5) My hearing loss cannot be helped.

Many forms of hearing loss can indeed be improved, whether it be by hearing aids, surgery, medication or a simple ear wax removal procedure. You'll never know if you never ask. The first step is to find a hearing healthcare professional you can trust.

Starkey's tinnitus treatment solutions

HEAR What Our Customers Say!

One of the best decisions that I have made in a long time was when I decided to open the door at Long's Hearing Care in Cadillac Michigan.

I went in for a hearing test. I was treated with respect from the second that walked in the door. Melissa met me at the front counter and took care of my needs in a very professional manner. I was tested and diagnosed for hearing aids. I was then fitted and when I returned back in 3 days my hearing life was changed. I now don't have to ask people to repeat what they said or have to guess an answer to a question that I really didn't even hear. Today I hear everything loud and clear. Life has completely changed for me. Thank you to Melissa and Mike at Long's Hearing Care!!

Bob McKenzie, Grand Rapids Michigan
